

Program Curriculum Map
2012-13

Program: Journalism						
Program Student Learning Goals	Write competently on a professional level (i.e., write clear, concise, grammatically correct stories).	Gather information through the use of traditional and digital media, and then write and/or produce accurate news stories on deadline.	Use relevant technologies to create and distribute journalistic work across multiple media platforms.	Behave professionally and operate effectively in a professional environment.	Demonstrate understanding of the historical significance and practical implications of mass communications.	*Foundation Course
