The College is chartered by the Regents of The University of the State of New York under its corporate name, Utica College, and also is mentioned in Syracuse University’s charter. Utica College is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools, 3624 Market Street, Philadelphia, PA 19104-2680, (215) 662-5606. The Commission on Higher Education is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Commission on Recognition of Postsecondary Accreditation. Copies of accreditation reports are on file in the offices of the president and the provost and vice president for academic affairs.

NON-DISCRIMINATION POLICY

Utica College is an equal opportunity, affirmative action institution, and accepts students and employs individuals without regard to race, creed, color, sex, pregnancy, ethnic or national origin, religion, marital status, age, sexual orientation, veteran status, disability, citizenship status, genetic predisposition, domestic violence victim status, or protected status under applicable local, state, or federal law. This nondiscrimination policy covers admissions, employment, and access to and treatment in Utica College programs, services, and activities.

The 504 ADA Compliance Officer for Utica College is R. Barry White, Vice President for Financial Affairs (315-792-3011).

Utica College has designated the Director of Human Resources in the Office of Human Resources (315-792-3276) as the individual responsible for inquiries, complaints, and coordination of compliance under the Americans with Disabilities Act of 1990 (as amended) and Title IX of the Education Amendments of 1972 on behalf of employees.

Utica College has designated the Director of Learning Services in the Office of Learning Services (315-792-3032) as the individual responsible for inquiries, complaints, and coordination of compliance under the Americans with Disabilities Act of 1990 (as amended) and Section 504 of the Rehabilitation Act of 1973 on behalf of students.

Utica College has designated the Dean of Students in the Office of Student Affairs (315-792-3100) as the individual responsible for inquiries, complaints, and coordination of compliance under Title IX of the Education Amendments of 1972 on behalf of students.

Utica College has designated a Military/Veterans Liaison individual who directs the College’s efforts to comply with the applicable law and regulations on behalf of veterans. This individual is currently the Director of Graduate Online and Non-traditional Programs (315-792-3001).

Published by the Office of Marketing and Communications in cooperation with academic and administrative departments at Utica College, 1600 Burrstone Road, Utica, NY 13502-4892, (315) 792-3111. Visit UC at www.utica.edu.
Academic Calendar

FALL 2011

Orientation Begins Friday, August 26
Convocation Monday, August 29
Classes Start Tuesday, August 30
Last Day to Add/Drop Wednesday, September 7
Autumn Break Monday, October 10
Homecoming/Family Weekend October 14-16
Mid-Term Friday, October 21
Deadline for WD/PF Friday, November 4
Spring Registration Begins Monday, November 14
Thanksgiving Recess November 23-25
Last Day of Classes Monday, December 12
Study Day December 14-19
Final Exams

WINTER SESSION 2012

Classes Start Monday, January 2
Classes End Friday, January 13

SPRING 2012

Classes Start Thursday, January 19
Last Day to Add/Drop Wednesday, January 25
Mid-Term Friday, March 9
Spring Break March 12-16
Deadline for WD/PF Friday, March 30
Fall Registration Opens Monday, April 9
Last Day of Classes Wednesday, May 2

MISSION STATEMENT

Utica College educates students for rewarding careers, responsible citizenship, and fulfilling lives by integrating liberal and professional study, by creating a community of learners with diverse experiences and perspectives, by balancing its local heritage with a global perspective, by encouraging lifelong learning, and by promoting scholarship in the belief that the discovery and application of knowledge enrich teaching and learning.

VALUES

The Utica College community values:
- individual attention for our students
- lifelong learning
- pragmatic approaches to teaching and learning
- continual improvement in our educational and operational quality
- diversity of perspective, background, and experience in an increasingly global society
- community and professional service
- ethical behavior and integrity in all that we do
- freedom of expression and the open sharing of ideas and creativity
- open, honest, and collegial communication
- the well being of others

UTICA COLLEGE IN BRIEF

Utica College is a comprehensive college that offers the wide range of undergraduate and graduate programs and diversity of a large university while at the same time providing students with the low faculty-to-student ratio and individual attention of a small college. A combination of liberal arts and professional studies gives students opportunities to gain broad-based exposure to major areas of knowledge while at the same time developing career-specific skills designed to ensure success in the workforce.

Utica College’s origins reach back to the 1930s, when Syracuse University first offered extension courses in the Utica area. Seeing a need for a college in the Mohawk Valley, area business and community leaders urged Syracuse University to open such an institution. As a result, Syracuse University established Utica College in 1946. Today Utica College is financially and legally independent from Syracuse University.

Utica College’s undergraduate programs fall within three schools: arts and sciences; health professions and education; business and justice studies. Within these three schools are 37 undergraduate majors, 27 minors, and a number of pre-professional and special programs. Utica College also offers programs in teacher education that lead to certification. Hallmarks of the undergraduate experience include a strong emphasis on internships, co-ops, and other experiential learning, and opportunities for students to conduct original research or to assist professors with their research.

Utica College also offers 22 cutting-edge graduate degree and certificate programs that prepare professionals to meet current and future challenges posed by the increasing complexity of a global society; professional development programs and conferences for adults seeking continuing professional education and enhanced job performance; custom-designed corporate training programs for business and industry; and conference services and event management for business, professional, and community groups.

Utica College is considered a student-centered teaching college, and although faculty are recognized as experts in their field they are best known for the close, personal attention they give to their students.

In Fall 2010, 2,678 undergraduate students (2,141 full-time and 537 part-time) and 917 graduate students (206 full-time and 711 part-time) attended Utica College. The student body represents a wide variety of socio-economic backgrounds.
and cultural backgrounds, and includes non-traditional students, veterans, and students with disabilities. Non-traditional students are particularly well-served by Utica College. The Office of Online and Extended Studies offers a diverse program of late afternoon, evening, weekend, and distance learning courses for both credit and non-credit study.

While slightly more than one third of the student body is from Utica and other Mohawk Valley communities, a majority of students come from throughout New York, New England, and the Middle Atlantic States. Still others come from other parts of the United States or from other countries.

Utica College offers an impressive array of opportunities for students to become involved in governance, cocurricular activities, and community service. Utica College was one of the first institutions in the nation to meet the challenge of full student participation in campus government. Students, faculty, and staff voluntarily organized a College Council that gave each group a representative voice in the governance of all College affairs, a tradition that remains alive through the All-College Forum. Other governing bodies include the Faculty Senate, SCT Council, Administrative Staff Advisory Council, Student Senate, and Inter-Greek Council.

Opportunities also abound for students to help organize, participate in, or attend cultural, recreational, and athletic events. Students may choose from academic and career-related clubs; political and/or social consciousness-related clubs; cultural organizations; recreational clubs; service organizations; fraternities and sororities; intramurals; and Division III athletics. Or, they may choose to help define the campus’ cultural experiences by serving on the Social Cultural Committee or the Student Programming Board. Cocurricular activities are constantly increasing, and are limited only by students’ imaginations.

Rounding out these academic and cultural offerings are opportunities to study abroad. Students may participate in Utica College programs at the University of Aberystwyth in Wales; Kansai Gaidai University in Japan; Abo Akademi University in Finland; American College Dublin in Ireland; Jagiellonian University in Poland; ELTE University in Hungary; Dong-eui University in South Korea; Universidad Peruana de Ciencias Aplicadas in Peru; University of Strathclyde in Scotland; or the countries of the former Soviet Union through the American Council of Teachers of Russian. Students can also participate in Syracuse University’s Semester Abroad programs in locales such as France, Italy, Spain, England, China, or Hong Kong, to name just a few.

Academic excellence, dedicated faculty, a belief in educating students for both personal and professional success, and a commitment to lifelong learning; these are the values that make Utica College an exceptional “small university.”

According to figures from the New York State Education Department (Higher Education Data System), of the 484 freshman who began their studies at Utica College in the fall of 2004, 228, or 47.1 percent, remained at the College until they earned their baccalaureate degree.

Of the 217 transfer students in the lower and upper divisions who started in the fall of 2004, 145, or 66.8 percent, earned their degrees.
THE CAMPUS

Visitors to the Utica College campus will notice its large grassy lawns, open fields, walkways lined with trees and flowerbeds, outdoor pieces of sculpture, and easy access to local amenities and attractions. Situated in a predominantly residential section of west Utica, Utica College is on the corner of Burrstone Road and Champlin Avenue. The 128-acre campus is directly across Champlin Avenue from the St. Luke's campus of Faxton-St. Luke's Healthcare, within walking distance of a small commercial area, and on major city bus lines.

The social and recreational center of the Utica College campus is the Ralph F. Strebel Student Center, home to the Ellen Knower Clarke Lounge; Strebel Auditorium; the Pioneer Café, which features a Subway restaurant; a 24-hour computer lab; the Office of Student Activities; and the Strebel Service Center, which provides students with faxing, photocopying, poster-making, and other services. Strebel is also home to the campus bookstore, which is operated by Barnes and Noble College Division and which offers textbooks, Utica College clothing and souvenirs, school and residence hall supplies, and snacks.

Located upstairs are the Dining Commons and the office of the dean of students, Career Services, and Campus Safety and the College’s health center. Also located in Strebel are the WPNR radio station studios, and offices and meeting rooms for student organizations.

Five interconnected buildings house the majority of Utica College’s academic classes:

**Moses Gilbert Hubbard Hall** contains classrooms, including several that are permanently equipped with state-of-the-art instructional technology; seminar rooms; computer lab facilities; the Academic Support Services Center; the Office of Student Financial Services; and the Office of Opportunity Programs.

**Addison Miller White Hall** houses student services offices such as Admissions and the Registrar. Also housed in Addison Miller White Hall are offices for the School of Health Professions and Education, the Office of International Education, and the Office of Graduate Studies, as well as a number of faculty offices.

**Isaac Gordon Science Center** houses Donahue Auditorium, which is permanently equipped with state-of-the-art instructional technology, and specially equipped science lecture halls and laboratories for biochemistry, biology, microbiology, embryology, anatomy and physiology, botany, geology, chemistry, physics, and psychology. A small snack bar, Le Bistro, is also located in Gordon Science Center, as are offices for the School of Arts and Sciences.

The **Faculty Center** houses four classrooms, 15 faculty offices, and the **Professor Raymond Simon Convergence Media Center**. All four classrooms are permanently equipped with state-of-the-art instructional technology. One classroom has video conferencing capability.

**F. Eugene Romano Hall** houses state-of-the-art classroom, laboratory, and clinical space for physical therapy, occupational therapy, nursing, therapeutic recreation, and health studies.

The **Economic Crime, Justice Studies, and Cybersecurity Building** provides specialized laboratories and research technologies for UC’s economic crime, cybersecurity, criminal justice, and fraud prevention programs. It also houses the college’s Economic Crime Institute (ECI) and its Center for Identity Management and Information Protection (CIMIP), as well as the Carbone Family Auditorium and Petralia Lounge and Terrace.

The **Frank E. Gannett Memorial Library** provides a physical and virtual (www.utica.edu/library) focal point for learning, teaching, and research. The Utica College identification card serves as a library card and is required for many library services.

The Gannett Library’s physical collection of more than 184,500 books and print serials are supplemented by several thousand electronic journal subscriptions and approximately 100 research databases that are Internet-accessible, allowing students and faculty to conduct scholarly research from anywhere on or off campus. As well, the library provides online research tutorials and citation style guides. Computer workstations and laptops, networked print stations, photocopiers, a flatbed scanner, and microform readers are available in the library. Group study rooms are outfitted with computers and large screen monitors. The Listening Lab has individual audio cassette/CD and video cassette/DVD players.

The Gannett Library offers personalized walk-up reference service 65 hours per week. Students can get research help by contacting a librarian by e-mail or phone or by completing a web form. Students can request in-depth assistance by scheduling a research appointment. Appointments can be requested by phone for commuter and distance students. Additionally, the library offers 24/7 virtual reference service, staffed by librarians at Utica College and around the world, whereby reference questions are answered via real-time chat. Librarians are also in the classroom, conducting nearly 100 customized library instruction classes each year.

Interlibrary loan plays a key role in expanding access to library collections throughout the state, across the country, and internationally. Through this no-charge service Utica College’s library users access from other libraries research items not available at Utica College in full text or in print. In turn, Utica College’s library is able to share its collection with others.

The Gannett Library’s Special Collections, housed in the Jocelyn Romano Candido Rare Book Room, features, among other material, the Harry F. Jackson Welsh Collection. This is the largest collection of 19th and early 20th century Welsh-language literature in the United States. Welsh scholars regularly visit the Gannett Library to research this collection, most of which was printed by Welsh settlers living within a 30-mile radius of Utica. Much of this material has been microfilmed for preservation.
In 1998, the Gannett Library was bequeathed the papers and working library of Walter D. Edmonds, noted author of Drums Along the Mohawk. Edmonds’ personal library and his papers are held in the Walter D. Edmonds room on the second floor of the Gannett Library. The library is also home to the Henry DiSpirito Sculpture Collection and the Child Life Council Archives.

The Gannett Library is open 99 hours per week during the academic year when classes are in session.

- Monday - Thursday: 8 a.m. - Midnight
- Friday: 8 a.m. - 10 p.m.
- Saturday: 10 a.m. - 7 p.m.
- Sunday: Noon - Midnight

Changes in hours for holidays, summer session, winter session and final exams will be posted on the library Web site.

For more information about the Gannett Library’s resources and services, visit www.utica.edu/library or e-mail to library@utica.edu.

Located elsewhere in the Library facility are offices for Integrated Information Technology Services, including:

- The Media Center provides audiovisual support to the faculty and students in the classrooms, as well as to a wide variety of special events. The Center houses the video collection (VHS, DVD, and audio recordings) that are used in classes
- Computer User Services, including the Computer Help Desk. These offices provide assistance with computer-related questions and problems
- Four computer laboratories for classroom and open use
- Music classrooms

Rocco F. DePerno Hall, located directly across from the Library, houses the offices of the president, the provost and vice president for academic affairs, the senior vice president and chief advancement officer, and other college executives. Also located in DePerno are Macfarlane Auditorium, which is permanently equipped with state-of-the-art instructional technology, offices for the School of Business and Justice Studies, and a number of faculty offices.

Connecting the Library to DePerno Hall is the Library Concourse, a large informal hall surrounding the Maria C. Romano Memorial Garden. This unique area provides a venue for musical recitals, poetry and fiction readings, and receptions, and is always open for the free use of students and faculty for conversations, study, and informal class sessions. Also located in the Library Concourse is the Edith Langley Barrett Fine Art Gallery, which hosts exhibits in a variety of media throughout the academic year.

Directly above the Concourse, between the Library and DePerno Hall, is the Michael A. Romano Plaza.

The Harold Thomas Clark Jr. Athletic Center includes a gymnasium; a 10-lane, 25 yard by six-lane 25 meter pool; an all-purpose room for activities and classes; the Gary M. Kunath Fitness Center; an athletic training room; golf and batting cages; physical education and athletic staff offices; and equipment and locker rooms. The locker rooms are equipped with showers, lockers, team rooms, and a sauna.

The gym can accommodate two full intramural basketball courts, one main basketball court, and six volleyball courts. The gym also features a press balcony, and bleachers seating 2,200 people. A dividing door allows two events to take place simultaneously.

The swimming pool, one of the largest in the Northeast, has a one-meter diving board, a Colorado eight-lane timing system with a nine-line Colorado scoreboard, and a balcony with seating for 250 spectators.

The all-purpose room has full-length mirrors, equipment for step aerobics, and space for Tae Bo and aerobics.

The Clark Athletic Center also features two enclosed racquetball courts with large viewing windows for spectators.

The Harold T. Clark Sr. Team Facility includes additional locker rooms, a training room, laundry facilities, and an all-purpose room for classes and meetings.

Just behind the Clark Athletic Center is an outdoor sports complex that includes the Charles A. Gaetano Stadium, a lighted stadium with synthetic turf designed for football, lacrosse, field hockey, intramural sports, and soccer. Nearby are a soccer field, baseball field, softball field, lacrosse field, and four tennis courts.

The Utica College men’s and women’s hockey teams play home games at the Utica Memorial Auditorium. Located in downtown Utica, just minutes from campus, the "Aud" features seating capacity for more than 4,000 fans. Located within the Aud is the College’s own annex with locker rooms, storage, and a training room.

South and North Halls, two of the College’s residence facilities, are each three-story structures. A variety of living styles are offered in these traditional residence halls, including single, and double occupancy rooms on single sex or coed floors. All floors are smoke-free. Each hall has its own lounge, television and recreation rooms, and kitchen facilities. New students make up the majority of residents in these two halls. The Office of Residence Life is located in North Hall. Special programs designed to ease the transition to college are offered to students in North and South Halls. Free hook-up for cable television and phone service also are provided in each room in these halls. All rooms in both complexes are hardwired to have College network access, including Internet capabilities.

Alumni Hall, a residence facility for upperclass students, contains 16 garden-style suites. Each unit includes a living room, kitchenette, bathroom, and dining area. There also are suites specially designed to accommodate the physically challenged. Free hook-up for cable television and phone service are provided in each apartment. College network access, including Internet capabilities, is offered in the suite bedrooms and living rooms.

Burrstone House is located across Champlain Avenue from the main campus. Formerly a hotel, Burrstone offers 75 rooms for residential students. Large rooms usually house two students and are equipped with private bathrooms,
free hook-up for cable television and phone service, air-conditioning, and other personal amenities. Burrsstone rooms have both wired and wireless College network access, including Internet capabilities. The majority of students living in Burrsstone are upperclass students in double rooms.

**Sherwood Boehlert Hall and Conference Center** features suite-style living with either double or single accommodations for 150 students. The majority of residents are returning students in this state-of-the-art facility. Free hook-up for cable television and phone service, and College network access, including Internet capabilities, are provided in each room. Other amenities, such as air conditioning, an elevator, a kitchen on each floor, and several large lounges, are also provided. Sherwood Boehlert Hall and Conference Center also features a conference room that is available for campus as well as community meetings and events. The conference room opens up to the **Edward and Jean Duffy Plaza**.

**Tower Hall** features cluster-style living with either double or single accommodations for 69 students. The majority of residents are returning students in this state-of-the-art facility. Free hook-up for cable television and phone service, and College network access, including Internet capabilities, are provided in each room. Other amenities, such as air conditioning, an elevator, laundry facilities, a kitchen on each floor, and several large lounges are also provided.

**Bell Hall** features cluster-style living with either double or single accommodations for 113 staff and students. The majority of residents are returning students in this state-of-the-art facility. Free hook-up for cable television and phone service, and College network access, including Internet capabilities, are provided in each room. Other amenities, such as air conditioning, an elevator, a kitchen on each floor, three laundry rooms, and several large lounges are also provided.

The **Newman Community Center** is adjacent to Alumni Hall and serves as the locus for Catholic worship services and programs that are open to all. The Newman Community hosts programs in the areas of academic, personal, and spiritual growth; these are open to all as well. In the center are a meditation chapel, library, the Newman chaplain’s office, and assembly and meeting space, which is available for scheduling. Mass is celebrated on Saturdays at 5:00 p.m. and on Sundays at 10:30 a.m. and 4:30 p.m.

**Champlin House**, located across the street from the main campus on Champlin Avenue, is home to the Office of Advancement, which includes Alumni and Parent Relations, Development, and Marketing and Communications.

**Computer Facilities**

Utica College provides 15 academic computer labs located in Hubbard Hall, Gordon Science Center, the lower level of the Frank E. Gannett Memorial Library, Strebel Student Center, Faculty Center, and the Economic Crime, Justice Studies, and Cybersecurity Building, as well as mobile labs. These labs contain a combination of Microsoft Windows 7 and Mac OSX computers.

Classes are taught in all labs except for the main floor of the Library, Library 108 and Strebel Student Center, and all are accessible, during published hours, to any UC student with a valid UC ID. All computers are equipped with a variety of software including Microsoft Office and are connected to the Internet and to laser printers. Please note that students have a starting printing quota of 1,000 pages. There are 40 multimedia enhanced classroom spaces at Utica College, including auditoriums, classrooms, and conference rooms, as well as mobile projector carts.

Utica College is a wireless campus for both Macintosh and Microsoft Windows computers. Online registration is required for students to use personal machines on the Utica College network. Use of any of the College’s computing facilities must be in accordance with Utica College’s policies, federal and state laws, and the Utica College Student Code of Ethics.

**PARKING**

More than 1,500 parking spaces are available for students, faculty, staff, and visitors. For more information about building and parking lot locations, please refer to the Utica College campus map, located on the last page of this catalog.

**Facilities for Students with Physical Disabilities**

The campus has been modified to help accommodate students with physical disabilities. Automatic doors have been installed in Strebel Student Center, Clark Athletic Center, Frank E. Gannett Memorial Library, and classroom buildings. Elevators have been installed in Strebel, Hubbard Hall, the Library, Romano Hall, the Economic Crime, Justice Studies, and Cybersecurity Building, and the Clark Athletic Center. Elevators may also be found in the following residence halls: Bell Hall, Boehlert Hall, Burrsstone House, and Tower Hall. Emergency phones are located throughout the campus for safety purposes.

A variety of accommodations exist in the residence units for students with physical disabilities. For assistance, contact the director of residence life at (315) 792-3285. The College is committed to making the pursuit of education accessible for students with physical disabilities. For assistance, contact the director of learning services at (315) 792-3032.

**NOTE:** All business offices operate on an 8:30 a.m. to 5:00 p.m. schedule during the academic year, with special hours during Winter and Summer Sessions. Student-use facilities operate on day and night schedules, which are shown in the Student Handbook. Any variation or change to posted hours of operation are communicated via the _Day Sheet_, a student information newsletter that is distributed throughout the campus.
THE COMMUNITY

One of the largest cities in the Mohawk Valley, Utica is the socioeconomic hub of the greater Utica-Rome metropolitan area (estimated population: 300,000), an area that supports industries such as technology, manufacturing, health care, education, insurance, tourism, finance, and retail. Located 90 miles west of Albany, 50 miles east of Syracuse, and 30 miles south of the Adirondacks, Utica is in the heart of one of New York state’s most scenic, historic, and culturally rich areas.

Social, cultural, and recreational opportunities start on the Utica College campus, where students, faculty, and staff can enjoy a wide variety of musical and theatrical performances, poetry readings, art exhibits, and other events. Throughout the academic year, Utica College hosts concerts by local acts as well as nationally recognized performers who play a variety of music, including rock, hip hop, gospel, classical, blues, jazz, and folk. Students are also welcome to attend concerts, plays, and other cultural events at nearby colleges and universities.

The city of Utica and its surrounding communities offer a wealth of cultural assets, including the prestigious Munson-Williams-Proctor Arts Institute and its School of Art, which is affiliated with Pratt Institute; the Stanley Performing Arts Center; the Oneida County Historical Society; the Children’s Museum; the Utica Zoo; the National Distance Running Hall of Fame; F.X. Matt Brewery; the Kirkland Art Center; the Rome Art & Community Center; and the Utica Memorial Auditorium. Local residents can enjoy performances by the Utica Symphony; the Broadway Theatre League; the Great Artists Series; and the Mohawk Valley Ballet company. Live acts ranging from Kanye West to Itzhak Perlman have visited Utica, as have entertainers specializing in blues, jazz, rock, Cajun, classical, folk, classical ballet, modern dance, opera, and Broadway theatre. There are, in addition, a wide variety of area libraries, art galleries, and cultural programs from which to choose.

Just a short distance away from Utica are the Landmark Theatre, Burnet Park Zoo, Everson Museum, and Milton J. Rubenstein Museum of Science and
Safe, clean, and scenic, yet offering the advantages of larger metropolitan areas, the Mohawk Valley is a great place to call home.
undergraduate courses and professional development programs for both credit and non-credit study.

The College has articulation agreements with area community colleges to afford graduates of those colleges a smooth transition into baccalaureate programs and completion in two years of additional study.

In addition, Utica College has partnered with neighboring academic institutions to form the Mohawk Valley College Consortium. Utica College and member institutions Hamilton College, SUNY Institute of Technology, Herkimer County Community College, Mohawk Valley Community College, SUNY Morrisville, and SUNY Empire State College have signed a cross-registration agreement that allows full-time students and employees at each of the institutions to take one course per semester at any of the other area schools. Students should check with the Office of the Registrar for specific requirements.

Utica College recognizes both exceptional ability and competency achieved through work experience, personal study, the armed forces, vocational and correspondence training, and other non-traditional forms of learning. As a result of this philosophy, Utica College offers a three-year study option for students who can demonstrate advanced standing, and affords opportunities to earn credits for experience and competence acquired outside formal academic institutions.

The College provides opportunities for financially and academically disadvantaged students to obtain higher education by participation in the New York State Higher Education Opportunity Program. HEOP offers students personal counseling and academic advising, financial assistance, special tutoring, and remedial education programs.

The Collegiate Science and Technology Entry Program (CSTEP) provides academic support for underrepresented minority and/or economically disadvantaged students who have an interest in careers in scientific, technical, and health-related fields.

The College offers a Cooperative Education Program that provides full- and part-time work experience related to academic programs. Students gain on-the-job experience and earnings to assist with college expenses by participating in this program.

Utica College’s programs are designed to give all students a sound basis in liberal arts and sciences. Students may choose a specific major at the time of entry or remain undecided for two years while they explore a variety of majors. Once a major is chosen, students may change majors if interests change after entering college. Changing majors, however, may necessitate additional time to complete the degree, depending upon requirements of the new major.

Students will complete courses in three basic areas that apply to all programs: (1) general education; (2) major and major-related program requirements; and (3) electives. These three basic areas are explained in more detail on the following pages. Students must fulfill all requirements of each of these areas to be eligible for graduation.

### Academic Requirements

#### General Education Core (31-55 credits)

The program seeks to provide students with educational experiences that will develop their ability to think clearly and critically, to express themselves accurately, and to become aware of the rich and varied areas of knowledge. Concepts introduced in the General Education Core will be reinforced and developed through each student’s chosen course of study.

The faculty has identified 10 goals of the General Education program. These goals will be introduced at a foundational level in the General Education Core but are intended to be reinforced and assessed throughout the curriculum. Three of the goals will be addressed specifically in major and major-related course work.

The following list outlines the academic groups from which students may select courses to fulfill the requirements, and the numbers of all courses that have been approved as General Education Core courses. For descriptions of each of these courses, see the “Course of Instruction” section of this catalog. Some General Education Core courses satisfy major and major-related courses or prerequisites for those courses.

#### Component One: Foundations of Understanding (0-24 credit hours)

1. **Written Communication**

   Goal 1: Students will demonstrate the ability to write logically, clearly, precisely, and persuasively through accurate reading and observation; and to acquire, organize, present, and document information and ideas.

   The following courses are intended to provide a foundational understanding of Goal 1:

   - ENG 101: Written Communication I
   - ENG 102: Written Communication II

   The following courses are intended to provide a foundational understanding of Goal 1:

   - ENG 103: Public Speaking
   - THE 136: Elements of Acting

   *Some students may be required to take ENG 100 in addition to General Education Core requirements.

2. **Oral Communication**

   Goal 2: Students will demonstrate the ability to speak logically, clearly, precisely, and persuasively through accurate reading and observation; and to acquire, organize, present, and document information and ideas.

   The following courses are intended to provide a foundational understanding of Goal 2:

   - COM 101: Interpersonal Communication
   - COM 103: Public Speaking
   - THE 136: Elements of Acting
or demonstrated competence leading to exemption. (See General Education Core Exemption Criteria in this section of the catalog.)

III. **Foreign Languages** 6 credits
**Goal 3:** Students will demonstrate competency in a language other than English and an appreciation of the culture of its native speakers.

The following courses are intended to provide a foundational understanding of Goal 3:
- Beginning Foreign Language I (101 level) 3 credits
- Beginning Foreign Language II (102 level) 3 credits
or demonstrated competence leading to exemption. (See General Education Core Exemption Criteria in this section of the catalog.)

IV. **Quantitative Reasoning** 6 credits*
**Goal 4:** Students will demonstrate proficiency in mathematics and an understanding of quantitative reasoning.

The following courses are intended to provide a foundational understanding of Goal 4. Students should select two of the following courses, at least one of which must have MAT as a prefix:
- ECN 241: Statistics** 3 credits
- MAT 104: Intermediate Algebra 3 credits
- MAT 107: Introduction to Mathematics 3 credits
- MAT 112: Basic Statistics** 3 credits
- MAT 131: Plane Trigonometry 3 credits
- MAT 143: Mathematical Analysis for Business and Economics I 3 credits
- MAT 151: Pre-Calculus 3 credits
- MAT 201: Calculus I 3 credits
- PSY/SOC 211: Statistics in the Behavioral Sciences** 3 credits
or demonstrated competence leading to exemption. (See General Education Core Exemption Criteria in this section of the catalog.)

*Some students may be required to take MAT 100 in addition to General Education Core requirements.
**Only one of these courses may be taken for credit.

V. **Computer Use** 1-3 credits
**Goal 5:** Students will demonstrate skill in using digital technology, such as computers and the Internet, to gather, analyze, and present information.

- CSC 117: Microcomputers and Application Software 3 credits
- CSC 118: The Internet: Information Retrieval and Organization 3 credits
or a course designated by the student’s major to be taken before the end of the sophomore year 1-3 credits
or demonstrated competence leading to exemption. (See General Education Core Exemption Criteria in this section of the catalog.)

Component Two: Understanding from Multiple Perspectives (25 credit hours)

VI. **Humanities** 9 credits
**Goal 6:** Students will demonstrate an understanding of literary and fine, visual, or performing arts and their cultural context by expressing an informed response to artistic creations.

One course from each of the following two categories will begin the development of those capabilities required to achieve Goal 6:

**Literature**
- ENG 135: Introduction to Literature 3 credits
- ENG 195: American Literature and Culture 3 credits
- ENG 245: Major Figures in English Literature: Through the 18th Century 3 credits
- ENG 246: Major Figures in English Literature: Since the 18th Century 3 credits
- LIT 205: Masterpieces of Western Literature: Through the Renaissance 3 credits
- LIT 206: Masterpieces of Western Literature: Since the Renaissance 3 credits

**Fine, Visual, and Performing Arts**
- FIA 115: Introduction to Art 3 credits
- FIA 245: History of Art I 3 credits
- FIA 246: History of Art II 3 credits
- MUS 115: Introduction to Music 3 credits
- MUS 245: History of Music I 3 credits
- MUS 246: History of Music II 3 credits
- THE 115: Introduction to Theatre 3 credits

**Goal 7:** Students will demonstrate the ability to develop a critical perspective, to analyze and evaluate arguments, and to use arguments to arrive at rationally justified belief.

One course in Philosophy/Semiotic Systems will begin the development of those capabilities required to achieve Goal 7:

- ENG 103: Introduction to the English Language 3 credits
- PHI 101: Critical Thinking 3 credits
- PHI 103: Problems in Philosophy 3 credits
- PHI 104: Philosophy of Religion 3 credits
- PHI 107: Ethics 3 credits
- PHI 108: Professional Ethics 3 credits
- PHI 205: History of Ancient Philosophy 3 credits
- PHI 206: History of Modern Philosophy 3 credits
VII. Natural Sciences ............................................. 7-8 credits

Goal 8: Students will demonstrate an understanding of the scientific method of inquiry and/or standard experimental techniques and knowledge of the natural sciences.

One course from two of the following categories (one course must be a four-credit laboratory course) will begin the development of those capabilities required to achieve Goal 8.

Biology
BIO 101 and 102: Human Anatomy and Physiology I & II* ........................................ 4 credits
BIO 111/111L: Human Ecology .................................................. 3 or 4 credits
BIO 112/PSY207: Human Sexuality .............................................. 3 credits
BIO 113: Human Genetics .......................................................... 3 credits
BIO 211: General Biology I .......................................................... 4 credits

*Both courses are required to receive General Education Core credit.

Chemistry
CHE 103: Chemistry and Society .................................................. 3 credits
CHE 211: General Chemistry I ..................................................... 4 credits

Environmental Science
ENV 201: Introduction to Environmental Issues ............................ 3 credits

Geology
GOL 105: Society, Earth, and the Environment ............................ 3 credits
GOL 115: Elementary Oceanography ........................................... 3 credits
GOL 225: Physical Geology ......................................................... 4 credits
GOL 226: Historical Geology ....................................................... 4 credits

History and Philosophy of Science and Technology
HPS 126: The Rise of Modern Science: Aristotle to Newton .................. 3 credits

Physics
PHY 116: Astronomy: A Study of the Universe ............................ 3 credits
PHY 123: Physics for Liberal Arts .................................................. 3 credits
PHY 151: General Physics I: Mechanics, Heat, and Waves ............ 4 credits
PHY 163: How Things Work ......................................................... 3 credits
PHY 261: Physics I ................................................................. 4 credits

VIII. Social Sciences ...................................................... 9 credits

Goal 9: Students will demonstrate an understanding of history and heritage; the individual, culture, and society; and social institutions and processes.

One course from each of the following categories will begin the development of those capabilities required to achieve Goal 9:

History and Heritage
ANT 251(D): Native American Culture and History .................. 3 credits
HIS 125: America and the World ............................................. 3 credits
HIS 135(D): Africa and the World ............................................. 3 credits
HIS 145(D): Asia and the World ............................................. 3 credits
HIS 165(D): Europe and the World ............................................. 3 credits

Social Institutions and Processes
ECN 141: Principles of Macroeconomics .................................. 3 credits
GOV 101: Introduction to Politics and American Government ....... 3 credits
IST 101(D): World Regional Geography ..................................... 3 credits

The Individual, Culture, and Society
ANT 101(D): Cultural Anthropology ........................................ 3 credits
PSY 101: Introduction to Psychology ......................................... 3 credits
SOC 151(D): Human Society .................................................... 3 credits

Goal 10: Students will develop an awareness of, and an appreciation for, the importance of interacting effectively with people of diverse backgrounds.

One course with a (Diversity) D designation will begin the development of this awareness. Courses with a (Diversity) D designation can be found in the Schedule of Classes.

Component Three: Integrated Writing (6 credits)

Six credits – two courses designated as writing intensive after a student has completed 27 credit hours.*

*Three credits for transfer students who transfer with General Education Core complete.

General Education Core Exemption Criteria

For details about exemption procedures, consult with the coordinator of the relevant department.

Goal 1 – Written Communication

ENG 101: For exemption from ENG 101, students must provide the Basic Studies Committee with three college-level essays and an impromptu piece of writing that demonstrate the student’s ability to write clearly organized, thesis-oriented essays. Essays will be judged on their clarity, organization, development, focus, coherence, thesis, and mechanics.

ENG 102: For exemption from ENG 102, students must provide the Basic Studies Committee with four well-organized, thesis-oriented essays, including an impromptu piece of writing and three college-level essays, at least one of which demonstrates the student’s ability to write an organized, coherent research paper that correctly utilizes the conventions of one of the standard methods of documentation. Essays will be judged on their clarity, organiza-
tion, development, focus, coherence, thesis, mechanics, research, and documentation.

**Goal II – Oral Communication**

Exemption from the oral communication requirement shall be granted by providing demonstrated competence in one or more of the following ways:

1. Proof of coursework or other significant structured learning that provided both experience in oral communication (skill development) and in the theoretical foundations of the field;
2. Written testimony by qualified persons acquainted with the applicant's experience in both the performance and theoretical aspects of the field;
3. Other forms of proof (portfolio, taped performance, etc.) that attest to the applicant's experiences in, and knowledge of, the field.

At the discretion of the faculty, some form of presentation may be required in addition to the above criteria.

**Goal III – Foreign Languages**

Students who have achieved an A average with three years of high school language or a B average with 4+ years are exempt from 101 and 102. Those with three years and a B average are placed in 102. Two or fewer years with up to a B average are placed in 101. Native and bilingual speakers are evaluated on a case-by-case basis.

**Goal IV – Quantitative Reasoning**

Students who achieve a high score on the Math Placement Test are exempt from three credits in Goal IV: Quantitative Reasoning. Exempted students may not take MAT 104 or MAT 151 for credit.

**Goal V – Computer Use**

Any student who wishes to be exempt from Goal V: Computer Use must achieve a passing grade on the computer proficiency assessment test, show evidence of computer proficiency, or pass a course in the student's major which is designated as satisfying Goal V: Computer Use.

**Major and Major-Related Requirements**

At Utica College, students can select from a variety of majors in the fields of humanities, science and mathematics, behavioral studies, management, and health sciences. The purposes of UC's major programs are to enable students to concentrate a substantial portion of their college studies in the academic areas most closely related to their specific interests, and to permit them to pursue advanced study and research in the academic disciplines they find most interesting and challenging.

The major programs provide the academic and professional education students will use to pursue a career in their special fields of interest. All available programs are described in the section of this catalog titled "Programs of Study."

A student should select a major before the end of his or her sophomore year. Students may select a minor (in consultation with their major adviser) any time before the semester in which they will have graduated. Forms for this purpose are available in each of the school offices and the Academic Support Services Center.

**Electives and Minors**

Students will be able to register for additional courses of their own choosing. The choice of electives may include one or more minors and will result in a broad range of knowledge and awareness that can enrich the student's working and leisure life.

A minor is a prescribed group or sequence of courses that is designed to give significant experience in a subject area different from a major. Students do not have to select a minor in order to graduate, but discussions with their advisers may lead them to select a minor in order to add a special dimension to their program. The minors available at Utica College are listed alphabetically with the majors in the section of this catalog titled “Programs of Study.” Forms for declaring minors are available in each of the school offices and in the Academic Support Services Center.

**Basic Academic Skills**

At Utica College, faculty recognize that not all students come to the College with the same level of academic skills. Some students need to develop their competency in such areas as reading and study strategies, writing skills, math skills, and speech and discussion skills.

The academic record of every applicant is reviewed carefully and those students needing development in a particular area are enrolled in freshman courses designed to meet their needs. Students who are so assigned must successfully complete the course(s) before registering for the next level of course work in the subject area.

Students must achieve a minimum grade of C when taking developmental courses (English 100, Reading 100, Mathematics 100) for the first time in order to receive academic credit.

**Honors Program**

The Honors Program offers intellectually talented students the opportunity to participate in an enriched course of study fully integrated with the regular academic program. The Honors Program has two parts: Intermediate Honors, related to general education requirements for the freshman and sophomore years; and Major Honors, related to individual scholarship in the student's major course of study in the junior and senior years.

**Intermediate Honors**

Intermediate Honors emphasizes the interrelationship of all knowledge and gives students a solid education in the liberal arts, with an emphasis on general education's goal to have students think and write critically and analytically.
Intermediate and Major Honors express Utica College’s commitment to supporting challenging academic opportunities that may serve as a model for the larger College community.

Admission to the Intermediate Honors is by invitation to freshmen. Additionally, toward the end of the fall semester, the director of the Honors Program sends a faculty-wide memo requesting names of exceptional students who may then be invited to apply for late admission on the basis of their academic record in their first semester or first year of college.

To earn Intermediate Honors, students must satisfy the following requirements:

- Complete English 102H, a special section of Written Communication reserved for honors students, to fulfill the College writing requirement. Honors students do not take the regular English 101-102 sequence.
- Complete an enriched program based on the General Education Core requirements described in the College catalog. Students will take an Honors Psychology course, PSY 101H, in the fall of the freshman year, and in the spring, an Honors Literature course, ENG 235H. In the fall of the sophomore year, students enroll in Honors History 145 or 165, and in the spring, they take an Honors Sociology course.
- Complete one interdisciplinary seminar developed for honors students, to be taken in the spring of the freshman year. This is UCC 259.
- Achieve a cumulative grade point average of 3.4 for the freshman and sophomore years.

Students who complete Intermediate Honors successfully will have their achievement noted on their Utica College transcripts and diploma. Please note honors students are expected to adhere to strict standards of academic honesty and integrity. Instances of plagiarism will result in dismissal from the program.

Major Honors

Major Honors offers students special opportunities for intensive study and research in their major academic area, for working closely with faculty members, and for understanding their discipline in relation to others.

Admission to Major Honors is by invitation and will be extended to continuing or transfer students whose performance in their first two years of college satisfies the requirements of the major department and the Honors Program.

To earn Major Honors students must satisfy the requirements of the major department:

- Usually it means completing six credit hours of course work in their major that has an honors designation and that culminates in an honors project (research or creative activity) to be presented at the annual spring research day.
- Achieve a cumulative grade point average of 3.4 for the junior and senior years.
- Complete any additional requirements established by the major and kept on file in the appropriate school office.

Students who complete Major Honors successfully will have their achievement noted on their Utica College transcripts and diploma. Please note, the honors program expects members to adhere to strict standards of academic honesty and integrity. Instances of plagiarism will result in dismissal from the program.

INTERNATIONAL OPPORTUNITIES AND STUDY ABROAD

Utica College is committed to providing opportunities that encourage students to become conscientious citizens in a global community, and that enable students to become involved in service and employment with international dimensions. This is achieved in a variety of ways including international and multicultural aspects of the curriculum, cultural activities, lecture series, and other activities on campus. The College participates in bilateral exchange programs with universities in Japan, Poland, Finland, Hungary, Peru, Scotland, South Korea and Wales for both faculty and students, as well as a faculty and student exchange program with the post-Soviet Union through the American Council of Teachers of Russian. UC students also may study at American College Dublin in Ireland.

Students may, in addition, participate in study abroad programs through Syracuse University’s centers abroad in Madrid, Beijing, Santiago, Strasbourg, Florence, London, and Hong Kong. Other study abroad programs can be arranged. Students also may participate in the Washington Semester Foreign Policy Program or the United Nations Semester Program, which are arranged through other schools, or UC’s London Learning Experience.

Plans for study abroad should be made as early in a student’s college career as possible as some programs may have specific language or other requirements. For additional information, contact the director of international programs.

ACCELERATION OF STUDY

Students may accelerate the completion of their programs of study by taking courses during UC’s Summer Session or by taking extra courses during the academic year with the approval of the dean of the school in which they are majoring. In some cases, the approval of the provost and vice president for academic affairs may also be necessary. See “Special Admission Programs” in the “Admission to Utica College” section of this catalog for other opportunities.
Competency and Experience Credit

Utica College offers students the opportunity to earn a maximum of 30 hours of competency/experience credit. Competency and experience credit cannot be applied to satisfy Utica College’s 30-hour residency requirement. **Course equivalence for competency and experience credit is determined by the various departments.***

Advanced Placement Examinations of the College Entrance Examination Board

Place: As designated by the College Board Advanced Placement Examinations, Box 977, Princeton, NJ 08540. Ask that scores be sent to the Office of Admissions, Utica College, 1600 Burrstone Road, Utica, NY 13502-4892.

</table>

*Equivalent may change each year.

Credit: Maximum of six semester hours for each examination, the credit not to exceed that assigned to an equivalent course offered at Utica College. **The minimum score is the mean score achieved by C students in the national norms sample.***

Cost: Only the fee paid to the College Entrance Examination Board.

Approvals: Matriculated students need the approval of their adviser, the school dean, and the registrar, by completing a Permission to Study Form.

General Examination of the College-Level Examination Program (CLEP)

Place: As designated by the College Level Examination Program, Box 977, Princeton, NJ 08540. Ask that scores be sent to the Office of Admissions or the Office of the Registrar, Utica College, 1600 Burrstone Road, Utica, NY 13502-4892.

Credit: Six semester hours of core credit for each examination. Scores must be at or above the 50th percentile.

Limits: Students may not receive CLEP general examination credit in a core area in which they already have earned six hours of college credit.

Cost: Only the examination fee of the College Entrance Examination Board.

Approvals: Matriculated students need the approval of their adviser, the school dean, and the registrar, by completing a Permission to Study Form.

College Proficiency Examinations

Time: Before or during work at Utica College.

Place: As directed by the agency administering the exams.

Credit: Up to six semester hours for each examination, the credit not to exceed the amount assigned to an equivalent course at Utica College. **The minimum acceptable grade is: P, C, or 50, depending on how the grade is reported.***

Cost: Only the fee paid to the agency administering the exams.

Approvals: Matriculated students must complete a Permission to Study Form with approvals from their adviser, the school dean, and the registrar.

Credit from Noncollegiate Institutions

Time: Before or during work at Utica College.

Place: Any noncollegiate organization listed in College Credit Recommendations published by the University of the State of New York.
Military Service School Credit

**Time:** After finishing military service training courses and before entering Utica College.

**Place:** The Utica College Office of Admissions, to which the records of the student's training course should be submitted.

**Credit:** Variable, to be based on *A Guide to the Evaluation of Educational Experiences in the Armed Services*, Commission on Accreditation of Service Experiences, the American Council on Education.

**Cost:** None.

**Limits:** Procedures governing the evaluation of transfer credit will apply.

United States Armed Forces’ Institute (USAFI) or Defense Activity for Non-Traditional Educational Support (DANTES) Examinations

**Time:** After completion of USAFI Subject Standardized Tests, End-of-Course Tests, and Subject Examinations or completion of DANTES Subject Standardized Tests and before admission to Utica College.

**Place:** The Utica College Office of Admissions, to which the appropriate USAFI or DANTES records should be submitted.

**Credit:** Variable, based on the USAFI or DANTES catalog. **Minimum scores required are:** 20 for Subject Standardized Tests, and **S** for End-of-Course Tests or Subject Examinations.

Experience Credit

**Time:** After admission to Utica College for demonstrable skills and knowledge gained through experience acquired before admission to the College.

**Credit:** **Awarded at departmental discretion.** Up to one-fourth of the total hours required for the degree, but not applicable toward the 30-hour residency requirement or liberal arts and sciences requirements.

**Procedure:** These skills and knowledge must be applicable to the student's program and they must be documented by student submission of a current résumé, a brief explanation of the work experience and its application or relevance to degree program of study, and other evaluative measures deemed appropriate by the academic program. Application for experience credit must be approved by both the dean of the school in which the student is majoring and the vice president for academic affairs and dean of the faculty.

**Cost:** See “Schedule of Tuition, Fees, and Deposits” in the “Tuition and Expenses” section of this catalog.

**Approvals:** Those of the adviser, the school dean, and the provost and vice president for academic affairs.

Veterans’ Credit for Physical Education

**Time:** After matriculation at Utica College.

**Credit:** Three hours in place of, and not in addition to, the three credit hours of physical education that may be earned through courses at Utica College.

**Cost:** None.

**Approvals:** Those of the adviser and the school dean.

Cooperative Education

Cooperative Education is an educational program that enables students to apply classroom learning in a real work environment. All co-op students work under the supervision of a site supervisor who directs their activities on the job site and evaluates their progress.

Students may alternate periods of work and school throughout the calendar year or follow the parallel model where they work and take classes during the same semester. Most work assignments are 12 to 14 weeks in duration.

*These are paid opportunities that receive transcript recognition by registering for UCC 310. Students must also register with the Office of Career Services.*

Washington Internships

Utica College is an affiliate of The Washington Center for Internships and Academic Seminars, a nonprofit educational institution that provides comprehensive learning opportunities in the nation's capital for students from 750 colleges and universities. The program includes internship placement, supervi-
sion, programming, and evaluation; housing and student life activities; and short term academic seminars.

All students (in any major field) may apply, but the College will select the best candidate(s). Minimum requirements include a completed application form, a 2.5 GPA, completion of at least 45 credit hours, two appropriate letters of recommendation, a résumé, and a goals and issues essay. For more information, contact the government and politics department.

**Higher Education Opportunity Program (HEOP)**

Admission to Utica College is available through the Higher Education Opportunity Program, a joint venture undertaken by Utica College and New York state. The program is designed for students who, irrespective of age, race, creed, color, sex, or national origin, are both academically and economically disadvantaged. Eligibility is determined by comparing a student's academic qualifications and financial condition with the guidelines approved by the New York State Education Department. Students must be residents of New York state and must have demonstrated potential for success in higher education.

Transfers from an equivalent special program approved as such by the State Education Department also are invited to apply. Students will receive financial support and supportive services such as academic and personal counseling and tutoring up to a maximum of 10 semesters (five years).

First-time HEOP freshmen are required to attend the five-week pre-freshman Summer Institute, which is designed to serve as a bridge between high school and college. The coursework is carefully chosen to match each student's level of skills and future career goals. Students accepted into the Institute will be required to take Reading 100 and English 100, as well as Mathematics 100 or Mathematics 104. Students will be placed in these courses according to their placement test results and will take them as credit courses. In addition, a non-credit complement of courses in study skills, basic skills, and the basic methods of inquiry will be required for each participant. A staff of counselors and tutors is available to help students in their adjustment to college life.

For additional information, contact the Office of Opportunity Programs or the Office of Admissions.

**Collegiate Science and Technology Entry Program (CSTEP)**

The Collegiate Science and Technology Entry Program is a New York state-funded project designed to assist underrepresented minority and/or economically disadvantaged students in completing pre-professional or professional education programs of study that lead to licensure. CSTEP provides academic support services, counseling, and advisement for eligible students who have an interest in careers in scientific, technical, and health-related fields. Students are encouraged to participate in the five-week pre-freshman Summer Institute (see HEOP).

For additional information, contact the Office of Opportunity Programs or the Office of Admissions.

**Young Scholars Liberty Partnerships Program**

The Young Scholars Liberty Partnerships Program (YSLPP) is a collaborative project launched in 1993 between Utica College and the Utica City School District. This nationally recognized multi-year program for young people is designed to produce more college-bound students from the ranks of traditionally underrepresented populations in the Utica City School District. It was created to provide support services aimed at raising student expectations and performance and extending them access to higher education.

Participating students have been very successful in meeting certain academic goals through their middle school and high school years. The YSLPP will help them meet those goals by offering year-round educational opportunities and individual support through a structured program of counseling and encouragement to help them work to their full potential. The program is designed to provide a balance between academic and personal or social growth, offering activities and programs to further the development of self. During the summer more than 200 Young Scholars are on campus for summer programs that range from math and science enrichment and/or remediation to individual tutoring for Regents test preparation. Parents or guardians are asked to take part in appropriate activities and to provide ongoing support and encouragement to participating students.

Among the many benefits of the YSLPP are those affecting the Utica College community. UC students enhance their education by performing worthwhile community service, and many students earn valuable experience tutoring in the local schools and planning and participating in on-campus YSLPP experiences.

**Preparation for Graduate and Professional Schools**

Utica College graduates have gained acceptance to the best professional schools in the country. The College curriculum prepares those interested in further work in the various majors and meets pre-professional requirements in the following specialized areas:

**Certified Public Accountant**

The major in public accountancy as a registered curriculum meets the academic requirements for New York state.
Law

The College offers a pre-law preparatory and advising program. Periodically pre-law meetings are held by the pre-law adviser. Students interested in law school should be in constant touch with the pre-law adviser and make use of the pre-law library available from the Office of Career Services.

Teaching

Preparation for teaching in New York state must include both subject matter and professional course work. The College offers courses satisfying the requirements for a provisional certificate at the undergraduate level and permanent certification through master's degrees in a functionally related field. For detailed information, see the description of Education in the "Programs of Study" section of this catalog or contact the director of the Institute for Excellence in Education. For information about UC's master's programs in education, contact the School of Graduate and Extended Studies.

Medicine and Dentistry

Although most prospective medical students follow one of the majors in science, a major in any liberal arts area can satisfy the pre-professional academic requirements, provided the program includes six hours of English, and eight hours each in physics, biology, general chemistry, and organic chemistry. As medical and dental schools vary in admission requirements, students should note those of the college they desire to enter. Most medical schools require at least four years of college. Students may, under certain conditions, enter professional schools of medicine or dentistry after completion of three years of undergraduate work and receive a baccalaureate degree by substituting the first year of professional study for the senior year of undergraduate work. (See "Joint Health Professions Programs.")

Veterinary Medicine

The New York state requirement is two years of college work – a minimum of 60 credit hours – which must include six hours in English, eight hours in physics and zoology, and 18 hours of chemistry, part of which must be organic chemistry. Because admission requirements are not identical for all schools of veterinary medicine, students should consider the distribution of credits in the courses recommended by the veterinary schools to which they will apply.

Pharmacy

This area does not require pre-professional college work. Candidates are admitted upon completion of four years of high school. It is possible, however, for students to complete their first year at Utica College for transfer credit. They should obtain the approval of the pharmacy school for their freshman program.

Optometry, Osteopathic Medicine, Podiatry, Chiropractic

Requirements are similar to those for medicine and dentistry. See the Advisory Committee for the Health Professions by inquiring through the School of Arts and Sciences.

Joint Health Professions Programs

Those enrolled in joint health professions programs may, under certain conditions, enter professional schools of medicine or dentistry after completion of three years of undergraduate work and receive a baccalaureate degree by substituting the first year of professional study for the senior year of undergraduate work. Admission to joint health professions programs does not guarantee admission to the professional school.

If enrolled in joint health professions programs, students must notify the Office of the Registrar in writing at the end of the junior year of their acceptance by the professional school, and they must apply for the baccalaureate degree.

Professional Option in Medicine and Dentistry

This plan makes it possible for students to qualify for a B.A. and an M.D. or D.D.S. in seven years. If accepted by an accredited school of medicine or dentistry after the completion of three years of undergraduate work, students may take their senior year in the professional school and be certified for a bachelor's degree by Utica College, provided:
1. the student has completed a total of 90 hours of undergraduate liberal arts work with at least a B average (3.0);
2. the student has met all General Education Core requirements for the bachelor's degree; and
3. in the student's junior year, he or she has fulfilled 12 credit hours of advanced courses in his or her major.

Transfer students must have completed 60 hours in residence and have met all General Education Core requirements.

Optometry, Podiatry, Osteopathic Medicine, and Dentistry

At the time of application for admission to Utica College, students may also apply for admission to join health professions programs the College maintains with the University of New England College of Osteopathic Medicine, the Lake Erie College of Osteopathic Medicine, the SUNY College of Optometry, the Ohio College of Podiatric Medicine, and the SUNY at Buffalo School of Dental Medicine. These are seven-year programs in which the student studies at Utica College for three years and for four years at the professional school. After the first year of professional school, the bachelor's degree is awarded. Admission to the professional school is made at the discretion of the professional school and is not guaranteed. More detailed information concerning these degrees is available from the Office of Admissions and the pre-medical adviser.
In addition, the College maintains an Early Assurance Program with the SUNY at Buffalo School of Dental Medicine in which students at Utica College may be assured of admission to the dental school after two of their four years of study. Upon graduating from the College, they then enter the dental school. Please consult with the pre-medical adviser for further information.

Advisory Committee for the Health Professions

The Advisory Committee for the Health Professions (composed of faculty and community professionals) advises, evaluates, and writes letters of recommendation for students interested in medicine, dentistry, veterinary medicine, and other health professions/careers. Students are encouraged to work closely with the committee throughout their four years at the College.

Second Undergraduate Degrees

Two distinct bachelor's degree programs may be pursued simultaneously. The programs may be in the same school or two different schools; must lead to two different career objectives; and must have two distinct degree titles (B.A./B.S.). In such cases, two degrees will be conferred, and two diplomas awarded. Combined degree programs will require the completion of 30 credits beyond the usual requirements for one degree (typically 120/128). The minimum total credits required in combined degree programs are 150.

Students may also matriculate for a second bachelor's degree subsequent to the completion of a first bachelor's degree. The requirements outlined above will apply. A minimum of 30 credits beyond the first degree must be completed, and students must also complete all major and major related work for the new degree. Second degree candidates are exempt from Components One and Two of General Education Core. To meet the requirements for Component Three, Writing-intensive Courses, second degree candidates must take one writing-intensive course, unless their first degree is from Utica College with this requirement already fulfilled.

Reserve Officer Training Corps (ROTC)

The Reserve Officer Training Corps program of the United States Army is available at Utica College students. The program is designed to produce junior officers (second lieutenants). Programs of study vary from one to four years in length all leading to a commission. Both programs also provide generous scholarship opportunities to finance undergraduate or graduate degrees.

Army

The Army ROTC program is hosted by Syracuse University but offers all of its courses on the Utica College campus. Interested students are invited to visit the ROTC office, located in Strebel Student Center, or to call (315) 792-5282. Students may also call the ROTC office on the SU campus at (315) 443-1752, or visit the Web site at sumweb.syr.edu/armyrotc/.

Course descriptions can be found under Military Science in the "Courses of Instruction" section of this catalog.

The ROTC program is facilitated through a college elective known as Military Science. Not all students taking Military Science are necessarily enrolled in ROTC nor will they receive a commission. The Army ROTC curriculum is a program of leadership development and instruction leading to a commission as a second lieutenant in the United States Army, the Army Reserve, or the Army National Guard. The program consists of a Basic Course (freshman and sophomore years), the Advanced Course (junior and senior years), and a five-week National Advanced Leadership Camp between the junior and senior years. Participation in the Basic Course requires no military obligation unless a student is under a scholarship contract. Participation in the Advanced Course requires successful completion of the Basic Course or validation thereof by other means such as veteran status. All Advanced Course or contracted students receive a monthly stipend and are under obligation to complete the program, accept a commission, and serve as a commissioned officer.

Air Force

The Air Force ROTC program is available at Syracuse University. The traditional program consists of four years of academic and leadership courses, beginning in the freshman year. These courses are all taught at Syracuse University, and the students are required to provide their own travel between Utica and Syracuse to attend classes. During the summer between the sophomore and junior year, students are required to attend Field Training, a four-week military encampment that must be successfully completed to continue in Air Force ROTC. Other programs, such as free-fall and soaring (conducted at the Air Force Academy), combat survival school, and jump school, are also available during the summer months, and are all voluntary. While the four-year program is traditional, arrangements can be made for sophomores and juniors who wish to join Air Force ROTC and seek a commission in the Air Force.

Any student at Utica College is eligible to participate in Air Force ROTC at Syracuse University. There is no charge for enrollment, and all uniforms and textbooks are provided to the student at no cost. To successfully complete the program and be commissioned as a second lieutenant in the Air Force, cadets must meet all academic, medical, and physical standards, and meet the degree requirements of Utica College. High school students applying for Air Force ROTC scholarships are eligible for four-year, full tuition scholarships, which also covers $750 for books and provides up to a $500 per month stipend. Any Utica College freshman or sophomore who joins and participates in Air Force ROTC is eligible to compete for a scholarship that will pay up to $15,000 per year toward tuition, cover $750 for books, and provide up to a $500 per month stipend during the school year.

Career opportunities in the Air Force include pilot, navigator, air traffic control, aircraft maintenance, nursing, communications and electronics, com-
computer science, space and missile operations, civil, mechanical, aerospace, and electrical engineering, logistics, personnel, finance, contracting, and security police. Opportunities also exist for lawyers, doctors, and numerous other specialties. Service obligations are 10 years for pilots, eight years for navigators, and four years for all others, upon commissioning. Interested students should call (315) 443-2461, e-mail afdet535@syr.edu, or visit http://afrotc.syr.edu for more information.

INSTITUTES AND CENTERS

Utica College offers several institutes and centers that offer opportunities for participation from throughout the College and the public to address issues of common interest and concern. These institutes and centers offer programs and conduct studies that focus on specific cultural, professional, and intellectual topics; provide services to students and the public; and bring a wide range of experts to the College to speak to interested groups.

Center for Historical Research

Established during the spring semester 2000, the Center for Historical Research, sponsored by Utica College’s history department, provides resources and assistance to students, faculty, and members of the community who are working on local and global history projects. The objectives of the center are to:

- Support students who are working on “The History Project,” an annual collaborative research project undertaken by graduating Utica College history majors.
- Publish the annual proceedings of “The History Project.”
- Assist students and faculty conducting local and global historical research.
- Foster ties between Utica College and its surrounding communities.
- Compile and preserve historical resources.
- Collaborate with the Eugene Paul Nassar Ethnic Heritage Studies Center at Utica College.
- Promote scholarly excellence through the Utica College chapter of the Phi Alpha Theta National Honor Society.
**Center for Identity Management and Information Protection**

CIMIP was formed in 2006 as a collaboration between corporations, government, and academia to combat the threat that identity fraud and theft pose to personal and national security. CIMIP stakeholders include the United States Secret Service, the Federal Bureau of Investigation, the U.S. Marshals’ Service, the U.S. Postal Inspection Service, and Syracuse University’s CASE Center.

The Center is directed by Professor Donald Rebovich, and its research agenda is guided by the Board of Advisors of Utica College’s Economic Crime Institute (ECI) and a Research Steering Committee comprised of the Center’s stakeholders. The Center’s research agenda focuses on critical issues in identity management, information sharing policy, and data protection, including:

- The causes, early detection, and prevention of identity fraud and theft.
- The evolving threat from cyber criminals, insiders, and organized crime groups.
- The impact and role of policy decisions, legislation, and regulatory actions.
- The improvement of identity authentication systems to reduce fraud and improper payments, and protect national security.
- The role of enabling technologies to protect information, facilitate privacy, and share information.

The Center provides cutting-edge identity management and information protection resources to corporations, law enforcement, government agencies, academe, and the public through its publications and Web site (www.cimip.org). The Center also sponsors symposia to share the research findings with key decision makers in corporate, government, and academic organizations.

**Centro Studi Casauriensi**

The Centro Studi Casauriensi (Center for Casaurian Studies) was founded in August 1991 in Castiglione a Casauria in the Abruzzi region of Italy and represents a collaborative effort between Utica College and private benefactors in Italy. Its goal is to foster and support both individual and group research on the literature, sociology, psychology, mathematics, language, history, art, anthropology, science, etc. of the region in Italy once known as Casauria. The Center publishes an annual volume of contributions in several fields of knowledge by a variety of international scholars.

**Computer Forensics Research and Development Center**

The Computer Forensics Research and Development Center (CFRDC) of Utica College opened May 7, 1999. It is the result of a study on the state-of-the-art in computer forensics funded by the Air Force Research Laboratory/Information Directorate. The study identified a crucial need for an organization to facilitate the research and development of a new generation of computer forensic tools and methods. The CFRDC brings together key organizations from the military, law enforcement, commercial industry, and academe to help rapidly advance the emerging field of forensic information sciences. The Center is located at Utica College and is governed by a board of advisers, with Anthony Martino serving as its director. Its key partners are the Air Force Research Lab, the National Law Enforcement and Corrections Technology Center – Northeast (NLECTC-NE), WetStone Technologies, Inc., and the CASE Center at Syracuse University.

**The Economic Crime Institute**

The Economic Crime Institute (ECI) was formed in November 1988 to support the major in criminal justice/economic crime investigation, prepare students to prevent, detect, investigate, and prosecute economic crimes, and provide continuing education opportunities for economic crime investigation professionals. In January 1999, the Institute provided expert consultation and financial support to help launch the first graduate program at Utica College: a master’s degree in economic crime management. In May 1999, the Institute’s board of advisers helped fund and support the creation of the Computer Forensics Research and Development Center at the College. In addition, the board has provided resources to establish two journals: the *International Journal of Cybercrime* and the *Journal of Economic Crime*.

The ECI meets its goals by encouraging the exchange of expertise between educators and professionals in the field; placing students in internships and professional positions with corporations and government agencies; sponsoring conferences, seminars, and lectures; and supporting research endeavors. The Institute has a distinguished board of advisers that includes individuals at the top of their fields in higher education, business, and the federal government. These board members, experts in credit card fraud, computer security, financial crimes investigations, information assurance, insurance fraud, and corporate security, are working with Utica College faculty to accomplish the ECI’s goal of preparing individuals to prevent, detect, investigate, and prosecute economic and cybercrimes. Raymond Philo serves as the executive director.
EUGENE PAUL NASSAR ETHNIC HERITAGE STUDIES CENTER

Established in 1981 by Professor Emeritus Eugene P. Nassar, the Ethnic Heritage Studies Center serves as a clearinghouse for the creation of courses, seminars, and publications in ethnic studies, especially dealing with ethnic groups of the central New York area. It oversees the development of the Frank E. Gannett Memorial Library book collection in ethnic studies. It also has coordinated ethnic festivals with the Friends of the Library, honoring the larger ethnic populations of Utica.

HUMAN RIGHTS ADVOCACY PROGRAM

The Human Rights Advocacy Program of Utica College (HRAP) was established in 1992 by attorneys Theodore Zang, Esq. and Utica College Professor Theodore S. Orlin, Esq. HRAP’s purpose is to counsel and train non-governmental organizations (NGOs) in transitional democracies. Accordingly, with the support of Utica College and private donations, it regularly works with human rights advocates in Eastern and Central Europe (e.g., Albania, Bulgaria, Kosovo, Moldova, Romania, Slovakia), Africa, and Asia (Taiwan, India).

HRAP’s approach is to provide in-field training and technical assistance to human rights NGOs and their supporters, as well as to provide counsel via international communications. HRAP works closely with Helsinki Committees and independent human rights NGOs, supporting their legal defense efforts, the monitoring of human rights violations, and their human rights education programs, etc. It also provides technical support and training to university human rights centers in the Balkans and elsewhere.

As part of its training effort it invites young human rights advocates from transitional democracies to study and train at Utica College for a semester. Studying along with Utica College students, these advocates study human rights law and other specialties areas, bringing back to their own country skills and knowledge useful for human rights work. Utica College students benefit from their exposure to the experiences of these human rights advocates.

THE INSTITUTE FOR EXCELLENCE IN EDUCATION

The Institute for Excellence in Education was established in January 2000. It is the academic and administrative unit of the College responsible for the coordination of all activities involving teacher education and preparation for administrative and supervisory service, including undergraduate, graduate, and continuing education courses and programs. The Institute also functions as the clearinghouse for communications with the New York State Education Department on matters of certification; the liaison office for the Education Consortium with area school districts and BOCES; and the locus for all community relationships and activities related to teacher education and certification and administrative and supervisory certification.

THE INSTITUTE OF APPLIED ETHICS

The Institute of Applied Ethics was founded in 1986, and has been affiliated with Utica College since 1987. Its fundamental purpose is to serve the Mohawk Valley region by promoting reflection upon and public discussion of ethical issues in health care and the related fields of law, social legislation, and business. The Institute provides the community with a resource of informed people willing and able to assist in the assessment of ethical problems, and sponsors conferences, seminars, workshops, and lectures for both professionals and the general public.

THE INSTITUTE OF GERONTOLOGY

In January 1980, Utica College formed the Institute of Gerontology to foster a multidisciplinary approach to various aspects of aging, including health, sociological, economic, behavioral, environmental, and political.

The Institute achieves these goals through the education of students, professionals, and the general public; community development of the aging network; and research relevant to the study of aging.

THE LEADERSHIP INSTITUTE

The Leadership Institute at Utica College is chartered to create coalitions and partnerships that expand the professional internal and external organizational capacities of Utica College. Through linking UC faculty to research and community consortia, the Institute facilitates the integration of research and applied practice through grant writing and evaluation, project management and change intervention and education. The Institute also partners with local businesses to assist them with professional development in leadership, project management and change strategies.

MOHAWK VALLEY CENTER FOR ECONOMIC EDUCATION

The Mohawk Valley Center for Economic Education opened in 2001. The Center, one of nearly 300 nationwide, is affiliated with the National Council on Economic Education (NCEE), a nonprofit group of educators, corporations, and labor leaders devoted to improving the economic literacy of students throughout the United States. The NCEE developed EconomicsAmerica, a set of programs aimed at integrating economics throughout the K-12 curriculum.

The Mohawk Valley Center’s major focus is to help local districts implement the EconomicsAmerica program by providing training for local teachers in kindergarten through senior high school in both economic content and pedagogy. The Center’s staff is also available to serve as consultants to school districts on curriculum development, needs assessment, and teaching strategies.
Institutes and Centers

The Raymond Simon Institute for Public Relations

Named for the former head of the Utica College public relations degree program, the Raymond Simon Institute for Public Relations was founded in 1986 with the purpose of enhancing UC’s public relations and journalism programs.

To achieve this purpose, the Institute honors the outstanding public relations/journalism alumnus or alumna; grants the Ben and Gene Comora Scholarship, the John Behrens Journalism Scholarship, and the Raymond Simon Scholarship; provides monetary support for faculty projects and student activities through the Robert Feldman Fund and the Joanne Reppel Contingency Fund; and underwrites the cost of the Eleanor Sokolow/RSI Professional in Residence program, which brings outstanding professionals in public relations and journalism to campus for several days. Funding for the program is made possible by a grant from Owen Comora and his wife, Betty, and is named after her late mother.

Each year, the RSI also presents an array of cash awards to recognize student achievement of all sorts throughout the PR/J curriculum.

These annual scholarships and cash awards, made possible through generous contributions from PR/J alumni, are granted to encourage excellence on the part of students in the public relations/journalism program. Selection of the awardees is made by the PR/J faculty.
The Office of Student Success, located in 111 Hubbard Hall, is specifically charged with fostering student success through providing services that support and guide students in their personal and academic lives. This is accomplished through the coordination of the services provided by: Academic Support Services, Opportunity Programs, Learning Services, Orientation, Tutoring, and the Academic Coaching Experts (ACEs). Working closely with academic programs and student services, the Dean for Student Success identifies potential barriers to student achievement and facilitates institutional change to remove them.

**Academic Support Services Center**

The Academic Support Services Center staff provides a wide range of counseling services for students focusing on personal, vocational, and academic concerns. Part of the Office of Student Success and located in Room 109, Hubbard Hall, the Academic Support Services Center is staffed by counselors whose services are available to all students without cost. Counseling services are designed to help students gain control over events that inhibit their success as students. While personal counseling is available through the Center, referral to off-campus agencies and/or counseling services is also obtainable through the counseling staff.

Planning an academic program will be among a student’s highest priorities. For students who have yet to decide on a major, the counseling staff is available to help them examine the variety of academic programs and advise them as to which major will best match their interests and meet their career goals. For students who have chosen an academic discipline, the counseling staff, in conjunction with faculty advisers, will provide advice to ensure that students complete all of the requirements for graduation.
In addition to the personal and academic counseling services described, the Academic Support Services Center provides support services for students with physical, emotional, or learning disabilities. The staff also works closely with the Office of Opportunity Programs regarding referrals for tutoring services, which that office coordinates. In general, for students who have any questions or concerns of a personal or academic nature, contacting the Academic Support Services Center would be a wise first step.

**Services for Students with Disabilities**

Utica College recognizes its responsibility to provide equal access to opportunity for students with disabilities under Section 504 of the Rehabilitation Act of 1973 and Title III of the Americans with Disabilities Act of 1990. The College will provide reasonable adjustments and/or accommodations for our students to meet the equal access/non-discrimination nature of the federal mandates.

The Office of Learning Services provides advisement, advocacy, and academic support to students who identify themselves as having a disability. The office is located in the Academic Support Services Center, Hubbard Hall Room 109.

To initiate recognition and consideration as a student with a disability, students should:

- Self-disclose their disability by contacting the director of learning services, preferably in person.
- Request accommodations.
- Submit appropriate documentation to verify eligibility. Eligibility is determined on an individualized basis, and is based upon documentation of a disability that currently substantially limits some major life activity.

Questions related to this process should be directed to the director of learning services, Kateri Henkel, at (315) 792-3032 or khenkel@utica.edu. Additional information about services for students with disabilities may be found at www.utica.edu/learning.

**Writing Assistance**

The Writing Center, staffed by a faculty member and peer tutors, offers individual tutoring. Attendance is voluntary. Students may attend regularly, or intermittently, whenever they would like a response to their writing. The Writing Center, located in Room 216, Hubbard Hall, helps writers help themselves.

**Math Assistance**

The Math and Science Center, staffed by a faculty member and peer tutors, gives students individual attention, focusing on the specific areas in which they most need assistance. Tutors can help students prepare for tests and quizzes as well as assist with homework problems. Students may schedule an appointment, come as a walk-in, or request a specific tutor. The Math and Science Center is located in Room 203, Hubbard Hall.

**Media Center**

The Media Center, located in the lower level of the Frank E. Gannett Memorial Library, provides audio-visual support to the faculty and students in the classrooms, as well as to a wide variety of special events held on campus. The Center houses the video collection (VHS, DVD, and audio recordings) that are used in classes. The Media Center is open Monday-Friday from 8:00 a.m. to 10:00 p.m. when classes are in session.

**Residence Halls**

A major component of the college educational experience is for students to learn to live on their own. Utica College provides on-campus housing to enhance intellectual, social, and cultural development through the experience of living with other individuals who bring a variety of social and cultural backgrounds to the community.

UC’s Residence Life program is intended to complement the student’s academic career. The professional and paraprofessional (student) residence hall staffs are dedicated to the intellectual, cultural, and social growth of each resident student. Residence hall activities and staff counseling services are provided to help students benefit from this facet of the total college experience in a living and learning environment.

Each room in the residence hall is furnished with twin-sized beds, desks, chairs, dressers, closets, a floor lamp or ceiling light, and draperies. Students are expected to supply their own study lamps, blankets, bedsprads, bed linen, towels, pillows, and other personal items. Included with the housing information packet and available on the Residence Life Web page is a “packing guide” that outlines other recommended items to bring or not to bring to campus. Washing machines and dryers are available in each residence hall, and are free for all residential students. Vending machines are located in each hall with the exception of Alumni Hall. All residence halls are smoke-free.

Room and board are contracted for two semesters except for seniors graduating at mid-year or students leaving for affiliations/internships. All freshmen are required to live in College residence for their first two years, unless residing with their parent or legal guardian. Once students are accepted, they can access the housing agreement and student information form on the Residence Life Web page at www.utica.edu/reslife, where they can complete and submit.
both forms to the Office of Residence Life. Housing assignments are generally made prior to new students’ arrival on campus, and the name(s) and contact information for the assigned roommate(s) are e-mailed to students’ UC e-mail account in early August.

Students who live in the residence halls are required to contract for both room and a residential meal plan. Charges are payable before the room can be occupied. Room charges and meal plan costs are listed in the “Schedule of Tuition, Fees, and Deposits” section of this catalog.

The College reserves all rights concerning assignment of rooms, termination of occupancy, and the alteration of charges when necessary. New students’ rooms are assigned by the assistant director of residence life in the order in which housing contracts are received after students have been officially admitted to the College. Married student housing or housing for UC students’ children is not available.

All resident students have specially designated free 24-hour parking on campus while school is in session. Resident students must register vehicles at the Office of Campus Safety, and abide by posted and written vehicle guidelines.

It is understood that willful damage or mutilation of residence hall facilities or any act or acts that could put the safety or security of other students living in the residence hall in jeopardy will carry severe penalties, not excluding dismissal from the College.

Housing Policy

UC’s goal is to offer students diversity in housing while maintaining the College’s resident student population at a level that permits UC to maximize student services. The following housing policies have been adopted to achieve that aim. Under normal circumstances, these policies will be respected in the assignment of residence hall space:

1. Housing assignments for returning residential students are processed on a seniority basis by academic class standing, as well as on their academic performance and disciplinary history. A $200 room deposit is required prior to the room selection process. The schedule for housing is established by the Office of Residence Life including deadlines for deposits. All returning residential students may apply for housing during the spring semester provided their room deposits have been paid. See the “Schedule of Tuition, Fees, and Deposits” section of this catalog for room charges.

2. Returning students may apply in groups for rooms in Tower, Bell, Burrstone, Alumni or Boehlert Hall. Selection for Alumni Hall, Boehlert Hall, Tower Hall, and Bell Hall is based not only on seniority, but also on academic performance and disciplinary history. A limited number of single rooms are available in Tower, Bell, North and South Halls. Rooms in Burrstone House are assigned primarily to two students. Each of these accommodations will be assigned according to the current housing selection guidelines. Double occupancy rooms are the most common housing accommodations available at Utica College.

3. When a vacancy occurs in an apartment, in a suite, or in a double room, a student has the following options:
   • the Office of Residence Life will assist the student in finding a compatible roommate to fill the vacancy; or
   • the student may move voluntarily to another room to fill an existing vacancy; or
   • the student may be moved by the Office of Residence Life to another room to fill an existing vacancy; or
   • the student may pay the additional costs to lease the room as a double-single for the remainder of the semester (if space is not needed).

4. Exceptions to the above procedures may be granted by the director of residence life.

5. Students desiring to withdraw from the College’s student housing need to request permission from the director of residence life. Students who will be departing the College, or leaving student housing for an approved internship, affiliation, or study abroad must notify the Office of Residence Life before the end of the prior semester. Students who reside on campus beyond the second week remain responsible for the payment of all housing charges until the end of the occupancy term. Charges for board will be on a pro-rated basis through the ninth week of each semester. Requests to withdraw must be given not less than seven days prior to the intended withdrawal date. Housing agreements are binding for an entire academic year. Exceptions are granted by the director of residence life.

Conduct

Students at Utica College have enrolled freely and are expected to conduct themselves in a manner supportive of the educational mission of the institution. Integrity, respect for the person and property of others, and a commitment to intellectual and personal growth in a diverse population are values deemed fundamental to membership in this College community.

As members of the Utica College community, students are assumed to be responsible for their actions. Students are expected to conduct themselves in accordance with the Utica College Code of Student Conduct, which is outlined in detail in the Student Handbook.

If a student is charged with violating the Code of Student Conduct, that student will have charges addressed through the student disciplinary process. It is Utica College’s policy under ordinary circumstances that, pending disciplinary action, the status of students will not be altered or their rights to be present on campus and to attend classes suspended. However, the College reserves the right to immediately alter a student’s status and deny access to campus whenever it is deemed necessary for reasons relating to the student’s physical or emotional safety and well-being, or for reasons relating to the
safety of students, faculty, staff, or property. In such cases, students may be suspended pending disciplinary action.

**Campus Safety**

The Office of Campus Safety is dedicated to creating a safe environment for Utica College’s students, employees, and guests. Safety officers are responsible for maintaining order and safety both within campus buildings and throughout the campus grounds, and for providing protection from theft, misuse, and vandalism for personal and campus property.

Safety officers are also responsible for enforcing the College's safety rules and regulations. Officers conduct themselves with the highest degree of professionalism, and are committed to maintaining good campus and community relations.

The staff at UC believes that an informed public is a safety-conscious public. Each year the Office of Campus Safety publishes and distributes to the campus community a safety awareness brochure that contains campus safety policies and resources as well as statistics on campus crime required by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. To view a copy of this publication, visit www.utica.edu/safety.

Upon request, the Advisory Committee on Campus Safety will provide all campus crime statistics as reported to the United States Department of Education. The College contact authorized to provide these statistics for Utica College is the vice president for student affairs and dean of students, who can be reached at (315) 792-3100. Any person requesting campus crime statistics will be provided a hard copy, by mail, of information required under 20 USC §1092 (f) within 10 days of the request. The United States Department of Education’s Web site address for campus crime statistics is http://www.ope.ed.gov/security.

**Student Health Center**

The Student Health Center is located in Strebel Student Center. When college is in session during the fall and spring semesters, all registered full and part time students are eligible to receive medical care at the Student Health Center. In order to receive services, the student must turn in a completed health form with physical exam and immunization records. The deadline for receiving health forms is August 1 for fall semester and January 1 for spring semester.

The Student Health Center is open Monday thru Friday from 8:30 a.m. to 5:00 p.m. during the academic year. The Student Health Center provides medical care for students with acute short term illnesses. All student records are confidential. No information can be released to anyone, including parents or legal guardians, without a signed release from the student. The center is staffed by a secretary, nurse practitioner, and a licensed practical nurse. A doctor is available by appointment only. Call the Student Health Center at (315) 792-3094 to schedule an appointment.

If medical care is needed after hours, there are three urgent care centers and two local hospitals in the immediate area. The urgent care centers are: Independent Physicians at 1904 Genesee Stree, Slocum-Dickson on Burrstone Road and Faxton Medical Campus also on Burrstone Road. The local hospitals are: St. Elizabeth’s and Faxton St. Luke’s Healthcare. The cost of these services is the responsibility of the student.

**Health Insurance**

All full-time undergraduate and graduate students must carry health insurance. Utica College offers a health insurance plan for students who do not have alternate coverage. Health insurance covers medical services not available at or through the Student Health Center. Full time students who already have alternate health insurance and do not want the student health insurance must complete an online waiver each year the student enrolls at Utica College. Information on the student health insurance is available at the Student Health Center at (315) 792-3094.

**Immunization Requirements**

All full and part-time graduate and undergraduate students must comply with New York State Public Health Law #2165 and #2167. Students must provide the Student Health Center with proof of immunization or immunity to measles, mumps, and rubella as well as either proof of vaccination against meningitis or a waiver form for the vaccination. For more information on these requirements please contact the Student Health Center.

Students who are taking classes on campus have 30 days from the start of classes to comply with immunization requirements (see Academic Calendar). If students do not comply within 30 days, their registration will be dropped and they will be barred from attendance.

**Career Services**

The Office of Career Services assists students with the selection and pursuit of a career based on a full appreciation of their interests and potential. Services are available to all students and alumni. The office provides career counseling to help students gain a better understanding of themselves, and to successfully relate their aptitudes and interests to the world of work.

The office establishes and maintains contact with recruiters from many fields, including business, healthcare, law enforcement and human services in addition to local, state, and federal governments. Staff members are available to help students with all aspects of the career development process so that they may effectively present their qualifications to prospective employers and/or graduate and professional programs.
Off-Campus Employment
Employment opportunities are posted on the Career Services online job board, which is accessible through the Career Services Web site at www.utica.edu/careers.

Graduate and Professional Study Planning and Counseling
Career Services provides individual counseling and assistance for all students regarding graduate and professional studies. The office maintains graduate school guidebooks, GMAT (Graduate Management Admission Test), GRE (Graduate Record Exam), LSAT (Law School Admission Test), and MCAT (Medical School Admissions Test) applications and coordinates practice examinations of these tests once each semester.

Utica College Alumni Association
Graduates of Utica College automatically become members of the Utica College Alumni Association upon Commencement. Students who have completed 60 hours at the College and whose class has graduated are considered members. The Association is governed by the National Alumni Council (NAC). The alumni members of the NAC have distinguished themselves through their professional or community work and their service to Utica College. NAC members assist with services and activities for alumni and students, including: alumni regional events, volunteer events, the annual Homecoming Weekend, student/alumni events, and alumni awards. Other volunteer opportunities in which graduates may become involved include the Utica College Admission Network (UCAN), the Pioneer Career Network, career and networking events, and the Annual Fund campaign. The Pioneer, Utica College’s alumni magazine, is sent to all alumni to keep them informed about the Utica College community.

The Office of Alumni and Parent Relations is located in Champlin House.

Athletic Activities and Facilities

Intercollegiate Athletics
The College sponsors men’s varsity teams in soccer, football, basketball, cross country, swimming and diving, ice hockey, lacrosse, baseball, tennis, and track and field. Women’s varsity teams compete in cross country, field hockey, soccer, volleyball, tennis, basketball, swimming and diving, ice hockey, lacrosse, softball, water polo, and track and field. Varsity golf is open to both men and women.

Utica College is a member of the Empire 8 athletic conference along with conference rivals Hartwick, Ithaca, Elmira, Alfred, St. John Fisher, Nazareth, Stevens, and RIT. UC teams also compete against other regional non-conference opponents as scheduling allows. UC is a member of Division III of the National Collegiate Athletic Association (NCAA), and the Eastern College Athletic Conference (ECAC), providing post-season tournament opportunities for teams that qualify.

Intramural/Club Sports
The intramural sports program is an integral part of the total educational environment. It includes programs in flag football, basketball, volleyball, floor hockey, softball, indoor soccer, racquetball, bowling, tennis, wallyball, table tennis, wiffleball, and 8-ball pool.

Club sports teams in fencing, cheerleading, dance, karate, and water polo provide additional opportunities for students to participate in athletic activities.

Facilities
All indoor and outdoor recreational facilities are available to all students throughout the academic year. Indoor facilities in the Harold Thomas Clark Jr. Athletic Center include:

- a large gymnasium with two full-length basketball courts and a main court;
- racquetball courts;
- a 25-yard by 25-meter swimming pool;
- saunas in the men’s and women’s locker rooms;
- Gary M. Kunath Fitness Center;
- dance room for aerobics, modern dance and exercise;
- an all-purpose classroom.

Outdoor facilities include:

- The Charles A. Gaetano stadium, a multi-sport stadium with artificial turf and seating for 1,200;
- tennis courts and a sand volleyball court;
- fields for soccer, lacrosse, flag football, and volleyball;
- softball and baseball diamonds.

Utica College plays its men’s and women’s hockey games at the nearby Utica Memorial Auditorium.

Selected facilities can be reserved for use by a group or an organization. To make a reservation, contact the director of physical education and athletics. Hours for gym facilities during the academic year are as follows:

- The gym and weight rooms are open from 7:00 a.m. to 11:00 p.m., Monday through Friday, and 10:00 a.m. to 10:00 p.m., Saturday through Sunday, unless classes, events, or team practices are scheduled.
- The pool is open from noon to 3:30 p.m., Monday through Friday; 7:00 p.m. to 9:00 p.m., Tuesday, Wednesday, and Thursday; and 1:00 p.m. to 4:00 p.m. on alternate Saturdays and Sundays, unless it is reserved for other activities. Pool hours may vary for holidays and athletic events.
The Athletic Department supports the College's academic mission by insisting on academic success to be eligible for participation in athletics. Athletics supports the Utica College mission to "create a community of learners with diverse experiences and perspectives..." Athletics enhance the liberal education of men and women by exposing them to cultural, ethnic, and individual differences. Student athletes learn to appreciate diversity in an environment of equality and mutual respect.

2. The Athletic Department supports the College's mission of "encouraging lifelong learning, and ... promoting scholarship in the belief that the discovery and application of knowledge enrich teaching and learning." Participation in athletics at Utica College gives student athletes opportunities for positive and realistic self-appraisal. The student athlete learns citizenship and ethics, develops social skills and leadership potential, and gains a stronger sense of independence.

3. The athletic program enriches the life of the campus and enhances the sense of community.

4. Intercollegiate sports participation is encouraged for as many students as possible.

5. The Athletic Department strives for broad participation through intercollegiate, club, and intramural sports. The department also emphasizes competitive excellence, sportsmanship, and positive attitudes.

6. The majority of scheduling is conducted with other Division III colleges in the Empire 8 Conference (Alfred, Hartwick, RIT, Nazareth, St. John Fisher, Stevens, Ithaca, and Elmira) as well as non-conference opponents in Utica College's geographic area.

7. Appropriate facilities, competent coaches, and competitive schedules are available to Utica College student athletes to assist them in reaching their athletic potential.

8. Emphasis is given to in-season competition; however, teams and individuals are encouraged and supported through post-season championships.

9. The athletic program is controlled, financed, and staffed through the same general procedures as other departments of the College.

10. Sports for men and women are given equal emphasis and the desired quality of competition is similar in all sports.

Gym lockers are available to all students on a space available basis for the entire academic year. A $5 deposit is required for each locker assignment. The student will receive a College lock to place on the locker and a towel for personal use. The towel must be returned each time to receive a clean towel. To obtain a locker assignment, go to the Athletic Office in the Harold Thomas Clark Jr. Athletic Center.

**Philosophy for Utica College Athletic Department**

1. The Athletic Department supports the College's academic mission by insisting on academic success to be eligible for participation in athletics. Athletics supports the Utica College mission to "create a community of learners with diverse experiences and perspectives..." Athletics enhance the liberal education of men and women by exposing them to cultural, ethnic, and individual differences. Student athletes learn to appreciate diversity in an environment of equality and mutual respect.

2. The Athletic Department supports the College's mission of "encouraging lifelong learning, and ... promoting scholarship in the belief that the discovery and application of knowledge enrich teaching and learning." Participation in athletics at Utica College gives student athletes opportunities for positive and realistic self-appraisal. The student athlete learns citizenship and ethics, develops social skills and leadership potential, and gains a stronger sense of independence.

3. The athletic program enriches the life of the campus and enhances the sense of community.

4. Intercollegiate sports participation is encouraged for as many students as possible.

5. The Athletic Department strives for broad participation through intercollegiate, club, and intramural sports. The department also emphasizes competitive excellence, sportsmanship, and positive attitudes.

6. The majority of scheduling is conducted with other Division III colleges in the Empire 8 Conference (Alfred, Hartwick, RIT, Nazareth, St. John Fisher, Stevens, Ithaca, and Elmira) as well as non-conference opponents in Utica College's geographic area.

7. Appropriate facilities, competent coaches, and competitive schedules are available to Utica College student athletes to assist them in reaching their athletic potential.

8. Emphasis is given to in-season competition; however, teams and individuals are encouraged and supported through post-season championships.

9. The athletic program is controlled, financed, and staffed through the same general procedures as other departments of the College.

10. Sports for men and women are given equal emphasis and the desired quality of competition is similar in all sports.

**Cultural Activities**

The **Edith Langley Barrett Fine Art Gallery**, located in the Library Concourse, offers exhibits featuring original works of visual art in the areas of drawing, painting, printmaking, sculpture, ceramics, graphic design, mixed media, art photography, book arts, fiber arts, installation art, and ethnological/historical/cultural exhibits. The gallery serves individual artists and small professional artist groups within central New York, as well as Utica College students, visiting artists, and local school students and teachers.

The **Micro-Art Gallery**, located in Strebel Student Center, provides the Utica College community with an opportunity to exhibit original works of art, works in progress, part of their art collections, or other displays of interest to the College community.

The **Playwriting Contest** is sponsored each year by the drama department. All are eligible to submit a short unpublished script. Winning entries receive cash awards and are produced in the spring semester.

**FILM@UC** is a weekly film series – sometimes thematic, sometimes eclectic – that challenges our assumptions about and enhances our appreciation of motion pictures. FILM@UC presents critically acclaimed independent, foreign language, experimental, and classic films throughout the semester, and regularly features distinguished filmmakers discussing and showing their work. Events take place in Macfarlane Auditorium and are free of charge. Students, faculty, staff, and the public are welcome to attend.

The **Utica College Theatre Department** presents two major productions each year. All full-time students are eligible to participate in theatre activities including acting, costume, make-up, set construction, painting, and lighting. (Academic credit may be received.)

The **Professor Harry F. and Mary Ruth Jackson Lunch Hour Series** presents a set of musical and literary programs each semester. Performances are given in the Library Concourse. All programs are free of charge and are open to students, faculty, staff, and the public.

The **Nexus Seminar Series**, a set of presentations by the College's faculty describing their research and scholarly pursuits, provides an opportunity for participants to explore new findings and viewpoints and share ideas among faculty, students, and the local community. The series is free and open to the public.

**Geotalk** lectures provide opportunities to learn about world geography in an interesting way. The series is free and open to the public.
RELIGIOUS ACTIVITIES AND ORGANIZATIONS

Utica College respects and protects each student’s freedom to worship and to affiliate with religious organizations. A number of campus organizations offer a variety of religious activities and services to students.

The Jewish Student Union

This group seeks to make the Jewish religion and its cultural values vital and relevant to the Utica College community.

The Newman Community

The Newman Community is the Catholic Church on campus with a chaplain appointed by the Syracuse diocese. Newman provides liturgical worship, cultural and educational activities, human development programs with community involvement, personal counseling preparation, and religious services. The Newman Community has a center on campus adjacent to Alumni Hall with facilities for Saturday and Sunday worship, a meditation chapel, a library, and a meeting room. The Newman Center is open to all students regardless of their religious affiliation, and it is available to campus organizations for a variety of activities. All students are welcome to be a part of Newman Center programs and participate in its activities.

Young Believers Christian Fellowship

The mission of Young Believers is to ensure that everyone has a great and intimate relationship with God. Values include intensive prayer, Bible discussion, obedience to the word of God, and commitment and dedication to the work of God.

Utica College Christian Fellowship

Utica College Christian Fellowship provides opportunity for many Christian activities and fellowship. The Christian Fellowship offers a weekly Bible Study, led by a local pastor. Students of any faith are welcome to join at any time.

CAMPUS DINING SERVICES

The Office of Campus Dining Services operates seven different locations on the Utica College campus. The Strebel Dining Commons, Pioneer Café & Subway, and Mellow Moose Pub are located in the Strebel Student Center. Le Bistro is located in the Gordon Science Center, Common Groups in the Gannett Library, and Trax Snax in North Hall.

Five residential dining plans are available:

- **Platinum Plan** - unlimited dining in Strebel Dining Commons plus $200 of Declining Balance per semester
- **Gold Plan** - unlimited dining in Strebel Dining Commons plus $100 of Declining Balance per semester
- **120 Block Plan** - any 120 meals in Strebel Dining Commons plus $200 of Declining Balance per semester
- **10 Rollover Plan** - 10 meals per week in Strebel Dining Commons plus $200 of Declining Balance per semester
- **7 Rollover Plan** - 7 meals per week at Strebel Dining Commons, plus $250 of Declining Balance per semester

In addition, several plans are available for commuter students. For more information contact the Office of Campus Dining Services at (315) 792-3178.

The last day to change a meal plan is the last day of add/drop each semester.

The office also offers special services including: catered events; bag lunches; a birthday service complete with a personalized cake, plates, and forks; picnics for groups of 40 or more; meals for ill students; and the preparation of doctor-approved special diets. Some of these services require a fee and/or advance notice; students interested in a particular service should contact the Campus Dining Services office for further information.

---

* First semester freshmen are required to be on one of the unlimited plans (either the Platinum or Gold Plan).

** Declining Balance is accepted like cash at any of the Campus Dining Services locations. It works on the same principle as a debit card. As purchases are made on campus, the total amount of your purchase is subtracted from your balance. You can add additional Declining Balance at any time through the Office of Campus Dining Services.

***Unused meals rollover each week but not to the next semester.
STUDENT ACTIVITIES

Utica College recognizes that much of the learning students experience on campus takes place informally, outside the classroom. For this reason, the College offers a wide range of cocurricular activities. By participating in campus governing bodies and policy-making groups; intramural or intercollegiate athletics; social groups and clubs; formal and informal performing groups; and special interest clubs of all kinds, students can meet and learn to work with many types of people while finding out what their own capabilities and interests are.

GOVERNING BODIES AND ACTIVITIES

The Student Senate is the voice of the Utica College student body. Every Spring there are elections for the executive officers of the Senate. In September there are elections for senate representatives from the classes, academic divisions, and living areas. Every full-time student pays the student activities fee which is governed by the Student Senate. The Student Senate helps keep Utica College responsive to student needs and concerns.

The Finance Committee hears budget requests from student organizations and recommends to the Student Senate appropriations for programs and activities.

The Classes each elect officers. The Classes sponsor a variety of social, recreational, and educational activities throughout the year.

The All-College Forum, the "town hall" body of the College, provides students, faculty, and professional staff the opportunity to discuss issues of significance to the College community. The College's governance structure includes several policy committees, all of which include student representation.

The Inter-Greek Council serves as the governing body for the fraternity and sorority system.

The Residence Hall Conduct Board is a student hearing board and an integral part of the student disciplinary system. Its purpose is to reinforce behavioral expectations of the Utica College community and to do so fairly and consistently. The RHCB serves the College residential community by assuming responsibility for determining if a violation of the Code of Student Conduct has occurred in the residence halls and by imposing sanctions when appropriate.

All residential students have the opportunity to become active members of the Residence Hall Association. The purpose of this council is to bring residents together and promote a positive residential community. It is a forum for residents to exchange ideas about programming, develop leadership skills, engage in community service, and work together in an effort to further improve the quality of life in the residence halls.

The Social Cultural Committee is the programming committee of the All-College Council. The Committee is comprised of students, faculty members, and professional and support staff. Emphasis in programming is placed on enhancing the educational and cultural climate of the campus. The committee is also responsible for soliciting ideas for the yearly campus theme, and organizing and supporting programming related to that theme.

The Programming Board is the programming arm of the Student Senate. The Board plans and implements a wide variety of social and cultural activities. Much of the work is done through committees that oversee comedy performances, films, lectures, concerts, coffeehouses, and special events.

ACADEMIC, MAJOR, AND CAREER-RELATED CLUBS

Accounting Society

The society is open to majors who have completed at least three terms of study in accounting with a C average.

Asa Gray Biological Society

Membership is automatic for all biology majors and faculty and is open to all students and faculty interested in the biological sciences. The society is named in honor of the great American botanist who was born in nearby Sauquoit and educated in the Utica area. The society expands and enriches the educational experience of students interested in biology through a variety of activities including seminars, colloquia, social events, and the publication of an alumni newsletter.

Association of Certified Fraud Examiners

The student chapter of the Association of Certified Fraud Examiners (ACFE) is one of five student chapters in the country of the global organization of certified fraud examiners. Members receive, as part of their membership fee, a copy of the ACFE bi-monthly Fraud magazine, discounted prices on local seminars, select books, manuals, self-study courses, and access to other ACFE resources. The chapter's mission is to have students and alumni...
take advantage of networking benefits and resources through the ACFE and educate the public, including corporations, on the risks of fraud and how they can be realistically prevented. Students whose majors encompass the detection or investigation of financial crimes are encouraged to become members. Additional information is available on the chapter site at http://acfe.utica.edu.

**Charles Drew Pre-Medical Society**

The purpose of this organization is to provide information and support to help ensure the success of Utica College students interested in the medical field. This organization also provides a forum for the discussion of issues pre-med students might face, and provides information on possible medical school programs to which students would be interested in applying. In addition, the organization establishes a network between students, faculty, and health professionals by organizing dinners and other social activities. The organization informs students about, and assists them in building contacts for, available internships, shadowing, volunteering, research, or jobs that may aid in the making of career decisions. Members also serve the community through volunteering at shelters, clinics, hospitals, or other service organizations.

**Criminal Justice Student Association**

The association is open to all full-time students having an interest in criminal justice. The purpose of the association is to acquaint its members with various criminal justice activities and procedures. The club sponsors a fall weekend trip to New York City where students are provided with a rare opportunity to spend eight hours riding along with New York City police officers. Spring events include a one day trip to the State Police Academy or other criminal justice facilities.

**Economic Crime Investigation Student Association (ECISA)**

ECISA is open to all full-time students having an interest in ECI, and strives to expand students’ opportunities within the field of economic crime. In addition to sponsoring programs and forums of interest to ECI students, every member works diligently towards the opportunity to attend the annual national conference of the Economic Crime Institute by helping with fundraising and giving time for volunteer activity. Juniors and seniors who are active in the association are invited to attend the conference, which is usually held in the Washington, D.C. area.

**Gamma Iota Sigma Professional Risk Management and Insurance Fraternity**

This organization, a chapter of Gamma Iota Sigma, provides students with opportunities to increase their understanding of risk management and insurance issues. Members network with industry professionals and other students with similar interests to enhance their career opportunities.

**Geology Club**

The purpose of the Geology Club is to enrich the minds of students in the Geoscience major or any other student willing to learn about the field of geology. Some of the goals of the club are to organize field trips to the many geologically historical places in and around central New York and for people interested in geology to get together.

**Graduate Student Association**

The Utica College Graduate Student Association (GSA) serves as a liaison to the College administration, faculty, and administrative offices on behalf of the graduate student population, including both our campus students and distance learning students. The GSA also regularly assesses and advocates for the needs of graduate students at Utica College; encourages graduate student participation in campus governance and campus life; collaborates with the Student Senate and other campus organizations in support of issues, programs, and services of mutual interest to undergraduate and graduate students.

**Harold Frederic English Society**

This club is named in honor of Harold Frederic, a native of Utica, New York and noted American novelist and journalist of the nineteenth century. The purpose of the society is to enrich the educational experience of students majoring in, or interested in, English and American literature, language, and culture. Through a variety of activities and events, members of the club will explore their interests in language and literature outside the classroom, and bring to the campus at large opportunities to do the same.

**Herodotus History Club**

The club was formed to foster the examination of topics of historical importance. It also seeks to help its membership in the pursuit of information regarding career options and graduate study.

**Honors Association of Utica College**

The Honors Association seeks to build a cohesive community primarily through service projects and cultural activities.

**Investment Association**

The purpose of the Investment Association is to allow students to gain experience and exposure to investing by taking part in managing a securities portfolio.

**James Sherman Society**

This group was named in honor of a distinguished former vice president of the United States who was a native Utican, and serves the intellectual interests of the Utica College community. The society sponsors lectures and discussions, helps prepare students for careers or professional schools, and acts as an advisory group to the government and politics faculty in planning and evaluating the government and politics major program.
Physical Therapy Society
The society is open to all physical therapy majors and students interested in applying to the program. Its purposes are to explore topics relevant to the profession, assist in the improvement of the program where appropriate, promote the profession and program to the local community, and engage in activities that benefit the local community.

Pioneer Builders
Pioneer Builders is open to students who are pursuing a Bachelor of Science degree in Construction Management. The purpose of the organization is to advance professional objectives of its members by developing a close relationship with and a broader understanding of the construction industry.

Psychology-Child Life Society
The club is open to all child life majors or other interested students. The purpose of the organization is to spread an awareness of the child life major throughout the campus and community. Throughout the year, the group sponsors several bake sales, flower sales, and a band in the Strebel Student Center. The main project for the year is Children and Hospitals Week, during which numerous activities are organized.

Psychology Society
Although the group is predominantly psychology majors, it is open to all students who wish to join. The group consists of students and faculty advisers who all share a strong interest in psychology and topics relating to it. The purpose of the group is to search out careers and opportunities in, and become better acquainted with, the various fields of psychology; to promote understanding and cooperation between faculty and students in psychology; and to work together in improving the curriculum for psychology majors.

Public Relations Student Society of America (PRSSA)
The society is a national organization of public relations students and is affiliated with the Public Relations Society of America. The College's Raymond Simon Chapter was the second chapter to be organized in this national society. The UC group meets monthly and sponsors a wide variety of activities, including an annual spring trip to visit public relations firms.

Society for Collegiate Journalists
The Society for Collegiate Journalists is an organization of students who want to keep others abreast of what is happening in the media today.

Student Affiliates of the American Chemical Society
This group exists to promote the public’s perception and understanding of chemistry and chemical science through public outreach programs and public awareness campaigns. In addition, the group provides opportunity for peer interaction for students in the sciences.

The Society for Human Resource Management (SHRM), Utica College Student Chapter
The chapter is open to all students interested in the field of human resource management. The UC chapter is a student chapter of the national organization, which is made up of professional human resource managers. Members receive numerous publications from the national headquarters plus many other benefits and services. The UC chapter meets regularly throughout the year for workshops, discussions, and guest lectures given by experienced human resource managers.

Student Gerontology Society
This is an academic society/club formed to increase awareness about and generate interest in the study of aging. The society serves as a vehicle for engaging students in educational and social programs that will assist them in participating in their communities and in their professions.

Student Occupational Therapy Association (SOTA)
This student organization is open to occupational therapy majors and is affiliated with the American Occupational Therapy Association. Its purpose is to provide community service through various projects, information to promote a wider understanding of the profession and encourage professional activity and development at the student level.

Student Nurses Association
The association is open to all students in the Utica College nursing program. Its purpose is to promote interaction among students and professional persons in order to promote a wider understanding of the nursing profession.

Therapeutic Recreation Society
The society is open to all therapeutic recreation majors and interested students.

UC-Student Teacher Education Program (UC-STEP)
UC-STEP is open to any student who expresses an interest in the field of education. The purpose of the organization is to encourage a coalition among Utica College students who are interested in the education field, thus increasing participation in academic issues relevant to education, and to develop a professional atmosphere by promoting interaction between students and faculty.

HONORARY SOCIETIES

Alpha Phi Sigma - Criminal Justice Honor Society
This is the National Criminal Justice Honor Society. Alpha Phi Sigma recognizes students who are excelling in either the Criminal Justice,
Asian Association
Asian Association is a cultural club formed to increase the awareness of Asian cultures across campus and in our local community through involvement in community service, fundraising activities, trips, films, cultural performances and social events.

Black Student Union (BSU)
The Black Student Union is an organization whose purpose is to promote awareness of the African American culture. The organization’s function is to help establish diversity and unity throughout the Utica College campus as well as the community. This is done by holding both social and educational events. Everyone is welcome to join, no matter what race, religion, nationality or creed.

Brothers on a New Direction (B.O.N.D.)
B.O.N.D. is an organization of men of all races and nationalities organized to promote awareness and understanding of the cultures, traditions, and history of the African-American people.

Caribbean Connection
The Caribbean Connection provides the Utica College community with exposure to the traditions and customs of the various West Indian cultures through festivals, workshops, and other special events.

French Club
This group joins together for the purpose of promoting French language and culture through activities both on the Utica College campus and educational trips and events.

Gospel Choir
The choir believes in maintaining a religious atmosphere through song. Students learn to sing together and take opportunities to perform on campus and in the community. The choir provides important exposure to the African-American gospel experience.

International Students Club
Through social and educational activities, the International Students Club brings together American and foreign students to enhance understanding of different cultures. The club also acts as a support group for newly arrived international students, helping them acclimate to American college life. Membership is open to all students.

Latin American Student Union (LASU)
The union serves the interests of Latin American students and educates the College community about the Latin American experience. LASU recruits Latin

Cultural Organizations

Africa in Motion (AIM)
AIM celebrates the rhythm and spirit of African and Latino music through dance, spiritual movement, singing, and poetry. AIM is an ensemble of both men and women who perform on the Utica College campus and in the surrounding area. All students are encouraged to join.
American students; sponsors speakers, movies, workshops, and cultural activities; and operates a tutoring program for Latin American students.

**Prestige**

Prestige promotes unity and spirit through step dancing. This club is open to any student interested in performing on the College campus and in the surrounding community, while fostering diversity, equality, and the utmost mutual respect for our peers, faculty and local community members.

**Utica College Concert Band**

The Utica College Concert Band rehearses on Monday nights in the Library Concourse. Membership is open to staff, students, and community members. The band performs on campus and in the Utica-Rome area for various functions.

**W.I.N.D. (Women in a New Direction)**

This group aims to promote unity between male and female students on the Utica College campus by working together with B.O.N.D. as brothers and sisters.

**Political/Social Consciousness Organizations**

**Social Science Club/The Culture Crewe**

The purpose of the Social Science Club/Culture Crewe is to provide students of any major with a community where they can pursue educational, professional, and socio-cultural experiences. Networking, socialization activities, and fieldtrips will provide students with information on socially conscious and practical careers, and promote social and cultural awareness across academic disciplines and interests.

**UC PRIDE (People Respecting Intimacy and Diversity Everywhere)**

The major goal of this group is to offer positive educational information to Utica College and its extended community in order to encourage wider knowledge and understanding of gay men, lesbians, bisexuals, and transgendered individuals. The group offers a confidential, informal atmosphere where students can meet other students like themselves, discuss matters of concern, develop and use a body of supportive resources, and socially interact. Currently, contact with the group can be made through the Office of Student Affairs.

**V-Day at UC**

V-Day is a global movement to end violence against women and girls that raises funds and awareness through benefit productions of playwright/founder Eve Ensler's award winning play, The Vagina Monologues, and related activities.

**The Womyn's Resource Center**

The Utica College Womyn's Resource Center was established in 1990. Its recognized goal is the empowerment of all women through education, mutual support, and growth. The center is staffed by students and provides reading resources, referrals, networking opportunities, and programs addressing the wide range of issues women of all ages, races, religions, and lifestyles confront on a daily basis.

**Recreational Clubs**

**Aikido Club**

The purpose of this organization is to give members of the Utica College community the opportunity to practice Aikido, a traditional Japanese martial art. Aikido is a defensive martial art which employs joint locks and throws to neutralize attacks. No previous martial arts experience is necessary to participate.

**Dance Club**

The Dance Club was formed to encourage dancing arts, coordination skills, community-building, and diversity. This club will also help students stay healthy physically and mentally. The Dance Club is open to the college community.

**Gaming Club**

The purpose of the UC Gaming Club is to bring together students who are interested in gaming to discuss both current and past video games and their platforms. This group will also aim to enhance gaming experiences on campus by way of a public reviewing system, as well as various events and/or projects.

**Knitters Anonymous**

The purpose of this organization is to unify individuals within Utica College who are skilled in knitting and crocheting as well as those who have an interest to learn. This club will provide an environment for students to share their knitting/crocheting skills with one another. As a result of joint abilities, this group intends to contribute to the community and to those in need through the creation of knitted/crochet projects.

**TV Club**

The TV Club was formed to make Utica College students, faculty, and staff more informed about various events occurring on campus and to fully utilize the broadcast studio located on the lower level of the Faculty Center.
Religious Activities and Organizations

Utica College respects and protects each student’s freedom to worship and to affiliate with religious organizations. A number of campus organizations offer a variety of religious activities and services to students.

The Jewish Student Union

This group seeks to make the Jewish religion and its cultural values vital and relevant to the Utica College community.

The Newman Community

The Newman Community is the Catholic Church on campus with a chaplain appointed by the Syracuse diocese. Newman provides liturgical worship, cultural and educational activities, human development programs with community involvement, personal counseling preparation, and religious services. The Newman Community has a center on campus adjacent to Alumni Hall with facilities for Saturday and Sunday worship, a meditation chapel, a library, and a meeting room. The Newman Center is open to all students regardless of their religious affiliation, and it is available to campus organizations for a variety of activities. All students are welcome to be a part of Newman Center programs and participate in its activities.

Young Believers Christian Fellowship

The mission of Young Believers is to ensure that everyone has a great and intimate relationship with God. Values include intensive prayer, Bible discussion, obedience to the word of God, and commitment and dedication to the work of God.

Utica College Christian Fellowship

Utica College Christian Fellowship provides opportunity for many Christian activities and fellowship. The Christian Fellowship offers a weekly Bible Study, led by a local pastor. Students of any faith are welcome to join at any time.

Special Interest Organizations

Autism Awareness

This club’s purpose is to educate and spread awareness of Autism through lectures, fundraisers, and events. Also, it is to help individuals understand about Autistic people and how Autism affects the individual and their family and friends. The club also helps prepare people in case their child is diagnosed with Autism.

Circle K

Circle K is an international student service organization affiliated with Kiwanis International. It is an organization that builds a person’s leadership skills, and its outreach is responsible, friendly and courteous. Circle K gives back and does things for the community while building character.

Disability and Disorder Society

The Disability and Disorder Society’s mission is to spread awareness of the different types of disabilities and disorders by holding lectures and doing fundraisers.

Military Supporters of Utica College

The goals of Military Supporters of Utica College are to foster a good relationship between the ROTC Department and the campus at large, and to provide a social forum for the members who share common interests.

Open Moments

The purpose of Open Moments is to provide a place where the students’ voices won’t fall on deaf ears. This organization is named for freedoms we should uphold and define through our writing. As poets we speak and write what we see, feel, hear, taste, and smell and share that with all.

Study Buddy Club

This group offers tutoring and mentoring for at-risk middle and high school youth in the Utica Public School System.
Fraternities and Sororities

Fraternities and sororities are affiliated with the Inter-Greek Council (IGC). The IGC establishes and enforces policies governing the fraternities and sororities. The council also approves fraternity and sorority programs and events. Rush is conducted on an independent basis by each organization. Students may pledge a Greek organization after their first semester at UC provided they are in good academic and disciplinary standing. For additional information, please see the IGC Web page at www.utica.edu/igc. For more information on honorary societies please see page 63 in this catalog.

Fraternities

Alpha Phi Delta
National fraternity whose Beta Iota chapter was founded at Utica College in 1949.

Lambda Sigma Upsilon
National Latino fraternity founded at Utica College in 2009.

Phi Beta Sigma
National fraternity whose Omicron Alpha chapter was re-established at Utica College in 2010.

Phi Iota Alpha
National Latino Fraternity founded in 2004 at Utica College

Sororities

Alpha Kappa Alpha

Chi Beta Sigma
Local sorority and the first Greek organization established at UC in 1946.

Omega Phi Beta
National Latina sorority whose chapter was recognized at Utica College in 2009.

Phi Sigma Sigma
National social sorority whose Epsilon Omega chapter was established in 1990.

Sigma Iota Alpha
National Latina Sorority founded at Utica College in 2010.

Theta Phi Alpha
National sorority whose Gamma Omicron chapter was established in 2008.

Media

Ampersand is the campus literary magazine. Students are invited to submit their poetry, artwork, photography, and short stories. It is published once a year.

The Legacy is the Utica College yearbook. Students are needed to help with photography, layout, writing, proofreading, and artwork.

The Tangerine is the student-produced weekly newspaper. There are many opportunities for students to participate in both the editorial and advertising areas. Students of all majors are welcome to interview for staff positions as writers, editors, layout designers, reviewers, and photographers, and in advertising sales.

UCTV is a co-curricular student organization that writes, produces, and edits public service announcements (PSA) promoting the College’s majors, minors, departments, and other student organizations. UCTV is open to all majors, and can be taken up to four times for credit. This organization is designed to teach all students what it takes to produce a quality PSA or commercial as well as help stream College events, such as Commencement, on the College Web site.

WPNR-FM, the Utica College radio station, is a student-run, fully operational, non-commercial, educational facility. The station’s two studios and administrative offices are located on the second floor of the Strebel Student Center. WPNR-FM, 90.7, broadcasts to the greater Utica area on a regular schedule during the academic year. Students serve as managers, directors, and disc jockeys. Programming is varied and includes music, sports, and special-interest shows. UC students can apply for all positions on the staff.

Hazing in New York state is against the law and against the rules of Utica College. Hazing of any type is not tolerated.

Specifically, the law prohibits “acts which recklessly or intentionally endanger mental or physical health or involve the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization.”

Generally, it is a violation of the law and Utica College’s rules whether or not participation in these acts is voluntary.
ADMISSION TO UTICA COLLEGE

Utica College is a selective institution that offers excellent academic and cocurricular programs. The College seeks to enroll those students who will benefit from the opportunities and advantages of UC’s distinctly personalized college environment, and who will contribute to the intellectual, social, and cultural diversity of the College community.

Admission to Utica College is selective and each applicant receives individual consideration. Prospective undergraduate students are required to submit a completed application form, high school or college transcripts, a personal essay, an application fee or a request for fee waiver, and a counselor or teacher recommendation. The admissions committee prefers to receive SAT I or ACT scores, but they are required only for freshmen applying to the physical therapy program, the occupational therapy program, the nursing program, joint health professions programs, the Higher Education Opportunity Program (HEOP), or for academic scholarships. Individual major programs may require additional information. Applicants are strongly encouraged to visit the campus for a personal interview with the admissions staff.

Admissions decisions are based on a comprehensive evaluation of submitted criteria: past academic performance including course of study, GPA, rank in class; cocurricular involvement; personal characteristics; and the applicant’s potential for academic and personal success at the College. Utica College values diversity on its campus and encourages applications from students of different heritages, beliefs, and backgrounds.

Requests for application materials should be directed to the Office of Admissions, Utica College, 1600 Burrstone Road, Utica, NY 13502-4892, by e-mail to admiss@utica.edu. Interviews and campus visits may be scheduled by contacting the office at (315) 792-3006 or at 1-800-782-8884. Appointments are available Monday through Friday throughout the year, and selected Saturdays during the school year. More information can be found at www.utica.edu.

Information and applications for graduate study are available from the Office of Graduate Admissions, Utica College, 1600 Burrstone Road, Utica, NY 13502-4892, by e-mail at gradstudies@utica.edu, or by calling (315) 792-3010.

ADMISSION REQUIREMENTS

Freshman applicants should complete at least 16 units of secondary school credit and receive a diploma from an accredited secondary school. It is recommended that students follow a college preparatory program that includes at least four units of study in English, three units in social studies, three units in mathematics, three units in science, and two in a foreign language. Applicants submitting a high school equivalency diploma are not required to have completed 16 secondary school units; however, they must have earned equivalency scores that indicate adequate preparation for college level work.

ADMISSION PROCESS

Utica College conducts a rolling admissions program. The earlier an application is filed, the sooner a decision is made. It is recommended that students apply early in their senior year of high school. Application review begins in mid-October and extends until the class is filled. Individual majors that are especially competitive may be fully enrolled as early as January. The Office of Admissions prefers that applicants for the physical therapy program, the occupational therapy program, joint health professions programs, and academic scholarships complete their applications by January 15. For those applying to the nursing program, there is a preferred deadline of February 15. For those applying to the Higher Education Opportunity Program (HEOP), the application deadline is March 1.

DEFERRED ADMISSION

Students who wish to take time off before enrolling in college may elect to have their admission deferred for a semester or a year by submitting a written request to the director of admissions.* A non-refundable tuition deposit ($200) will be required to hold a place in the subsequent entering class.

EARLY ADMISSION

Students who demonstrate sufficient academic strength and a readiness to accept the challenges of college-level work following the junior year of high school may apply for admission to Utica College through the Early Admission option. Students admitted through Early Admission will receive a high school diploma after completing the freshman year of full-time study at Utica College.

*During the interim, a deferred student may not attend any college or university.
To apply for Early Admission, students should follow the standard freshman application process. In addition, they must submit letters from their parents and guidance counselor supporting their candidacy, and a reference from the teacher of an academic subject with whom they have studied indicating their readiness for college study. A personal interview on campus is required.

Transfer Student Admissions

Transfer students follow the same basic application process as freshman applicants. However, transfer applicants who have completed 30 semester hours of college study can be evaluated on the basis of their college transcripts and need not submit high school records.

Transfer credit is generally awarded for courses from regionally accredited institutions that are comparable to those offered at Utica College, provided the student has earned a grade of C or better. A transfer credit evaluation is completed by the registrar at the time the student is accepted for admission.

Candidates for the baccalaureate degree must satisfactorily complete a minimum of 30 credit hours of study at Utica College. A maximum of 90 – 98 credits may be transferred from four-year institutions, and 60 – 64 from two-year institutions, depending on one’s academic major. Applicants to certificate programs may transfer up to 15 credit hours. Transfer students who matriculate with 60 or more credits need to declare a major upon entering Utica College.

Transfer students matriculating with an associate’s degree or 57 credits from a four-year institution will be exempt from Components One and Two of General Education Core. Transfer students matriculating without an associate’s degree or 57 credits from a four-year institution who have completed basic skill requirements in writing, math, speech, or foreign language at another institution are exempt from corresponding requirements in Component One of General Education Core. Component Three, Writing-intensive Courses, must be completed as described for transfer students in this catalog and in the Utica College Advising Manual.

Transfer students matriculating with at least 30 credits of liberal arts and sciences with at least two courses in each of the three areas of Component Two, including a lab science, will be exempt from Component Two. Transfer students with at least 30 credits of liberal arts and sciences but fewer than two courses in any of the three areas or lacking a lab science must take whatever additional General Education Core courses that are necessary to equal two in each area, including a lab science, to complete Component Two of General Education Core. Transfer students with fewer than 30 credits of liberal arts and sciences must complete all of the requirements for Component Two of General Education Core. (Students seeking an exemption from Written Communication I or Written Communication II should apply to the Basic Studies Committee of the English department in their first semester at Utica College.)

International Student Admissions

International students enhance the cultural richness and diversity of a campus community. Utica College welcomes applications from international students and seeks to enroll those who have demonstrated academic potential in their home countries. Students whose native language is not English are required to submit proof of their proficiency in English. TOEFL (525/195), IELTS (6.0), and MELAB (73 – 75), and SAT scores will be accepted. International students will also be required to take additional English courses (ENG 100/101/102) to prepare them for future writing-intensive courses and assignments at Utica College.

International students may complete the Utica College application or the Common Application. The International Student Certification of Finances Form, along with third part verification, must accompany the application. The U.S. Citizenship and Immigration Services (formerly the Immigration and Naturalization Service) requires this information. While an admission decision can be made without this financial documentation, the I-20 form cannot be issued until this document and third party verification of funding are received.

Entering students who score satisfactorily on the Advanced Placement tests, the International Baccalaureate examinations, or an equivalent examination may be awarded advanced placement and credit for their academic work.

International transfer students are welcome at Utica College and will receive credit for their past academic work from accredited colleges and universities. Transcripts submitted for consideration of transfer credits must have an official translation into English. We recommend that you submit your transcripts to a recognized professional credential evaluation service.

Non-matriculated Students

Individuals may register for undergraduate classes as non-matriculated for a total of 15 credit hours, on a space-available basis, provided their total accrued number of credits does not exceed 75. After this point students are required to matriculate so that they may be assigned an academic adviser.

Non-matriculated students interested in taking graduate courses are limited to a total of six credit hours unless otherwise proscribed by the graduate program. (See graduate catalog for additional requirements.)

Students seeking to take additional credit hours may apply for a waiver of this policy by submitting a written request to the Office of Graduate Studies.
Special Admission Programs

Opportunity Programs

Students who are eligible may be admitted to Utica College through the Higher Education Opportunity Program (HEOP), which offers support and assistance to New York State residents who meet certain educational and financial guidelines. (See Higher Education Opportunities Program in the “Undergraduate Programs” section of this catalog.)

The Collegiate Science and Technology Entry Program (CSTEP) is also a New York state-sponsored program that provides support and assistance to New York state residents. Students must be members of CSTEP-targeted student populations (African American, Latino, Native American, or low-income* Caucasian or Asian American) and pursuing degrees in CSTEP-targeted professions (accounting-CPA, biology/pre-med, math/science teaching, nursing, occupational therapy, physical therapy, pre-law, and psychology-child life). The program is open to new as well as continuing students. However, continuing students must have earned the required cumulative grade point average along with other criteria to be eligible for consideration. (See Collegiate Science and Technology Entry Program in the “Undergraduate Programs” section of this catalog.)

Joint Health Professions Programs

Applicants to the College also may apply for admission to seven-year joint programs the College maintains with several schools in the health professions. These programs lead to both the bachelor’s and professional degrees.

Further information about these programs can be found under Joint Health Professions Programs in the “Undergraduate Programs” section of this catalog. Specific information about the application process is available from the Office of Admissions.

Three-Year Study Option

Applicants for all bachelor’s degree programs may qualify for the Three-Year Study Option. Students in this program earn up to 30 hours of credit through the College Level Examination Program, General Exam. This credit applies to the College’s general education requirements.

Information about these examinations can be found under Competency and Experience Credit in the “Undergraduate Programs” section of this catalog. Transfer students who have taken these examinations for credit at other institutions also may qualify. For complete instructions regarding admission to the Three-Year Study Option, write to the Office of Admissions.

Veterans

Veterans of the Armed Services are encouraged to apply for admission to Utica College. Counselors are available on campus to assist veterans with admission, academic planning, and financing of their education. In many cases, test requirements may be waived and credits for service training and experience may be granted. Opportunities to pursue study on a part-time basis through the Office of Graduate Studies should be investigated, as well as advanced course status in ROTC. Veterans are eligible to receive a monthly training allowance from the Veterans Administration provided they make timely application to the VA and select an appropriate training program. Deadline dates for application do not apply to veterans. Address all inquiries to the Director of Admissions, Utica College, 1600 Burrstone Road, Utica, NY 13502-4892.

Readmission

All students seeking readmission should apply through the Office of the Registrar. (A readmit is one who was previously enrolled at Utica College and is returning.) Students who have attended another institution(s) in the interim are required to have a copy of their official transcript from those institutions sent to the Office of the Registrar.

Students who are readmitted need to meet the requirements for graduation that are found in the catalog for the year the student is readmitted. Upon readmission, students should consult with an advisor or the coordinator of the department for their major to determine the requirements for graduation.

A student whose attendance at Utica College has been interrupted for an extended period of time (usually at least 10 years) may petition the Academic Standards Committee to restart his or her college record on the following terms:

1. All previous credits currently on the Utica College record (from any institution) shall be excluded.
2. Excluded transfer credits shall not be reapplied.
3. The record of all previous work will continue to appear on the student's official transcript, even though the College will not take this previous credit into account in calculating current credit or GPA.
4. This option may be used only once by each student and must be exercised at time of readmission.

Special Students

Students who do not wish to be considered a candidate for a degree may, with permission of the Office of the Registrar, take limited courses in the day program if space is available.

*As documented by the New York State Education Department's income guidelines.
TUITION AND EXPENSES

Tuition at Utica College for the 2011-12 academic year is $29,476 a year, payable on the basis of $14,738 per semester, plus a student activities fee of $60, a technology fee of $100 and a health and safety fee of $100 per term. In addition, there is a fee of $50 per term for each laboratory science course ($100 for Gross Anatomy) and for occupational therapy laboratory courses. In the face of rising costs, charges will be subject to change. Students should add at least $1,180 to their annual college budget for books and supplies. Winter Session and Summer Session fees and credits are published in their respective course schedules.

Students who plan to live in the residence halls should budget $11,650 per school year for a double room in North or South Hall. A single room in North or South Hall is $12,226. A double room in Burrstone House is $11,650 and $11,880 in Alumni Hall. A single room in Boehlert Hall, Tower Hall, or Bell Hall is $12,640 and a double room is $12,120. These rates include the Gold Plan in the College dining hall; $200 may be deducted from these rates for students selecting the 7-meal plan. See “Schedule of Tuition, Fees, and Deposits.”

Due to the many variables in computing off-campus expenses for food and lodging (e.g., students sharing expenses, availability of transportation, etc.), students should consider off-campus expenses to be at least equal to those for students living on campus. The director of residence life maintains an up-to-date list of available off-campus housing and expenses for use by upperclassmen or transfer students.

Deferred Payment

Although tuition is due and payable at registration for main campus undergraduate students, arrangements for deferred payments may be made with the Office of Student Financial Services for Fall and Spring terms. To defer tuition, students must pay at least one-third upon the billing due date. There is a $75 fee to defer balances of $350 or more. If the deferred balance is less than $350, the fee is $40. This remaining balance will be payable in two monthly installments during the course of the semester.

Credit Hour Charges

Full tuition is charged for both day and continuing education students for 12 credit hours with a maximum of 19 hours for all majors. For each credit hour above this limit, students will be charged $995 per credit hour.

Permission to register for more than nine credits during the summer session will be granted only on approval by either the school dean (for matriculated students).

Day students carrying less than 12 hours are charged at the rate of $995 per credit hour.

Independent study, not part of a full-time program, is charged at the main campus undergraduate rate, when taken.

Tuition for advanced and experience credit is $365 per credit hour.

Financial Responsibility

All students are responsible for any College debts they have incurred, including library fees, parking fines, tuition charges, fees, monetary penalties, fines, and any changes in their financial aid packages. A student will not receive his or her transcript until all bills have been paid. A student who is graduating will not receive his or her diploma until all outstanding debts have been paid.

If a College debt must be referred to outside sources for collection, the student will be responsible for paying any additional collection costs including, but not limited to, reasonable attorneys’ fees and disbursements.

FINANCIAL AID

GENERAL POLICY STATEMENT

The majority of Utica College’s financial assistance is provided to enable promising students to attend the College if family and personal resources are inadequate to support a college education. Promise is evaluated according to academic record (grades, rank in class, standardized tests, recommendations, community service, etc.) and personal achievements. Although it is not guaranteed, the College expects to continue to offer aid throughout the student’s education, provided that the student continues to demonstrate need, applies by the deadlines, and meets the academic achievement standards outlined on the following pages. A student who enters as a freshman will not normally be aided from College and state administered funds for more than eight semesters. Some federal funds may be available if a student requires more than eight semesters to complete a bachelor’s degree program. A transfer student can expect to be aided from federal and College administered funds for the number of credit hours required to complete bachelor’s degree requirements, providing academic standards are met. Freshman students who require developmental education may qualify for special developmental aid in addition to eight semesters of eligibility. Through the Higher Education Opportunity Program (HEOP), students may receive aid if educationally and financially disadvantaged. HEOP students who enter as freshmen may be aided for a maximum of 10 semesters from all sources. An HEOP transfer student can expect to receive up to 10 semesters of aid less any semesters used prior to transfer. The amount of need-based financial assistance awarded is based on the financial analysis systems of Utica College and the Federal Student Aid Program. Many factors are considered in determining need. The cost of attending Utica College is compared to the income, assets, and liabilities of the student and parents. Every effort is made to consider individual financial situations or any special circumstances. Students are expected to contribute from their own savings and earnings, and parents are expected to make a reasonable contribution based on an evaluation of their ability to pay.

TYPES OF ASSISTANCE

There are two main types of assistance: gift aid and self-help aid. Gift aid includes grants and scholarships that are direct awards and repayment is not required.

Self-help aid includes loans, work opportunities, internships, and tuition waivers for service to the College. Federal loans usually are guaranteed and offered at low interest; repayment usually is due after the student leaves college. The College provides work opportunities under the Federal Work-Study Program and the Student Payroll Program. Internships are positions requiring near-professional level skills and require year-round commitment. Internships generally are available only to juniors and seniors.

All forms of aid are awarded on an annual basis. Students are responsible for reapplying each year.

SOURCES OF ASSISTANCE

There are three major sources of financial aid: the College, the federal government, and the state government.

Financial Aid Available through the College

College-Sponsored Grants and Scholarships

A variety of scholarships and grants are available to assist students and their families with educational costs. Most scholarship recipients must be full-time (12 hours per semester) main campus matriculated students. Students who wish to be considered for need-based scholarships must have completed all required financial aid forms. For a complete listing of these scholarships, please refer to the “Scholarships, Grants, and Awards” section of this catalog or on the UC Web site at www.utica.edu/sfs.

The College also provides grant funds annually to students who are matriculated full-time on the basis of financial need and academic promise.

Student Employment

College-Sponsored Internships: Work Opportunities

Federal Work-Study Program (FWSP)

Application Procedure. Eligibility to participate is determined through the financial aid process. This need based program is jointly funded by the Federal government and Utica College.
Selection of Recipients and Allocation of Awards. The applicant must be enrolled at least half-time at Utica College. Utica College makes employment reasonably available to all eligible students in the institution who are in need of financial aid. In the event that more students are eligible for FWSP than there are funds available, preference is given to students who have the greatest financial need and who must earn a part of their educational expenses. FWSP has been amended to encourage FWSP recipients to participate in community-based service. Students must be in good academic standing and have at least a 2.0 GPA to be considered for employment.

Award Schedule. Factors considered by the Office of Student Financial Services in determining whether, and how many hours, the applicant may work under this program are: financial need; class schedule; and academic progress.

Students are paid on an hourly basis at the current federal minimum wage or higher, depending on the type of work performed and the skills required.

Rights and Responsibilities of Recipients. Satisfactory job performance and maintenance of at least a 2.0 GPA are required to maintain a FWSP position.

Students terminated from employment due to failure to meet job expectations are eligible to reapply for employment one year from the date of termination.

Internships:

Application Procedure. Internship openings are advertised by the Office of Student Employment, in the College Day Sheet, and/or in the College newspaper. Applications should be made to the indicated College official.

Selection of Recipients and Allocation of Awards. Recipients will be selected on the basis of their ability to perform the work required in the position. Recipients must be matriculated students maintaining full-time status. Students must be in good academic standing to be considered for employment.

Award Schedule. Payment is made to students on an hourly basis.

Rights and Responsibilities. Satisfactory job performance and maintenance of at least a 2.0 GPA is required for continued employment.

Students terminated from employment due to failure to meet job expectations are eligible to reapply for employment one year from the date of termination.

Student Payroll:

Application Procedure. The Office of Student Employment has some openings for on-campus positions for students who are not eligible for work-study. Eligibility for student payroll is determined by the Office of Student Employment (see “Federal Work-Study”). For details, contact the Office of Student Employment.

Selection of Recipients and Allocation of Awards. Applicants must be enrolled at least half-time at Utica College. Utica College makes employment reasonably available to all eligible students. In the event that there are more students who are eligible than funds available, a waiting list will be maintained in the Office of Student Employment. Students must be in good academic standing and have at least a 2.0 GPA to be considered for employment.

Award Schedule. Payment is made to students on an hourly wage basis.

Rights and Responsibilities. Satisfactory job performance and maintenance of at least a 2.0 GPA is required for continued employment.

Students terminated from employment due to failure to meet job expectations are eligible to reapply for employment one year from the date of termination.

Federal Supplemental Educational Opportunity Grants (FSEOG)

Application Procedure. Application for these federally funded grants is through filing the current FAFSA (Free Application for Federal Student Aid). Utica College Student Financial Services Administrators are responsible for determining who receives a Supplemental Grant, as well as the amount.

Selection of Recipients and Allocation of Awards. Students must be in exceptional financial need, to the extent that without a Supplemental Grant Award their education could not be continued.

Rights and Responsibilities of Recipients. Students must continue to make satisfactory academic progress.

Higher Education Opportunity Program (HEOP) Grants:

Application Procedure. Application for this New York state-sponsored program is through the Utica College Office of Admissions at the time of admission.

Selection of Recipients and Allocation of Awards. The student must be: (1) a New York state resident; (2) an admitted matriculated undergraduate student at Utica College; and (3) academically and economically disadvantaged according to guidelines approved by the New York State Education Department. Selection of eligible applicants for participation in HEOP is conducted by the Utica College Higher Education Opportunity Program at the time of admission.

Award Schedule. The amount of financial assistance and other support provided to HEOP participants is dependent on need as determined by Utica College, within the state guidelines.

Rights and Responsibilities. Students must continue to make satisfactory academic progress. Contact the Office of Student Financial Services for details.
Collegiate Science and Technology Entry Program (CSTEP):

Application Procedure. Application is through the Utica College Office of Admissions for first time students. Continuing students may apply through the Office of Opportunity Programs.

Selection of Recipients and Allocation of Awards. Similar to HEOP, CSTEP is also a New York state-sponsored program and students must be New York state residents. Additionally, students must be a member of a CSTEP-targeted student population, be a matriculated student pursuing a degree in a CSTEP-targeted profession, and have earned the required cumulative grade point average.

Although CSTEP is not a financial aid program, it does provide financial assistance toward the cost of textbooks. The major emphasis of CSTEP is professional developmental activities for CSTEP students.

Aid for Part-Time Study (APTS):

Application Procedure. Application is made through the Utica College Office of Student Financial Services on an APTS application.

Selection of Recipients and Allocation of Awards. A student must be a New York state resident and a U.S. citizen or permanent resident alien, paroled refugee, or a conditional admit to the United States. He or she also must be a matriculated student at Utica College carrying between three and 11 hours.

Award Schedule. The award ranges from $1 to $2,000 per year.

Rights and Responsibilities. Students must continue to make satisfactory academic progress and apply for APTS annually.

Federal Perkins Loan

Application Procedure. Application is made through the Utica College Office of Student Financial Services for this program, which is jointly financed by the federal government and Utica College. Forms, as well as specialized information on loan cancellation provisions for borrowers who go into certain fields of teaching or specified military duty, etc., are available from the Office of Student Financial Services.

Selection of Recipients and Allocation of Awards. Loans are available to students enrolled at least half-time at Utica College.

Rights and Responsibilities of Recipients. The current interest rate, payable during the repayment period, is 5 percent on the unpaid principal. Repayment begins nine months after graduation or leaving school, and may extend up to 10 years. Payments can be postponed for up to three years during active U.S. military service; service in the Peace Corps, VISTA, Public Health Service, or similar national programs; completion of required internships; or recovery from a temporary disability.

Financial Aid Available through the Federal Government

Federal Pell Grant

The completed application should be submitted for processing according to the directions included on it. Students then will receive a calculated Student Aid Report (SAR). Based on this report, the Utica College Office of Student Financial Services will determine the amount of the student's award. Upon enrollment, funds are credited to the student's institutional account.

Method of Selection of Recipients and Allocation of Awards. Eligibility for the Pell Grant Program is determined by federal formula. Scholastic accomplishment has no bearing on eligibility. A recipient must be enrolled as an undergraduate student at Utica College and must need financial assistance to continue his or her education.

Financial need is determined by a formula applied to all applicants. It was developed by the U.S. Department of Education and is reviewed annually by Congress. The family contribution is calculated by this formula.

Award Schedule. Currently full-time awards range from $555 to $5,550. The amount of the award will be affected by costs of attendance, expected family contribution, and full- or part-time enrollment status. The Pell Grant award is not duplicative of New York state awards described below.

Rights and Responsibilities of Recipients. Students must continue to make satisfactory academic progress in the program in which they are enrolled. They must not owe any refunds on the Pell Grant or other awards paid, or be in default on repayment of any student loan.

Award payments are made by credit to the student's Utica College account.

United States Bureau of Indian Affairs Aid to Native Americans (Higher Education Assistance Program)

Application Procedure. Application forms may be obtained from the Bureau of Indian Affairs Office. An application is necessary for each year of study.

Each first-time applicant must obtain tribal enrollment certification from the Bureau, agency, or tribe that records enrollment for the tribe.

Selection of Recipients and Allocation of Awards. To be eligible, a student must: (1) be at least one-fourth American Indian, Eskimo, or Aleut; (2) be an enrolled member of a tribe, band, or group recognized by the Bureau of Indian Affairs; (3) be enrolled in or accepted for enrollment at Utica College, pursuing at least a four-year degree; and (4) have financial need.

Rights and Responsibilities of Recipients. For grants to be awarded in successive years, students must make satisfactory progress toward a degree, and show financial need. Depending on availability of funds, grants also may be made to summer session students. Eligible married students also may
Veterans (VA) Educational Benefits

Application Procedure. Application forms are available at VA offices, the VA Web site (www.va.gov), active duty stations, American Embassies, and from the Utica College veterans counselor. Completed forms are submitted to the nearest VA office.

Selection of Recipients and Allocation of Awards. For the most part, benefits under Chapter 30 end 10 years from the date of the veteran's separation from active duty. VA can extend this 10-year period if the veteran was prevented from training during this period because of a disability or because he or she was held by a foreign government or power. The 10-year period also can be extended if an individual reenters active duty for 90 days or more after becoming eligible. Veterans serving periods of active duty of less than 90 days can qualify for extensions under certain circumstances. If the veteran's discharge is upgraded by the military, the 10-year period begins on the date of the upgrade.

If eligibility is based on both the Vietnam Era GI Bill and the Montgomery GI Bill, and discharge from active duty was before December 31, 1989, the veteran will have until January 1, 2001. In most cases, VA will subtract from the 10-year period those periods the veteran was not on active duty between January 1, 1977, and June 30, 1985.

If eligibility is based on two years of active duty and four years in the Selected Reserve, the veteran's eligibility will end the later of: (a) 10 years from separation from active duty; or (b) 10 years from completion of the four-year Selected Reserve obligation. This four-year obligation, however, does not apply to certain individuals separated because of downsizing the military between October 1, 1991, and September 30, 1995.

Montgomery GI Bill (Selected Reserve)

Application Procedure. Application forms are available at VA offices, the VA Web site (www.va.gov), active duty stations, American Embassies, and from the Utica College veterans counselor. Completed forms are submitted to the nearest VA office.

Selection of Recipients and Allocation of Awards. The Montgomery GI Bill (Selected Reserve) is a program of education benefits for members of the reserve elements of the Army, Navy, Air Force, Marine Corps, and Coast Guard, as well as the Army National Guard and the Air National Guard. This program also is referred to as Chapter 1606. To be eligible for the program, a reservist must:

(a) have a six-year obligation to serve in the Selected Reserve signed after June 30, 1985, or, if an officer, agree to serve six years in addition to the original obligation;
(b) complete Initial Active Duty for Training (IADT);
(c) meet the requirements for a high school diploma or equivalency certificate before completing IADT; and
(d) remain in good standing in a Selected Reserve unit.

A six-year reserve commitment that begins after September 30, 1990, is needed to receive education benefits for pursuit of:

(a) Courses leading to a certificate or diploma from business, technical, or vocational schools
(b) Cooperative training
(c) Apprenticeship or on the job training
(d) Correspondence training
(e) Accredited independent study programs
(f) Tutorial assistance benefits
(g) Flight training from September 30, 1990, to September 30, 1994

Army and Air Force ROTC

The Army ROTC program offers tuition scholarships that are awarded at different rates depending on the needs of the Army. There are also awards available for books and a monthly stipend to qualified students. The Air Force ROTC program offers tuition scholarships that are awarded depending on the needs of the Air Force. There is also a monthly stipend for qualifying students. Program availability is described in the “Undergraduate Programs” section of this catalog. Specific information on scholarships may be obtained by writing the Professor of Military Science (Army), Room 308, Archbold Gym, or the Professor of Aerospace Studies (Air Force), 303 Archbold Gym North, at Syracuse University, Syracuse NY 13244-1140. The telephone number for the Army is (315) 443-2462. The telephone number for the Air Force is (315) 443-2461.

The Post 9/11 GI Bill and the Yellow Ribbon Program

Utica College is a participation institution in the Post 9/11 GI Bill and the Yellow Ribbon Program. For information, visit www.utica.edu/sfs.

Vocational and Educational Services for Individuals with Disabilities (VESID)

Application Procedure. Handicapped students may obtain a list of local VESID offices from their state's education office.

Selection of Recipients and Allocation of Awards. Eligibility for vocational rehabilitation services is based upon: (1) the presence of a physical or mental disability that for the individual constitutes or results in a substantial handicap to employment; and (2) the reasonable expectation that vocational
Financial Aid Available Through New York State

Tuition Assistance Program (TAP)

Application Procedure. Students must apply annually for TAP. Complete the Free Application for Federal Student Aid (FAFSA) online method preferred at www.fafsa.ed.gov as soon as possible for preferred consideration. After the Free Application for Federal Student Aid (FAFSA) is processed, New York State will contact the student regarding their TAP Application (ETA) to review and return to the state. Currently enrolled students who have received aid need only file the FAFSA and complete New York state (ETA) for consideration, online method preferred at www.tapweb.org.

The Higher Education Services Corporation determines eligibility and notifies the student indicating the amount of the grant. TAP awards vary according to the date a student first received TAP. Students who wish further information should contact the Office of Student Financial Services.

Regents Awards for Children of Deceased or Disabled Veterans

Application Procedure. A special application, obtainable from the high school principal or counselor, must be filed with the New York State Higher Education Services Corporation (HESC), Albany, NY 12255. Documentary evidence to establish eligibility is required with the application. Any high school counselor can provide assistance with this process.

Selection of Recipients and Allocation of Awards. The student must be:
(1) the child of a veteran who died, or who has a current disability of 50 percent or more, or who had such disability at the time of death, resulting from U.S. military service during one of the following periods:
- December 7, 1941 – December 31, 1946
- October 1, 1961 – May 7, 1975

and (2) a legal resident of New York state. Legal residence in New York state on the part of the student’s parent also is required whether it was at the time of entry into military service, or, if the parent died as the result of military service, at the time of death.

Regents awards to children of deceased or disabled veterans are independent of family income or tuition charge, and are in addition to such other grants or awards to which the applicant may be entitled.

Rights and Responsibilities. The New York State Education Department will notify students who have won scholarships. They then must fill out and submit (annually) a Student Payment Application form to the NYS Higher Education Services Corporation by October 31. The scholarship is available for a period of up to five years. Students must maintain a satisfactory academic standing and not be in default on a loan guaranteed by the U.S. government.

Tuition Assistance for Vietnam Veterans

Proof of service in Indochina is necessary. Students must be matriculated.

Selection of Recipients and Allocation of Awards. The student must be a New York state resident, apply for TAP and Pell, have served in Indochina between December 22, 1961, and May 7, 1975, and have been discharged from the service under other than dishonorable conditions.

Rights and Responsibilities. See New York State Tuition Assistance Program.

Regents Awards for Children of Deceased Police Officers, Firefighters, and Corrections Officers

Application Procedure. A special application, obtained from a high school principal or counselor, must be filed with the New York State Higher Education Services Corporation (HESC), Albany, NY 12255. Documentary evidence to establish eligibility is required with the application.

Selection of Recipients and Allocation of Awards. Students must be a resident child of a resident police officer, firefighter, or corrections officer of New York state or any of its municipalities who died as the result of an injury sustained in the line of duty.

Award Schedule. Award amounts vary with tuition.
State Aid to Native Americans

Application Procedure. Application forms may be obtained from the Native American Education Unit, New York State Education Department, Albany, NY 12234. The completed application form should be forwarded by the student to the Native American Education Unit along with the following materials: (1) official transcript of high school record or photostat of General Equivalency Diploma; (2) letter(s) of recommendation from one or more leaders in the community attesting to personality and character; (3) personal letter, clearly setting forth in detail educational plans and desires; (4) signatures of the parents of minor applicants, approving education plans; (5) official tribal certification form; and (6) copy of letter of acceptance to Utica College. Students must be on the official tribal roll of a New York state tribe or the child of an enrolled member of a New York state tribe, and a resident of New York state.

Selection of Recipients and Allocation of Awards. Students must be enrolled at Utica College.

State Aid to Native Americans is an entitlement program. There is neither a qualifying examination nor a limited number of awards.

Award Schedule. The award is $1,000 for 12 or more credits per semester; the award is prorated if less than 12 credits.

Rights and Responsibilities of Recipients. Students are responsible for notifying the Native American Education Unit in writing of any change in student status or program or institutional enrollment. Students must maintain good academic standing and submit semester grades at the end of each semester to the Native American Education Unit.

William D. Ford Federal Direct Loan Program

Federal Direct Subsidized Stafford/Ford Loans:

Application Procedure. Students apply by filing the FAFSA and completing entrance counseling and a promissory note online. The loan is submitted to the U.S. Department of Education for approval.

Selection of Recipients and Allocation of Awards. To be eligible for a Federal Direct Stafford/Ford Loan, a student must be: (1) a U.S. citizen or permanent resident alien; and (2) enrolled in or admitted as a matriculated, at least half-time, student at Utica College. An approved needs test must be on file in the Utica College Office of Student Financial Services.

Loan Schedule. As undergraduates, students may borrow up to $5,500 ($3,500 maximum subsidized loan) for the first year; $6,500 ($4,500 maximum subsidized loan) for their sophomore year; up to $7,500 ($5,500 maximum subsidized loan) per academic year for their junior and senior years, to a maximum aggregate of $31,000 for undergraduate study (with no more than $23,000 in subsidized loans).

Students are eligible for a full interest subsidy during the time they are in school and a six-month grace period after school before repayment must begin. Loan fees are deducted from the loan prior to disbursement of funds.
students carrying three hours. See the Office of Student Financial Services for details.

Students Applying for Admission and Applying for Aid for 2011 – 2012

1. Students must file the 2011 – 2012 FAFSA (online method preferred) so it is received on or before February 15, 2011, for preferred consideration. Forms filed after that date also will be considered.

Accepting the Award

1. Students will be sent an award letter. All awards are considered accepted unless the student declines specific awards in writing.
2. The students must provide documentation of all income by the deadline, if requested. Documentation includes, but is not limited to, signed federal income tax forms, W2s, 1099 forms, and all untaxed income sources.

Students Currently Matriculated and Applying for Aid for 2011 – 2012

1. Students must file the 2011 – 2012 FAFSA (online method preferred) to the Federal Student Aid Processor so they will receive it on or before March 15, 2011.
2. Students must submit verification of their family’s income, if requested. Verification includes signed federal income tax forms, W2s, 1099 forms, and all untaxed income sources, etc.

All Students – Appeal

Students who feel that they have been given an inappropriate financial aid award can do the following:
1. Submit a letter of appeal and a complete application form to the Office of Student Financial Services.
2. If the student (or the student’s parents) remain dissatisfied with the award, the student (or the student’s parents) may request in writing a review by the Admissions and Financial Aid Committee. The committee will not review requests for changes of an individual award that entail a revision of general policies.

Academic Standards

All students are expected to meet academic standards in order to receive need-based aid after their first semester of enrollment. The criteria for measuring academic standards are outlined below in three charts. Only the chart appropriate to the individual student’s enrollment will be used to measure program pursuit and satisfactory progress. Academic standards differ for New York state TAP and federal/institutional aid.

**Federal/Institutional Standards**

Students must earn a prescribed number of credits by the end of each academic year in order to continue to receive federal/institutional aid. An academic year is defined as the fall and spring semesters. Summer may be used to make up deficiencies but students will receive no aid consideration if they have not made satisfactory progress by May (or spring term’s end).

Full-time students must earn a minimum of 20 credits during an academic year and earn the minimum required grade point average for the year enrolled to continue to receive federal/institutional aid.

Students must earn the following to continue to receive aid for the next year.

As of April 29, 1994, the maximum time frame of an undergraduate program may not exceed 150 percent of the published length for full-time students or 180 credit hours (for most programs) per federal regulations.
Interpretation of the Charts

Credits completed – hours completed with a grade of A, B, C, D, F, or Pass.

Credits accrued – hours completed with a passing grade of A, B, C, D, or Pass over the student’s college career.

Cumulative Grade Point Average – grade point average over the student’s career at Utica College.

Withdrawals – are not considered in the charts as attempted, completed, or accrued credits.

Repeated courses – are considered as the credits enrolled and completed. The repeated course will not increase the accrued credit hours.

Non-credit courses – are not evaluated on the academic progress charts.

Incomplete – are not considered hours completed and are assumed to be an F until requirements are met.

Failure to Meet Academic Standards

Students who fail to make satisfactory academic progress will lose eligibility for financial aid from federal, state, and College sources. Students may apply for a waiver for the reinstatement of aid on the basis of physical illness or extraordinary personal difficulty due to unusual circumstances. The Dean for Student Success will consider the student’s full history when determining if a waiver is appropriate. For further details regarding aid reinstatement, contact the Office of Student Financial Services.

Return of Title IV Funds

Utica College follows prescribed regulations when determining the amount of refund owed to the Title IV Programs if a student receiving such aid officially withdraws from all courses, drops out, or is expelled from the College on or after the last day to add/drop. Please see the “Regulations” section of this catalog for further details.

For the most current information, as well as additional details, contact the Office of Student Financial Services or visit www.utica.edu/sfs.
College Scholarships

College scholarships are offered to full-time freshmen upon admission to the College. Awards are made on the basis of academic and personal achievements. (Special restrictions apply to dependent scholarships. Please contact the Office of Student Financial Services.) College scholarships include:

Pinnacle Scholarship:
These scholarships are presented to students who have achieved the pinnacle of academic achievement and community service. The scholarship is renewable as long as the student maintains the required grade point average and meets satisfactory progress requirements.

Leadership Scholarship
These awards are based on academic achievement and demonstrated leadership within school and community. The scholarship is renewable as long as the student maintains the required grade point average and meets satisfactory progress requirements.

Utica College President’s Scholarship
These awards are based on the highest academic achievement and community service. The scholarship is renewable as long as the student maintains the required grade point average and meets satisfactory progress requirements.

Thomas J. Cahill Jr. Presidential Scholarship
This scholarship is funded through the generosity of Thomas J. Cahill Jr. ‘49. To qualify, a student must maintain a 3.0 average and demonstrate financial need.

Reverend Dr. Martin Luther King Jr. Memorial Scholarship
This four-year scholarship was established in memory of Dr. Martin Luther King Jr. Scholarships are awarded yearly to entering African-American freshmen who have shown academic achievement, leadership commitment to civil rights, and future promise. The scholarship is renewable as long as the student maintains the required grade point average and meets satisfactory progress requirements.

Founder’s Scholarship
These awards are based on high academic achievement and an ability to contribute to the Utica College community. The scholarship is renewable as long as the student maintains the required grade point average and meets satisfactory progress requirements.

Utica College Achievement Awards
These awards are based on personal and academic achievement and ability to contribute to the College community. The scholarship is renewable as long as the student maintains the required grade point average and meets satisfactory progress requirements.

Transfer Achievement Awards
These awards are for transfer students who have completed, and will transfer, a minimum of 30 hours of college work. A 3.0 GPA or better is required for eligibility and renewal. Awards vary based on academic ability and special achievement.

My Turn Scholarship
The My Turn Scholarship shall be awarded to full-time students who are the parents of alumni of Utica College or of current Utica College students. This scholarship has the value of one-half tuition. Application forms are available through the Office of Student Financial Services.

Senior Citizen Award
Senior citizens who are alumni, former Foundation Board members, former trustees, and retired employees may take courses for credit and free of charge. Other senior citizens within the community may take up to two courses per semester for credit for one-third tuition, or they may audit the course for free. Special consideration based upon need may be made by the president of the College. Senior citizens are defined as individuals age 65 and older.

Mary S. Kramer ‘88 Senior Citizens Enrichment Program
Through the generosity of Mary S. Kramer ’88, a Senior Citizens Enrichment Program Fund has been established for eligible senior citizens to take College classes at no cost to them. To be eligible an individual must be age 65 or older and a non-matriculated student. Qualified individuals may
enroll in undergraduate or graduate courses, including online courses, which are not at capacity. The College does have the discretion to allow enrollment into classes that are at capacity. Interested individuals should contact the Office of the Registrar for further information or to enroll.

Olive S. Quakenbush Scholarship
This scholarship is funded through the generosity of The Estate of Olive Quackenbush. Eligible students must be from the greater Utica area with a demonstrated financial need.

Herman Crown Scholarship
The Herman Crown Scholarship shall be awarded to accounting students with financial need.

Endowed Scholarships
Endowed scholarships have been established at Utica College by alumni, friends of the College, and organizations for the purpose of permanently providing support to deserving and/or outstanding students. Criteria for receiving named scholarships vary, but most funds require a demonstration of academic achievement and/or financial need. Applicants should refer to the “Financial Aid” section of this catalog for procedures for applying and accepting aid. Endowed scholarships include:

Ruth E. Abeling Memorial Scholarship Fund
Financial assistance awards from this fund, established in memory of Ruth E. Abeling ’88 by her many friends, shall be made to deserving full-time students majoring in occupational therapy who demonstrate academic merit and financial need. Preference will be given, but is not limited to, an adult female student who is resuming her education. Students shall be selected by the Office of Student Financial Services.

Adirondack Bank Scholarship
This scholarship, established by Adirondack Bank, is awarded to students from Central New York, specifically but not limited to, the areas where Adirondack Bank conducts business.

Paul Gregory Albanese Medical Scholarship
This scholarship was established in memory of Paul Gregory Albanese. It is awarded to a junior or senior with a minimum 3.3 GPA who is a resident of Oneida County and has demonstrated an interest in attending medical school and practicing in Oneida County.

Dr. Raymond J. Albert Memorial Scholarship Fund
Financial assistance awards from this fund, established by Monica Albert, in memory of her husband, Emeritus Professor Raymond J. Albert, are made to full-time students majoring in management or pre-law students majoring in other areas. Students should be of good character and serious about pursuing a college degree.

Carol L. Albrecht Memorial Scholarship

The award is based on a GPA of 3.0 or higher with consideration given to the student’s involvement in extracurricular activities. Priority is given to students who have selected the international business management concentration.

**Owen Comora/RSI Tangerine Award**

Established and administered by the Raymond Simon Institute for Public Relations in honor of Owen Comora ’53 former Utica College Trustee, this annual $200 cash award is given to a member of The Tangerine staff whose work on the College weekly has been outstanding and effective.
Scholarships, Grants, and Awards

Fred and Corinne Grates/RSI Achievement Award
As a memorial to his parents, Gary F. Grates ’81 Utica College Trustee, endowed this annual award to the public relations/journalism student whose personal achievements reflected those attributes shared by the most respected professionals in the field.

Alex Haley Magazine Writing Award*
The cash prize award is presented to the student who is determined the best magazine writer to complete Professor John Behrens’ magazine writing class during the year. The award recipient is placed on an honor roll of Alex Haley Award winners at the College. The award was begun in 1983 with guidelines and the initial contribution by Roots author Haley.

M. Dorisse Howe Scholarship
Awards are made to biology majors for assistance in summer studies that they take in recognized field stations or laboratories.

George E. Jones/RSI Outstanding Public Relations/Journalism Student Awards
Established by George E. Jones ’60, these four $150 to $200 awards to recognize outstanding Public Relations/Journalism students, are presented annually to the outstanding public relations/journalism students in each class on the basis of academic, professional, and extracurricular achievement.

Gary and Jeanne LaBella/RSI Transition Award
Presented annually, this cash award is given to the public relations/journalism major who has excelled at Utica College after transferring from a previous institution, as Mrs. LaBella did when she was an undergraduate. Gary and Jeanne graduated in 1975 and have built successful PR careers in the Washington, D.C. area.

Robert Feldman/RSI Faculty and Student Support Grants
Established by Mr. Feldman ’78, these annual grants provide funding to public relations students and faculty in support of projects, trips, and extracurricular activities.

Jessica Cynkus Memorial Accounting Award
This Award was established by Harry Cynkus ’71 in honor of his mother. It is awarded to a full-time student entering their junior year, majoring in Accounting – CPA (until 2009, then an Accounting Major will be selected). The amount of the Award will be up to $250 per semester and provide reimbursement for the purchase of books up to the Award amount or the actual cost of the books, whichever is less. The Award is renewable for the senior year based on continued academic merit. Selection shall be made based on academic merit by full-time Accounting faculty.

David D’Alessandro/RSI Intern Awards
These $750 – $2,000 awards are given to the public relations/journalism upper-level students deemed by the public relations/journalism faculty to have demonstrated academic, professional, and extracurricular excellence. The award honors and was established by David D’Alessandro ’72 as a means of assisting public relations/journalism interns in covering their internship expenses.

Kathi Kowalewski Dunn ’86 Therapeutic Recreation Award
Established by Joan Kay ’89 in memory of her daughter, the award shall be used for the benefit of, full or part-time students studying in the Therapeutic Recreation program. The award shall be given annually to provide reimbursement for the purchase of books up to the award amount or the actual cost of books, whichever is less. The award recipients shall best demonstrate propensity for the field of therapeutic recreation and exemplify Kathi’s dedication and commitment to the profession, as well as her sensitivity, heart and compassion to her patients. The recipients shall be selected by the Chair of the Therapeutic Recreation Program.

Amparo M. Escarrilla Chemistry Award
This award recognizes academic achievement in a chemistry course(s). It was named in honor of Amparo M. Escarrilla, Ph.D., professor emerita of chemistry. Recipients are selected by the full-time faculty of the chemistry department.

Anthony Gagliardi/RSI Arts Award
Named for the 1952 public relations graduate, now retired after three decades as a General Motors communications executive, this annual cash award is presented to the PR graduate who has excelled in the arts as well as in public relations.

F. Clark Laurie Prize
This is a $50 award given annually to a full-time accounting major enrolled in the day program who is in his/her junior year.

Randall K. Nichols Award
Established by Professor Randall K. Nichols, this award will be to a full-time student in their junior year, majoring in Cybersecurity and Information Assurance. If there is not an eligible student meeting these criteria, then consideration will be given to a full-time student in their junior year majoring in Criminal Justice and/or Economic Crime Investigation. The award will provide reimbursement for the purchase of books up to the award amount or the actual cost of the books, whichever is less. The recipient shall be selected by a

*May not be available every year.
committee designated by the Dean of Business and Justice Studies, of whom at least one member should be a representative of the Justice Studies programs.

**Reader’s Digest Foundation Research Grants**

Students enrolled in the JS 373 Advanced Magazine Studies course are eligible to earn research grants to defray expenses necessary to prepare magazine articles for publication.

**Joanne Reppel/RSI Contingency Grants**

Established by Ms. Reppel ’62, these annual grants provide funding to public relations students and faculty in support of projects, trips, and extra-curricular activities.

**Dr. Michael E. Romano, MD ’73 Award**

Established by family and friends of Dr. Michael E. Romano, MD ’73, this Award will be given annually to a pre-med student or student pursuing a career as a medical doctor. The amount of the Award will provide reimbursement for the purchase of books up to the Award amount or the actual cost of the books, whichever is less. Selection shall be made by the Office of Student Financial Services.

**Eleanor and Matty Sokolow/RSI Writing Awards**

Named in honor of the mother- and father-in-law of Owen Comora ’53 former Utica College Trustee, this award is presented to the three public relations/journalism students who have demonstrated excellent writing proficiency in one or more public relations/journalism classes.

**Ralph F. Strebel Prize**

This is an annual prize of $50 given to an outstanding pre-medical scholar. It was established by Dr. Christie E. Davis and Mary J. Davis to honor Dean Ralph F. Strebel, a pioneer of Utica College.

**David F. Trad ’59 Memorial Award**

Established by associates of Mr. Trad at Kaman Sciences Corporation and The Rome Laboratory of Griffiss Air Force Base and Mr. Trad’s family, this award is given to a freshman UC student in the computer science program who is a graduate of Whitesboro High School.

**The Joseph A. and Mary E. Virkler Memorial Award**

This Award will be given annually to an incoming freshman from New Hartford High School attending Utica College. The amount of the Award will provide reimbursement for the purchase of books up to the Award amount or the actual cost of the books, whichever is less. Selection for the Award shall be made by the Office of Student Financial Services.

*May not be available every year.

**Joseph Vogel Award for Poetry and Joseph Vogel Award for Fiction**

Established by the late author Joseph Vogel, these awards are given to students for outstanding work in poetry and in fiction.

**Professor Emeritus Jerome Weiss Outstanding Theatre Award**

Established by Professor Emeritus Jerome Weiss, this award shall be made annually to deserving students involved in the theatre arts while at Utica College. In the case that no deserving students are identified, the Award shall not be made.

**Dean Robert Woods Student Life Award**

Income from the Dean Robert Woods Student Life Award shall be used to fund annual costs associated with the Student Life Award, including but not limited to the cost of preparing the awards and the award ceremony. The award shall be made annually to those members of the graduating class who have made the most outstanding contributions to the quality of life on campus during the time they attended Utica College. These contributions include but are not limited to leadership in student government, athletics, the performing and fine arts, community service, student publications and media, or campus social and cultural activities. The recipients shall be selected in a manner determined by the senior student affairs officer of the College.

**Dr. Mark E. Wondro Memorial Award**

Established by family and friends of Dr. Wondro, is made to a full-time student who has been accepted in a school of podiatry. Each candidate must demonstrate those traits which will make him/her an asset both to his/her profession and community. Recipients shall be all-around students who demonstrate academic merit and a positive caring attitude. Preference may be given to students who demonstrate financial need.
ACADEMIC REGULATIONS

Utica College fully affirms the principle of academic freedom and endorses the American Association of University Professors Statement on the Academic Freedom of Students. The preamble of that statement is quoted below.

“Free inquiry and free expression are essential attributes of the community of scholars. As members of that community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. The freedom to learn depends on appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of the academic community. Students should endeavor to exercise their freedom with maturity and responsibility.”

The regulations published in this catalog and in the Student Handbook have been established and endorsed by the representative governing bodies that establish the academic and behavioral standards expected of all members of the Utica College community.

Students are held responsible for abiding by all regulations set forth in the catalog and the Student Handbook. While they may seek the advice of a counselor, final responsibility for any decision reached or action taken is theirs.

THE COLLEGE RESERVES THE RIGHT TO CANCEL ANY COURSE IF REGISTRATION FOR IT DOES NOT JUSTIFY CONTINUANCE AND TO MAKE CHANGES IN REGULATIONS, CURRICULA, AND FEES AT ANY TIME.

Petitions

If a student feels he or she should be absolved from adhering to a particular academic regulation or procedure, or that an academic regulation has been unfairly applied, he or she should discuss the problem with a member of the Academic Support Services Center staff. If the matter cannot be resolved to the student's satisfaction, he or she will be provided with a form for petitioning the Academic Standards Committee. After he or she has submitted the petition, the committee will consider the individual's case and inform the student by letter of the decision reached and the action taken.

MAJORS

Majors consist of courses focused on a particular academic field. Majors are declared by a student either at the time of original admission to the College and the major program, or through the school office related to the major. Certification for graduation takes place during the final semester of the student's senior year and is based upon satisfactory completion of all major, major-related, electives, and other requirements. Any major the student completes is indicated on the transcript.

Each student bears final responsibility for ensuring that degree requirements are completed. An unofficial review of each student's status is completed by the major adviser(s) during the student's junior year to determine which graduation requirements the student has finished and which courses still need to be completed. The student receives the original of this document, and a copy is retained by the school of which the student's major is a part.

Majors are subject to the following regulations:

1. Students must complete at least one major to be graduated.
2. Majors must be comprised of the courses listed in either the catalog for the year of the student's matriculation or the catalog of a subsequent year.
3. The pass/fail option may not be used for courses in the major unless that grading system is specified for that particular course.
4. When completing a dual major, no more than nine credit hours comprising the first major may be used toward fulfilling the requirements of the second major. General Education Core courses that also fulfill major requirements are exceptions to this limit.
5. For graduation certification, students must earn at least a 2.0 average in their major course requirements. Some majors have more stringent requirements. (See specific majors under the "Programs of Study" section of this catalog.)
6. Students must declare a major before they accumulate 60 credit hours in order to receive financial aid.

MINORS

Although a minor is not required, students may elect any minor offered by Utica College as long as it is different from their major. Minors are declared and certified in their respective schools in the same manner as majors. When students select, complete, and are certified in a minor, this will be indicated on their transcripts upon graduation.
Minors are subject to the following regulations:
1. No more than nine credit hours that comprise the major may be used toward fulfilling the requirements of the minor. General Education Core courses that also fulfill major requirements are exceptions to this limit.
2. The pass/fail option may not be used for courses in the minor.
3. For certification, students must earn at least a 2.0 average in the minor.
4. Students may take more than one minor but also must complete a major.
5. Half of the credits must be completed in residence.

**Dual Majors, Majors and Minors, Combined Degrees**

Students may complete a dual major or a combination of a major and a minor by successfully completing all of the requirements of two major programs or a major program and any minor program(s) except for restrictions previously noted. Careful consultation with the student’s adviser may be necessary to avoid conflicts. However, students only may receive one B.A. or B.S. degree. The dual major or combination of a major and a minor is reflected on the student’s permanent records maintained by the Office of the Registrar.

Two distinct bachelor’s degree programs may be pursued simultaneously. The programs may be in the same school or two different schools; must lead to two different career objectives; and must have two distinct degree titles (BA/BS). In such cases, two degrees will be conferred, and two diplomas awarded. Combined degree programs will require the completion of 30 credits beyond the usual requirements for one degree (typically 120/128). The minimum total credits required in combined degree programs are 150.

**Advising**

All matriculated day students are required to meet with their major program adviser(s) prior to registering for courses. The signature of the adviser is required on the Course Selection Sheet. Students will not be allowed to register if it is not signed. Subsequent course schedule changes also require approval.

**Grading System**

The grading system used at Utica College is a letter system: A, A–, B+, B, B–, C+, C, C–, D+, D, and P, which are passing grades, and F (failing).

**Grade Points and Credit Hours**

Grade points are awarded on the basis of 4.0 for each credit hour of A grade, 3.7 for A–, 3.3 for B+, 3.0 for B, 2.7 for B–, 2.3 for C+, 2.0 for C, 1.7 for C–, 1.3 for D+, 1.0 for D, and 0 for F. For most courses at Utica College, students receive three credit hours, although the number of credit hours per course varies. The individual course listings in the catalog and in each semester’s registration schedule inform students of the number of credit hours granted for each course.

**Incompletes**

A grade of Incomplete may be granted only if it can be demonstrated that it would be unfair to hold a student to the normal time limits for the course. A Request for Grade of Incomplete Contract must be completed by both the student and the instructor and requires the approval of the appropriate school dean. The amount of time granted to complete the Incomplete will be set by the instructor at the time the contract is submitted. Even though an instructor may require a student to repeat certain elements of a course to finish an Incomplete, students should not register for the course a second time. A grade of I will remain on the record and is calculated as a failing grade until a change of grade is submitted by the instructor. Completing requirements for a course does not remove the Incomplete from the record. The I remains a permanent part of the academic record and transcript so that the change from incomplete to a grade can be clearly identified. An Incomplete may affect a student’s financial aid. Please contact the Office of Student Financial Services for more information.

**Pass/Fail Courses**

With the exception of the freshman year, a matriculated student may take one elective course each semester (a maximum of six courses) on a pass/fail basis provided he or she is not on probation. To do so, he or she must file a form, signed by the faculty adviser, requesting this privilege with the Office of the Registrar not later than two weeks after the official midterm date. The six-course limitation does not apply when taking courses that are regularly offered on a pass/fail basis. Students may not use the pass/fail option for courses taken to satisfy core, major, major-related, or minor requirements. Students on probation are not allowed to exercise the pass/fail option.

When passing a pass/fail course, students will receive a grade of P and the degree credit hours normally awarded for the course. The grade of P earns no grade points, and credit hours earned are not computed in determining their...
semester's or cumulative averages. If failing a pass/fail course, students will receive a grade of F. The failing grade will be computed in their semester and cumulative averages.

Pass/fail courses can have an effect on eligibility for honors and on probationary standing. Students should check the honors and probation regulations carefully and evaluate the possible effects of pass/fail courses on their averages and their qualifications for graduation with honors before they exercise the pass/fail option.

Waived Courses

Under certain circumstances, a required course may be waived, meaning that the student does not have to take that course. A waived course implies that a student has sufficient knowledge in that particular area. However, no credits are awarded for waived courses, and the total credit hour requirement for the degree still needs to be met. Course credit is only granted through completion or transfer of a course (see Transfer Credit). Students who have had a course waived should consult with their advisor to identify a sequence of courses that will ensure they will have the necessary credits to graduate.

Graduate-Level Courses That Will Be Applied Toward the Undergraduate Degree

Before registering for any course at the 500 level, undergraduate students must receive the permission of the instructor of the course. In exceptional circumstances, undergraduate students are permitted to take courses at the 600 level. However, before registering for courses at the 600 level, students must obtain permission from both the instructor of the course and the dean of the student’s home school. The grade received in a graduate-level course taken by an undergraduate, along with the credit, will be factored into the undergraduate degree totals on the student’s academic record.

Graduate-level courses taken to satisfy undergraduate degree requirements may not be applied toward a Utica College graduate degree program.

Exceptions to this policy are students enrolled in the College’s B.S./M.S. in Occupational Therapy or B.S./D.P.T. programs, where the student earns an undergraduate degree after four years, and the master of science or doctor of physical therapy degree after the sixth year.

Averages

Students can compute their averages for each semester by dividing the number of grade points they receive by the number of credit hours of course work carried (less the credit hours earned for P grades). Their cumulative averages are computed by dividing the total of all grade points they have been awarded by the total number of credit hours carried (less the credit hours earned for P grades or certain other grades described in the section on “Repeating a Course”). A report of grades, which includes semester and cumulative averages, is mailed to students at the end of each semester.

Grade Changes

Once a grade has been reported, it may not be changed except to correct a computational or clerical error. All such cases must be reported by the course instructor and require the approval of the appropriate school dean and the provost and vice president for academic affairs.

If a student believes that the grade reported by the course instructor is not accurate and after talking with the instructor still believes there is an error, the student may petition the Academic Standards Committee for a grade change. (See "Grievance and Complaint Procedures.")

Variable Length Courses

For courses that extend beyond the end of a semester, a grade of V will be issued by the instructor. The grade of V is a neutral grade and is replaced by the letter grade earned at the conclusion of the course.

Repeating a Course

Students must repeat any required course which they fail. Students may repeat any course, assuming the course is taught in any subsequent semester during the student’s tenure. Students may be denied enrollment if there is not available space in the class. Majors may have stricter policies that supersede this general policy; check major requirements for details.

Students must register for and retake the same course at Utica College if they wish to remove the calculation of the lower grade from their cumulative averages. Equivalent courses taken at other institutions are not counted as repeated courses. When a course is repeated at Utica College, the lower of the two grades is removed from calculation of the student’s cumulative average. A course can be taken more than twice only if all previous grades were deficient as defined by the college or the major. If the course is taken more than twice, only the lowest grade is removed from calculation of the student’s cumulative average; the other grades are factored into the average.

A repeated course for which students originally received a grade of D or better does not count in the total credit hours they are taking at the time,
because they already have received credit for the course. Students must, therefore, be taking at least 12 credit hours in addition to the repeated course to qualify for full-time financial aid. A course repeated for which a student received a grade of F does not count in credit hours carried at the time it is taken, because the student has not received any prior credit for that course. Students should contact the Office of Student Financial Services if they have any questions.

Dean’s Honor and High Honor Lists

The Dean’s Honor List, published after the end of each semester, gives recognition to all students who complete 12 or more credit hours of work with a semester’s average of 3.4 or better. Pass/fail courses are not counted toward the 12-hour requirement.

The Dean’s High Honor List, published after the end of each semester, gives recognition to all students who complete 12 or more credit hours of work with a semester average of 4.0. Pass/fail courses are not counted toward the 12-hour requirement.

Matriculated part-time students are eligible for both lists if they take at least six and no more than 11 credit hours.

Graduation Honors

Students must have an average of 3.4 – 3.59 to graduate cum laude, 3.6 – 3.79 for magna cum laude, and 3.8 – 4.0 for summa cum laude honors, and students must complete at least 30 credit hours of Utica College graded coursework at the 300- and 400-levels to be graduated with honors. If a student transfers from another institution, graduation honors are computed on the basis of Utica College credit alone. At least 60 hours must have been carried in residence through the spring term immediately preceding the commencement ceremony in which they participate. P grades earned in pass/fail courses are not computed in the student's average, and the credit hours earned in pass/fail courses do not count toward fulfilling the 60-hour requirement for honors with the exception of mandatory pass/fail courses. Second degree candidates are eligible provided they have carried 60 hours of additional Utica College credit in their second degree program.

To be considered for valedictorian or salutatorian, students must meet all of the preceding requirements for graduation honors. Additionally, students must have filed a diploma card by the published deadline and be eligible for graduation in May or the previous December. They also must be registered for at least 10 hours of credit in the spring semester if they are May graduates or at least 10 hours in the fall if they are December graduates. Transfer students must have completed at least three semesters of residency, with summer session counting as a semester. For transfer students, records at previous institutions must be included in computation of grade point average if the cumulative average is less than the Utica College average; records from previous institutions are excluded if the cumulative average is greater than the Utica College average.

Graduation Requirements

1. Students must have satisfied all requirements listed for their majors in the catalog. (See section on “Majors and Minors.”) They must have at least a 2.0 average in their major course requirements. This includes all courses listed under Major Course Requirements and all courses listed under the student’s Concentration. It does not include courses listed under Major-Related Courses.
2. Students must have a cumulative average of at least 2.0.
3. A student’s last 30 credit hours, granted toward his or her Utica College degree, must have been earned in residency, with matriculated status.
4. Students must be recommended by the faculty.
5. For the bachelor of arts degree, a minimum of 75 percent of the hours required for graduation must be taken in the liberal arts and sciences. For the bachelor of science degree, a minimum of 50 percent of the hours required for graduation must be taken in the liberal arts and sciences.

It is the student’s ultimate responsibility to ensure that all degree requirements have been completed. Students can review their progress toward degree completion at any time using the Degree Evaluation function, which is in the Student Services tab in BannerWeb for students.

Absences

Instructors establish the attendance requirements for each of the courses they teach. Instructor expectations regarding absences (for any reason) and parameters for making up late or missed work may differ, and are usually outlined in the syllabus for each class. If a student incurs excessive absences in a course, his or her grade may be lowered or he or she may receive an F for the course. Only the instructor can excuse a student from class.

In the event that a student has been/will be absent from class for reason due to illness, injury, or family emergency, students are responsible for notifying their instructors and for consulting with each of them to explore whether and how they may be able to make up the missed work. Courtesy absence notices may be sent to instructors from the Office of Student Affairs if the student has been or will be absent for three or more consecutive class days due to an illness, injury, or family emergency, if the office is notified of this by the student, their parent or guardian, a UC professional staff member, or a health care professional (with the student’s consent). Similarly, with the student’s consent, the Student Health Center may verify to an instructor that the student was seen on a specific date for medical reasons. Absence notifications from these offices are not intended to be and do not constitute an official
excuse for missing class.

Although religious holidays are not reflected in the academic calendar, Utica College does recognize the right of each student to observe religious holidays and other religious commitments. If a student wishes to observe religious commitments that will conflict with class times or other class-related activities, it is the student's responsibility to notify faculty members well in advance in order to work with faculty members to find an accommodation that satisfies both the learning goals of the class and the religious commitment of the student.

Maximum Credit Hour Loads

Students may take up to 17 credit hours of courses per semester without special permission. Any credit hour load that exceeds 17 hours per semester must be approved by the dean for the school in which the student is majoring.

During the summer sessions, students may take up to nine credit hours without special permission. During winter session, they make take only three credit hours without special permission. Any credit hours loads that exceed these limits must be approved by the dean of the school in which the student is majoring.

Student Classification

To be eligible for class membership, a student must have satisfactorily completed the following minimum credit hours:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Minimum Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Senior</td>
<td>87 hours</td>
</tr>
<tr>
<td>Junior</td>
<td>57 hours</td>
</tr>
<tr>
<td>Sophomore</td>
<td>27 hours</td>
</tr>
</tbody>
</table>

Advanced Credit Examinations

Not available to students currently registered for less than 10 hours, except evening students who have been enrolled in UC evening sessions for at least four semesters.

Time: As arranged with the faculty member teaching the course in which the student is seeking the credit.

Place: As arranged with the faculty member teaching the course in which the student is seeking the credit.

Credit: Whatever hours ordinarily are awarded for the course. Students must not have taken the course previously and must not have audited the course. Students must fulfill whatever requirements are set by the faculty member responsible for the course. These may include term papers, special projects, examinations, and whatever else the faculty member deems necessary.

Cost: See the “Schedule of Tuition, Fees, and Deposits” section.

Approvals: By written petition, seek the approval of the adviser, the faculty member in charge of the course, and the dean of the school in which the course is offered.

Independent Study

The faculty of each school, department, or subject area defines its own concept of independent study, but it is understood that students only undertake individual projects beyond subject matter covered by the courses listed in the catalog. Normally open to juniors and seniors only, independent study may be taken for a total of no more than 18 credit hours toward a degree. Independent study courses usually are numbered 290, 390, or 490, may be offered for variable credits, and can be repeated, providing the projects are not the same. Disciplines may add individual criteria and requirements.

In order to register for independent study, students must obtain and complete a registration form and a study plan form and have them signed by the faculty member who will supervise their projects, by the coordinator of the subject area in which they will be working, and by the appropriate school dean. School and department independent study guidelines are available in the appropriate school offices. The study plan is, in effect, a contract between the student and the faculty member who will supervise the student's work. It must specify the nature, title, goals, and methods of the student's project; the means of evaluation to be used by the student's faculty supervisor; and the number of credit hours the student will receive for successfully completing the project. The completed forms must be filed with the Office of the Registrar when students register for the course.

Tutorial Study

Courses that are listed in the catalog, but that are not offered regularly, may be taken on a tutorial basis under extraordinary circumstances, and are designated on transcripts by a T following the course number and the word “Tutorial” in the course title.

Information on registration procedures for courses students need to take on a tutorial basis is available in the appropriate department or school office or from the Office of the Registrar.

Topics Courses

Courses in specialized areas of interest are listed in the “Courses of Instruction” section of the catalog under such rubrics as “Topics in . . . ,” “Advanced Study in . . . ,” “Special Topics in . . . ,” “Studies in . . . ,” or “Mini-courses.” These courses are usually numbered 200, 300, or 400 to reflect the course’s level and its position in the curriculum. Topics courses are offered for variable credit (usually one to six credit hours) and may be repeated, provided the subjects
Academic Regulations

◆
◆

149

148

Academic Regulations

are not the same. Other qualifications, criteria, limits, and descriptions may be added by the discipline in which the course is being offered.

Auditing

A full-time matriculated student in good standing may, with the permission of the instructor, attend a course as an auditor, without charge. Registration is required.

Part-time or non-matriculated students who wish to audit a course may do so, with the permission of the instructor, provided they register for the course and pay the tuition charge.

An auditor receives a grade of AU and does not participate in course examinations or other work except at the option of the instructor. A student may change from audit to credit status no later than the second week of classes.

Eligibility for Activities

Eligibility for participation in any College activity requires a student to be fully matriculated and carrying at least 12 hours in the current semester. An organization may require, in addition, a particular grade point average.

Eligibility is required for the following:

• To participate in College-sanctioned theatrical, musical, or other productions, except where such participation is required for academic course credit.

• To hold office (elective or appointive, editorial, or other post) in any organization chartered by the College or using the Utica College name in which participation does not carry academic credit.

• To pledge a sorority or fraternity. A student also needs to be at least a second-semester freshman to pledge.

• To participate in non-athletic intercollegiate competition.

Athletic Eligibility

Eligibility for intercollegiate competition is governed by the National Collegiate Athletic Association (NCAA), the Eastern College Athletic Conference (ECAC), the New York State Women’s Collegiate Athletic Association (NYSWCAA), and the Empire 8 Conference. A student must be full-time matriculated (minimum 12 credit hours per semester) and must be making satisfactory progress toward a baccalaureate degree.

The student-athlete also must meet the following minimum standards for cumulative grade point average (GPA) in order to maintain athletic eligibility for intercollegiate competition. This applies to students matriculating as freshmen or as transfer students.

<table>
<thead>
<tr>
<th>Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

Make-up Examinations

If a student is unable to take any scheduled examination, a make-up examination may be given at the discretion of the instructor. Such examinations must be taken during the same semester in which the examination was missed, unless a grade of Incomplete is given for sufficient reason.

Eligibility for Field Experience in Career Programs

Utica College’s curriculum is designed to cultivate liberally educated graduates with the knowledge, skills, and personal attributes necessary for them to thrive in their chosen professions. In career programs, the level of ability which a student is expected to demonstrate reflects the College’s outstanding reputation in these fields.

The performance of students in their field experiences affects the College’s ability to maintain accreditation for its programs, attract highly qualified students to the College, and provide appropriate field placements for current and future students. Therefore, in programs that require field experience, the faculty monitors the progress of each student with the goal of correcting deficient performance prior to placement or, where appropriate, suggesting alternative career fields. Students are responsible for knowing the written retention policy of their program of study.

Study at Other Institutions

As an institution of higher learning, Utica College strives to protect the integrity of its degree offerings. Therefore, Utica College students must obtain prior written approval from their advisers, school deans, and the registrar before taking courses at another institution for credit at Utica College. Approval is not usually granted if the same course is offered concurrently at Utica College. Students who undertake such study must meet all graduation requirements listed previously.

Students who already have transferred one-half of the credits required for their degree from a two-year college may not return to a two-year college for additional course work.

Forms for the purpose of obtaining permission for course work at other institutions are available at the Academic Support Services Center, in the Office of the Registrar, and in the school offices.
Schedule Changes

Any change in schedule must be cleared through the Office of the Registrar in order to become effective. Failure to do so will result in a grade of F for the course.

- Semester courses may be added or changed during the first week of the semester.
- Semester courses may be dropped without academic penalty no later than two weeks after the official mid-term date of each term.
- The schedule of deadline dates for add, change, and drop of mini-courses and physical education courses is published each semester.
- Courses dropped after the official drop date will receive a grade of WF.
- Schedule changes require the signature of an adviser.

Withdrawal

Students who withdraw from college must notify the Office of the Registrar and the Office of Student Financial Services. Withdrawal notification must be made in writing. Unless this is done, a student's grade for all current courses will automatically be an F, and he or she will not be eligible to receive a refund.

Students who withdraw from college up to two weeks after the official mid-term date of the term will receive grades of WD (withdrawn). Students who withdraw after that date will receive grades of WF.

Students may be placed on probation by the committee when they return, depending on the conditions surrounding their withdrawals.

Refund Schedule Policy

The date on which a student notifies the Office of the Registrar of his or her complete withdrawal in writing will be used as the basis for determining tuition refund. Deferred fees or other fees are not refunded. (See also "Housing Policy."") The following refund schedule applies to complete withdrawal.

Tuition
- 100% on or before the last day to add/drop.
- 90% through 7 days following drop/add deadline for the term
- 50% through 14 days following drop/add deadline for the term
- 25% through 24 days following drop/add deadline for the term
- Thereafter, no refund will be given.

Room
- 100% refund through end of Week 2

Board
- 100% prior to 1st meal offered
- Pro-rated through end of Week 9

See schedule of classes for dates each semester.

Students who partially withdraw but are still in attendance for one or more classes at the College will receive a 100% refund during the add/drop period only. Thereafter, no refund will be given.

Title IV Refund Policy

This policy is for all students receiving aid who completely withdraw from classes or students who unofficially withdraw by ceasing to attend classes.

The new Title IV refund formula has six basic steps, and is concerned with the amount of Title IV aid a student received and earned. The six steps are:
1. Determine date of withdrawal and percentage of payment period attended by the student.
2. Calculate amount of Title IV aid earned by the student.
3. Compare amount earned and amount disbursed to determine amount unearned.
4. If amount earned is greater than amount disbursed, determine late disbursement.
5. If amount earned is less than amount disbursed, determine amount of Title IV aid that must be returned.
6. Calculate portion of funds to be returned by institution and student.

Further information regarding this policy is available in the Office of Student Financial Services.

Course Cancellation Policy

The College reserves the right to cancel any course if registration for it does not justify continuance and to make changes in regulations, curricula, and fees at any time.

Midterm Grade Report

Reports indicating the level of achievement at midsemester are entered by Faculty into Banner where they may be viewed by students through Banner Web for Students. Students should not consider these midterm reports as official grades; they are designed to identify those who may benefit from academic counseling. Students who do not receive a midterm grade report should not assume that their performance in any given course is satisfactory, but should check with their instructors if they are in doubt.
TRANSCRIPT OF GRADES

The Office of the Registrar issues transcripts upon request (see "Schedule of Tuition, Fees, and Deposits"). Requests are generally processed within five days. Delays may be experienced during the beginning and end of each semester and during preregistration. Please plan accordingly. Although students may request an unofficial copy for their own use, official transcripts are issued only to other institutions or individuals, never to the student. Requests are not accepted by telephone; they must be made in person or in writing. Utica College reserves the right to withhold the transcripts and diplomas of financially delinquent students.

PROBATION AND ACADEMIC DISMISSAL

Anytime a student's cumulative average falls below 2.0, he or she will be placed on probation. Probation is a warning that the quality of the student's work must improve or he or she will face academic dismissal for poor scholarship. Students on probation are not allowed to exercise the pass/fail option.

Additionally, full-time matriculated students should progress toward their degrees at a rate no lower than described in the following guidelines for minimal academic progress.

MINIMAL ACADEMIC PROGRESS

<table>
<thead>
<tr>
<th>SEMESTER</th>
<th>For BA or BS Degree Candidates</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
</tr>
<tr>
<td>Number of hours carried to completion in current semester (excludes withdrawals)</td>
<td>6</td>
</tr>
<tr>
<td>Cumulative number of hours passed</td>
<td>3</td>
</tr>
</tbody>
</table>

Students who do not meet the guidelines for minimal academic progress will have their records reviewed by the Academic Standards Committee. They may be allowed to enroll under continuing review, placed on probation, or dismissed.

READMISSION AFTER ACADEMIC DISMISSAL

Students who are dismissed for academic reasons will not be able to take any courses in either day or evening sessions at Utica College for at least one regular semester. Students who are dismissed at the end of a fall semester are eligible to apply for readmission the following fall semester. Students who are dismissed at the end of a spring semester are eligible to apply for readmission the following spring semester. Utica College is not obligated to accept transfer credit for work taken at another institution during the period of dismissal.

A second dismissal is considered to be a permanent separation from the College. Students who can provide convincing evidence of their ability and determination to complete degree requirements successfully may appeal this status to the vice president for academic affairs and dean of the faculty.

Students whose application for readmission is approved will retain the credits and grades earned before they were dismissed, and they will be readmitted on probation. They will be expected to make satisfactory progress toward earning their degrees each semester to remain at the College.

SOFTWARE AND INTELLECTUAL RIGHTS

Respect for intellectual labor and creativity is vital to academic discourse and enterprise. This principle applies to works of all authors and publishers in all media. It encompasses respect for the right to acknowledgement, right to privacy, and right to determine the form, manner, and terms of publication and distribution.

Because electronic information is so volatile and easily reproduced, respect for the work and personal expression of others is especially critical in computer environments.

VIOLATIONS OF AUTHORIAL INTEGRITY, INCLUDING PLAGIARISM, INVASION OF PRIVACY, UNAUTHORIZED ACCESS, AND TRADE SECRET AND COPYRIGHT VIOLATIONS MAY BE GROUNDS FOR SANCTIONS AGAINST ANY MEMBER OF THE ACADEMIC COMMUNITY.

ACADEMIC HONESTY*

Academic honesty is necessary for the free exchange of ideas. Utica College expects academic honesty from all students.

Academic dishonesty can include plagiarism or cheating. Plagiarism, a serious form of academic dishonesty, is the use of ideas and phrases in the writings of others as one's own without crediting the source. All materials used or paraphrased must be cited and credited. Cheating refers to both the giving and the receiving of unauthorized assistance in the taking of examinations or in the creation of assigned and/or graded class work. Students who assist other students in, or contribute to, acts of academic dishonesty are subject to the appropriate penalties.

Utica College faculty are authorized to assign academic penalties, including the grade “F for Cheating” for academic dishonesty.

Students who receive a penalty for academic dishonesty forfeit the right to withdraw from the class or the College without penalty, unless the faculty member allows it. (The phrase “for Cheating” will be removed upon graduation at the student's request.) The faculty shall inform the student in writing of the penalty and of the right to an appeal to the Academic Standards Committee, with a copy to the provost and vice president for academic affairs. The provost
and vice president for academic affairs will refer any repeat offense, or any particularly egregious first offense, to the Academic Standards Committee, which may recommend a more severe penalty than that imposed by the faculty member.

In addition, instances of academic dishonesty may be referred to the Academic Standards Committee by the Office of Student Affairs, and instances of academic misconduct (misuse of academic resources or facilities) may be referred by the Academic Standards Committee to the Office of Student Affairs for possible action through the student disciplinary process. Behavior by a student may result in both a hearing by the Academic Standards Committee and action through the student disciplinary process. The processes are separate so the decision rendered in one place will not determine the decision rendered in the other.

*See the Code of Student Conduct for definitions, policies, and procedures concerning academic misconduct.

---

**Notice of Utica College Policy**

**Concerning Unauthorized Distribution of Copyrighted Material and Unauthorized Peer-To-Peer File Sharing**

Utica College is committed to educating the Utica College community concerning unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing. Furthermore, the Education Opportunity Act of 2008 requires that this notice be sent to members of the College community annually.

Users of the Utica College computing network are prohibited from the unauthorized copying, distribution, alteration, use, or translation of copyrighted materials, software, motion pictures, music, or other media without the express written permission of the copyright holder.

Violation of this policy puts users at risk for losing computing privileges, being charged with a violation of the Utica College Student Code of Conduct and resultant disciplinary sanctions, being disciplined as an employee, and/or facing civil or criminal liability.

The following links on Utica College's Web site set forth Utica College's file-sharing policies and provide access and information to help users comply with those policies.

- **Utica College policy on Copyright and Peer-to-Peer File Sharing:** [http://www.utica.edu/policies/index.cfm](http://www.utica.edu/policies/index.cfm)
- **How you can legally access music, movies, games, software, and other copyrighted materials:** [https://www.utica.edu/academic/iits/copyright/legal_options.cfm](https://www.utica.edu/academic/iits/copyright/legal_options.cfm)
- **Copyright laws, copyright protections and your rights:** [www.copyright.gov/title17/92chap5.html](http://www.copyright.gov/title17/92chap5.html)
- **Peer 2 Peer and U @ UC, a tutorial:** [http://utica.edu/academic/iits/copyright/p2pmovie/index.html](http://utica.edu/academic/iits/copyright/p2pmovie/index.html)

While file sharing is not in and of itself illegal, unauthorized file sharing of copyrighted materials, including music and motion pictures, is a violation of copyright laws and can subject you to civil and criminal sanctions. In addition, downloading and/or using peer-to-peer software can be hazardous to your computer and the Utica College network, as many shared files can contain spyware or viruses.

Anyone found to violate the rights of a copyright owner is deemed an infringer of the copyright. Civil remedies for infringement include injunctions, forfeiture, seizure, and actual damages and profits suffered due to the infringement. In addition, in lieu of actual damages, the copyright owner may elect to pursue statutory damages ranging from $200.00 to $150,000.00 in the case of willful infringement. The court may also award the copyright owner reasonable attorneys' fees and costs related to prosecuting the action.

Infringers additionally may face criminal liability if they willfully infringe a copyright in certain situations. Violations of the above carry possible jail time (increased for multiple offenses) and fines, as well as seizure, forfeiture, and distribution of any copies or means by which the copies are made.

Article 17, Chapter 5 of the United States Code sets forth the laws concerning Copyright Infringement and Remedies (www.copyright.gov/title17/92chap5.html).

Violation of Utica College's copyright and file-sharing policies will subject individuals to appropriate disciplinary action, including, but not limited to mandatory training, loss of campus data network privileges, referral to the Office of Student Affairs for additional action through the student disciplinary process.

For the full disciplinary procedures as outlined in the Copyright and Peer-to-Peer File Sharing policy, please see [https://www.utica.edu/academic/iits/copyright/resources.cfm](https://www.utica.edu/academic/iits/copyright/resources.cfm) or the College's established disciplinary procedures for students as outlined in the Student Handbook.

Utica College additionally takes its obligations pursuant to the Digital Millennium Copyright Act (DMCA) very seriously. If Utica College receives a notice concerning a possible infringement, the DMCA requires Utica College to take certain steps to ensure illegal file sharing or other copyright violations occurring on the Utica College network have been stopped. If Utica College receives such a notice about copyright-infringing material your computer, your computer privileges will be temporarily suspended and you will be required to remove the infringing material from your computer.
ACCESS TO AND RELEASE OF STUDENT RECORDS/INFORMATION

Students have the right to access and control access to their educational records as provided in the federal Family Educational Rights and Privacy Act, also known as the Buckley Amendment. These include the rights to view and challenge the content of specified records, to control the release of personal and academic information to third parties, and to suppress all or some information categorized as “directory information” by legislation.

The policy of Utica College on access to and release of student data/information follows. Pursuant to the Family Educational Rights and Privacy Act of 1974, this will constitute official notice of the following information:

1. Official files containing material directly related to students are maintained in the following locations on campus:
   a. The Office of the Registrar maintains the student’s official academic record, admissions material, copies of correspondence with the student, and copies of information concerning the student’s academic record sent to prospective employers or other educational institutions at his or her request. These files are maintained by the registrar.
   b. The Office of Academic Affairs maintains records of students who are reported to the office for violations of academic honesty and records of students who have been referred to the office for the resolution of academic issues. The records are maintained by the provost and vice president for academic affairs.
   c. The Office of Student Financial Services maintains files containing information related to financial aid applications and awards. These files are maintained by the executive director of student financial services.
   d. The Office of Student Employment maintains files containing information related to a student’s employment in all campus-based work programs. These files are maintained by the student employment coordinator.
   e. The Office of Opportunity Programs maintains files for students enrolled in those programs which contain academic records, admissions material, and copies of correspondence with the student. These files are maintained by the director of Opportunity Programs.
   f. Once a student has opened a credential file with the Office of Career Services, the office will send copies of this file to prospective employers or graduate schools at the student’s request for a period of 5 years after opening their file. These files are maintained by the Office of Career Services.
   g. The Office of Student Affairs maintains files of students who have been charged through the student disciplinary process with violating the Code of Student Conduct. These files are maintained by the associate dean of students.
   h. The Office of Residence Life maintains files related to students who live in campus residences. The files contain records of students’ housing history, including violations of residential policies and regulations. These files are maintained by the director of residence life.
   i. The Office of Graduate Studies maintains files for students enrolled in those programs. The files, which contain academic records, admissions material, and copies of correspondence, are maintained by the dean of graduate studies, the director of credit programs, or the director of professional development programs, depending on the program.
   j. The Division of Advancement maintains files on students who pledge a gift to the College. These files contain a record of their pledges and correspondence, and are maintained by the coordinator of research and records.
   k. The Office of Marketing and Communications maintains files on students who submit information for press releases. These files are maintained by the director of media relations.
   l. The school office in which the student’s major resides maintains a file containing academic records, admissions material, and copies of correspondence with the student. These copies are maintained by the dean of the school.
   m. The Student Health Center maintains files with student immunization and medical records. These files are maintained by the Director of the Student Health Center.

2. The Act stipulates that the following persons and officials may have access to a student’s file without his/her permission:
   a. Utica College officials, faculty members, and employees – including student employees, trustees, and persons under contract to the College who have legitimate educational interests.
   b. Authorized representatives of certain federal and state officials, including the comptroller general, the secretary of education, etc. Please note that representatives of investigating agencies specifically are excluded.
   c. Organizations conducting studies for educational agencies for the purpose of developing, validating, or administering predictive tests, or administering student aid programs and improving instruction.
   d. Accrediting organizations in order to carry out their accrediting functions.
   e. In compliance with judicial order pursuant to any lawfully issued subpoena.
   f. Parents of students who are dependents of their parents for income tax purposes.

3. No person, other than those enumerated in #2 above, may have access to a student’s records without his or her written consent.

4. Records maintained in the Office of the Registrar constitute the official record and are maintained permanently. Records maintained in the other
Confidentiality for Student Employees

Students working in Utica College offices (student employees, resident assistants, or student interns) are considered employees of the College, and as such are sometimes required to handle confidential materials. Students are asked to sign a statement of confidentiality. If a student knowingly reveals information learned in confidence while working in a College office, the College reserves the right to take disciplinary action.

Grievance and Complaint Procedures

Persons who believe that they have been treated unfairly by the College have the right to file a complaint. Individuals are encouraged to resolve complaints informally with the faculty member or administrative officer most closely involved in the alleged problem. In the event that this doesn’t resolve the problem, and/or if someone wishes to take more formal action to file a complaint, the following are the procedures.

1. The College will attempt to investigate and resolve formal complaints informally with the faculty member or administrative officer most closely involved in the alleged problem. In the event that this doesn’t resolve the problem, the student may request the president of the College to convene a formal hearing. The president or a faculty or staff member appointed by the president, who shall have no direct interest in the outcome, will conduct the hearing. The hearing will be held within a reasonable time following the request, and the student will be afforded a full and fair opportunity to present evidence relevant to the issues raised. The decision will be rendered in writing by the official conducting the hearing within a reasonable time after the conclusion of the hearing.

2. Any appeals of actions taken by the president of the College should be submitted to the chairperson of the Board of Trustees.

3. A student has the right to challenge the content of his or her records. If a student should wish to do so, the College will attempt to resolve the dispute informally, through the person having responsibility for the file. If this attempt proves to be unsatisfactory to the student making the challenge, the student may request the president of the College to convene a formal hearing. The president or a faculty or staff member appointed by the president, who shall have no direct interest in the outcome, will conduct the hearing. The hearing will be held within a reasonable time following the request, and the student will be afforded a full and fair opportunity to present evidence relevant to the issues raised. The decision will be rendered in writing by the official conducting the hearing within a reasonable time after the conclusion of the hearing.

4. The College reserves the right to take disciplinary action.

5. The Act stipulates that students have the right to inspect their records. To do so, they must direct their request in writing to the person responsible for the file they wish to inspect. The request normally will be honored at the time of its receipt, if staff are available, but in no case later than 45 days after the request is made. Students have the right to review all material in their file unless they have waived their right of access. They have the right to receive a copy of any portion of their record, which will be made available to them at a charge of $1 for the first page requested and 10 cents for each additional page, with the exception of transcripts which will be made available at a charge of $5 per copy.

6. The Act permits the College to release directory information. Directory information will be released when it is deemed appropriate by College officials. In the absence of such notification, directory information released without prior consent should notify the Office of the Registrar in writing. In the absence of such notification, directory information will be released when it is deemed appropriate by College officials.

7. The Act permits the College to reveal the results of disciplinary proceedings against students accused of violent crimes who have been found responsible for violating the College's rules or policies. The College is also permitted to notify parents if a student younger than 21 is caught drinking alcoholic beverages or using illegal drugs.

8. The College reserves the right to take disciplinary action.

Confidentiality for Student Employees

Students working in Utica College offices (student employees, resident assistants, or student interns) are considered employees of the College, and as such are sometimes required to handle confidential materials. Students are asked to sign a statement of confidentiality. If a student knowingly reveals information learned in confidence while working in a College office, the College reserves the right to take disciplinary action.
# Programs of Study*

Utica College offers instruction in the following disciplines. Not all disciplines, however, lead to the bachelor of arts or bachelor of science degree. Students must complete the requirements for at least one program of study marked B.A. or B.S. to be eligible for graduation (see Regulations). All Programs of Study at Utica College are registered by the New York State Education Department, Office of Higher Education, Room 979 EBA, 89 Washington Avenue, Albany, New York 12234, (518) 474-5851.

**Graduate Degree Programs**

Utica College offers a number of master’s and doctoral degree programs. Several of these programs offer direct entry for freshmen. Brief summaries of each program appear below; for more complete information, please consult the graduate catalog, contact the appropriate program director listed below, or contact the Office of Graduate Studies at (315) 792-3335 or gradstudies@utica.edu.

**Business Administration – Professional Accountancy**

The M.B.A. in Professional Accountancy is a 30-hour program designed to qualify a student to gain entry-level work in any area of accounting—auditing and assurance services, financial accounting, managerial accounting, and tax planning. Entry into the program is automatically accorded to students with the college’s BS in Accounting with the CPA concentration who maintain a 3.0 or better undergraduate GPA. Applicants with less than a 3.0 undergraduate GPA may be asked, at the discretion of the MBA program director, to submit a GMAT score.

The 30-hour M.B.A. program combined with a 120-hour undergraduate program in accounting complies with the educational requirements for a Certified Public Accountant’s license in New York and meets the educational requirements for membership in the American Institute of CPAs. Upon completion of the degree, students will be eligible to sit for the CPA licensure examination.

The program is offered on a distance-learning format. Taking two classes per term, students meeting all prerequisites can complete the program in five to six terms. For more information, contact Dr. Zhaodan Huang, program director, at (315) 792-3247.

**Business Administration – Economic Crime and Fraud Management**

The M.B.A. in Economic Crime and Fraud Management is a 30-hour program that offers an educational opportunity in a growing field where Utica College already has a successful undergraduate degree in Economic Crime Investigation (ECI), and an executive master’s degree in Economic Crime Management (ECM). This program is designed to qualify the student to gain entry-level work in the areas of fraud analysis, fraud investigation, fraud examination/auditing, and compliance in both the private and public sectors. Students who complete this program will qualify for middle management positions in fraud investigation and analysis in a variety of industries such as banking, credit card, telecommunications, insurance, retail, and financial services. The program is offered on a distance-learning format and students can complete the program in approximately two years. For more information about this program, contact Dr. Zhaodan Huang, program director, at (315) 792-3247.

**Cybersecurity – Intelligence and Forensics**

The online M.S. in Cybersecurity – Intelligence and Forensics offers students advanced training and hands-on experience in intelligence, critical infrastructures, and investigative principles as they relate to cybercrime. The 30-hour program offers two specializations targeted to students with different interests.

**Cybersecurity:**

Designed for professionals interested in cyber intelligence and counterintelligence, cyber counterterrorism, and cyber countersabotage, the curriculum covers analysis of global and national cybersecurity policies, the study and protection of critical infrastructures, as well as operations involving cyber threats and defense.

**Computer Forensics:**

Designed for students interested in collecting and preparing evidence of computer crimes such as fraud, child pornography, and cyber espionage, the curriculum emphasizes a comprehensive understanding of the forensic tools and techniques used to investigate and analyze network-related incidents and digital devices. Coursework also focuses on the collection and preservation of digital evidence.

For more information, contact Professor Joseph Giordano, program chair, at (315) 223-2521.

**Economic Crime Management**

The M.S. in Economic Crime Management, the only degree of its type in the world, prepares students for executive positions requiring an understanding of the nature of economic crime and the ability to develop systems to combat economic crime. The program utilizes a flexible distance learning format, brief on-campus residencies, and study at home. This schedule allows students wishing to lead organizations operating in a global environment to acquire the requisite knowledge, skills, and vision with minimal impact on their full-time positions. For more information about this program, contact Suzanne Lynch, program director, at (315) 223-2455.

**Education**

Ten graduate level programs of study are available for students interested in pursuing master’s degrees in education. The Master of Science degree program in Childhood Education is designed for students who seek certification to teach children in grades 1–6. The Master of Science degree program in Adolescence Education is designed for candidates seeking certification to teach biology, chemistry, English, math, physics, or social studies to students in grades 7–12. The Master of Science degree program in Childhood and Special Education is designed for candidates seeking Initial Certification in both Childhood and Special Education. The Master of Science degree program in Adolescence and Special Education is designed for candidates seeking Initial Certification in both Adolescence and Special Education.
Adolescence Education—Apprenticeship Teacher Certification Program is a specialized option for students in the high-need teaching areas of foreign language, math, science, and technology education. The program leads to the Master of Science degree. Students in this program must complete an intensive 200-hour course of study during the summer. They then finish their degree program while engaged in mentored teaching as full-time employees of a local school district. The Master of Science degree program in Special Education Teacher Certification is designed for candidates who have Initial, Provisional, or Professional Certification in Early Childhood, Childhood, or Adolescence Education and who wish to add certification in special education. The Master of Science in Education degree program in Leadership and Instruction for Inclusive Classrooms provides certified teachers and related professionals the values, knowledge, and practices needed to work in inclusive elementary and secondary school classrooms. The Master of Science in Education degree program provides courses of study appropriate for students seeking permanent or professional teacher certification at any grade level. The Master of Science Degree program in Educational Leadership and Administration and the Certificate of Advanced Study (CAS) programs in School Building Leader and School District Leader are designed for candidates seeking New York State Certification as School Building Leader (principal) or School District Leader (superintendent). Graduates will understand and know how to apply the New York State Learning Standards to their daily lesson and curriculum planning for all students; demonstrate leadership skills in community and professional contexts; use technology to enhance their teaching; and adopt a variety of technological solutions in their classrooms for all students. Graduates will also have the knowledge, values, and teaching practices necessary for quality inclusive teaching; understand the importance of collaboration and possess the skills necessary to collaborate effectively with family, community, and colleagues; and use critical thinking problem solving and methods of inquiry in professional contexts.

Flexible options exist for completing degree requirements. For more information, contact the Institute for Excellence in Education at (315) 792-3815 or the Office of Graduate Admissions at (315) 792-3010.

All of the teacher education programs at Utica College are registered with the New York State Education Department. Completion of all programs requires a mandated research project, thesis, or comprehensive exam.

Advanced Certificate in Gerontology

This Certificate in Gerontology is a graduate-level program consisting of courses designed to address aging issues from either a health service delivery public policy, or community design focus. Students interested in any focus can complete their entire 18-credit program in one year, taking only one three-credit course per eight-week session. The entire program is offered in a flexible distance learning format with no required residencies.

This certificate program is designed not only to strengthen the marketability and job performance of the enrolled students, but also to provide knowledge of aging issues through a short-term graduate program. While designed for those professionals whose goal is a credential in gerontology, it can also be considered a supplement to master's degree/doctoral programs, especially in the disciplines of occupational therapy, physical therapy, therapeutic recreation, health care management, public health (MPH), and planning (MSP). The curriculum is structured to focus on practice more than theory, with the intent of empowering graduates to immediately apply knowledge to their professional roles.

A baccalaureate degree from a regionally accredited institution is required, as is appropriate access to the Internet. A minimum GPA of 3.0 is preferred, but exceptions may be made at the discretion of the Director of Gerontology and members of the Committee of Faculty, if the student's activities since college demonstrate the ability to succeed in graduate study. Students admitted who do not meet the minimum requirements will be on probationary status until they have completed 9 credits. After the completion of 9 credits, the student must have a 3.0 GPA in order to remain in the program.

For more information about this program, contact Sarah Burnett-Wolle at saburnettwolle@utica.edu.

Health Care Administration

There are three critical dimensions to Utica's online M.S. in Health Care Administration that are woven into each core course: management, leadership, and continuum of care. These dimensions are offered to help students understand the foundational theories that integrate with current and future best practices in health care. They are defined as:

Management:
Theoretical underpinnings of management practices in the service industry. The theories and concepts provide a foundation of understanding to the “why” of the science of health care administration.

Leadership:
Exploration and analysis of best practices in leading health care professional, organizational development. Focus is on creating future state models and scenarios that students can adopt in leading change. Leadership components explore the “who,” “what” dimension of student learning.

Continuum of Care:
Health care best practices evolve from customer centric continuum of care strategies. Through study of best practice models and cases students learn the “how,” “when” of health care administrative excellence.

Graduates of Utica College’s M.S. in Health Care Administration will be prepared to:
- Enter the healthcare workforce with an ability to function at an administrative level of competence in order to make sound financial, marketing, strategic planning, and human relations decisions
• Provide leadership qualities required in management positions in order to
  motivate and supervise employees
• Function within a continuum of care environment in order to meet the
  needs of long term care throughout the life span
• Communicate effectively with healthcare consumers, family members,
  third party reimbursement agencies, colleagues, and others

For more information about this program, contact Dr. Dana Brooks Hart
at (315) 792-3375.

Liberal Studies

The master of science degree in liberal studies offers students an opportunity
for intellectual growth and career enhancement through innovative, student-
centered interdisciplinary study. It is a flexible alternative to a disciplinary
degree that provides students with opportunities to design curricula that will
be of direct benefit to them in their chosen career. The program is designed
to allow students from a variety of academic backgrounds to explore a broad
range of subjects. While the program’s content will differ for each student,
it will serve to broaden the individual’s perspective and enhance the ability to
think critically, clearly, and analytically. All students must choose one of three
areas of study: Natural Sciences and Mathematics (includes courses in biology,
chemistry, geology, mathematics, and physics); Humanities (includes courses
in English, history, humanities, and philosophy); or Social Sciences (includes
courses in anthropology, economics, and sociology). Students may enroll full-
time or part-time, spring, summer, and fall. For more information about this
program, contact Polly Smith, director of the program, at (315) 792-3124.

Occupational Therapy

The occupational therapy master’s program is designed to integrate foun-
dational knowledge, skills, and attitudes that students learn and develop from
studies in the liberal arts with professional education at the graduate level.
This program involves earning a bachelor of science degree in health studies
with continuation to the master of science degree in occupational therapy.
Candidates may enter at the freshman level or as transfer students or as gradu-
ate students. The program is offered in both day and weekend formats. At the
end of the junior year, students who meet the continuation criteria will pro-
gress to the professional phase of the program and engage in graduate study in
occupational therapy. Students who do not have a degree in health studies, but
who have completed a minimum of a bachelor’s degree and the prerequisite
courses, and meet the continuation criteria, are also eligible for admission into
the professional phase of the program as space is available.

Using a case-based approach to learning, the curriculum is designed
to facilitate the development of occupational therapy practitioners who are
responsible, self-directed, lifelong learners, and the leaders of the future. The

occupational therapy faculty members recognize the reciprocal nature of
education and use collaborative teaching methods. Students are provided indi-
vidualized and relevant learning opportunities and experiences to foster their
development as liberally educated, ethical professionals who are capable of
assuming leadership roles in a diverse, changing community.

Information regarding the program’s accreditation status and occupational
therapy licensing and certification requirements may be found in the Utica
College graduate catalog and on the Utica College Web page.

For more information about this program, including placement opportuni-
ties, contact Dr. Judith Gonyea at (315) 223-2480.

Physical Therapy

The Physical Therapy department offers both an entry-level graduate
program and a transitional program, both leading to the doctor of physical
therapy degree.

Entry-Level Program

The entry-level program is registered by the New York State Education
Department and is accredited by the Commission on Accreditation in Physical
Therapy Education. The curriculum is designed to build upon a strong liberal
studies education and affords students the opportunity to integrate founda-
tional knowledge with professional education. The curriculum emphasizes the
concept that the process of learning is equal in importance to the acquisition
of knowledge. Designed in a problem-based learning format, the curricu-
um places particular emphasis on self-directed, student-centered learning.
Problem-based learning is an interactive educational model that uses small
group discussion of clinically relevant problems (case studies) to provide
the context for learning. Through carefully designed problems, this process
strives to guide, stimulate and challenge students to acquire a comprehensive
and integrated knowledge base. The expected outcome is an entry-level prac-
titioner able to meet current and future needs of the profession and health
care system. For more information about this program, including placement
opportunities, contact Shauna Malta, PT, DPT, MS, chairperson, at
(315) 792-3313.

Post-Professional Transitional Program

The transitional DPT program is designed for licensed practitioners who
have had a traditional physical therapy education below the doctoral level. The
transitional DPT program builds on the skills, knowledge, and experience of
practicing clinicians and entitles graduates to the degree of doctor of physi-
cal therapy. As a post-professional clinical doctoral degree, the DPT serves
as a credential, similar to the MD for medicine, the OD for optometry, and
the DPM for podiatry. It does not signify advanced preparation or specializa-
tion, but instead reflects the culmination of a comprehensive program and
the fulfillment of the highest standards of clinical performance in professional
practice. For more information about this program, contact Denise McVay,
assistant professor of physical therapy, at (315) 223-2525.
Major in Accounting*
(Bachelor of Science Degree)
Faculty: Basu, Caster, Dzieman, Hansen

The accounting major prepares students for careers in public and private accounting, including non-profit, governmental and education. Public accounting is a recognized state-licensed profession that embraces the areas of financial statement preparation, auditing, financial investigations, design and installation of accounting systems, and taxation. Private and other accounting alternatives also engage in the above activities, though the focus is primarily on the single entity—the employer. Graduates may find a variety of opportunities, including responsible positions in a public accounting firm or other business and not-for-profit or governmental entities.

Public Accounting Concentration

As a licensed profession, public accounting is subject to regulation by the State of New York. As of August 2009, to be eligible to sit for the CPA licensure examination, a candidate must have completed 150 semester hours of course work, including work in a number of related specified fields (management, marketing, finance, law, computer science, and statistics). Successful completion of this undergraduate major, along with the Utica College MBA in Professional Accountancy, will constitute eligibility to take the CPA licensure examination. Students with the undergraduate accounting major CPA concentration who maintain a 3.0 or better GPA will be automatically accorded acceptance into the college’s MBA – Professional Accountancy program. Students with less than a 3.0 undergraduate GPA wishing to pursue the MBA may be asked at the discretion of the MBA program director to submit a GMAT score.

Further information about CPA certification is found in the Public Accountancy Handbook. A copy of this publication may be obtained without cost by writing to the Office of the Professions, Professional Licensing Services, Cultural Education Center, Albany, NY 12230. Information is also available on the web at http://www.op.nysed.gov/prof/cpa/.

Private Accounting Concentration

Private accounting deals primarily with the financial records, statements, and reports of a single business, and the use of accounting as a tool of management. Graduates with training in private accounting may expect to progress to such positions as cost accountant, cost analyst, budget director, chief accountant, comptroller, internal auditor, and chief financial officer.

Many treasurers and presidents of large corporations were formerly comptrollers. Comptrollership is a rapidly growing field that deals primarily with the application of accounting, economics, finance, and statistics to the operations of a business enterprise.

Students who wish to pursue this course of study should opt for the Private Accounting concentration.

Total credit hours required for degree: 120

Special Requirements

A grade of C or better is required for each major course. For major-related courses a C average is required.

Academic Requirements

See also General Education Core in the “Undergraduate Program” section of this catalog.

Economics elective Economics course at the 300- or 400-level 3 3,4
Finance 343 Money and Banking or
Finance 351 Financial Management 3 3,4

Electives
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences.

* Transfer students must complete at least 15 hours of accounting at Utica College.

Minor in Anthropology

Anthropology is a holistic science of humankind, which includes the traditional interests not only of the social sciences, but also of the natural sciences and the humanities. Anthropologists seek to understand past and present societies, the structure and diversity of human language, and the nature of humans as a species. American anthropology is divided into four subdisciplines: ethnology (cultural anthropology), archeology, anthropological linguistics, and physical (biological) anthropology. This minor is designed to expose students to all four subdisciplines, as well as related disciplines.

Total credit hours required for minor: 18
At least 9 credit hours must be at the 300 level or above.

Required Courses

Anthropology 205 Human Beings in Evolutionary Perspective 3

Linguistics Elective

One of the following courses: 3
English 313 American Social Dialects
English 318 Introduction to Linguistics
Anthropology 351 Language and Culture

Biology Elective

One of the following courses: 3
Biology 111 Human Ecology
Biology 113 Human Genetics

Anthropology Electives

Nine credits in Anthropology at the 200-, 300-, 400- or 500-level 9

Major in Biochemistry

(Bachelor of Science Degree)

Faculty: Aaronson, Barr, Boucher, Buchanan, McLean, Pack, Pulliam, Thomas

The biochemistry major is modeled on a course of study recommended by the American Chemical Society and places significant emphasis on the study of the molecules and reactions of life processes. It is intended for students who have an interdisciplinary interest in biology and chemistry and wish to work at the interface of those two disciplines. Students will be well prepared for entry-level careers in biochemistry or biotechnology or for further graduate and professional study in biochemistry or medicine.

Total credit hours required for degree: 128

Major in Biology
(Bachelor of Science Degree)*
Facility: Aaronson, Buchanan, Kurtz, McCarthy, McLear, Pack, Provost, Scanga, Wise

Biology is the science of life and its processes. It includes study and research related to
the structure, function, growth, origin, evolution, and distribution of living organisms.
The major in biology offers a variety of career opportunities in at least five different areas: Medical (dentistry, medicine, optometry, pharmacy, podiatry, public health, chiropractic, veterinary medicine, physician’s assistant, audiologist/speech therapist);
Teaching (college, secondary, elementary, drug counseling); Research (academic, gov-
ernment, private), Environmental (forestry, wildlife management, park management,
range management, pollution measurement and control); and Commercial (laboratory
equipment and pharmaceutical sales, technical writing).

Most of these careers require training in addition to a major in biology. Those
interested should investigate specific course requirements for entrance into professional
or graduate school and discuss these options with their academic adviser. Students con-
sidering public school teaching as a career should refer to the programs in education,
listed alphabetically in this section of the catalog.

Total credit hours required for degree: 128

Total Hours Required in Major: 66-67

*Students should check to determine if these courses require prerequisites. Students may select any 300-400 level
elective courses that are not being used to satisfy other degree requirements. 500 level courses require permis-
sion of instructor.

Electives
The student must complete sufficient elective courses to earn at least the minimum
credits hours for this degree and at least 64 credits of the 128 required must be in the
liberal arts and sciences.

Areas of Emphasis
Biology majors, with their advisers, can tailor the curriculum to help prepare them-
selves for their future goals, for example:

Pre-professional and Academic: This emphasis should satisfy the needs of students
intending to apply to professional or graduate schools and should include Organic
Chemistry (CHE 332 and 332), Calculus (MAT 201), and two semesters of a foreign
language.

Educational: This concentration encourages those students intending to be second-
ary or elementary school teachers to meet state certification requirements in areas
in addition to biology (i.e. earth science and general science). Students take education and
science courses in areas where certification is desired.
Programs of Study

**General:** This emphasis adds flexibility through sampling courses outside the field of biology. Students take six hours of non-biological science courses.

Biology Honors: In order to be considered for Honors in Biology, the following requirements must be satisfied.
1. The student must have Biology GPA of at least 3.4 in all Biology courses taken at Utica College and an overall GPA of at least 3.0.
2. The student must take BIO 450 in their junior or senior year and present their findings at the Annual Undergraduate Research Conference.
3. The Biology Faculty will evaluate the student’s credentials and then select those who shall receive Honors. The student’s participation in departmental activities will also be considered.

For those students selected, the transcript will read Bachelor of Science with Honors in Biology.

**Major in Business Economics**
*(Bachelor of Science Degree)*

**Faculty:** Fenner, Huang, Morgan-Davie, Sayanak

The business economics major provides students with the ability to apply the general concepts of economics to help solve management problems. Firms are becoming increasingly aware of the contribution that economics can make in day-to-day decisions. The major is centered around a thorough understanding of economics and is supplemented by courses in accounting, finance, and management. Managerial economics, research methods in economics, and an internship provide the link between economic theory and business application.

In addition to providing an especially strong foundation for employment in business, the business economics major is also a good basis for graduate work in business, economics, and law. With the growing emphasis on economic education in the high schools, the business economics major can also help prepare students for certification in the areas of management or economics. Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

Total credit hours required for degree: 120

**Electives**

The student must complete sufficient elective courses to earn at least the minimum
credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences. Students are encouraged to select electives that will complement their major course of study, for example, courses in Anthropology, Communications, Government and Politics, History, International Studies, Law, and Sociology.

**Major in Chemistry**  
*(Bachelor of Science Degree)*  
*Faculty: Barr, Boucher, Pulliam, Thomas*

Chemistry is the study of the composition, structure, properties, and reactions of matter at both the macroscopic and atomic levels. Students choosing chemistry as their major field of study will learn to understand and appreciate the physical world as a manifestation of its smallest molecular parts, both through abstract theoretical models and in direct laboratory experimentation. Through participation in a discipline that often occupies a central and unifying role in contemporary science programs, the student of chemistry is especially well equipped to pursue professional careers in medicine, industry, and teaching. During the course of their study, majors will have opportunities to perform and present original research, to engage in a culture and tradition of inquiry that is simultaneously rigorous and rewarding, and to take part in a variety of collaborations with the faculty. Exceptional students may also elect to pursue the degree with Honors. Flexibility within the major allows the student and adviser to design a program of study based on one of the following available concentrations:

*The General Concentration* is intended to provide a fundamental, well-rounded education in science and is ideal for pre-dental, pre-law or pre-medical students, for students who wish to teach, or for students seeking job entry at the technical level.

*The Biochemistry Concentration* is modeled on a course of study recommended by the American Chemical Society and places significant emphasis on the study of the molecules and reactions of life processes. It is intended for chemistry students who have an interdisciplinary interest in biology. Students will be prepared for entry-level careers in biochemistry and biotechnology or for further graduate and professional study in biochemistry or medicine.

*The Environmental Concentration* is intended for students with an interest in understanding the effects of human activity on atmospheric, aquatic, and terrestrial environments within a chemical context. By seeking solutions for such chemically based environmental problems as water pollution, acid rain, and hazardous wastes, environmental chemists help ensure a healthy environment for all living things.

*The Professional Concentration* is, like the Biochemistry Concentration, a recommended course of study from the American Chemical Society. It is especially suited for students who want to pursue graduate work in chemistry, or careers in the chemical or pharmaceutical industries.

Students considering public school teaching as a career should refer to the programs in education listed alphabetically in this section of the catalog. Each student who studies the chemistry major should consult regularly with his or her adviser, particularly concerning selection of electives.

The chemistry program is accredited by the American Chemical Society, the highest standard for undergraduate chemistry education. Students wishing to graduate with a B.S. in Chemistry certified by the American Chemical Society should complete the professional concentration with at least one credit hour of chemistry electives being laboratory based.

Total credit hours required for degree: 128

Minor in Chemistry

The minor in chemistry may be used by students wishing further to explore and formalize their studies in this discipline. This minor should be considered by any non-chemistry major who is interested in a career in science teaching, medicine or other health professions, patent law, forensic laboratory, science, or technical sales.

Total credit hours required for minor: 21

Major in Communication Arts

(Bachelor of Arts Degree)

Faculty: Downing, Habbel, Miller

While the study of human communication has been a central component in the curriculum of Western education since classical Greece, in the “age of information,” it is becoming increasingly important. In virtually all situations we must make choices about what and how to communicate. The quality of our life and work is significantly affected by how well we choose our strategies, how well we express our ideas, and how well we understand other people and their ideas.

Communication study has two components. One focuses on developing an understanding of how our identities, roles, relationships, and organizations are shaped by the style, content, and media of communication. The other focuses on the opportunity to enhance and refine communication and performance competencies. The knowledge and skills acquired are essential to both personal growth and professional development.

In order to tailor the course of study to their vocational interests, students should consult with their adviser regularly and plan to complete an internship. Students are strongly encouraged to select free electives which will broaden and deepen their background in related fields.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

Total credit hours required for degree: 120

Communication Arts 426 Theories of Visual Communication
Communication Arts 461 Rhetorical Theory and Criticism

**Major Electives**
The student must select 15 additional hours not listed above in the areas of Communication Arts, Theatre, or Film Studies. At least nine hours of these electives must be at the 300-level or above. A maximum of six credit hours in Public Relations or Journalism courses may also count as electives.

Major in Computer Science
(Bachelor of Science Degree)
Faculty: Huss, Kim, LaBella, Rivera

The major in computer science will prepare the student to work with computers and develop systems utilizing the computer in areas of science, industry, civil service, and education. For those desiring more specialization, the program is a sound preparation for graduate study in computer science.

There are three concentrations that can be taken to meet the major-related requirements of the computer science major.

The Scientific Concentration is intended for the science and technology oriented student. The mathematical background obtained will prepare the graduate to handle analytical problems and systems requiring a scientific preparation and mathematical sophistication.

The Business Concentration is intended for the student who needs less mathematical sophistication and who intends to work primarily in areas where the computer is applied to business or non-mathematical problems.

The Computer Security Concentration is intended for the student who is interested in pursuing a career that focuses on protecting information within both government and private sectors.

Total credit hours required for degree: 128

**Electives**
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences.

**Minor in Communication Arts**
The minor in communication arts is designed to provide students in other majors with an opportunity to develop their understanding of the communication process and to refine specific communication competencies. Students concerned with preparing themselves to begin a career upon graduation may focus on learning more about the critical role of information and communication in the operation of organizations, and on developing the skills necessary in order to communicate effectively with other people. Those students who are interested in pursuing graduate work may complement their major area of study with an understanding of human interaction from a communication perspective.

Major in Construction Management
(Bachelor of Science Degree)
Faculty: Dubbelde, Todorov
The curriculum for this major is designed to prepare students for careers centered on the management of construction projects. It includes a balanced focus on technical construction knowledge – like methods and materials, thermal comfort, and building layout – and the managerial, financial, and planning skills necessary for completing construction projects successfully. Also, throughout the curriculum there are consistent emphases on such broad strengths as excellence in oral and written communication, an understanding of the social and cultural dynamics of the construction industry, and the qualities of ethical business practice and the principles of social responsibility.
Total credit hours required for degree: 128

SPECIAL REQUIREMENTS
To be eligible for graduation all students pursuing a B.S. Degree in Construction Management must earn a minimum grade of “C” in all major and all major-related courses. In the event a student does not achieve the minimum grade of “C”, the course must be repeated until that level of scholarship is achieved.

Minor in Creative Writing

The minor in creative writing is designed to provide an added area of competency for students. It entails the study of creative writing in multiple genres as well as the literary traditions of short fiction, the novel, and poetry. In addition to the personal value this minor will have for any student, it will help students preparing for many professions as they develop their communication and rhetorical skills and practice thinking creatively. In workshops, students learn how to critique effectively their own and others’ writing. Students should consult their major advisers about the appropriateness of this minor for their majors.

Major in Criminal Justice

(Bachelor of Science Degree)

Faculty: McBride, Ryan, Trost, Virkler, Van Slyke, Walsh

Criminal justice is the study of crime, its causes, and its effects on society. It is concerned with preventing and deterring criminal behavior, rehabilitating the offender, and providing a system where justice and rights are served. Graduates of the program have opportunities in a variety of criminal justice fields including policing, law, probation, juvenile services, private security, public administration/planning, counseling, research, and regulatory enforcement.

In addition to entry level employment opportunities, graduates may pursue advanced study in fields such as public administration, criminal justice and criminology, management, and law.

Total credit hours required for degree: 120
Special Requirements
Students in criminal justice are required to achieve a cumulative grade point average of at least 2.5 (on a 4.0 scale) across major, major-related, major elective, and major concentration courses by the first semester of their junior year and to maintain that average thereafter.

Academic Requirements

Major in Criminal Justice – Economic Crime Investigation
(Bachelor of Science Degree)
Faculty: Curtis, Giordano, Kelly, Lynch, Ma, McBride, Rebovich

Economic crimes are a major and costly societal problem in America. Presently there are few individuals who have the skills to prevent, detect, or investigate this kind of crime. This major is designed to prepare practitioners to understand this evolving technological problem of business fraud and computer crimes. By combining accounting, management, computer science, and economics courses with criminal justice courses in economic crime investigation and law, students will be sufficiently prepared for an entry level position in this field.

Utica College also offers a master’s program in Economic Crime Management. For more information, consult the UC graduate catalog.

Total credit hours required for degree: 126
Spécial Requirements
Students in criminal justice – economic crime investigation are required to achieve a cumulative grade point average of at least 2.5 (on a 4.0 scale) across major, major-related, major elective, and major concentration courses by the first semester of their junior year and to maintain that average thereafter.

* Students wishing information about the criminal justice retention policy should consult with their academic adviser.

Major in Cybersecurity and Information Assurance
(Bachelor of Science Degree)

Faculty: Giordano, Ma, McBride, Nichols, Popyack

The assurance of information during transmission or while in storage and the security of critical information infrastructures are a major responsibility of government and the private sector. Securing computers and computer networks, and conducting investigations of cybercrimes and forensic analysis of digital devices are principal methods of securing cyberspace. Through a multidisciplinary approach integrating criminology,
criminal justice, economic crime, and computer science, students will be prepared for entry level positions either in cybercrime investigation and computer forensics or the security of information stored in or transmitted by computers and computer networks.

Total credit hours required for degree: 120

**Special Requirements**

Students in Cybersecurity and Information Assurance are required to achieve a cumulative grade point average of at least 2.5 (on a 4.0 scale) across major, major-related, major elective, and major concentration courses by the first semester of their junior year and to maintain that average thereafter.

**Electives**

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences.

**Dentistry**

(See "Preparation for Graduate and Professional Schools" and "Joint Health Professions Programs.")

**Major in Economics**

(Bachelor of Arts Degree)

Faculty: Basu, Fenner, Huang, Morgan-Davie, Sayanak

Economics is the science that studies and conducts research in the production, development, distribution, and management of the material wealth of the world economy, nations, business enterprises, households, and individuals, and of the dynamics of economic interactions between individuals and groups.

The major in economics can open a path to employment in government, business,
labor, research, or education. There is a demand for those who are broadly trained in
the liberal arts without sacrificing the firm foundation of depth in analytical thinking.
This program also provides the basis for graduate work in economics and law, or for
training for high executive positions. It can increase one's understanding of economic
and political problems in the national and world economy. Students considering public
school teaching as a career should refer to the programs in education, listed alphabeti-
cally in this section of the catalog.

Total credit hours required for degree: 120

**Academic Requirements**

(See also General Education Core in the “Undergraduate Program” section of this
catalog.)

**Electives**
The student must complete sufficient elective courses to earn at least the minimum
credit hours required for this degree, and at least 90 credit hours of the 120 required
must be in the liberal arts and sciences.

**Minor in Economics**
The minor in economics is designed to provide students with a basic understand-
ing of economic concepts and processes. The capstone course gives students
the opportunity to apply the tools of economics to an issue central to their majors.
Although open to all, the minor is especially relevant for students in pre-law, govern-
ment, journalism, and psychology programs.

Total credit hours required for minor: 19

**Education, Programs in**

(Preparation for early childhood, childhood, middle childhood, adolescence,
teaching English to speakers of other languages, business and marketing educa-
tion and dual certification in childhood and special education or adolescence and special education)

Utica College offers programs in teacher education that lead to certification in
several different teaching areas. In order to be certified to teach in New York state, pro-
spective teachers are required to complete a bachelor’s degree, including the education
program requirements, to pass the mandatory New York State Teacher Certification
Examinations, and to meet all other regulations of the New York State Commissioner
of Education.

Students interested in a teaching career should plan to consult with an education
adviser soon after matriculation to discuss career possibilities, procedures for admis-
sion to the education programs and the requirements for completion, and for informa-
tion about the certification areas available. Some education courses require written
permission of the chair for registration.

Courses in the education programs include observation and work in the public
schools as well as regular course work. The practical application of the theory and prin-
ciples of teaching and learning culminates in an assignment to area schools for student
teaching in the senior year. It is necessary for students to make plans to set aside one of
the semesters of the senior year to devote entirely to student teaching.

There are specific admission and retention criteria and policies, including a mini-
um 2.75 GPA requirement, for the education programs. There are also additional
requirements associated with student teaching.

Utica College also offers master’s programs in education. For more information,
consult the Utica College graduate studies catalog.

**Early Childhood (Birth–Grade 2) Education**

Students pursuing the early childhood education program must major in a liberal arts
field. At Utica College, the following liberal arts majors are available: biology, chem-
istry, communication arts, economics, government and politics, English, history, inter-
national studies, liberal studies, mathematics, philosophy, physics, psychology, psychology-child life, social studies, and sociology and anthropology. In addition to the requirements of their major and the courses in the early childhood education program (listed below), students must fulfill the following requirements (some of which may be satisfied by the Utica College core curriculum):

- one year of college-level work in a language other than English
- at least 6 credits in each of the following fields: English, mathematics, science, and history
- one course in the fine arts

NOTE: Students in the early childhood education program must complete at least 90 credit hours in the liberal arts. Education courses are not liberal arts courses. Assuming that all other courses are liberal arts, students must complete at least 124 credits in order to meet this requirement for graduation. Consult as early as possible with your adviser to be sure that you fulfill this requirement.

### Childhood (Grades 1-6) Education

Students pursuing the childhood education program must major in a liberal arts field. At Utica College, the following liberal arts majors are available: biology, chemistry, communication arts, economics, government and politics, English, history, international studies, liberal studies, mathematics, philosophy, physics, psychology, psychology-child life, social studies, and sociology and anthropology. In addition to the requirements of their major and the courses in the early childhood education program (listed below), students must fulfill the following requirements (some of which may be satisfied by the Utica College core curriculum):

- one year of college-level work in a language other than English
- at least 6 credits in each of the following fields: English, mathematics, science, and history
- one course in the fine arts

| or Education 477 | Mentored Internship I | 6 | 4 |
| Education 478 | Mentored Internship II | 6 | 4 |

Credit Hours: 55

NOTE: Students in the childhood/special education program must complete at least 90 credit hours in the liberal arts. Education courses are not liberal arts courses. Students should consult as early as possible with their advisor to be sure they meet this requirement. Assuming that all other courses are liberal arts, students must complete at least 133 credits to meet this requirement.

### Grades 7 – 9 Extension to Childhood Education

Students seeking an extension to authorize the teaching of a subject in grades 7 through 9 for certificates in childhood education (Grade 1 – 6) must complete the appropriate major and must take the following courses in conjunction with the childhood education program:

• Students seeking social studies certification must take both ECN 141 – Principles of Macroeconomics and GOV 101 – American National Government or the equivalent, and a minimum of 21 credit hours in history.
### Programs of Study

#### Middle Childhood (Grades 5-9) Education Program

The program in middle childhood education requires that students select a major in the subject area which they plan to teach. The areas open to students at Utica College are English, mathematics, sciences (majors in biology, chemistry, or physics), the social sciences (majors in economics, history, government and politics, social studies, or sociology and anthropology), and business and distributive education (majors in management or computer science). Certification in business and distributive education also requires a year of work experience in addition to college coursework. See the chair of the Education Department for further information.

In addition to the requirements in their majors and the courses in the middle childhood education program listed below, students must fulfill the following requirement (which may be satisfied by the requirements of the Utica College core curriculum):

- **one year of college-level work in a language other than English**

<table>

#### Middle-Adolescence Education Program (Grades 7 – 12)

The program in adolescence education requires that students select a major in the subject area that they plan to teach. The areas open to students at Utica College are English, foreign languages (French or Spanish)* mathematics, sciences (majors in biology, chemistry, or physics), and the social sciences (majors in economics, history, government and politics, or sociology and anthropology).

In addition to the requirements in their majors and the courses in the adolescence education program listed below, students must fulfill the following requirement (which may be satisfied by the requirements of the Utica College core curriculum):

- **one year of college-level work in a language other than English**

- **Students seeking social studies certification must take both ECN 141 – Principles of Macroeconomics and GOV 101 – American National Government or the equivalent, and a minimum of 21 credit hours in history.**

Business and Marketing Education

The program in business and marketing education is open to students who major in management with a concentration in marketing management.

In addition to the requirements in their major and the courses in the business and marketing education program listed below, students must fulfill the following requirement (which may be satisfied by the requirements of the Utica College core curriculum):

- one year of college-level work in a language other than English
- at least 6 credits in each of the following fields: English, mathematics, science, and history.
- one course in the fine arts

Total credit hours required for degree: 120

NOTE: Students completing majors in business and management must complete at least 60 credit hours in the liberal arts. Education courses are not liberal arts courses. Students should consult as early as possible with their adviser or with the director of teacher education to be sure that they fulfill this requirement.

*According to figures from the New York State Education Department, in the 2010-2011 academic year, a total of 263 undergraduate students and 124 graduate students were enrolled in the program. Of 65 eligible provisional certificate program completers, 35 (100 percent) took the Professional Knowledge/Pedagogy NYSTCE Assessment of Teaching Skills, with 62 (95 percent) passing, and 53 (82 percent) took the NYSTCE Liberal Arts and Sciences Test or both the NTE (Praxis II) Communications Skills Test and General Knowledge Test, with 51 (96 percent) passing. The average number of supervised student teaching hours required is 470 with a faculty-student ratio in the student teaching practice of 1:6.

Major in English

(Bachelor of Arts Degree)

Faculty: Bergmann, Cormican, Denman, Febos, He, Hutchinson, Janda, Leising, Matza, Obernesser, Orr, Scannell, Witucki

English majors study the great heritage of the English-speaking peoples in a comprehensive and varied program that includes literature, the history and structure of the English language, and various aspects of writing. Students develop an understanding of the relationship between English and the diverse cultural traditions around the world through the study of ancient and modern foreign literatures in translation. They gain cultural understanding, communication skills, and experience in scholarship, and are therefore prepared to teach, do graduate work, or enter any occupation that requires critical thinking, good writing, and a broad perspective.

Detailed advising guides (available from any member of the department faculty or in the School of Arts and Sciences Office) help students select from the options in the major requirements to prepare themselves for careers in business, civil service, law, or publishing, for graduate work in English language, English as a second language, literature, or writing.

Students planning to be certified in K-12 teaching will take elective courses that will strengthen their expertise in their content area of specialization. Prospective childhood education teachers will be advised to take ENG 303 when possible.

Total credit hours required for degree: 120

Electives

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences.

NOTE: Students enrolled in the program in education must obtain a favorable recommendation from the English Department faculty prior to being approved for student teaching placements in addition to meeting any separate requirements established by the Education Department. Those students most likely to receive a favorable departmental recommendation will have maintained an overall GPA of 3.0 (4.0 scale) in required major and major-related courses. Detailed guidelines outlining recommendation standards are available in the School of Arts and Sciences office.

Minor in English Language

The minor in English language is designed to provide an added area of competency for students majoring in disciplines other than English and is not open to English majors. It entails the study of language theory and structure and offers the opportunity for practical application of theoretical concepts. While the minor is offered under the auspices of the School of Arts and Sciences, it includes language-related courses offered in other schools as course options.

Because many professions require an understanding and effective use of language, this minor will be helpful to students preparing for various careers, both in terms of increasing their linguistic competence and in gaining employment. Students interested in minorin English language should consult their major advisers about the appropriateness of this minor for their major.

Minor in Film Studies

The minor in film studies is designed to enhance students’ understanding of film as an art form and as an embodiment of cultural developments. In an age when we are bombarded with information, in-depth study of the cinema is an appropriate means of enhancing our visual and cultural literacy.

The minor in film studies will be of use to those who are interested in studying film at the graduate level and those in such fields as communications, teaching, English, the fine arts, public relations, journalism, and history.

Certificate in Financial Crimes Investigation

The purpose of this program is to provide course content focused on those topics essential to preparation for a career in the investigation of financial crimes. The program is designed specifically for individuals employed in law enforcement positions or in private sector industries impacted by financial crime. Applicants must possess at least an associate's degree to be eligible to study for the certificate. (Students who already are matriculated in a degree program are not eligible for the certificate.) The Certificate in Financial Crimes Investigation is offered in a distance learning format.

Major in Foreign Language

*(Bachelor of Arts Degree)*

*Faculty: Little, Thomas, Zee*

The focus of this major is to master a foreign language and learn to apply it to an occupation, a field of study, or other life interests. Students will develop an understanding of the grammar, literature and culture of their primary language through both classroom study and a foreign studies experience. The Senior Research Project will combine the primary language with courses in a Major Related Sequence (such as Sociology or Human Rights Advocacy) acquiring the background knowledge and vocabulary in the primary language with which to work successfully in these fields. This major is designed to meet the needs of those students intending to interact with a non-English speaking population, be it in business and management, education, social services, journalism, law, travel and tourism, and other fields that require language skills. This program is also appropriate for students interested in education and teaching foreign languages at the Elementary or High School levels.* Furthermore, the knowledge of other languages is a positive attribute for those students who will pursue a graduate degree.

Total credit hours required for degree: 120 credit hours

General Education Core ........................................ 34 – 55 1,2

Major Course Requirements

At least 27 credits beyond the 202-level must be taken in the primary language. Prior competency in this language must be demonstrated before students are enrolled in courses beyond Language 202.

At least 12 of the 300- and 400-level credits must be taken abroad in a program approved by the language faculty in conjunction with the Director of International Programs. These 12 credits will usually include, but are not limited to, conversation, literature, grammar, and culture and civilization courses; the actual course work will vary with the study abroad program. Students should begin working early with their advisors and with the Office of International Programs to plan for the overseas experience, including the likelihood of additional expense associated with travel.

Major Related Sequence

A sequence of courses in another field or combination of fields, as guided by the adviser, designed to complement the major courses. Content from the major related sequence will be integrated into the Senior Research Project. ........................................ 15-21 2,3,4

* The requirement for those students interested in the teaching certificate is 30 credit hours in the foreign language of their choice.

** It is anticipated that most incoming Foreign Language Majors will already have already completed the equivalent of Elementary I [101] and II [102] of their primary language, and possibly Intermediate I [201] and Intermediate II [202].

*** Or comparable courses in the primary language as approved by the department.
Minor in French

French is of particular interest to those studying the civilizations and current affairs of Canada, Europe, and Africa. For its cultural and practical value, the study of French generally is recommended to all prospective graduate students and to students in certain career and liberal arts areas (e.g., international business, international studies, philosophy, government and politics, and education).

Total credit hours required for minor: 15
Prerequisite: French 202 or equivalent.

Required Courses

*Other courses may be substituted with departmental approval. Participation in a study abroad program (such as DIPA, Syracuse University) is highly recommended.

Minor in Gender Studies

The minor in gender studies is designed to enable students to develop a critical awareness of socially formed gender patterns.

From birth, females and males internalize assumptions about gender roles. This often results in both sexes consciously or unconsiously limiting their views of themselves and each other. The minor in gender studies consists of an interdisciplinary investigation of gender-related issues and research. Learning to apply standards of critical thought to the inevitable emotional content of gender studies may enable men and women to live and work together more successfully with greater mutual respect and understanding.

As a part of social studies, the gender studies minor is under the administrative oversight of the coordinator of social sciences who acts as student adviser. The Gender Studies Committee, in turn, consists of at least one faculty member from each school of the College and at least two students.

Total credit hours required for minor: 18
At least 9 credit hours must be at the 300 level or above.

Required Courses

Social Studies 203 Introduction to Gender Studies .......... 3
Capstone Project ........................................... 3

The capstone project will be an independent project chosen by the student together with an adviser who need not be a part of the Gender Studies Committee. This course will be numbered as an independent study course within the relevant department. In addition to the adviser, the project will be presented to a committee consisting of two faculty members and two students from the Gender Studies Committee. The committee may be chosen by the student from among those eligible, but must include faculty from at least two disciplines. The project will be graded by the student's independent study adviser.

Major in Geoscience

(Bachelor of Science degree or Bachelor of Arts degree)

Faculty: Kanfoush, Schoonmaker

Geoscience is a broad, interdisciplinary field comprising geology as well as aspects of ocean science, atmospheric science, planetary science, and environmental science. Utica College offers both B.S. and B.A. degrees in Geoscience. The B.S. affords greater depth in geoscience and the other physical sciences and is designed to prepare students to work in applied earth and environmental science or pursue graduate studies in geoscience or related disciplines. Those interested in a program in earth and environmental science designed to provide substantial breadth in science preparation by also including coursework in biology, environmental issues, and astronomy may elect to pursue the B.A. Each degree is also appropriate for teaching secondary earth science. Students interested in teaching should see also the Programs in Education.

Credit Year Hours Taken

General Education Core .............................................. 34 – 55

Major Course Requirements ........................................... 29

Foundations of Geoscience:

Geology 115 Elementary Oceanography .................. 3 1,2
Geology 225 Physical Geology ................................ 4 1,2
Geology 226 Historical Geology ............................ 4 1,2
Geology 325 Mineralogy ......................................... 4 2,3
Geology 373 Sedimentology and Stratigraphy ....... 4 3,4
Geology 398 Structural Geology and Tectonics ....... 4 3,4
Geology 410 Geoscience Seminar ....................... 2 3,4

One of the following:

Geology 313 Introduction to Paleobiology .......... 4 2,3
Geology 323 Hydrology and Society .................. 4 2,3
Geology 333 Weather and Climate .................... 4 3,4

Major Related Course Requirements ......................... 11

Chemistry 211 General Chemistry I .................... 4 1,2
Mathematics 112 Basic Statistics ...................... 3 1,2
Physics 151 or 2612 General Physics I or Physics 12.. 4 2,3

Additional Course Requirements ............................. 27-29

B.S. in Geoscience .................................................. 27-29

Chemistry 212 General Chemistry II .................. 4 2,3
Geology 326 Petrology ....................................... 4 2,3
Mathematics 201 Calculus I ............................... 3 2,3
Mathematics 202 Calculus II .............................. 3 2,3
Physics 152 or 2622 General Physics II or Physics II 4 3,4

Electives in CHE, ENV, GOL, MAT, or PHY at or above 300-level .................. 6-8 3,4

Capstone Experience in Geoscience – select one of the following:

Geology 450 Research in Geoscience .................. 3 4
Geology 460 Field Experience in Geoscience .......... 3 4
Geology 470 Internship in Geoscience .................. 3 4

B.A. in Geoscience .................................................. 10

Biology 211 General Biology I ........................ 4 1,2
Environmental Science 201 Introduction to Environmental Issues 3 1,2
Physics 116 Astronomy: A Study of the Universe .... 3 1,2

NOTES:
1Some students may develop an interest in geoscience while taking GOL 105 for Core. In such instances, students may substitute GOL 105 for GOL 225 by also successfully completing GOL 225 Lab while registered for 1 credit of GOL 390.
2For students interested in continuing on to graduate studies in earth and environmental science, the calculus-based physics courses PHY 261 and 262 are highly recommended. These require MAT 201, Calculus I and MAT 202, Calculus II.

Minor in Geoscience

A competence in geology and the other earth sciences may enhance the career possibilities of primary and secondary school teachers and individuals pursuing graduate opportunities or employment in other science fields, such as chemistry, biology and physics. The Geoscience Minor is also appropriate for majors in economics, politics, anthropology/sociology who anticipate careers in government or industry that will involve issues of public policy concerning the environment. The Education Track of the Geoscience Minor will enable students within the education program to acquire some of the coursework necessary to attain teaching certification in Earth Science in addition to certification within their major discipline. For students with goals other than teaching, the minor is flexible enough to, with careful advising, allow students to meet their own needs.

Minimum credit hours required for minor: 18-20 (at least 9 at or above 300-level).

Minor Course Requirements

Credit Hours

Geology 225* Physical Geology ......................... 4
Geology 226 Historical Geology ....................... 4

**Major in Gerontology**

(Faculty: D. Heian)

Gerontology is the physical, mental, and sociological study of individuals as they grow from middle age through later life. The study is interdisciplinary in its approach, integrating information from such separate areas of study as the sciences, anthropology, psychology, philosophy, statistics, health studies, management, communication, public relations, and therapeutic recreation.

Our students graduate with the professional knowledge, skills, and experience required to pursue 21st century careers. While some graduates continue their studies in graduate school, others accept entry to mid-level positions with departments of social services, Hospice, faith-based agencies, community-based agencies, planning depart-

ments, senior citizen centers, state offices on aging, educational and research settings, long-term care, insurance agencies, congregate housing and assisted living facilities.

Total credit hours required for the degree: 120

#### Additional Electives

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences. Students are encouraged to select courses that complement their area of interest; for example, courses in Anthropology, Communications, Health Studies, Management, Public Relations, Marketing, Psychology, or Sociology.

#### Certificate in Gerontology

The purpose of this program is to foster awareness of the needs of the elderly and to develop skills to meet those needs. Within the aging network there are many levels of service delivery. All require appropriate levels of training. The knowledge and skills gained through this certificate program are well suited for persons seeking entry level employment in the aging network, while those already employed in the network will increase their knowledge of the aging process and further develop their skills. (Students who already are matriculated in a degree program are ineligible for the certificate.) The Certificate of Gerontology is offered in combination with traditional classroom and online distance learning.

Total credit hours required for certificate: 30

#### Minor in Gerontology

The minor provides students with both basic understandings of the normal aging process and common deviations from the normal patterns of growth and development in old age, as well as knowledge of public policy and services affecting the aged. The minor in gerontology is especially appropriate for majors in business, communication arts, construction management, criminal justice, economics, education (adult learners), government and politics, health studies, international studies, journalism, liberal studies, management, nursing, psychology, public relations, sociology, and anthropology, and therapeutic recreation.

Total credit hours required for minor: 18

Major in Government and Politics
(Bachelor of Arts Degree)
Faculty: Orlin, Perry, Richmond

Government and politics studies the processes, principles, and structure of power and authority. Governmental and legal systems and informal political structures and their relationship to various cultures are examined. Decision-making and the way in which society chooses social goals and allocates its resources are studied. This major is designed to meet the needs of those whose field of interest is government and politics and those who want a career as a social science teacher at the secondary school level or as an elementary school teacher. It is an appropriate major for careers in government service, law, and other positions which require an understanding of governmental policy and procedure.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

Total credit hours required for degree: 120

Academic Requirements

(Note: Some major concentration requirements have prerequisites which also can be taken to satisfy core. See your adviser.)

Major Course Requirements

A. Introduction .............................................. 9
   (Government and Politics 101, 261, 281)
B. American Politics ........................................ 3
   (One course from the following: Government and Politics 212, 215, 221, 251, 332, 333)
C. Comparative Politics .................................... 3
   (One course from the following: Government and Politics 271, 372, 373, 374, 375)
D. International Politics ................................... 3
   (One course from the following: Government and Politics 363, 364, 365, 368)
E. Law ......................................................... 3
   (One course from the following: Government and Politics 242, 345, 346)
F. Independent Research .................................... 3
   (One course from the following: Government and Politics 435, 464, 490)
G. Government and Politics electives ..................... 6

Major-Related Concentration ................................ 15
(Each major must select one of the following concentrations. In some cases the concentration requires that specific political science courses be taken to satisfy major course requirements. Some of the non-major courses (*) have prerequisites, some of which also may be used to satisfy core requirements.)

INTERNATIONAL BUSINESS MANAGEMENT .......... (15)
(Government and Politics 368 required)
Economics 131* .............................................. 3
Economics 443* .............................................. 3
Management 201* .......................................... 3
Management 459 ............................................ 3
Marketing 415* ............................................. 3

POLITICAL PUBLIC RELATIONS ......................... (15)
(Depending on focus desired, two of the following are required as part of the major course requirements: Government and Politics 212, 313, 251, or 332)
Prerequisites: Journalism Studies 261 and 262
A. Journalism 181 .......................................... 3
B. Public Relations 182 ................................... 3
C. Journalism 362* ........................................ 3
D. Public Relations 372* ................................... 3
E. Public Relations 375* ................................... 3

PUBLIC ADMINISTRATION ............................... (15)
(Government and Politics 333 required)
A. Economics 442* ......................................... 3
   Management 371 or Management 375* ............... 3
   Government and Politics 332 ......................... 3
B. One course from the following ....................... 3
   Computer Science 117, 118
   Economics 241*
   Mathematics 112
   Psychology/Sociology 211
   Sociology 312*
C. Internship ................................................. 3

SOCIAL SCIENCES ....................................... (15)
Courses at 200-level or higher in other Social Sciences (Anthropology, Economics, Geography, History, Psychology, Social Studies, and Sociology), Philosophy, Mathematics 112, and/or Computer Science 117, 118.

Electives
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences.
Minor in Government

The minor in government is designed to provide a focused and in-depth examination of the institutions and processes of American government. It will enable students in those majors where knowledge of, and interaction with, government is essential to develop additional competency. It especially is appropriate for majors in accounting, business, construction management, criminal justice, economics, international studies, journalism, and public relations.

Total credit hours required for minor: 18

Major in Health Studies

(Bachelor of Science Degree)

The major in health studies is designed for students who plan to enter the health or health-related professions. Majors include students planning graduate work in a health or health-related field, students who plan to seek employment in the health care field upon graduation, and students interested in exploring health issues in the context of a liberal arts background. This degree does not lead to a professional credential or prepare for licensure. For more information about the health studies program, contact Mary Siniscarco at (315) 792-3196.

Physical Therapy

Students interested in applying to the physical therapy program would need to complete the following: Anthropology 415; Biology 101; Biology 102; Biology 201; Biology 202; Gerontology 101 or 214; Health Studies 101; Health Studies 245; Health Studies 401; Health Studies 445; Philosophy 108; Physics 151; Psychology 101; Psychology 211; Health Studies 309; Psychology 361; and Health Studies 381. Please see Graduate Degree Programs in this section of the catalog for additional information. Students are encouraged to meet with an occupational therapy faculty member for specific advising as early in their academic career as possible.

Electives
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences. Students are encouraged to select electives that will complement their major course of study, for example, courses in Anthropology, Communications, Government and Politics, History, International Studies, Law, and Sociology.

Major in History
(Bachelor of Arts Degree)
Faculty: Cash, Swanson, Wittner, Young

The major in history offers one of the broadest and most flexible liberal arts fields at the College. It is intended for those who seek an understanding of the human condition through its historical development, and it has special relevance to those wishing to prepare themselves for fields such as secondary school social science teaching, elementary school teaching, government service of all varieties, graduate study of history, and other careers requiring a liberal arts preparation. It also is an excellent undergraduate background for those contemplating professional training in law, library science, and similar fields.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

Total credit hours required for degree: 120

ACADEMIC REQUIREMENTS

History 456
- Guided Historical Research 3

200-, 300-, 400-, 500-level history courses at least 12 credit of which must be at the 300-level or higher 21

At least 6 hours must be taken in history courses in each of the following areas:
1. U.S. History: 305, 308, 311, 312, 313, 315, 316, 322, 323, 324, 345, select topics
2. European History: 266, 367, 371, 372, 375, 376, 381, select topics
3. Non-Western History: 202, 334, 335, 343, 344, 347, 348, 443, select topics 37

History majors are required to take History 155 by the spring semester of the freshman year. Transfer students enroll in History 155 during the first semester on campus. At least 18 credit hours in the History major must be at or above the 300-level.

Electives
The student must compete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences.

NOTE: Students in the education program who intend to student teach history or social studies should note that they must maintain a minimum overall grade point average of 2.75 (4.0 scale) and have no grade lower than C (2.0) in any required major course in order to receive a favorable recommendation.
Minor in History

The history minor is intended particularly to provide students with an opportunity to add the perspective of a traditional liberal arts discipline, one which offers exposure to both Western and non-Western societies. Although open to all, it should prove especially relevant for students in pre-law, criminal justice, public relations and/or journalism, education, and the helping professions.

Minor in Human Rights Advocacy

The minor in human rights advocacy is designed to provide an in-depth examination of human rights issues in history and contemporary events. The minor will also focus on the processes and institutions available for dealing with human rights violations. It is an appropriate minor for students in any major who have a concern for human rights and wish to use the knowledge and skills developed in their major to deal with these issues and/or develop career opportunities.

Total credit hours required for the minor: 19

Major in International Studies

(Bachelor of Arts Degree)

Faculty: Little, Orlin, Richmond, Swanson, Young, Wittner, Zee

The major in International Studies provides students with an interdisciplinary approach to the study of nations, people, and culture. It is designed for students with interests in international political relations and economics, government, law, foreign service, inter-governmental and non-governmental organizations, developmental and environmental studies, language, literature, culture, and education.

Total credit hours required for degree: 120

Academic Requirements

(See also General Education Core in the “Undergraduate Program” section of this catalog.)

<table>
<thead>
<tr>
<th>General Education Core</th>

### Major in Journalism Studies

#### (Bachelor of Science Degree)

**Faculty:** Chantry, Friend, Landon

The journalism studies program recognizes the need for contemporary journalists to have strong professional skills along with a solid background in the liberal arts and sciences. The major provides the core of courses essential for today's print and broadcast newswriter, as well as a wide selection of courses that address the changing needs and issues within the field of journalism. The major requires hands-on experience through internships as well as by working on the campus newspaper or radio station.

- Total credit hours required for degree: 120
- Total credit hours required for the major (of which at least half must be at the 300 level or above): 54

#### Electives
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences.
**Major Electives**

In consultation with your advisor, select six additional credits from journalism studies. These courses must be different from the courses selected to fulfill a concentration.

**Concentration:**

Students must take at least 15 hours of study above the 100 level in an area of concentration. Students interested in a broadcast journalism concentration must take the designated courses. Students desiring to use public relations for a concentration should take the public relations-journalism dual major. Students may elect to fulfill this concentration with courses from any discipline or combination of disciplines outside of journalism or public relations in consultation with their advisor, and with approval of the program director or coordinator. (Transfer students should consult with their adviser regarding fulfillment of concentration with transferred courses.)

**Electives**

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences.

*Students wishing information about the journalism studies retention policy should consult with their academic adviser.*

**Minor in Journalism**

The minor in journalism is designed to provide students in other majors with an opportunity to develop their understanding of the news media and to learn specific journalism skills. The minor provides the introductory courses essential for today’s newswriter and editor, as well as a selection of courses that address the changing issues and technologies within the field of journalism.

Total credit hours required for minor: 18

**Law**

(See "Preparation for Graduate and Professional Schools.")

**Liberal Arts-Engineering**

(See Physics)

**Major in Liberal Studies**

*(Bachelor of Science Degree)*

The major in liberal studies is designed as a general liberal arts degree. It was developed for students with experience or training as professionals or para-professionals in areas such as corrections, counseling, Health Studies, and teaching. It is also of value to persons with other backgrounds. The major provides students with a broad liberal arts context; it does not provide a professional credential.

Total credit hours required for degree: 120

**Academic Requirements**

(See also General Education Core in the “Undergraduate Program” section of this catalog.)

<table>
<thead>
<tr>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>34 – 55</td>
</tr>
</tbody>
</table>
Major Course Requirements

Four courses (at least twelve credit hours) must be selected from each of these three groups:

Group 1: Society and Behavior
Any 300/400-level courses from at least three of the following areas: Anthropology, Economics, History, International Studies, Government and Politics, Psychology, and Sociology. At least one course must be from History.

Group 2: Art and Language
Any 300/400-level courses from at least three of the following areas: Communication Arts, English or World Literature, Film Studies, Fine Arts, Foreign Languages, Music, Philosophy, and Theatre. At least one course must be from English.

Group 3: Science and Mathematics
Any courses not already used for core from at least three of the following areas: Biology, Chemistry, Environmental Science, Geology, History and Philosophy of Science and Technology, Mathematics, and Physics. At least one course must be from Mathematics.

In special circumstances, other subject areas appropriate for the three groups may be approved by the school dean.

Electives

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences.

Minor in Literature

The minor in literature allows the student to become acquainted with the greatest writers of all ages. The masterpieces studied here provide aesthetic, cultural, philosophical, and psychological enrichment. Beyond the personal value this minor could have for any student, it is recommended especially to students with professional goals, such as the study of law or medicine; to majors in career areas requiring knowledge of people and culture, such as journalism, management, social work, and health-related programs; and to majors in related areas of the liberal arts, such as history, government and politics, psychology, and philosophy. Students should consult their major advisors about the appropriateness of this minor for their majors. This minor is not open to English majors.

Total credit hours required for minor: 21

Electives

One 300/400-level course in each of the following areas:

- American literature: 3
- British literature: 3
- World literature: 3

*Genre courses (e.g., English 372) will count toward the area their syllabi most reflect.

Major in Management

(Bachelor of Science Degree)

Faculty: Hurley, Jo, Kiner, Peek, Petrillo, Rau, Rossi, Smith, Wang
(Concentrations in General Management, Human Resources Management, and Marketing Management)

The purpose of the major is to prepare graduates for competent and responsible participation in business and society. Recognizing the crucial role of business activity for our economy and society, the major is designed to introduce students to the way business functions in the larger social context. Business operations are presented in an integrated fashion, as they will be in a real business environment. Issues of ethics and social responsibility, the global nature of business, and technological developments, as well as skills in interpersonal dynamics, research, and oral and written communication, are emphasized throughout the curriculum.

</table>

#### CONCENTRATION IN MARKETING MANAGEMENT

Choose three of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Marketing 481 Marketing Management</td>
<td>3 3, 4</td>
</tr>
<tr>
<td>Economics 332 Managerial Economics</td>
<td></td>
</tr>
<tr>
<td>Marketing 311 Elements of Integrated Marketing Communications</td>
<td></td>
</tr>
</tbody>
</table>

#### Electives

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences. Students are encouraged to select electives that will complement their major course of study, for example, courses in Anthropology, Communications, Government and Politics, History, International Studies, Law, and Sociology.

### Minor in Management

The minor in management is designed to allow students who are majoring in other areas to explore the field of management in an organized and coherent way. Skills in organizing and managing groups can be an important preparation for careers in business, non-profit, and public organizations.

Programs of Study

Major in Mathematics
(Bachelor of Arts Degree)
Faculty: Behforooz, Craig, Emmons, Xiao

Mathematics is a universal part of human culture. Its universality makes it a powerful tool in a variety of endeavors including the study of the natural sciences, the social sciences, computer science, business, and economics. Studied for its own sake, mathematics is appreciated as much for its elegance and beauty as for its practicality. Mathematics is the science of discovering patterns yet unlike the other sciences mathematics offers a standard of certainty through mathematical rigor and proof. The study of mathematics is one of the cornerstones of a liberal education, training the mind in logical thought, precise expression, and critical thinking.

The mathematics curriculum at Utica College is designed to meet the needs of students who have one of the following objectives: (1) to pursue graduate study in mathematics; (2) to prepare for careers as mathematicians in industrial or governmental laboratories, and in fields which rely mainly on mathematics such as actuarial work, statistical analysis, and economics; (3) to teach mathematics in elementary and secondary schools; (4) to contribute to their liberal education by studying the language and fundamental methods of mathematics.

The mathematics department of Utica College offers two concentrations for the major in mathematics. The General Mathematics Curriculum offers a sound foundation in pure and applied mathematics for those seeking careers in mathematical fields and those who plan to continue their study of higher mathematics in graduate school. The Concentration for Prospective Math Teachers is intended for those students who are preparing for careers teaching mathematics.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

Total credit hours required for degree: 120

Academic Requirements
(See also General Education Core in the "Undergraduate Program" section of this catalog.)

Credit Year
HOURS TAKEN

General Education Core ......................... 34 – 55

General Education Core

Total credit hours required for minor: 21

Electives
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences.

Minor in Mathematics
A minor in mathematics is designed to provide an introduction to the methods of mathematics and a complement to majors that have a strong quantitative component such as the natural sciences, computer science and business economics. A minor in mathematics may be used by students who wish to develop their ability to reason logically and form habits of precise thought and expression. Because mathematics is the underlying language of an ever more technological society, courses in the minor will help provide students with the tools to solve significant problems in many academic areas. Students should consult their major advisors and faculty in the mathematics department about the appropriateness of this minor to their course of study.

Total credit hours required for minor: 21
Major in Nursing
(Bachelor of Science Degree)
Faculty: Abounader, Allard, Becker, Brownell, Culver, Gleasman, Love-Williams, Vaccaro

Professional nurses are liberally educated practitioners who function as primary providers of health care services to individuals, families, groups, and communities. Nurses work collaboratively with physicians, social workers, therapists, and other health professionals.

The nursing program is designed to provide students with a liberal education as well as a professional foundation integrating nursing theory with skills required for nursing practice. Graduates of the program have opportunities in a variety of settings including acute care, community agencies, home care, and schools.

Clinical experiences for students begin in the second semester of the sophomore year and continue throughout each remaining semester of the program. All students enrolled in clinical courses must hold current certification in CPR, Basic Life Support, have health and liability insurance, and meet the health requirements of the respective agencies. Transportation is the responsibility of the student. Details about these requirements are available from the program office.

The nursing program is fully accredited by the National League for Nursing Accrediting Commission, is a member of the League's Council of Baccalaureate Programs of Study, and is approved by the New York State Education Department. Graduates are eligible to take the National Council Licensure Examination for Registered Nursing (NCLEX-RN).

The RN-BS option offers the RN an opportunity to continue her or his education toward a baccalaureate degree in nursing. Learning experiences are designed to meet the educational, career, and personal needs of each student. New areas of knowledge build upon the student’s educational and clinical experience.

Students may earn a maximum of 30 hours of competency or experience credit toward the baccalaureate degree. Competency and experience credit are determined by various academic departments.

Major course requirements for RNs working toward a baccalaureate degree differ and are listed separately below. All other requirements (special requirements, academic requirements, major-related requirements, and electives) are the same as for the basic baccalaureate program.

For placement opportunities, please contact the program director.

Total hours required for degree: 128

Credit Hours
Mathematics 201, 202, 301 Calculus I, II, III .......................... 9
Mathematics 305 Fundamental Structures of Mathematics 3
Mathematics 331 Linear Algebra ................................. 3

Major in Philosophy
(Bachelor of Arts Degree)

Faculty: Fryc, Halliday, Zammiello, Zong

The study of philosophy has been fundamental to the education of people in all great civilizations. The major offers a thorough grounding in philosophy together with intensive training in philosophic analysis. It entails an examination of the nature and historical development of our fundamental ideas concerning the universe and our relation to it. Systematically studying major theories of ethics, metaphysics, knowledge, and logic trains students to develop their own ideas and to understand and defend their beliefs. The abilities to think logically and systematically and to evaluate the competing claims of different value systems and alternative world views are fundamental tools of the educated, rational person.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

History 145 or 165 3 1
History and Philosophy of Science 126 or 127 3 1
A 9 credit hour elective sequence in liberal arts or sciences approved by the adviser. These courses must not overlap with courses counted toward core requirements 9 15

(When a student has completed a second major or minor in a liberal arts field, the elective sequence requirements for the philosophy major will be satisfied.)

Electives
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences. Students are strongly urged to follow a sequence in foreign languages, advanced courses in literature, and a two-course sequence in science. At least 15 credit hours of electives must be taken at the 300-level or above.

Minor in Philosophy
This minor is designed to provide an introduction to the discipline of philosophy and to complement major programs of study in other disciplines. Students should consult their major advisers and faculty in the philosophy department about the appropriateness of this minor. Students must complete sections 1 through 5.

Total credit hours required for minor: 21

Major in Physics
(Bachelor of Arts Degree, Bachelor of Science Degree in Physics and Programs in Engineering)
Faculty: Dake, Day, Ribaudo
Utica College offers B.A. and B.S. degrees in physics, and both 2 – 2, and 3 – 2 transfer options in engineering. All programs share a common body of courses for the first two years.

Physics is the science concerned with the nature of matter, energy, and the inter-relationships between them. Common cross-disciplines include engineering physics, chemical physics, geophysics, biophysics, and mathematical physics.

Engineering is the application of physics to real-world problems. Engineers are the people who design the automobiles, the bridges, the computer chips, the electronic devices, the artificial limbs, and all of the other technological wonders of our civilization.

Between these two fields, there is a mixed area that might be called applied physics or research engineering. It calls for people with a practical physics background who do engineering-development and research in industry.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

The B.A. in physics is intended for students who plan to teach or who wish to have a good scientific background for use in technology-related careers in business, law, management, optometry, or medicine. It provides a broader base of general science and allows for more course electives in other disciplines than the B.S. program.

The B.S. in physics is designed for students who wish to practice applied physics or research engineering in government or industry, pursue a graduate degree in physics, engineering, or education; or who simply want a more intensive background in physics for careers in technical management, high school physics teaching, and other technical fields.

The 2 – 2 transfer option in engineering provides the basic courses typically found in the first two years of engineering programs. Students have the advantages of
small classes and close contact with the faculty as they master their foundation courses in science, mathematics, and introductory engineering at Utica College. After two years, students transfer to an engineering school to complete their work at the junior-senior level, and they will receive their degree from that institution. Utica College students have successfully transferred into engineering programs at Syracuse, Clarkson, RIT, and Union among others.

The 3 – 2 transfer option in engineering is similar to the 2 – 2 program but includes another year of study at Utica College in which students take more physics, math, and core courses for a total of at least 96 hours. With this additional course work, students will transfer to an engineering school where they will take junior level engineering courses. Upon the completion of 32 hours at the transfer college (and receipt of an official transcript), students will earn a B.A. in physics from Utica College. When the students have satisfied the requirements from the engineering school, typically after another year of study there, they will earn a second degree, in engineering. In effect, one year of college work counts for the degree at two institutions, and students will have a liberal arts degree in addition to the engineering degree. This degree should be considered by those seeking a career in technical management.

### Common Academic Requirements for Physics and Engineering

| Physics 461 | Classical Mechanics | 3 | 3,4 |
| Physics 462 | Electricity & Magnetism | 3 | 3,4 |
| Physics 471 | Introduction to Quantum Physics | 3 | 3,4 |
| Physics (300,400 level) | Physics Elective | 3 | 3,4 |
| Mathematics 317 | Ordinary Differential Equations | 3 | 3 |

#### Free Electives

Students in the 3 – 2 engineering option must take a sufficient number of free electives to reach a total of 96 hours at UC. They must transfer 32 hours to UC from their engineering school. Students majoring in physics take sufficient free electives to reach a total of 128 hours at UC and should consult with their adviser on elective courses of particular interest for a specific career path.

#### Major in Psychology

*(Bachelor of Arts Degree or Bachelor of Science Degree)*

**Faculty:** T. Brown, Kreiger, Lindsey, Lundquist, Roberts, R.S. Smith, Specht, Vespo, Yanowitz

Psychology is the scientific study of behavior. While most psychologists are interested primarily in human behavior, many focus much of their research on the behavior of animals. All, however, use carefully controlled methods of observation, such as the survey or the experiment, in their effort to understand behavior. Psychology, like other sciences, seeks to describe, explain, predict and control the events it studies. Thus, psychology attempts to answer questions about the underlying processes that determine the complexity of behavior.

The major in psychology offers a variety of career opportunities in at least three different areas, (1) teaching: university, community college, elementary school; (2) research: social psychologists, psychometrics, industrial/organizational, educational, and experimental psychologists; and (3) public service/professional: clinical, child clinical, counseling, school, and mental health assistant.

Most of the careers require training in addition to a major in psychology, and this
Programs of Study

Curriculum provides a broad background in psychology for those students intending to pursue advanced studies in graduate or professional institutions and to seek employment as psychologists in research, industry, college teaching, clinical applications, and as school psychologists and guidance counselors. Students interested in advanced training should investigate the specific requirements for entrance into their professions or professional schools and carefully plan their pre-professional curricula in consultation with their advisers.

The major in psychology also provides a general liberal education with a diversity of career opportunities for students wishing to seek more immediate employment. Students planning participation in ancillary professions such as social, human, or community services (with no plans for graduate study) should plan their curricula in accordance with their advisers’ recommendations and their own particular needs.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

Major in Psychology-Child Life

(Bachelor of Science Degree)

Faculty: C. Brown, Moltman, Vespo

This program is designed for individuals who wish to enhance their understanding of children and families. The major features an interdisciplinary approach, drawing from the fields of psychology, early childhood education, sociology, and anthropology. The faculty includes professionals from all of these disciplines. Students gain knowledge of normal human development while working with healthy children in applied settings.

The child life specialists concentration prepares students to meet the psychological needs of children and adolescents who are chronically or acutely ill. Child life specialists help ease the trauma of hospitalization by providing emotional support for patients and their families; structuring a program of therapeutic play and activities; working with parents; using knowledge of child development to enhance the hospital environment; and acting as the child’s and family’s advocate in the often confusing world of the hospital.

Specialized course work focuses on human relations skills, the management of death-related concerns, designing an activities program, and the special characteristics of disabled and hospitalized young people. The concentration culminates in an internship in one of the above mentioned agencies.

Students in the child life specialty concentration must pass Bio 101 and Bio 102. All majors must achieve a minimum of C in each of the other major and major related courses.

Students completing the B.S. in psychology-child life (either track) may be admitted directly into the M.S. program in childhood education if they meet predetermined criteria. Students should see the director of teacher education or the director of psychology-child life for further information.

For placement opportunities, please contact the program director.

24

Electives

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences.

*A Students wishing information about the psychology-child life retention policy should consult with their academic advisor.

Major in Public Relations

(Bachelor of Science Degree)

Faculty: MacArthur, Swann, Warfel

Public relations is a dynamic field that involves expertise in building and managing relationships between an organization and its specific publics or audiences such as employees, consumers, communities, and government. Public relations practitioners are highly sought after in business, government, education, sports, health care, and human service organizations.

Public relations professionals are skilled in counseling, problem solving, conflict resolution, writing, speaking, and campaign/event planning. Their efforts create understanding and acceptance of policies, decisions, products, and services that strengthen reputation and result in organizational success.

UC public relations majors are provided with a broad general education as well as specialized training in public relations principles and practices, research, strategic planning, writing, and media techniques. UC public relations graduates are working in all segments of the field: as public relations counselors and public relations firm executives; corporate communications directors and specialists; media relations and event planners; writers, editors, and desktop publishers; researchers and department heads for Fortune 500 companies; sports marketing and promotion; and fund raising and not-for-profit public relations.

Journalism 467  Communication Law  3  3,4
Public Relations 400  Public Relations Topics  3  3,4
Communication Arts 305  Group Problem Solving and Decision Making  3  3,4
Communication Arts 325  Intercultural Communication  3  3,4
Communication Arts 341  Organizational Communication  3  3,4
Psychology 237  Group Dynamics  3  2,3
Government and Politics 215  Public Opinion and Political Behavior  3  2,3,4

Electives
The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 120 required must be in the liberal arts and sciences.

* Students wishing information about the public relations retention policy should consult with their academic adviser.

Major in Public Relations/Journalism Studies
(Bachelor of Science Degree)
Faculty: Chanatry, Friend, Landon, MacArthur, Swann
Experience has demonstrated that there is a great deal of cross-over among professionals who make their careers in public relations and journalism, and therefore the combined program in public relations and journalism studies is devised to provide graduates with an educational background that will make them proficient in both fields. Required courses in the combined program include the basic courses which are required in both public relations and journalism. Graduates of the combined program find positions in public relations, daily and weekly publications, radio, television, and the magazine field.

Minor in Recreation Leadership

This minor is designed to provide students with skills, adaptability, and creativity for working in a variety of settings. It is especially suitable for those students majoring in programs such as: Criminal Justice, Health Studies, Psychology, and Psychology-Child Life. The curriculum has been carefully designed to include theory and practical application.

Total credit hours required for minor: 16

Major in Risk Management and Insurance

(Bachelor of Science Degree)

(Concentrations in Insurance and Risk Management)

Faculty: Hurley, Smith

The Risk Management and Insurance Major is designed to prepare undergraduates for positions within the risk management and insurance industry. This is an exciting discipline that has tremendous opportunities and applications. Students will learn about the quantitative aspects of risk and portfolio valuation, risk management best practices for corporations, risk transfer, risk retention, alternative methods, and insurance operations. Addressing risk through measurement and management reduces uncertainty that corporations, individuals, and small businesses are confronted with. A thorough understanding of risk management is a valuable asset in business. Students are encouraged to select career options in insurance including claims, underwriting, and customer representatives. Careers in risk management and portfolio analysis or financial planning are also possibilities. For students with an interest in a specialized sector of insurance or health care they may be interested in health care administration. Entrepreneurial ventures benefit from sound risk management policies. There are numerous applications for the quantitative and qualitative skills that are included in this major.

Total credit hours required: 21

Major in Sociology and Anthropology
(Bachelor of Arts Degree)
Faculty: Blouet, Crist, DeAmicis, Johnsen, Ross, P. Smith

Anthropology and sociology are closely related sciences which seek to understand the human world. Traditionally, anthropology has studied human biology and language, as well as culture, with an emphasis on pre-industrial societies. Sociology has concentrated on social institutions and social behavior, with an emphasis on contemporary industrial nations. Together they provide a broad, holistic understanding of the nature of human beings, human culture, and human social organization.

A major in sociology and anthropology is designed to meet the needs of those who are interested in pursuing social service, business, government, education, or academic careers in which knowledge of social processes is necessary.

Students considering public school teaching as a career should refer to the programs in education, listed alphabetically in this section of the catalog.

Total credit hours required for degree: 120

Students pursuing social studies teacher certification in middle childhood (grades 5 – 9) or adolescence (grades 7 – 12) must select either Anthropology 251 or Sociology 252 as one elective.

Major-Related Course Requirements

Select one of the following sets of major-related course requirements: General Concentration or Teacher Education Concentration. Students who are pursuing certification in middle childhood (grades 5 – 9) or adolescence (grades 7 – 12) must select the Teacher Education Concentration.

**GENERAL CONCENTRATION**

Students who complete a minor in Gender Studies, Government, History, Human Rights, or Philosophy are exempted from the General Concentration major-related requirements.

Courses at the 200-level or above in Economics, Geography, Government and Politics, History, International Studies, Philosophy or Social Studies. Also Biology 221, 225, Film 303, 304, French 247, Psychology 237, 331, 354, 361, 461, 462, Spanish 247. A maximum of 9 credit hours in any one of these fields may be applied. Students who have not taken Anthropology/English 351 (Language and Culture) may apply either English 313 (American Social Dialects) or English 318 (Introduction to Linguistics) |

**TEACHER EDUCATION CONCENTRATION**

Students who complete the minor in History are exempted from the Teacher Education Concentration major-related requirements. [Note: students who are pursuing social studies certification in middle childhood (grades 5 – 9) or adolescence (grades 7 – 12) must have at least 21 credit hours in History in their total curriculum, only 12 of which will be satisfied by this concentration.]

Electives

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 90 credit hours of the 120 required must be in the liberal arts and sciences. At least 18 credit hours in the sociology and anthropology major must be taken at or above the 300 level.

NOTE: Students in the education program who intend to student teach history or social studies should note that they must maintain a minimum overall grade point average of 2.75 (4.0 scale) and have no grade lower than C (2.0) in any required major course in order to receive a favorable recommendation.

Minor in Sociology

This minor is designed to improve the career opportunities of students majoring in areas that deal with people, such as Health Studies, criminal justice, and psychology.

Total credit hours required for minor: 18

Major in Therapeutic Recreation  
(Bachelor of Science Degree)  

Therapeutic recreation (TR) is the use of recreation, leisure, and play to improve or maintain physical, cognitive, social, and emotional functioning to assist individuals in experiencing independent lifestyles and satisfying leisure experiences. Comprehensive TR involves a continuum of service that includes treatment, leisure education, and independent recreation participation. The therapeutic recreation major at Utica College is one of the very few programs in the nation that is strictly designed to educate and graduate recreation therapists with a Bachelor of Science degree in therapeutic recreation. Graduates of this program meet the requirements of the National Council on Therapeutic Recreation Certification to take the certification examination and become a Certified Therapeutic Recreation Specialist. The program also is unique in that it is housed in the School of Health Professions and Education, which reflects the clinical-medical aspects of the major as well as the philosophical recreation foundation. Therapeutic Recreation graduates work in physical medicine and rehabilitation, mental, and behavioral health, nursing homes and other programs serving older adults, residential care for people with developmental disabilities, youth programs, community-based programs for people with and without disabilities and other areas of professional accomplishment that demand a solid foundation in the liberal arts.

Total credit hours required for degree: 124

**Special Requirements**

The student in therapeutic recreation is required to achieve a minimum of C in each major course, a C average in major-related courses, and at least a B in the internship experience. Students must comply with the internship site rules and regulations regarding physical examinations and immunizations. Malpractice insurance is required for an internship course.

**Academic Requirements**

### Electives

The student must complete sufficient elective courses to earn at least the minimum credit hours required for this degree, and at least 60 credit hours of the 124 required must be in the liberal arts and sciences.

### Minor in Writing

The minor in writing is designed to develop the student's proficiency in a variety of forms of written communication and is open to English and non-English majors. Although the minor does not purport to be a training program for professional writers, students will find the minor helpful in preparing for careers in business and the sciences since these require an ability to effectively use written language. Also, because writing skills increasingly are emphasized in English classes at all educational levels, students interested in teaching will find this minor particularly useful.

*The figure following the title of the course indicates the credit hours per term. Courses that extend through two terms are shown as follows: 3, 3. Courses that are one term only are shown by: 3. Courses with variable credit are shown with the range of credit available, for example: 1-6.

The College reserves the right to cancel any course if registration does not justify continuance and to make changes in curricula at any time.
Accounting

ACC 201 – Financial Accounting 3
Financial statement communication, information processing, measuring business income. Measurement and analysis of gross margin, short-term and long-term liabilities, cash flow.

ACC 202 – Managerial Accounting 3
Using accounting information for managerial decisions. Product costing, activity-based costing and activity-based management. Cost behavior and decision making, budgeting, capital investment decisions, performance evaluation. Prerequisite: Accounting 201, CSC 117 and MAT 104.

ACC 301 – Intermediate Accounting I 3
Accounting theory and financial statement disclosure requirements relating to current and long-lived assets. Compound interest concepts and their use. Prerequisites: Computer Science 117 and Accounting 202

ACC 302 – Intermediate Accounting II 3
Continuation of Accounting 301. Liabilities and equities accounting for income taxes, pensions, leases revenue recognition and statement of cash flows. Prerequisite: Accounting 301

ACC 303 – Cost Management 3
Decision models and methods for estimation and management of business costs, budgeting, activity-based cost systems, strategic cost management. Prerequisite: Accounting 202

ACC 304 – Income Tax Accounting 3
Federal tax regulations and their application to the taxation of individuals. Prerequisite: Accounting 202

ACC 305 – Advanced Income Tax Accounting 3
Study of federal tax regulations and their application to the taxation of partner-ships, corporations, estates and trusts. Prerequisite: Accounting 304

ACC 307 – Accounting Information Systems 3
Accounting information and technology; elements of an accounting system; internal controls; business processes; documentation; systems planning and analysis; systems implementation and control. Prerequisite: Accounting 202, Computer Science 217, and junior standing.

ACC 401 – Auditing 3
Study of audit standards and techniques in the conduct of an audit examination. Theory and practice of auditing is studied from both internal and external audit points of view. Prerequisite: Accounting 302

ACC 402 – Auditing Case Study 1
Comprehensive audit case study including system of internal control, testing procedures, preparation of audit adjustment and audit report. Emphasis on computer as auditing tool. Prerequisite: Accounting 401.

ACC 403 – Accounting for Multinational Business 3
Financial instruments, derivatives, hedging, financial statement translation, substantial influence investments, controlled subsidiaries, merger accounting and goodwill, consolidated financial statements in multinational business. Prerequisite: Accounting 302 or the equivalent.

ACC 404 – Public Sector Financial Management 3
Public sector resource flows. Financial planning, budgeting, cost management, financial reporting, and financial statement analysis of governmental, health, educational, and not-for-profit organizations. Prerequisites: Accounting 202 and Finance 333.

ACC 405 – Accounting Problems 3
Problems selected for value in furnishing a comprehensive review of accounting principles and practices taken from Certified Public Accounting examination of the American Institute of Certified Public Accountants. Prerequisite: Accounting 403 or permission of instructor.

ACC 406 – Forensic Accounting & Fraud Auditing 3
Integration of accounting, auditing and fraud investigative skills. Resolution of accounting ‘irregularities.’ Use of auditing case studies for analyzing documents and internal controls, tracing funds, examining business interruption losses, and preserving and preparing evidence. Prerequisite: Accounting 302.

ACC 491 – Current Topics in Accounting 1
Update on current changes in pronouncements of the AICPA, FASB, SEC, and GASB and analysis of their effects on the contemporary accounting environment. Prerequisite senior standing.

ACC 501 – Introduction to Accounting 3
Introduction to financial statement communication, information processing, measuring business income, and introduction to use of accounting information for managerial decisions. Topics include financial statements, cash flows, budgeting, and performance evaluation.

ACC 541 – Corporate Financial Reporting 3
Financial reporting system for business entities; environment, information system, financial statements, current assets and liabilities, income measurement, long-term finance, shareholders’ equity, and taxation.

All-College

UCC 099 – Problem Solving Workshop 0
The workshop introduces the use of solver/listener pairs to solve problems. The major goals are to show participants the skills needed to answer standard multiple choice questions and to teach them one way to develop those skills in themselves.

UCC 101 – First Year Seminar 1
Introduction to college life and work. Academic skills development, values clarification, critical thinking, problem solving, communication skills, conflict management, and cultural diversity.

UCC 200 – Selected Topics 1-3
Exploration of a topic (to be determined) not covered by the standard curriculum, but of interest to faculty and students in a particular semester.

UCC 201 – College Elective 1-12
College Elective

UCC 206 – Career Strategy 1
Introduction to career skills and job search strategies. Career strategy, research, career exploration, networking tactics, cover letter composition, resume writing, interviewing skills, business correspondence, and corporate interaction.

UCC 259 – Honors Seminar 3
Open to students in the Utica College Honors Program or by invitation. Exploration of a topic (to be determined) not covered by the standard curriculum, but of interest to faculty and students in a particular semester.

UCC 260 – Experience Credit 1-6
Credit for past participation (prior to admission) in a discipline or subject-related experience. Student’s skills or knowledge must be verified by examination conducted by the department and approved by both the dean of the division in which the student is majoring and the vice president for academic affairs and dean of the faculty before credit is given. Advance permission required. Repeatable, but may not exceed one-quarter of the total hours required for the degree.
UCC 270 – Internship 1-12
Participation in a discipline - or subject - related experience. Evaluation by written or oral reports or examination. Written permission of instructor and approval of the division dean required. Limited to juniors and seniors in good academic standing. If this is a paid work experience, also register for UCC 310 - Cooperative Education.

UCC 290 – Independent Study 1-6
Exploration of a problem, or problems, in depth. Individual independent study upon a plan submitted by the student. Admission by consent of supervising discipline and the academic division.

UCC 300 – Selected Topics 1-3
Exploration of a topic (to be determined) not covered by the standard curriculum, but of interest to faculty and students in a particular semester.

UCC 301 – Student Assistantship 1-3
Student assist faculty members in teaching courses they have already completed with a grade of A or B. Open to juniors and seniors in good academic standing. Credits vary and are not determined by the credits of the course for which the student is assisting. May be taken only once for credit regardless of the number of credits assigned to the assistantship.

UCC 310 – Cooperative Education 0
Application of classroom learning in business, industry, government, and service organizations. Client Organizations select students from among competitive applications and supervise their work. See Career Services and Cooperative Education for information about placement. To receive academic credit students must register for an internship supervised by a faculty member.

UCC 320 – Service Learning 1
Students complete 20 hours of service with a community organization or project, meet weekly with the course instructor, and complete written assignments stipulated on the course syllabus. Prerequisite: Permission of Instructor.

UCC 360 – Experience Credit 1-6
Credit for past participation (prior to admission) in a discipline or subject-related experience. Student's skills or knowledge must be verified by examination conducted by the department and approved by both the dean of the division in which the student is majoring and the vice president for academic affairs and dean of the faculty before credit is given. Advance permission required. Repeatable, but may not exceed one-quarter of the total hours required for the degree.

UCC 370 – Internship 1-12
Participation in a discipline - or subject - related experience. Evaluation by written or oral reports or examination. Written permission of instructor and approval of the division dean required. Limited to juniors and seniors in good standing. If this is a paid work experience, also register for UCC 310 - Cooperative Education.

UCC 377 – London Learning Experience 3

UCC 380 – Immersion Spanish in Cuernavaca, Mexico at the Universidad Internacional 1-12
Following placement test administered on-site, students will be placed in appropriate level. Seven hours of daily classes. Home stay with Mexican family. Successful completion will be equivalent of SPA 101, 102, 201, 202, 237 or 337.

UCC 390 – Independent Study 1-6
Exploration of a problem, or problems, in depth. Individual independent study upon a plan submitted by the student. Admission by consent of supervising discipline and the academic division.

UCC 400 – Selected Topics 1-3
Exploration of a topic (to be determined) not covered by the standard curriculum, but of interest to faculty and students in a particular semester.

UCC 402 – Research Assistant 1-3

UCC 460 – Experience Credit 1-6
Credit for past participation (prior to admission) in a discipline or subject-related experience. Student's skills or knowledge must be verified by examination conducted by the department and approved by both the dean of the division in which the student is majoring and the vice president for academic affairs and dean of the faculty before credit is given. Advance permission required. Repeatable, but may not exceed one-quarter of the total hours required for the degree.

UCC 470 – Internship 1-12
Participation in a discipline - or subject - related experience. Evaluation by written or oral reports or examination. Written permission of instructor and approval of the division dean required. Limited to juniors and seniors in good academic standing. If this is a paid work experience, also register for UCC 310 - Cooperative Education.

UCC 480 – International Course 1-12
Offered through the Utica College Office of International Programs or the Syracuse University Division of International Programs Abroad by educational institution outside the United States. Student registers for the course at the foreign institution and is graded according to that institution's practice. OIP or DIPA works with the UC academic discipline to assign appropriate course level, title, and grade for the student's transcript.

UCC 490 – Independent Study 1-6
Exploration of a problem, or problems, in depth. Individual independent study upon a plan submitted by the student. Admission by consent of supervising discipline and the academic division.

ANT 101 – Introduction to Anthropology 3
Overview of anthropology, highlighting diversity and global scope of human experience, past and present. Biological anthropology, archaeology, linguistics and cultural anthropology.

ANT 205 – Human Beings in Evolutionary Perspective 3
Introduction to the physical and cultural evolution of our species, to evolutionary theory and its implications for the understanding of human culture, and to archaeology and physical anthropology as fields of study.

ANT 251 – Native American Culture and History 3
Survey of cultures of native North Americans, from original peopling of the continent to the present. Emphasizes dynamism, ingenuity, and integrity of Native American cultures, and the history of their contact with Europeans.

ANT 254 – Peoples & Cultures of Sub-Saharan Africa 3
Survey of the indigenous populations of sub-Saharan Africa; emphasis on East Africa, Nigeria, and South Africa; analysis of political, economic, religious, and family institutions; consideration of the relationship between the traditional and the present.

UCC 501 – College Elective 1-9
UCC 580 – Int'l Crse: Immersion Spanish 3
UCC 590 – Independent Study 1-6
Admission by consent of supervising discipline, academic division, and graduate program director. Individual reading or research in a topic of interest between the student and the instructor.
ANT 283 – Urban Anthropology  3
Introduction to the diversity of city life around the world and through history, especially as it reflects the social, political, and economic organization of the larger society. Detailed examinations of urban anthropological research methods.

ANT 300 – Selected Topics  1-3 ,

ANT 314 – Native American Languages  3
Provides an overview of the indigenous languages of the Americas including their structure, classification, history, endangerment, revitalization, writing, and reflection of cultural features in expressions of animacy, respect, counting systems, kinship terms, possession, and vocabulary.

ANT 347 – Archaeological Field School  6
Practical experience in archeological fieldwork. Exploration of regional history and cultural tradition through field trips and documentary research. Project locations may vary, and may include both domestic and international sites.

ANT 351 – Language & Culture  3
The Interrelation of culture and language; consideration of language impact on cultural behavior, cognition, and perception. Introduction to problems of socio-linguistics and communication. Same as ENG 351

ANT 362 – Magic & Religion in Preliterate Societies  3
Religious and magical behavior in non-western societies. Emphasis on tribal culture, magic, and religion in folk society; shamanism, witchcraft, sorcery, ritual, and tabu; myths of origin, world view, and values in cross-cultural perspective.

ANT 375 – Culture & Personality  3
The individual in society, and the role of environmental, social, and cultural factors in the development of personality. Cross cultural use of projective and other type of psychological tests. The role of culture in perception, cognition, and mental illness.

ANT 400 – Special Topics in Anthropology  1-3
Topics in various aspects of anthropology (social, physical, archaeological). The exact topics may vary from year to year in response to the needs and interests of students and instructors. Prerequisite: instructor may determine reasonable prerequisites for the specific topic. May be repeated with different topics.

ANT 415 – Cultures, Health, & Healing  3
Examination of effects of culture on health and beliefs and the practices related to illness and healing. Prerequisite: Anthropology 101 or Sociology 151 or permission of instructor.

ANT 425 – Cultural Change  3
Cultural change as viewed from a variety of perspectives including small scale change, planned change, acculturation and evolutionary change. Analysis of changes occurring in the modern world, their causes, and consequences.

ANT 449 – Anthropology of Aging  3
Aging in a variety of cultures. Cultural differences in beliefs and practices related to the aged. Critical evaluation of aging in industrial society and of cultural-bounded theories of aging.

ANT 500 – Contemporary Topics  3

ANT 525 – Ancient Cities  3
Development and functioning of ancient cities, with emphasis on the archeology of the ancient Near East. Importance of sedentism, agriculture, and imperialism for functioning of ancient cities. Same as History 525.

ANT 527 – Religion in the Ancient World  3
Ancient religions of the Near East that led to development of Western religious traditions. Archaeological and anthropological perspectives on religions of Mesopotamia and the Levant, including the development of Judaism and early Christianity. Same as History 527.

ANT 535 – Forensic Anthropology  3
Basics of crime scene archeology and human remains recovery. Skeletal analysis; personal identification; courtroom testimony; police procedures; mass fatality incident planning.

ANT 545 – Historical Archaeology  3
Archeological exploration of social history of European, African, and Asian peoples in North America after 1500 C.E. Field excavation; site interpretation; archived research; artifact identification.

ANT 547 – Archaeological Field School  6
Practical experience in archeological fieldwork. Exploration of regional history and cultural tradition through field trips and documentary research. Project locations may vary, and may include both domestic and international sites.

ANT 551 – Contemporary Issues of Native American Life  3
Relationships of Native Americans to larger society at the beginning of the 21st century. Focus on identity, economic development, health, environment, and legal and political issues. Seminar format. Prerequisite: One of the following: ANT 101, SOC 151, SOC 252, SOS 101, or permission of instructor

Arabic

ARB 101 – Beginning Arabic I  3
Pronunciation and aural comprehension, elementary grammar, oral and written practice, reading of simple prose, cultural overview. Language lab required.

ARB 102 – Beginning Arabic II  3
Continuation of ARB 101 and develops further all skills, speaking, writing, and listening, to complete the novice proficiency level of Arabic.

ARB 201 – Intermediate Arabic I  3
Reading; grammar review; oral work; translation; simple composition. Prerequisite ARB 102 or equivalent.

Biochemistry

(see Chemistry)

Biology

BIO 090 – Pre-Anatomy & Physiology  0

BIO 101 – Anatomy & Physiology I  0,4
Structure and function of the human body, including cells, tissues, skin, and the skeletal, muscular, and nervous systems. May not be taken by biology majors except by special permission.

BIO 102 – Anatomy & Physiology II  0,4
A continuation of BIO 101 examining the structure and function of the human body including the endocrine, reproductive, cardiovascular, lymphatic, respiratory, urinary, and digestive systems.

BIO 111 – Human Ecology  3
The principles of ecosystem function covering such topics as energy flow, flood chains, nutrition and nutrient cycling, populations, and communities. Knowledge of these principles will be applied to the human species and its role in ecosystems. (Lecture only.) Open to all majors, but may not count as a major elective for biology majors.

BIO 111L – Human Ecology Lab  1

BIO 112 – Human Sexuality  3
Exploration of the nature and historical perceptions of human sexuality, its biological foundations, social and behav-
ioral implications, cross-cultural comparisons, encouraging personal reflection and self-discovery while improving inter-personal communication and understanding. Open to all majors but may not count as a major elective for biology major. Same as Psychology 207.

BIO 113 – Human Genetics 3
Fundamental principles of human genetics and the social, medical, and moral issues raised by current research in such areas. Race, intelligence, and genetic engineering. (Lecture only). Open to all majors, but may not count as a major elective for biology majors.

BIO 201 – Gross Anatomy 0,4
Human anatomy with emphasis on structure and function of the neuromusculoskeletal system of the extremities and back. Laboratory involves examination and identification of these structures through dissection of human cadavers. Open only to students accepted in Occupational Therapy or Physical Therapy programs or with permission of the instructor. Prerequisite: Biology 101 and 102.

BIO 202 – Neuroanatomy & Neurophysiology 0,4
Study of the structures and function of the human nervous system as a basic for clinical treatment techniques. May not be taken by biology majors except by special permission. Prerequisite: Biology 201 or permission of instructor.

BIO 203 – Microbiology 0,4
Introduction to microbiology with emphasis on pathogenic microorganisms, their role in disease, their inhibition and destruction; principles and techniques of bacteriology. Not open to biology majors. Prerequisites: Biology 101 and 102.

BIO 205 – Human Nutrition 3
Study of dietary factors required for human growth and health, underlying bases of these requirements, and specific components available to meet these needs. Prerequisites or co-requisites: Chemistry 211 and Biology 102.

BIO 208 – Pharmacology & Pathophysiology 3
Relationship between physiology, pathophysiology, and pharmacology. Theoretical understanding of physiological assessment in clinical practice. Prerequisite: Biology 101, Biology 102, Chemistry 211, or permission of instructor.

BIO 211 – General Biology I 0,4
Study of life as characterized by cell organization and structure, release and utilization of energy, photosynthesis growth and reproduction, interaction with the environment, Mendelian inheritance, genetic technology, and change over time. Laboratory experiences reflect lectures and expose students to scientific methodology, hypothesis building and testing, various qualitative and quantitative data collection and analysis.

BIO 212 – General Biology II 0,4
Diversity of life approached through the unifying theme of evolution. Comparative study of the form and function of representative species. Laboratory emphasizes comparative anatomy studies of the structural components of various organisms. Prerequisite: Biology 211 or permission of instructor.

BIO 214 – Biology of Aging 3
Study of the effects that age related and age associated cellular and organismic changes have on the human aging process. Open to all majors, but may not count as a major elective for biology majors. Same as Gerontology 214.

BIO 231 – Research Methods I 3
Introduction to experimental design and analysis. Evaluate merit and content of primary literature, critique oral presentations by researchers, use computer spreadsheets and statistical software for data organization, graphical and written presentation, and data analysis. Co-requisites: Biology 211 or 212, or permission of instructor.

BIO 232 – Research Methods II 3
Research design and presentation. Writing research papers using specific journal format and word processing software, graphical and oral presentation of research projects, writing letters of application and resumes, and critiquing oral presentations of researchers. Prerequisites: Biology 231 or permission of instructor.

BIO 321 – Genetics 0,4
The fundamental mechanisms of inheritance and their consequences as viewed from the molecular, cellular, organismal, and population levels. Laboratory exercises explore classical patterns of inheritance in sexually reproducing organisms. Prerequisites: Biology 211, Chemistry 211 and 212, and college algebra or its equivalent.

BIO 322 – Developmental Biology 0,4
The principles of growth and development of plants and animals; analysis and formation of organ systems. The laboratory involves a descriptive and experimental study of the general principles of development in plants and animals. Prerequisites: Biology 211, 212, and Biology 324 or permission of instructor.

BIO 323 – Principles of Ecology 0,4
Environmental relationships of plants and animals, emphasizing community structure, population interactions and dynamics, energy relationships, and nutrient cycling. Laboratory devoted to field studies of local communities and populations. Prerequisites: Biology 211 and 212.

BIO 324 – Animal Physiology 0,4
The basic physiological principles of the neurological, endocrinological, muscular, cardiovascular, digestive, reproductive, and respiratory systems. Emphasis is given to the interrelationships of the physiological process among these systems through biofeedback control in maintaining homeostasis. Laboratory topics concurrent with lecture. Prerequisites: Biology 212 and Chemistry 212.

BIO 325 – Botany 0,4
Plant biology investigating plant anatomy, morphology, ecology, geography, physiological adaptations, and systematics. Lecture, field, and laboratory exercises. Prerequisites: Biology 211, 212, or permission of instructor.

BIO 326 – Histology 0,4
Study of the cell as an organism. Organization and function of sub-cellular organelles and cellular interactions in tissues, emphasis on experimental methodology. Laboratory introduces methodology and instrumentation to investigate structure-function relationships in cellular structures. Prerequisites: Biology 211, Chemistry 211 and 212.

BIO 328 – Evolution 3
Modern evolutionary analysis of microevolution, macroevolution, population genetics, and phylogeny reconstruction. Philosophy of science and experimental design are studied as they relate to evolutionary biology. (Lecture Only.) Prerequisite: Biology 212.

BIO 336 – Histology 0,4
Microscopic anatomy of mammals, focusing on tissue morphology, development and organization in major organ systems. Structural aspects of differentiated tissues and related physiological function. Lecture and Laboratory. Prerequisites BI0 211 and 212.

BIO 362 – Endocrinology 3
Advanced study on the functional interrelationships of the endocrine system within biological organisms. Emphasis on the endocrine system's response to external and internal stimuli in maintaining homeostasis. Phylogeny of hormones and clinical dysfunction. Prerequisite: Biology 324 or permission of instructor.
BIO 363 – Biochemistry  3
Chemical and biological properties of the principal components of cellular metabolism. Emphasis on the interrelation and controls of the metabolic pathways involved in energy utilization. Same as Chemistry 363. Prerequisites: Chemistry 331 and 332.

BIO 400 – Special Topics in Life Science  1
Mini-course on varied topics to be determined by the department each semester. Format is lecture/discussion with guest speakers and current literature or laboratory work. May be repeated once for credit. Prerequisite: Biology 211 and 212, or permission of instructor.

BIO 423 – Freshwater Biology  0,4
Inland freshwater habitats covering physical, chemical, and biological interrelationships. Sampling and identification of microscopic and macroscopic biota; energy cycling; morphometry; measurement and analysis of light; temperature, dissolved ions and gases. Laboratory and field work. Prerequisites: Biology 211 and 212. Chemistry 211 and 212, Biology 323 or permission of instructor.

BIO 432 – Principles of Microbiology  0,4
Survey of microbial groups including bacteria, viruses, fungi, protists, and some invertebrate parasites. Bacterial structure, physiology, genetics, infection and disease, and immune response. Laboratory experience in isolation, culturing, morphological and biochemical characterization and identification; chemical and physical control of microbial growth. Prerequisites: Biology 211 and Chemistry 211 and 212.

BIO 433 – Parasitology  0,4
Parasitism, host-parasite interactions, life cycles. Classification, recovery and identification techniques, microscopic examination. Human and veterinary parasitology: socio-economic factors and the spread of parasites, vectors and disease signs and symptoms; treatment of parasites. Lecture and laboratory. Prerequisites: Biology 211, 212 or permission of instructor.

BIO 434 – Mycology  0,4
Introduction to the Kingdom Fungi including yeasts, molds, mushrooms, lichens. Taxonomy, life cycles, anatomy, physiology. Diseases of humans, domesticated animals, plants. Beneficial uses of fungi, mycorrhizae, impact on forestry, environmental applications. Laboratory includes field work. Prerequisites: Biology 211 and 212.

BIO 436 – Biology of Vertebrates  0,4
Vertebrate animals from an evolutionary perspective. Laboratory emphasizes comparative anatomy including gross anatomical and histological material. Lecture includes ecology, behavior, anatomy, and evolutionary relationships. Prerequisite: Biology 212.

BIO 437 – Biology of Invertebrates  0,4
Survey of invertebrate animals from an evolutionary perspective, including the ecology of behavior, anatomy, and evolutionary relationships of major groups. Laboratory emphasizes comparative study of form and function of representative species. Prerequisite: Biology 212.

BIO 450 – Senior Research in Biology  3
Supervised independent research at approved facilities. Two semester commitment recommended. Applications must be submitted the semester prior to starting date. May satisfy Honors Program requirements. Permission of department only. May be repeated once for credit.

BIO 453 – Molecular Biology  0,4
Emphasis on structure, function and repair of DNA, regulation of gene expression in bacteria and viruses, and applications in biotechnology. Laboratory exercises employ techniques in recombinant DNA technology in a gene cloning project. Prerequisite: Biology 321 or permission of instructor.

BIO 454 – Immunology  3
Advanced study of the immune system in animals. Emphasis on immunoochemistry, cellular immunity, immunopathology, and role of immune system in transplantation, cancer, and AIDS. Prerequisite: Biology 327 or permission of instructor.

BIO 455 – Virology  3

BIO 470 – Practicum in Biology  3
Applied experience in a specific field of study. Interns will work with or shadow a professional in an applied area of biology, prepare a manuscript and oral presentation describing the experience. Prerequisite: 25 credits in Biology.

BIO 489 – Honors Tutorial  3
Open to students in the Utica College Honors Program. Original laboratory or theoretical research with a faculty member. May meet as Biology 450 or as Biology 495. Prerequisite: Biology 211 and senior standing.

BIO 490 – Independent Study  1-3
Individually supervised research and study.

BIO 495 – Senior Seminar  3
Critical analysis of research literature and integration of diverse disciplines to foster a more comprehensive understanding of issues in the biological sciences. Prerequisites: 25 credits of Biology coursework.

BIO 499 – Honors Tutorial  3
Open to Students in the Utica College Honors Program. Original; laboratory or theoretical research with a faculty member. May meet as Biology 450 or as Biology 495. Prerequisite: Biology 211 and senior standing.

BIO 524 – Tropical Ecology  3
Study of relationship between tropical organisms and their environment, with special emphasis on biological diversity, and population, community, and ecosystem ecology of tropical environments. Required field trip to the tropics.

BIO 528 – Science and Fiction  3
Popular fiction, cinema and video as a teaching and learning tool in biology.

BIO 538 – Animal Behavior  3
Evolutionary and ecological approach to the study of animal behavior. Identification of major patterns and processes of behavior and proximate and ultimate factors influencing behavior; discussion of classical and current methodologies for studying behavior. Prerequisites: BIO 211 and BIO 212 and a minimum GPA of 3.0 or permission of instructor.

BIO 538L – Animal Behavior Laboratory  1
Contemporary experimental methods using an ecological and evolutionary approach to the study of animal behavior. Observational and experimental procedures will be used to study animal behavior in the laboratory and natural habitats.

BIO 543 – Neuroscience  3
The nervous system, from building blocks to brain, including disciplines of anatomy, physiology, cell biology, and psychophysics. Critical analysis of the primary literature.

BIO 590 – Independent Study  0-6
Individual reading or research in a topic of interest between the student and the instructor. Must be approved in advance by the appropriate graduate program director.
Business Law

BUL 301 – The Legal Environment of Business 3
Introduction to the legal system, sources of law, dispute resolution, government regulation of business, law related to employment, the environment, product liability, securities and antitrust.

BUL 302 – Law of Business Organizations 3
Law of business transactions: contracts, agency, negotiable instruments, insurance, property, and professional liability.

Chemistry and Biochemistry

CHE 103 – Chemistry and Society 3
Study of the chemical principles necessary to understand examples drawn from students' daily experiences and current news items such as nuclear power, plastics, food, genetic technology, ozone depletion, acid precipitation, greenhouse effect, drugs, cosmetics, poisons, household chemicals. Lecture/discussion/practice. Model building with kits supplied.

CHE 211 – General Chemistry I 0,4
Atomic & molecular structure used to develop fundamental principles of physical and chemical properties of all matter. Modern applications of chemistry. States of matter, symmetry, reactivity, kinetics, oxidation/reduction, acid/base, organic and biochemical structures. Lecture and laboratory. High school chemistry and algebra helpful but not required.

CHE 212 – General Chemistry II 0,4
Chemical equilibrium, kinetics, acids/bases, oxidation/reduction, metals, nonmetals, organic chemistry, biochemistry. Three hours of lecture/demonstration/discussion and three hours of laboratory per week. Prerequisite: Chemistry 211

CHE 213 – Introduction to Chemical Research Methods 3
How chemists perform and communicate research. Experimental design, chemical analysis, use of chemical literature, use of chemical data. Communication methods including writing in ACS style, graphing and importing of graphs, written and oral presentations. Prerequisite: Chemistry 211. Corequisite: Chemistry 212.

CHE 263 – Introduction to Organic & Biochemistry 0,4
Basic concepts of organic and biochemistry. Structure, chemistry, and importance of selected carbon compounds, aspects of cellular metabolism. Relationship between medicine and chemistry. Lecture and laboratory. Prerequisite: Chemistry 211. Does not count toward the major in biology, chemistry or physics.

CHE 323 – Quantitative Analysis 0,5
Fundamental and modern chemical analysis. Laboratory applications and interpretations of analytical data. Gravimetry, titrimetry, optical, and electroanalytical methods. Lecture, discussion, problem solving. Six hours of laboratory per week. Prerequisite: Chemistry 212.

CHE 331 – Organic Chemistry I 0,4
Chemistry of carbon compounds. Structure, mechanism, synthesis, instrumentation. Three hour laboratory. Prerequisite: Chemistry 212. Chemistry 331 prerequisite to Chemistry 332.

CHE 332 – Organic Chemistry II 0,4
Chemistry of carbon compounds. Structure, mechanism, synthesis, instrumentation. Three hour laboratory. Prerequisite: Chemistry 212. Chemistry 331 prerequisite to Chemistry 332.

CHE 345 – Physical Chemistry I: Thermodynamics & Kinetics 3 3
Classical thermodynamics, electrochemistry, and reaction kinetics. Applications to chemical and biological phenomena.

CHE 346 – Physical Chemistry II: Structure 3
Quantum chemistry, spectroscopy, kinetic theory, Maxwell-Boltzmann statistics. Prerequisite: Math 202 and one year of college physics.

CHE 346L – Physical Chemistry Laboratory 1
Laboratory work in thermodynamics, kinetics, spectroscopy, and molecular modeling to accompany Chemistry 346. Prerequisites: One year of physics Chemistry 332 and Chemistry 345 preferred. Co-requisite: Chemistry 346

CHE 350 – Research Methods 1-3
Chemical and biochemical research under the direction of a faculty member. Each student and her or her research adviser must submit a proposal to the department for approval prior to enrollment. Students must submit a research summary to the department at the end of the semester and present an oral report to a session of Chemistry 400.

CHE 363 – Biochemistry 3
Chemical and biological properties of the principal components of cellular metabolism. Emphasis on the interrelation and controls of the metabolic pathways involved in energy utilization. Same as Biology 363. Prerequisites: Chemistry 331 and 332.

CHE 363L – Biochemistry Laboratory 1
Biochemistry laboratory techniques: isolation and purification of biomacromolecules, characterization and measurement of proteins, enzymes, carbohydrates, lipids, and other compounds. Historical and contemporary methods of biochemical analysis.

CHE 390 – Independent Study 1-3
Directed studies in specialized areas of chemistry. Each student and her or his research adviser must submit a proposal to the department for approval prior to enrollment. Students must submit a written report to the department at the end of the semester and present an oral report to a session of Chemistry 400.

CHE 400 – Topics in Chemistry 1
Topics may include safety and environmental issues; professional expectations and ethics; employment and career opportunities; graduate school; current directions in chemical and biochemical literature; and student research. Offered in the Spring semester. Only two credit hours may be applied toward the major. May not be used toward the minor in chemistry. Prerequisites: 16 hours of chemistry and junior or senior standing.

CHE 405 – Environmental Chemistry 3
SOURCES, REACTIONS, TRANSPORT, EFFECTS AND FATES OF CHEMICALS. STUDENTS WILL DISCUSS AND PARTICIPATE IN DEVELOPMENT OF LOCAL AND REGIONAL POLICIES AND PROGRAMS TO ADDRESS GLOBAL ENVIRONMENTAL PROBLEMS. SAME AS GEOL 405. PREREQUISITES: CHEMISTRY 211, MATH 202 AND ONE YEAR OF COLLEGE PHYSICS.

CHE 423 – Instrumental Methods 0,5
Theory and principles of modern analytical instruments and techniques. Optical and electrochemical methods, chromatography, mass spectroscopy and magnetic resonance. Three hours lecture and six hours laboratory per week. Prerequisites: Chemistry 323 and 345. (Chemistry 345 may be taken concurrently.)

CHE 433 – Advanced Organic Chemistry 3
Mechanism and structure in organic chemistry. Use of chemical literature. Three lecture/discussion hours per week. Prerequisite: Chemistry 332

CHE 433L – Advanced Organic Chemistry Laboratory 1
Special problems in organic chemistry. Three hours per week. Laboratory
<table>

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHE 463</td>
<td>Biochemistry II</td>
<td>3</td>
<td>Biological Membranes and Transport, Biosignaling, Metabolic Regulation, Urea Cycle, Biosynthesis of Amino Acids, Lipid Biosynthesis, Oxidative and Photophosphorylation, Integration of Metabolism. Prerequisite: BIO/CHE 363.</td>
</tr>
<tr>
<td>CHE 473</td>
<td>Inorganic Chemistry</td>
<td>0,4</td>
<td>Selected topics in theoretical and descriptive inorganic chemistry. Bonding, periodic trends, acid-base theory, ligand field theory, molecular orbital theory, transition metal coordination chemistry. Laboratory emphasizes synthesis and instrumental characterization. Prerequisite: Chemistry 345 (may be taken concurrently.)</td>
</tr>
<tr>
<td>CHE 499</td>
<td>Honors Tutorial</td>
<td>3</td>
<td>Open to students in the Utica College Honors Program. Laboratory or theoretical creative research with a faculty supervisor.</td>
</tr>
<tr>
<td>CLS 090</td>
<td>College Learning</td>
<td>0</td>
<td></td>
</tr>
<tr>
<td>COM 101</td>
<td>Interpersonal Communication</td>
<td>3</td>
<td>Examines communication in everyday life. Provides a theoretical framework for developing interactional skills; focus on verbal and non-verbal message systems, meaning and interpretation, persuasion, relationships, conflict.</td>
</tr>
<tr>
<td>COM 103</td>
<td>Introduction to Public Speaking</td>
<td>3</td>
<td>Study of fundamental principles with emphasis upon organization and presentation. Practice in preparing outlines and in presenting extemporaneously a series of selected expository and persuasive speeches.</td>
</tr>
<tr>
<td>COM 181</td>
<td>Introduction to Human Communication</td>
<td>3</td>
<td>How the development of communication practices, technologies, and institutions shape the evolution of personal identity, organizations, and societies; student self-assessment and exploration of communication careers.</td>
</tr>
<tr>
<td>COM 261</td>
<td>Broadcasting and the Public Interest</td>
<td>3</td>
<td>Evaluation of television and radio as factors in society. Foreign systems of broadcasting, government regulations, station and network operation, and audience analysis, with consideration of roles played by radio and television in education, politics, government, and other aspects of our society.</td>
</tr>
<tr>
<td>COM 300</td>
<td>Topics in Communication Arts</td>
<td>3</td>
<td>Application of concepts and skills of communication arts to specific situations, such as gender or non-verbal communication. May be repeated once provided the topic is not the same.</td>
</tr>
<tr>
<td>COM 301</td>
<td>Advanced Interpersonal Communication</td>
<td>3</td>
<td>Selected theories and research findings. Students select aspects of interpersonal communication theory and report on their findings. Prerequisite: Communication Arts 101.</td>
</tr>
<tr>
<td>COM 303</td>
<td>Public Speaking II</td>
<td>3</td>
<td>Advanced performance course focusing on ability to re-search, prepare, and deliver expository speeches. Applies basic principles of public speaking to situations which will confront the business or public relations person as well as the other individuals with public contact. Prerequisite: Communication Arts 103.</td>
</tr>
<tr>
<td>COM 305</td>
<td>Group Problem Solving and Decision Making</td>
<td>3</td>
<td>Study of group problem-solving processes, the nature of individual and group reflective thinking; techniques of definition, research, and analysis; the nature of evidence; evaluation of effectiveness in discussion. Prerequisite: Communication Arts 101 or 103.</td>
</tr>
<tr>
<td>COM 310</td>
<td>The Motion Picture</td>
<td>1</td>
<td>Informal exposure to independent, foreign language, experimental and classic motion pictures. Weekly attendance at Thursday evening film series required. May be taken three times for credit. Same as Film 310.</td>
</tr>
<tr>
<td>COM 313</td>
<td>Oral Interpretation of Literature</td>
<td>3</td>
<td>Development of intellectual and emotional responsiveness to various forms of literature designed to increase students' expressive, critical and analytical abilities. Prerequisite: COM 103</td>
</tr>
<tr>
<td>COM 325</td>
<td>Intercultural Communication</td>
<td>3</td>
<td>Differences and commonalities among cultural systems for interacting and interpreting; ethnocentrism and conflict development of intercultural communication competencies.</td>
</tr>
<tr>
<td>COM 341</td>
<td>Organizational Communication</td>
<td>3</td>
<td>Human communication in the modern organization (government and industry): the communication process, communication skills useful to the individual in the organization, ways and means of analyzing the organization's communication systems, and ways and means of achieving higher levels of efficiency and effectiveness in this system.</td>
</tr>
<tr>
<td>COM 365</td>
<td>Writing and Announcing for Radio/Television</td>
<td>3</td>
<td>Introduction to radio and television as media for the writer; study of skills required for announcer and performer. Students prepare material for commercial and public service and practice delivery in the campus radio studio.</td>
</tr>
<tr>
<td>COM 368</td>
<td>Broadcast News and Society</td>
<td>3</td>
<td>Critical examination of mode, structure, discourse, and practices of broadcast.</td>
</tr>
</tbody>
</table>
news. Role of broadcast news in democracy.

COM 375 – Introduction to Radio Production 3

COM 385 – Political Communication 3
The role of communication in all phases of politics: political socialization; public opinion and polling; electoral campaigns; social movements; congressional and judicial processes; role of the news and entertainment media; impact of new technologies.

COM 403 – Argumentation 3
Types, forms, construction, and criticism of argument. Theories of and approaches to study of argumentation and debate. Prerequisite: Communication Arts 103.

COM 411 – Communication Theory 3
Theories of human communication including definitions, functions, and levels. The role of communication in the development of the individual.

COM 426 – Theories of Visual Communication 3
Theories, analysis, and criticism of visual communication in film, comics, photography, advertising, and other media.

COM 461 – Rhetorical Theory and Criticism 3
History and theories of rhetoric. Understanding what rhetoric is and how rhetorical criticism helps analyze and evaluate society.

COM 470 – Communication Internship 1-6
On-site experience in an organizational setting (governmental, corporate, service, broadcast). Focus on applying and developing skills. Student and teacher determine specific learning objectives and solicit sponsoring organization. Prerequisite: permission of instructor.

COM 481 – Senior Seminar 3
Critical analysis of selected topics. Major project requiring the synthesis of communication proficiency and career possibilities. Prerequisite: permission of instructor.

COM 490 – Independent Study 1-3
COM 490 Independent Study (3) IR

Computer Science

CSC 101 – Computer Science I 0-3
Overview of computer science. Introduction to algorithms, elementary data structures, program design, and programming utilizing a block structured programming language. Lecture and laboratory.

CSC 102 – Computer Science II 0-3
Continuation of Computer Science 101. Introduction to pointers, linked lists, stacks, queues, and trees. Introduction to sorting and searching algorithms. Lecture and laboratory. Prerequisite: Computer Science 101.

CSC 117 – Microcomputers and Application Software 3
Introduction to basic terminology and applications of computers including: operating systems, word processing, spreadsheets, and presentation software.

CSC 118 – The Internet: Information Retrieval and Organization 3
Basic concepts and usage of databases. Understanding and using the Internet with special emphasis on the use of search engines and directories to locate information. Using databases to organize information.

CSC 201 – Discrete Mathematics I 4
First course in abstract mathematical structures with emphasis on material needed for applications to computer science. Introduction to different number systems, data types, computer arithmetic, Boolean algebra, direct and indirect proofs, and mathematical induction. Lecture and Recitation.

CSC 201R – Discrete Mathematics I Recitation, 0,

CSC 217 – Computer Programming for Business Applications 3

CSC 225 – Introduction to the UNIX Operating System 0-3
Architecture of UNIX: organization, file system, process management, UNIX Shells and Shell programming, networking, security, and the Internet. Lecture and Laboratory. Prerequisite CSC 101.

CSC 300 – Topics in Computer Science 1-3
Current topics in the development of new hardware and software technology. May be repeated twice for credit in different topic areas.

CSC 301 – Discrete Mathematics II 3
Continuation of Computer Science 201. Set algebra, permutations, combinations, relations, functions, languages, and finite state machines. Prerequisite: Computer Science 201.

CSC 303 – Computer Organization & Programming 4
Digital logic, micro-programming, machine and assembly language programming. Boolean logic and its relationship to actual circuits such as adders, multiplexers, and flip-flops. Hypothetical computer is used to illustrate microprograms/interpreters. Lecture and Laboratory. Prerequisites: Computer Science 101 and 201.

CSC 316 – Object-Oriented Programming 3
Introduction to the object-oriented paradigm of programming. Objects, classes, and inheritance. Prerequisite: Computer Science 101 and 102.

CSC 322 – Data Structures and Algorithms 3
The implementation of lists, linked lists, stacks, queues, graphs, and trees. Includes the study of searching and sorting algorithms. Prerequisites: Computer Science 102 and 301.

CSC 323 – Introduction to Networks 3
Topic include network types and communication models, hardware components, applications, protocols, standards, internetworking and routing concepts, OSI Model, TCP/IP, LAN and WAN networking technologies. Prerequisites: Computer Science 101.

CSC 325 – Programming Languages 3
A comparative study of programming languages and paradigms. This survey will include block-structured, procedural, functional, object-oriented, and declarative programming languages. Formal language specification and processing including Backus-Naur Form, lexical analysis, and parsing. Prerequisites: Computer Science 102.

CSC 343 – Database Systems 4
Design, implementation, and management of database systems with an emphasis on practical applications. Prerequisites: Computer Science 102 and 201.

CSC 390 – Independent Study 1-3
Advanced concepts in computer science. Individual independent study based on a plan of study submitted by the student and approved by the instructor and the school dean. An appropriate major project will be expected to be completed.
CSC 411 – Artificial Intelligence 3
Introduction to the field of artificial intelligence. Topics chosen from symbolic pattern matching, goal reduction, constraint propagation, problem solving, search techniques, knowledge representation, language understanding, rule based systems, and neural networks. Prerequisites: Computer Science 322.

CSC 425 – Operating System Concepts 3
Principles of operating systems including: evolution to the present; concerns for the future; multiprocessing and the problems associated with it (memory management, CPU scheduling, protection, deadlock handling); file systems; virtual memory techniques; and disk scheduling. Prerequisite: Computer Science 303.

CSC 432 – Computer and Network Security 4
Fundamentals of securing computers and networks. Includes security objectives, threats, vulnerabilities, types of attacks, authentication methods, access control methods, encryption, intrusion detection, VPNs, firewalls and security as it relates to the WWW. Prerequisites: Criminal Justice 333 and Computer Science 323.

CSC 433 – Software Engineering 0-3
Theory and practice of development of large software systems. Concepts, tools, and techniques used for project definition through implementation and maintenance. Development team approach emphasized.

Construction Management

CMG 103 – Introduction to Construction Management 3
The construction industry, its historical background, the built environment, and industry professionals. Construction culture, themes and trends. Innovation in materials, methodology, and building techniques. Needs, function, and wants that dictate why and how buildings are erected. Co-requisite: CMG 104.

CMG 104 – Plan Reading and Quantity Takeoff 3
Reading and comprehending construction drawings. Building systems, applications, components, design techniques, and methodology of building. Quantity takeoffs of various construction components. Students will quantify all the materials for the building structure, surrounding area, and utilities. Co-requisite: CMG 103.

CMG 117 – Construction Graphics and Applications 3
Application of word processing, spreadsheet, and presentation software. AutoCAD software in a mechanical and architectural environment. Presentations to faculty and industry personnel. Prerequisites: CMG 103, CMG 104.

CMG 221 – Methods and Materials I 3
Methods and materials used in vertical construction. Comprehensive analysis of materials, design, and specifications, installation methods, testing and inspection, and appropriate construction methodology for application. Prerequisites: CMG 103, CMG 104.

CMG 222 – Methods and Materials II 3
Advanced methods and materials, focusing on horizontal construction materials, testing procedures, material properties, design, specification, and installation methods using certified standards and guidelines. Prerequisites: CMG 221, MAT 151.

CMG 225 – Documents and Specifications 3
Comprehensive overview of construction contracts and legal principles and practices used. Construction law and dispute resolution. Contract clauses, exemptions, liabilities, documentation and records. Prerequisites: CMG 103, CMG 104.

CMG 233 – Surveying 3
Surveying techniques used in construction; introduction to geometric. Students will develop the theory and practical application of equipment and methodology to perform a site survey. Prerequisite: CMG 103, CMG 104.

CMG 331 – Estimating I 3
Construction estimating fundamentals, defining and developing conceptual estimates, square foot estimates, unit price estimates and productivity assignments. Spreadsheets with materials, labor, and equipment needed for project costing and work packages associated with each CSI division. Prerequisite: CMG 222.

CMG 332 – Estimating II 3
Bid strategies based on detailed cost estimating techniques. Work packages for CSI divisions and work breakdown structures. Cost coding and detailed approaches to value engineering. Balanced and unbalanced. Use of specific estimating software. Prerequisite: CMG 331

CMG 336 – Mechanical and Electrical Systems 3
Primary mechanical and electrical equipment and systems. Selecting and sizing various systems. Plumbing, heating, ventilating, air conditioning, water supply, fire protection and sanitary sewage systems. Basic principles of residential and commercial electricity and illumination. Prerequisite: CMG 222 and PHY 151.

CMG 337 – Statics and Strengths of Materials 3
Comprehensive and quantitative analysis of statics and strengths of materials used in the construction industry. Loadings, forces, action and reactions placed on materials in the building process. Prerequisites: MAT 151, PHY 151.

CMG 345 – Site Planning and Equipment 3
Horizontal construction. Cost principles associated with owning and operating heavy equipment. Productivity, equipment selection, and sizing equipment as essential parts of costing heavy civil operations. Prerequisite: CMG 222.

CMG 415 – Construction Law 3
Principles and practices of construction law through case study analysis. Construction contracts, licensing, lien laws, national labor laws, and dispute resolution. Prerequisite: CMG 225.

CMG 423 – Construction Finance 3
Financial aspects of construction industry. Financial statements, budgets, cash flow, earned value, and cost coding. Topical area includes cost accounting, industry practice, forecasting, and ratio analysis. Economic indicators and the effects on the construction industry. Prerequisite: ACC 201.

CMG 436 – Temporary Structures 3
Analysis and design of structural supports, formwork, retaining walls, and cofferdams; their use in the construction industry. Concrete, steel, heavy timber, and masonry design and load calculations for temporary and permanent field applications. Prerequisite: CMG 337.

CMG 437 – Planning and Scheduling 3
Theories and applications of the planning and scheduling processes, analysis of cost, and sequencing of operations necessary to complete a project on time and within budget. Use of construction estimating and construction scheduling software. Prerequisite: CMG 332.

CMG 447 – Project Management and Safety 3
Administration and management theory, function, and documentation applied to the construction process through practical application of leadership, ethics, organization and staffing. Laboratory
exercises in safety procedures, equipment, and OSHA requirements for construction. Prerequisites: CMG 332, CMG 437.

CMG 470 – Internship 3
Experiential learning under the direction of an industry sponsor, meeting all course requirements and guided course study by career services and the internship program. A minimum of 240 hours is required. Prerequisite: Permission of Internship Coordinator.

CMG 475 – Senior Seminar 3
Students develop the project and prepare a formal presentation to industry professionals guided by faculty advisors. Focus on construction management theory and critical thinking techniques to resolve issues in the project development process. Prerequisite: CMG 447, CMG 470 and senior status.

Criminal Justice

CRJ 101 – Introduction to Criminal Justice Research Methods 1
Basic research/writing principles that should be applied to criminal justice as a field of study.

CRJ 103 – Introduction to Criminal Justice 3
History, theory, and structure of the criminal justice system emphasizing substantive and procedural criminal law; police, prosecution, defense, courts, institutional and community corrections; juvenile justice subsystem.

CRJ 107 – Computer Hardware and Peripherals 3
Computer hardware and peripherals and other digital media used in commission of cyber-crimes. Hands-on examination of devices, including building, configuring, upgrading, troubleshooting, diagnosis, and repair.

CRJ 205 – Software Foundations for Cybersecurity 3
Overview and exploration of software and technology foundations for cybersecurity and information assurance majors.

CRJ 212 – American Policing 3
Role of police in American society. Topics include nature of police subculture, professionalism, personnel selection, unionism and operational trends. Prerequisite Criminal Justice 103 or equivalent.

CRJ 221 – Issues in Juvenile Justice 3
Philosophy and methods of criminal justice programs for the prevention and control of youth crime. History of juvenile justice system, police handling of juveniles, the juvenile court, detention, and treatment of offenders. Prerequisite: None

CRJ 224 – American Corrections 3
Overview of probation, jails, prisons, and parole. Incarceration rationales, methods of dealing with offenders, organizational theory, inmate social systems, and program effectiveness.

CRJ 232 – Economic Crime Theory 3
Typology of economic crime. Study of theory, causation, and victimization relating to economic crimes.

CRJ 235 – American Criminal Courts 3
Legal origins of American criminal courts, court procedures and trial process, sentencing and appeals. Topics also include roles of prosecution, defense, judges, juries, the media, and the public. Prerequisites: None

CRJ 250 – Probation/Parole and Sentencing Alternatives 3
Major theoretical and operational concepts related to probation, parole, and alternatives to incarceration at state and federal levels.

CRJ 300 – Special Topics in Criminal Justice 1-3
Consideration of one or more contemporary topics. Tailored by individual instructors. Each variation may be taken for credit.

CRJ 305 – Terrorism 3
Overview of terrorism and counterterrorism in global and domestic contexts. Introduction to evolving definition and models of terrorism, causes, key events, countermeasures. Origins, structure, and activities of terrorism, and socio-cultural environments that lead to terrorism. Prerequisites: None

CRJ 307 – Homeland Security and Counter Terrorism 3
America’s National Critical Infrastructures. Safeguarding and managing them when under threat. Key asset identification, threat and vulnerability analysis, risk assessment and management, crisis and consequence management, and related Counter Terrorism technologies. Defense, government-wide, and non-government information systems. Importance of strategic and contingency planning, systems integration, and information sharing.

CRJ 312 – American Policing 3
Overview of probation, jails, prisons, and parole. Incarceration rationales, methods of dealing with offenders, organizational theory, inmate social systems, and program effectiveness.

CRJ 313 – Corruption and Organized Crime 3
Development of organized crime in the United States and its impact on social, economic, and political institutions. Special focus on role of corruption as a facilitator of crime. Prerequisite: Criminal Justice 103 or equivalent.

CRJ 314 – Modern Techniques in Crime Investigation 3
Theory and practice of modern investigation methods for public and private sector agencies. Techniques and procedures for evidence collection, preservation, and presentation. Reviews investigation resources, including crime laboratory and databases. Prerequisite: Criminal Justice 103 or equivalent.

CRJ 324 – Violence in the Workplace 3
Different types of violence and how they occur in the work setting. Designed to accommodate many different areas of interest, not just law enforcement. Prerequisite Junior Standing.

CRJ 328 – Security Administration 3
Principles of administration of physical, human, and asset security. Risk assessment, training, emergency management, disaster recovery, and the global aspects of security administration.

CRJ 333 – Information Security 3
Protection of proprietary information in both the corporate and government sectors. Topics include: information as a resource, legal issues, policy formulation, administrative and technical remedies, and case studies.

CRJ 334 – Economic Crime Investigation 3
White collar crime in the United States. Emphasizes investigatory techniques related to these types of crime. Prerequisite: Criminal Justice 103 or equivalent.

CRJ 335 – Cybercrime Law and Investigations 3
Cybercrimes, including computer crimes, Internet fraud, e-commerce, and threats to the national infrastructure. Policies, legal issues, and investigative techniques and strategies, and implications for investigation and enforcement on a global scale.

CRJ 336 – Information Privacy 3
Principles of privacy relating to non-public personal information and proprietary business or government information, including policy issues; legal, regulatory and business controls; and best practices. Prerequisite: CRJ 103 or permission of instructor.
CRJ 342 – Constitutional Law in the Criminal Process 3
Case study approach to theoretical and applied knowledge of constitutional issues affecting the criminal justice system. Develops research and analytical skills for further study of the Constitution and its changing interpretation. Prerequisite: Government and Politics 341.

CRJ 343 – Law of Economic Crime 3
Government and judicial regulations of financial institutions, commercial entities, their agents, and employees in relation to economic and business crime. Constitutional issues in investigations by governmental and corporate entities in both a substantive and procedural context.

CRJ 345 – Criminal Evidence 3
Rules of evidence and trial procedures applicable to criminal cases at the state and federal levels. Student mock trial experience as witness and attorney.

CRJ 347 – Fraud Prevention and Detection Technologies 3
Types of proactive technology programs and tools used to prevent and detect the occurrence of fraud in face-to-face transactions, e-commerce and e-business. Includes development and implementation of business models for production of prevention and detection products and techniques.

CRJ 351 – Comparative Criminal Justice Systems 3
Design, operation, and legal basis for systems of justice in other countries. Governmental, political, demographic, and economic factors in past and current trends in the adjudication of offenders. Cross-cultural analysis of causes of crime and systems of justice. Prerequisite: Criminal Justice 103.

CRJ 353 – Fraud Prevention Technics 3
Methods and techniques for fraud prevention, including assessment for risk of fraud, fraud controls, data mining and data security. Regulatory mandates and best practices. Prerequisite: CRJ 232

CRJ 354 – Payment Systems and Fraud 3
Study of modern payment systems from global perspective. Exposure to fraud within payment systems. Techniques for fraud prevention, detection, and investigation. Prerequisite: CRJ 232.

CRJ 355 – Cyber Crime Investigations and Forensics I 3
Intrusion detection methodologies, tools and approaches to incident response. Computer forensic principles, including operating system concepts, registry structures, file system concepts, boot process, and file operations. Introduction to forensic tools.

CRJ 356 – Cyber Crime Investigations and Forensics II 3
Digital information retrieval methods. Exercises for search, recovery, imaging, analysis, and preservation of evidence on disk drives and other storage media. Advanced topics such as disk geometry and analysis of UNIX systems.

CRJ 362 – Information System Threats, Attacks and Defenses 3
Methods and motives of cyber-security incident perpetrators, and the countermeasures employed to organizations and agencies to prevent and detect those incidences. Ethical obligations of security professionals.

CRJ 365 – Advanced Issues in Economic Crime 3
In-depth focus on specific area of economic crime. Theory and methodology, including typical fraud schemes, case studies and investigative best practices. Course may be taken twice if student studies different topic. Prerequisite: CRJ 232 and CRJ 334.

CRJ 377 – Comparative Criminal Justice: Study Abroad 3
Comparative study of criminal justice institutions in other countries. Students will visit institutions and interact with professional in the agencies and facilities.

CRJ 382 – Administrative Issues in Criminal Justice 3
Issues in the organization and management of criminal justice agencies, including police departments, prosecutors offices, courts, jails, prisons, and community corrections.

CRJ 435 – Computer Forensics 3
Root methods, forensic tools and procedures used in analysis of digital evidence in computer hardware, software and peripherals. Rules applicable to extraction and preservation of data and digital evidence. Prerequisite: Computer Science 303.

CRJ 438 – System Vulnerability Assessments 3
Threats to information systems and process for performance of audits, assessments, penetration tests, and architecture reviews. Use of tools for such studies and practical experience in conducting assessments and preparing reports.

CRJ 441 – Applied Legal Research and Communication 3
Develops analytical and practical skills appropriate for those desiring to work in the legal field. Case analysis, legal research, preparation of legal memorandum and appellate briefs. Moot court experience is provided. Prerequisite: Government and Politics 341 or permission of instructor.

CRJ 444 – Fraud and Compliance Operations 3
Processes and procedures unique to operationalization of fraud prevention, detection, and investigation functions in both public and private organizations, including compliance mandates. Prerequisites: CRJ 232, 334 and 353.

CRJ 455 – Cyber Crime Investigations and Forensics III 3
Theory and techniques for tracking attackers across the Internet. Practical exercises from case studies of Internet-based crimes.

CRJ 461 – Senior Seminar 3
Selected topics of current interest. Emphasizes critical analysis of current research literature and development of action projects by seminar members. Integrates previous learning as a capstone experience. Prerequisite: permission of instructor.

CRJ 470 – Internship 6-15
Participation on staff of criminal justice agency under co-supervision of faculty and agency personnel. Field experience, periodic conferences and seminars, written and reading assignments designed to combine theory and professional practice. Prerequisite: permission of instructor.

CRJ 475 – Senior Project 3-6
Senior level research project on policy issue determined after consultation with faculty supervisor.

CRJ 490 – Independent Study 1-6

CRJ 490 Independent Study (1/6) IR

CRJ 490 Independent Study 1-6

ECM 535 – Legal and Regulatory Issues for Fraud Management 3
Structure and design of organizations with focus on systems theory and its impact with Economic Crime and applicability to today’s environment.
Economics

ECN 131 – Principles of Microeconomics 3
Principles of economics with major emphasis on the theory of the market system (microeconomics), the economics of international trade, and current economic problems.

ECN 141 – Principles of Macroeconomics 3
Principles of economics with major emphasis on the system as a whole (macroeconomics) and the role of government through fiscal, monetary, and other policies to maintain full employment without inflation.

ECN 241 – Statistics 3
Application of statistical methods in management and economics. Descriptive statistics, probability, normal curve sampling, confidence, and regressions. Prerequisites: Completion of mathematics and computer requirements in component one of core. Students may not also take for credit Psychology/Sociology 211 or Mathematics 112.

ECN 300 – Selected Topics 3
Study of the concepts and tools for analysis of the behavior of business firms in their pricing, production, purchasing, employment policies; relationship of the individual firm to the general pricing process as applied to products and productive agents under condition, and economic data. Prerequisites: Economics 131 and 141.

ECN 331 – Intermediate Microeconomic Theory 3
Study of the concepts and tools for analysis of the behavior of business firms in their pricing, production, purchasing, employment policies; relationship of the individual firm to the general pricing process as applied to products and productive agents under condition, and economic data. Prerequisites: Economics 131 and 141.

ECN 341 – Intermediate Macroeconomic Theory 3
National product and income concepts, measurements, and relationships; interrelationships of the major segments of the general level of economics activity. Prerequisites: Economics 131 and 141.

ECN 343 – Money and Banking 3
Introduces student to general principles of banking and theories of money. Subjects covered are organization and control of the banking system, commercial bank functions and operation, monetary theory. Students may not take both Economics 343 and Finance 343 for credit. Prerequisites: Economics 131 and 141.

ECN 344 – Labor Problems 3
A study of the theory and operation of the American labor market with particular attention to problems of unemployment wage determination, trade unionism, collective bargaining, and economic insecurity. Prerequisites: Economics 131 and 141 or permission of instructor.

ECN 345 – History of Economic Thought 3
The evolution of economic thought during the last 300 years. The socioeconomic milieu as well as the theories of major writers are considered. Prerequisites: Economics 131 and 141.

ECN 346 – Government and Economic Life 3
Economic theory as applied to historic and current issues of public policy. Governmental planning and control of industry, resources, prices, banking, and business fluctuations. Prerequisite: Economics 141.

ECN 349 – Urban Economics 3
The theory of the location of economic activity in urban areas. Applications of location theory and welfare economics to problems of poverty, human resources, housing, transportation, and discrimination. Urban growth and development. Prerequisite: Economics 131.

ECN 375 – Health Economics 3
Economic problems faced by health care industry. Production of health care, market for health care, impact of health insurance, and role of government regulation.

ECN 401 – The Economics of Competitive Strategy 3
Application of microeconomic principles to managerial strategy. Economics of scale and scope, merger activity, transaction costs of market exchange, alternative competitive strategies.

ECN 442 – Public Finance 3
Economics of the public sector. Analysis of revenues and expenditures of federal, state, and local governments: public debt; tax incidence; tax policy; fiscal federalism; and public choice theory. Prerequisites: Economics 131 and 141.

ECN 443 – International Trade 3
Study of trade theory, international monetary problems, commercial policy. Critical study of world economic problems with special emphasis on international agencies and agreements. Prerequisites: Economics 131 and 141.

ECN 445 – Environmental Economics 3
Introduction to the problem of the economic obstacles in cleaning the environment. Emphasizes the deficiencies of economic theory in not accounting for the waste products of our production. Prerequisites: Economics 131 and 141.

ECN 448 – Business and Econ Forecasting 3
Study of methodology of forecasting business activity of individual firms, industries, and the economy. Emphasizes forecasting of business cycles and prediction of political and social events which might enter into business decisions. Prerequisites: Economics 241 and Mathematics 144 or permission of instructor.

ECN 449 – Foreign Trade Management 3
Practical knowledge of essential techniques in export and import management. Prerequisites: Economics 131 and 141.

ECN 470 – Internship – 3-12

ECN 474 – Economic Research Proposal 1
Reviewing the literature, developing data sources and developing a research proposal.

ECN 475 – Research Project in Economics 3
Students integrate all aspects of the major to complete and independent research project based upon a proposal developed in ECN 474, Economic Research Proposal. Prerequisite: Economics 131, 141, 241, 331 or 332, 341 or 343, 474.

ECN 490 – Independent Study 3
Individually supervised research and study. Provides opportunity for students to engage in original research or to pursue scholarly investigations beyond the boundaries of established courses. Arranged by agreement between the student and his or her instructor, subject to approval of division dean. May be repeated once for credit, though with a different topic. Prerequisite: junior standing.

ECN 511 – Economic Analysis of Public Policy Issues 3
Basic tools of economics to examine and analyze selected contemporary public policy issues. Prerequisites: ECN 131 and ECN 141.
ECN 535 – The Economics of Health and Health Care Policy 3
Health economics and health care policy which applies the basic tools of microeconomic analysis toward understanding the market behavior of the major players in health care markets including consumers, providers, insurers, and government entities.

ECN 565 – Economics of Global Economy 3
Application of microeconomics to global economic issues, globalization, free trade, barriers to trade, economic interdependence, macroeconomic policy, economic development. Prerequisite: ECN 141.

Education

EDU 111 – Introduction to Teaching 1
Becoming a teacher: ethical guidelines; identifying and reporting child abuse; prevention of child abduction; alcohol, tobacco, and drug abuse; safety education fire and arson prevention; current issues. Graded on a pass/fail basis.

EDU 201 – Applied Educational Psychology 3
Cognitive processes, memory and concepts, problem solving, creativity, moral development, self concept, behaviorism, motivation, social learning, classroom management, and exceptional students. Twenty hours of field work required.

EDU 215 – Diversity, Disabilities, and Success 3
Nature of students with full range of disabilities and special health care needs and their effect on learning and behaviour. Identifying strengths, individualizing instruction, collaboration, instructional strategies. 20 hours of fieldwork in a special education setting required.

EDU 218 – Curriculum and Instruction 3
Goals and objectives of primary/elementary education; teaching and learning theories; basic content areas; and interrelationships. Taught on site at Kernan Elementary School.

EDU 301 – Foundations of Literacy 3
Theory and methods of literacy development. Assessment and diagnostic procedures. Development of critical thinking and individualized reading programs. 20 hours of fieldwork in high-needs schools required.

EDU 302 – Literacy and Comprehension: Birth-Childhood 3
Advanced theory and methods of literacy development, age 0 - grade 6. Instructional planning, assessment and evaluation, diagnostic procedures, cultural and linguistic differences, writing to learn, English/Language Arts Learning Standards. 20 hours of fieldwork required.

EDU 303 – Literacy and Comprehension: Middle-Adolescence 3
Advanced theory and methods of literacy development, grades 7 - 12. Instructional planning, assessment and evaluation, diagnostic procedures, cultural and linguistic differences, writing to learn, English/Language Arts Learning Standards. 20 hours of fieldwork required.

EDU 304 – Tutoring Young Scholars 1
Tutoring in local schools through the Young Scholars Program. Students who enroll must make a full semester commitment to tutor on a regular basis at least one time a week. May be repeated once.

EDU 312 – Practical Teaching Methodologies 3
Effective teaching practices, questioning techniques, professional development, writing and learning, oral communication skills. 20 hours of fieldwork in high-needs schools required.

EDU 314 – Children’s Literature 3

EDU 316 – Social Studies/Literacy Methods: Birth-Childhood 3
Application of literacy skills to the content and instructional materials used to teach social studies in preschool through grade six. Social studies and English Language Arts Learning Standards. 20 hours of fieldwork in high-needs schools required.

EDU 321 – Foundations of American Education 3
Examination of American public education. Includes organization, finance, administration, curriculum implementation; student evaluation; application of technology to English and Social studies; interdisciplinary planning.

EDU 325 – Assessment of Children and Youth with Special Needs 3
Assessment process in special education: observational assessment; norm-referenced standardized test; criterion-referenced assessments, performance-based, authentic, and portfolio assessment. 10 hours fieldwork required.

EDU 326 – Childhood Special Education Methods 3
Special education services for grades 1-6: Individualized Education Plans, teaching practices, curriculum implementation, assessment, assistive technology, services delivery models, team collaboration. 15 hours of fieldwork required.

EDU 327 – Adolescence Special Education Methods 3
Special education services for grades 7-12: Individualized Education Plans and transitional planning, teaching practices, curriculum implementation, assessment, assistive technology, services delivery models, team collaboration. 15 hours of fieldwork required.

EDU 328 – Methods and Curriculum: Severe Disabilities 3

EDU 333 – Adolescent English/Language Arts Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to English; interdisciplinary planning. 20 hours of field work required.

EDU 334 – Adolescent Social Studies Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to Social Studies; interdisciplinary planning. 20 hours of field work required.

EDU 335 – Adolescent Mathematics Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to mathematics including use of graphing calculator; interdisciplinary planning. 20 hours of fieldwork required.

EDU 337 – Adolescent Science Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to the sciences; interdisciplinary planning. 20 hours of fieldwork required.
EDU 338 – Business and Marketing Education Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to business and marketing education; interdisciplinary planning. 20 hours of fieldwork required.

EDU 343 – Adolescent Foreign Language Methods 3
Lesson, unit, and course planning for teaching languages other than English; classroom management; curriculum implementation; assessment; application of theory to practice. 20 hours of fieldwork required.

EDU 344 – Science and Technology Methods: Birth-Childhood 3
Objectives, content, instructional materials, activities, and theoretical principles for teaching science and technology use in pre-school through grade six. Math, Science, and Technology Learning Standards. 20 hours of fieldwork required.

EDU 345 – Mathematics Methods: Birth-Childhood 3
Objectives, content, instructional materials, activities, and theoretical principles for teaching mathematics in pre-school through grade six. Math, Science, and Technology Learning Standards. 20 hours of fieldwork required.

EDU 471 – Student Teaching Seminar 0
Discuss issues relevant to student teaching. Classroom management, professional behavior, certification supervision, portfolio development, and professional portfolio. Meets weekly. Co-requisites: EDU 475, 476

EDU 475 – Student Teaching I 6
Supervised teaching experience in either elementary or secondary schools with seminars and conferences required. Includes discussions, written assignments, and evaluations. Graded on a pass/fail basis. Prerequisite: The preparation course sequence in Early Childhood, Childhood, Middle Childhood, Adolescence, Teaching English to Speakers of Other Languages, or Business and Marketing Education. Co-requisite: EDU 476. Permission of director required.

EDU 476 – Student Teaching II 6
Supervised teaching experience in either elementary or secondary schools with seminars and conferences required. Includes discussions, written assignments, and evaluations. Graded on a pass/fail basis. Prerequisite: The preparation course sequence in Early Childhood, Childhood, Middle Childhood, Adolescence, Teaching English to Speakers of Other Languages, or Business and Marketing Education. Co-requisite: EDU 475. Permission of director required.

EDU 477 – Mentored Internship I 6
For students with a full-time teaching position in the area of certification for a minimum of eight weeks. Supervised teaching experience with seminars and conference required. Includes discussions, written assignments, and evaluations.

EDU 478 – Mentored Internship II 6
For students with a full-time teaching position in the area of certification for a minimum of eight-weeks. Supervised teaching experience with seminars and conferences required. Includes discussions, written assignments, and evaluations.

EDU 501 – Foundations of Literacy 3
Theory and methods of literacy development. Assessment and diagnostic procedures. Development of critical thinking and individualized reading programs. 20 hours field work req.

EDU 502 – Literacy and Comprehension: Birth-Childhood 3
Advanced theory and methods of literacy development age 0 - grade 6. Instructional planning, assessment and evaluation, diagnostic procedures, cultural and linguistic differences, writing to learn, English/Language Arts Learning Standards. 20 hours of field work required.

EDU 503 – Literacy and Comprehension: Middle-Adolescent 3
Advanced theory and methods of literacy development, grades 7 - 12. Instructional planning, assessment and evaluation, diagnostic procedures, cultural and linguistic differences, writing to learn, English/Language Arts Learning Standards. 20 hours of field work required.

EDU 506 – Foundations of Teaching – 0-9
Pre-service course of study. Role of education. Rights and responsibilities. Child development and learning. Instructional planning. Effective teaching strategies. State Learning Standards. Teaching children with special needs. School organization and classroom management. Educational technology. Reporting child abuse and maltreatment. Preventing alcohol, tobacco and drug abuse; child abduction; and improving safety. This course is taught in modules. All modules must be successfully completed in order to earn credit for this course.

EDU 507 – Mentoring I 1

EDU 508 – Mentoring II 1
Mentored teaching experience. Monthly observations. Weekly seminar. Co-requisites: EDU 503 (Literacy and Comprehension: Middle Adolescence) & full-time teaching assignment. Prerequisite: EDU 507 Mentoring I.

EDU 511 – Introduction to Teaching 1
Ethical guidelines; identifying and reporting child abuse; prevention of child abduction; alcohol, tobacco & drug abuse prevention; safety education, fire and arson prevention; violence prevention; current issues. Students are advised to take this course early in their sequence of study.

EDU 512 – Practical Teaching Methodologies 3
Basic lesson planning; effective teaching; oral communication skills; writing and learning; school-to-work; classroom technology; learning standards. 20 hours of field work required.

EDU 516 – Social Studies/Literacy Methods: Birth-Childhood 3
Application of literacy skills to the content and instructional materials used to teach social studies in pre-school through grade six. Social studies and English Language Arts Learning Standards. 20 hours of field work required.

EDU 517 – Math/Science Methods: Birth-Childhood 3
Objectives, content, instructional materials, activities, and theoretical principles for teaching mathematics, science, and technology use in pre-school through grade six. Math, Science, and Technology Learning Standards. 20 hours of field work required.

EDU 521 – Foundations of American Education 3
Examination of American public education. Includes organization, finance, administration, curriculum, and current issues. Professional portfolio.

EDU 524 – Methods of Teaching in the Content Areas 3
Lesson unit, and course planning; classroom management; curriculum implementation; student evaluation; application of technology to the content areas; interdisciplinary planning.
EDU 525 – Assessment of Children and Youth with Special Needs 3
Assessment process in special education: observational assessment; norm-referenced standardized tests; criterion-referenced assessments, performance-based, authentic, and portfolio assessment. 10 hours of field work required.

EDU 526 – Childhood Special Education Methods 3
Special education services for grades 1-6: Individualized Education Plans, teaching practices, curriculum implementation assessment, assistive technology, service delivery models, team collaboration. 15 hours of field work required.

EDU 527 – Adolescence Special Education Methods 3
Special education services for grades 7-12: Individualized Education Plans and transitional planning, teaching practices, curriculum implementation assessment, assistive technology, service delivery models, team collaboration. 15 hours of field work required.

EDU 528 – Methods and Curriculum: Severe Disabilities 3
Characteristics of students with pervasive disabilities. Authentic assessment, Individualized Education Plans. Classroom accommodations, assistive technology, positive behavior supports in inclusive environments. Collaboration, community-based instruction, and educational transitions. 10 hours of field work required.

EDU 533 – Adolescent English/Language Arts Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to English; interdisciplinary planning. 20 hours of field work required.

EDU 534 – Adolescent Social Studies Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to Social Studies; interdisciplinary planning. 20 hours of field work required.

EDU 535 – Adolescent Mathematics Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to mathematics including use of graphing calculator; interdisciplinary planning. 20 hours of field work required.

EDU 537 – Adolescent Science Methods 3
Lesson, unit and course planning; classroom management; curriculum implementation; student evaluation; application of technology to the sciences; interdisciplinary planning. 20 hours of field work required.

EDU 543 – Adolescent Foreign Language Methods 3
Lesson, unit, and course planning for teaching languages other than English; classroom management; curriculum implementation; assessment; application of theory to practice. 20 hours of field work required.

EDU 544 – Science and Technology Methods: Birth-Childhood 3
Objectives, content, instructional materials, activities, and theoretical principles for teaching science and technology use in pre-school through grade six. Math, Science, and Technology Learning Standards. 20 Hours of field work required.

EDU 545 – Mathematics Methods: Birth-Childhood 3
Objectives, content, instructional materials, activities, and theoretical principles for teaching mathematics in pre-school through grade six. Math, Science, and Technology Learning Standards. 20 hours of field work required.

EDU 576 – Student Teaching II 6
Supervised teaching experience in either elementary or secondary education. Includes discussions, formal lesson plans and evaluations. Graded on a pass/fail basis. Prerequisite: With the exception of EDU 697, 698 or 699, completion of the full preparation course sequence in Childhood Education, Childhood and Special Education, Adolescence Education, Adolescence and Special Education or Special Education. Permission of Director required.

EDU 577 – Mentored Internship I 6
For Students with a full-time teaching position in the area of certification for Special Education. Meets weekly. Co-requisites: EDU 575 and 576.

EDU 578 – Mentored Internship II 6
For Students with a full-time teaching experience includes discussions, formal lesson plans and evaluations. Prerequisites: With the exception EDU 697, 698, or 699, the preparation course sequence in Childhood Education, Childhood and Special Education, Adolescence Education, Adolescence and Special Education, or Special Education. Permission of Director required.

EDU 590 – Independent Study 1-6
Individual reading or research in a topic of interest between the student and the instructor. Must be approved in advance by the appropriate graduate program director.

Engineering

EGR 323 – Statics and Dynamics 4
Composition and resolution of forces and torques, conditions of static equilibrium of particles and rigid bodies, friction, laws of motion, work and energy, momentum and impulse, applications. Same as PHY 323

EGR 351 – DC and AC Electronics 0-4
Analysis of DC, AC, LRC, filter and resonant circuits, and their instrumentation. Kirchhoff’s laws; network theorems; branch, loop, and nodal analysis. Laboratory includes oscilloscopes, signal generators, power supplies, digital/analog multimeters, soldering and breadboarding. Same as PHY 351. Prerequisite: PHY 262.

English

ENG 100 – Writing Skills 1-2
Provides in-depth review of grammar, improvement of mechanical accuracy, and emphasis on sentence writing and construction of paragraphs. Two credits during regular semester and one credit...
during summer sessions. By permission of Academic Support Services Center.

ENG 101 – Written Communication I 3
Practice in college-level writing, focusing on the expository essay.

ENG 102 – Written Communication II 3
Further practice in college-level writing, focusing on research.

ENG 103 – Introduction to the English Language 3
An examination of the influence of language on attitude and perception, manipulative use of language, types of change within English, and writing systems. The course involves no technical linguistic concepts or theories.

ENG 135 – Introduction to Literature 3
Study of literary genres: fiction, poetry, drama, and basic strategies for better understanding and enjoyment.

ENG 195 – American Literature and Culture 3
Exploration of this country’s hopes, failures, and achievements as depicted in major poetry, prose, drama, cinema, and painting.

ENG 235 – Studies in Literature 3
Introduction to literary genres, periods, or themes. Authors and works vary from term to term. Extensive writing. Core literature requirement for Honors students. Open by permission to other students for elective credit.

ENG 235H – Studies in Literature 3
Introduction to literary genres, periods, or themes. Authors and works vary from term to term. Extensive writing. Core literature requirement for Honors students. Open by permission to other students for elective credit.

ENG 245 – Major Figures in English Literature: Through the 18th Century 3
British literature from the Anglo Saxon period through the Restoration. May include Beowulf, Chaucer’s The Canterbury Tales, poetry, prose, and drama from 16th and 17th centuries. Milton’s Paradise Lost, and selected writings from other authors.

ENG 246 – Major Figures in English Literature: Since the 18th Century 3
British authors from the Romantic movement to the beginning of 21st century. Authors covered may include Wordsworth, Keats, Austen, Tennyson, Browning, George Eliot, Dickens, Conrad, Woolf, Yeats, T.S. Eliot, Larkin, Heaney, Byatt, and Murdoch.

ENG 295 – Major Figures in American Literature 3
Major American writers from colonial times to present. May include Bradstreet, Franklin, Hawthorne, Emerson, Whitman, Dickinson, Wharton, Hemingway, Faulkner, Arthur Miller, Ginsberg, Morrison.

ENG 303 – Perspectives on Traditional Grammar 3
Study of traditional grammar from a variety of perspectives, including handbook definitions and exercises, sentence parsing, grammar and language learning, and grammar and literacy pedagogy.

ENG 304 – Advanced Composition 3
Practice in various techniques of expository writing combined with analysis of the expository, descriptive, argumentative, and narrative modes, with the intent of helping each student develop an individual and effective prose style.

ENG 307 – Beginning Creative Writing 3
Writing projects in poetry, short story, and drama. Reading assignments to illustrate each genre, exercises to develop creative skills, and regular writing.

ENG 311 – Modern English Grammar 3
An extensive study of the structure of the English language using structuralist and transformational models with a short introduction to the development of the traditional school grammars. Recommended for prospective teachers.

ENG 315 – Writing in the Professions 3
Practice, theory, and research concerning writing techniques in scientific, and technical disciplines. Letters, reports, abstracts, technical manuals, charts and graphs, outlines, and proposals. Documentation required in industry, science, and technical management. Prerequisite: English 102.

ENG 316 – Principles and Practice of ESL 3
Theory of second language acquisition; linguistics, as relevant to TESL: teaching approaches and methods, including testing, in speaking, reading, writing, communication, and culture.

ENG 317 – ESL Through the Subject Areas 3
Provides materials and techniques for teaching ESL through mathematics, science, social studies, and language arts. Prerequisite ENG 316 or permission of instructor.

ENG 318 – Introduction to Linguistics 3
An introduction to the systematic nature of language and methods of analysis of the system of sound, word formation and syntax. Includes analysis of non-English languages.

ENG 335 – Literature of the Tudor Period 3
Major British writers 1485-1603. Development of drama, poetry and prose. Transition from medieval to modern modes of thought as reflected in literature.

ENG 336 – Literature of the Early Stuart Period 3
Major poetry, prose and drama, including Milton, from 1603-1660. Influence of political, social, scientific, and religious conflicts on development of literary forms.

ENG 345 – Restoration and Eighteenth Century Literature: 1660-1792 3
Reading in the poets, novelists, and dramatists of the Restoration and 18th century (1660-1792). May include Dryden, Congreve, Swift, Pope, Gay, DeFoe, Fielding, Sterne, Johnson, Boswell, Goldsmith, and Sheridan.

ENG 351 – Language and Culture 3
The interrelation between culture and language; consideration of language impact on cultural behavior, cognition, and perception. Introduction to problem of socio-linguistics and communication. Same as ANT 351

ENG 355 – Literature of the Romantic Period 3
Novels, poetry and essays of such authors as Scott, Radcliffe, Austen, Wordsworth, Coleridge, Blake, Wollstonecraft, and Shelley. Emphasis on modes of literary expression and Romantic attitudes and ideas.

ENG 356 – Literature of the Victorian Period 3
Novels, essays, and poetry of such authors as Tennyson, Browning, Hopkins, Ruskin, Pater, Dickens, George Eliot, Wilde, and Hardy. Consideration of pervasive Victorian ideas and attitudes.
ENG 357 – Modern British Literature 3
Major British writers and works from 1900 to the present viewed in a historical context. All genres will be included.

ENG 367 – Shakespearean Drama 3
Selected comedies, histories, tragedies, and romances. Emphasis on Shakespeare’s development as a dramatist within the context of the English Renaissance.

ENG 372 – Studies in Short Fiction 3
Interpretations of earlier to contemporary short stories. Includes techniques of short fiction writing.

ENG 373 – The Novel 3
Historical development of the novel in either the British, American, or Western literary tradition. Topics include point of view, narrative voice and technique, idea and form, and character.

ENG 374 – Forms and Art of Poetry 3
Intensive reading and critical analysis of selected short poems in English with emphasis on technique and prosody.

ENG 375 – Literature of the Theatre 3
Forms of drama (tragedy, comedy, tragi-comedy, and others) from ancient Greece to the present. Same as THE 375.

ENG 385 – American Literature: 1820-1860 3
Advanced survey of Irving, Cooper, Emerson, Poe, Hawthorne, Melville, Thoreau, Whitman, and others.

ENG 386 – American Literature: 1860-1910 3
Advanced survey of Dickinson, Mark Twain, Chopin, James, Howells, Wharton, Crane, and others.

ENG 392 – The African-American Novel 3
Major African-American novelists from Charles Chestnutt to Toni Morrison. Emphasis on development of a literary tradition, critical responses, and dominant themes and styles.

ENG 395 – American Literature: 1910-1945 3
In-depth survey of Stein, Anderson, Fitzgerald, Cather, Hurston, Hemingway, Faulkner, Wright, and others.

ENG 396 – American Literature: 1945-to the Present 3
In-depth survey of major contributions by American poets and fiction writers since the Second World War.

ENG 397 – Contemporary American Poetry 3
Ethnic, experimental, feminist, imagistic, mythic, populist, and surrealist approaches to contemporary poetry. Style and technique examined within context of inherited traditions.

ENG 398 – Literary Criticism and Theory 3
History of literary criticism and theory, from Plato to the contemporary scene. Recommended for students intending graduate study.

ENG 400 – Studies in Language and Literature 3
Concentrated study emphasizing a specific period, genre, author, or theme. Possible offerings include Chaucer, Milton, Elizabethan and Jacobean drama, the Mystery Novel, and the English Bible. May count twice toward English major, provided sub-specialties are not the same.

ENG 406 – Advanced Fiction Workshop 3
Advanced practice, analysis, and study in writing fiction as well as overview of mechanics and markets of current fiction publishing. Pre-requisites: ENG 307 with a grade of C or better or permission of instructor.

ENG 408 – History of the English Language 3
A study of the evolution of English from earliest to modern times, with emphasis on sound, word-formation, and syntactic changes, and some attention to external history and social forces.

ENG 410 – Topics in Language and Literature 1
A series of mini-courses treating aspects of language and literature especially suitable to relatively brief and concentrated study. Topics may vary from term to term. May count only once toward English major.

ENG 411 – Senior Seminar in Creative Writing: Fiction 3
Preparation of a collection of short stories, or of a novel.

ENG 477 – Senior Seminar in Creative Writing: Poetry 3
Preparation of a poetry chapbook or portfolio; analysis of literary models and publishing marketplace.

ENG 480 – Honors Tutorial 3
Students work with a faculty supervisor on a challenging academic or creative project. By invitation only.

ENG 490 – Independent Study 1-3
Independent Study (3) ES. Also see courses listed under World Literature.

ENG 499 – Honors Tutorial 3
Students work with a faculty supervisor on a challenging academic or creative project. By invitation only.

ENG 500 – Selected Topics: 3

ENG 516 – Studies in Literacy and Language 1
Reading/studying/teaching literature; developing integrated curricula.

ENG 533 – Mohawk Valley Writing Project Summer Institute 3-6
Professional development program available to area K-12 and college teachers by invitation. Writing workshops, teaching demonstrations, research in writing and learning. During school year following the Summer Institute, teacher consultants share learning through inservice presentations.

ENG 557 – Approaches to Shakespeare 3
Introduction to critical and theoretical approaches to the plays of Shakespeare and the culture in which he wrote.

ENG 590 – Independent Study 0-6
Individual reading or research in a topic of interest between the student and the instructor. Must be approved in advance by the appropriate graduate program director.
Environmental Science

ENV 201 – Introduction to Environmental Issues 3
Scientific principles relating to the study of environmental issues. Examination of natural systems and processes and impacts of human activities.

ENV 393 – Seminar in Environmental Science 3
Comprehensive understanding of issues in environmental sciences through analysis of research literature in diverse disciplines. Prerequisites: ENV 201, a one-year sequence in laboratory science, and junior standing or above.

ENV 450 – Senior Research in Environmental Science 3
Original laboratory or theoretical research with a faculty member. Two-semester commitment recommended. Applications must be submitted the semester prior to the starting date. May satisfy Major Honors requirement. May be repeated once for credit. Prerequisites: Permission of instructor.

ENV 470 – Internship in Environmental Science – 3-12
Participation in a professional work environment under co-supervision of faculty and placement personnel. Reflective statements, interim and final reports, public presentation. Repeatable once for maximum combined total 12 credits. Prerequisites: Permission of instructor.

Film

FLM 201 – The Language of Film 3
Exploration of the film experience and its ability to create meaning, using a survey of historical periods, a broad range of film types, and a variety of theoretical approaches.

FLM 300 – Film Genres 3
In-depth exploration of a particular film genre: comedy, horror, the western, ethnographic film, animation, experimental film. (May be repeated once, provided topic is changed.)

FLM 301 – Film and Literature 3
Exploration of relationships between literature and film, including adaptation of literary works to film, influence of film and literature on each other, and proliferation of films in which reading of written texts is central.

FLM 303 – Blacks and Film 3
In-depth exploration of the history of African-Americans as film imagery and as filmmakers.

FLM 304 – Women and Film 3
In-depth exploration of the history of women as film imagery and as filmmakers.

FLM 310 – The Motion Picture 1
Informal exposure to independent, foreign language, experimental, and classic motion pictures. Weekly attendance at Thursday evening film series required. May be taken three times for credit. Same as Communication Arts 310.

FLM 400 – Selected Topics 3

Finance

FIN 101 – Personal Finance 3
Overview of personal financial planning, budgeting, and cash flow management. Debt management, credit, insurance applications, retirement planning, mort-
gages, lease vs. purchase decisions, and foundations of present value.

FIN 333 – Corporate Finance 3
General principles of business finance as related to small or medium-sized corporation, pertinent phases of government regulation and effects of general business conditions on financial plans and operations. Promotion, methods of raising fixed capital, various types of securities, administration of income, expansion, and financial difficulties. Prerequisites: Accounting 201, or permission of instructor.

FIN 343 – Money and Banking 3
See Economics 343. Students cannot take both Economics 343 and Finance 343 for credit.

FIN 351 – Financial Management 3
Problems and procedures of financial management encountered in the normal operations of a corporation. These include financial budgeting and control, acquisition and management of working capital, equipment replacement, and dividend and expansion policies. Prerequisite: Finance 333.

FIN 352 – Investments 3
Designed both for those who expect to enter financial work and for those who wish a knowledge of investments for personal use. After an initial consideration of basic investment principles, attention is devoted to various types of investment media, analysis of industries and securities, and investment management of specific funds. Individual and institutional problems are considered. Prerequisite: Finance 333 or permission of instructor.

FIN 357 – Financial Planning & Portfolio Analysis 3
Financial planning for individuals and families; retirement planning, estate planning, special circumstances savings goals, managing cash flow and debt, evaluating credit, and the appropriate application of insurance or annuity products. Prerequisites: RMI 273, FIN 333, ACC 201.

FIN 533 – Corporate Finance 3
Principles, concepts, and analytical tools of finance; corporate governance; cash flow analysis for capital budgeting; hurdle rates; raising capital through investment banks; financial restructuring; acquisitions. Semester project: estimating the value of a company.

Fine Arts

FIA 115 – Introduction to Art 3
Experiencing and understanding art through the study of elements, techniques, styles and ideas.

FIA 151 – General Drawing 3
Introduction to the principles and practices of drawing. Lecture periods, class discussions, demonstrations, research assignments and studio assignments.

FIA 245 – History of Art I 3
Art from pre-history to medieval times. Placement and continuous development of style, purpose and iconography of major art objects and monuments.

FIA 246 – History of Art II 3
Proto-Renaissance to the present. Placement and continuous development of style, purpose and iconography of major art objects and monuments.

FIA 251S – General Drawing II 3
Encourages student to explore subject matter from a conceptual point of view, experimenting with a variety of materials and techniques. Studio course. Prerequisite: Fine Arts 151

FIN 300 – Topics in Studio Art 3
Exploring personal visual language through various formats/media. May be repeated for credit, provided topics are not the same.
Courses of Instruction

French

FRE 101 – Beginning French I 3
Pronunciation and aural comprehension; elementary grammar; oral and written practice; reading of simple prose. Language lab required.

FRE 102 – Beginning French II 3
Continuation of French 101; prerequisite: French 101 or equivalent.

FRE 201 – Intermediate French I 3
Reading; grammar review; oral work; translation; simple composition. Prerequisite: French 102 or equivalent.

FRE 202 – Intermediate French II 3
Continuation of French 201. Prerequisite: French 201 or equivalent.

FRE 237 – French Conversation and Grammar Review 3
Thorough conversational practice. Training in oral comprehension and use of the French language; pronunciation, grammar review; and vocabulary for everyday use. Prerequisite: French 202 or equivalent (in turn, French 237 is a prerequisite for French 327).

FRE 288 – Introduction to French Literature 3
Critical reading and discussion of major works belonging to various movements and genres. Conducted in French. Prerequisite: French 202 or permission of instructor.

FRE 300 – Topics in French and Francophone Cultures and Literatures 3
Concentrated study emphasizing a specific period, genre, culture or theme within French and Francophone cultures and literatures. Taught in French or English. Maybe repeated once, provided topics are not the same. Permission of instructor.

FRE 311 – French Film 3
French film in cultural and historical contexts. Taught in French or English.

FRE 327 – Spoken French 3
Conversational practice based upon selected aspects of French life and culture. An advanced course in vocabulary building, oral comprehension, and use of idiomatic French. Prerequisite: French 237 or equivalent or permission of instructor.

FRE 337 – Advanced French Composition and Grammar Review 3
In-depth review of grammar; emphasis on the more problematic grammatical structures. Improvement of mechanical accuracy and style in written work. Prerequisite FRE 202 or permission.

FRE 347 – French Civilization and Culture 3
An introduction to the culture and traditions of France and other French-speaking countries. Lectures with films and slides; oral and written reports, and term projects related to student's cultural interests. Prerequisite: French 202 or equivalent.

FRE 388 – Masterpieces of French Literature 3
Readings and critical analysis of representative works. Discussion of their importance in representative literary movements. Oral and written reports. Conducted in French. Prerequisite: French 202 or equivalent.

FRE 490 – Independent Study 1-3
Exploration of a problem, or problems, in depth. Individual independent study upon a plan submitted by the students. Admission by consent of supervising discipline and the academic school.

Geology

GOL 105 – Society, Earth, and the Environment 3
Relationship of society to the earth. Examination of natural phenomena, such as earthquakes, landslides, flooding, and volcanic activity and how they affect mankind. Analysis of past and present occurrences as a means of predicting future disasters. Study of the technology, sociology, and politics of pollution, energy and resources.

GOL 115 – Elementary Oceanography 3
Fundamental topics and contemporary problems pertaining to the oceans: Physical, chemical, biological, and geological aspects of the science of the sea, including exploration, ocean basin configuration and origin, properties of sea water, currents and circulation, sedimentation, economic resources and exploitation, and life within the sea. Weather and climate relationship to the oceans. Political and environmental concerns.

GOL 225 – Physical Geology 0,4
Understanding and appreciation of the earth upon which we live; its composition, structure, and landforms and the physical, chemical, and biological agencies active in their production. Lectures, laboratories, field trips.

GOL 226 – Historical Geology 0,4
The history and development of the earth and the origin and evolution of the life upon the earth with emphasis on North America. Lectures, laboratory, field trips.

GOL 311 – Introduction to Paleobiology 0,4
Fossil invertebrates and some plants and vertebrates, including dinosaurs. Fossil record as a tool for stratigraphy, paleoecology, paleoenvironmental and paleoecological reconstructions, and understanding evolution and mass extinctions. Lectures, laboratory, field trips. Prerequisites: Geology 225 or 226 or Biology 212 or permission of instructor.

GOL 323 – Hydrology and Society 0,4
Spatial and temporal variation of water in terrestrial, oceanic and atmospheric environments. Physical, chemical and biological processes affecting water movement or quality. Human interaction with the water cycle. Prerequisite: Geology 105 or Geology 225.

GOL 325 – Mineralogy 0,4
Introduction to the wide variety of naturally occurring minerals, their physical, crystallographic, and optical characteristics, chemical composition, and environmental and economic impacts. Prerequisites: Geology 225, CHE 211.

Foreign Study

FST 380 – Foreign Study: Syracuse University Division of International Programs Abroad – 0-12 ,

FST 480 – Foreign Study 1-12

FST 580 – Immersion Spanish in Mexico 1

Courses of Instruction
GOL 326 – Petrology: Rocks and Environments 0,4
Classification of igneous, sedimentary and metamorphic rocks, with emphasis on their petrogenesis and the influence of environmental conditions on chemical composition. The lab deals with identification of hand and microscopic samples. Prerequisites: GOL 225, GOL 325, CHE 211.

GOL 333 – Weather and Climate 0,4
Examination of the atmosphere; its origin, structure, composition, evolution, processes, and spatial patterns. Short-term weather forecasting. Modern climate, patterns and causes of climate change through time, reconstruction of past climate, and prediction of future climate. Prerequisites: GOL 225 or GOL 226, MAT 104.

GOL 343 – Geomorphology 0,4
Study of the origin, history, and characteristics of landforms produced by exogenic and endogenic processes acting upon earth materials and structures. Lectures, laboratory, field trips. Prerequisite: Geology 225 or permission of instructor.

GOL 373 – Sedimentology and Stratigraphy 0,4
Basic principles governing the interpretation, correlation, and classification of stratigraphic units. Laboratory and field study of the properties of sediments and sedimentary rocks. Interpretation of the origin, mode of transportation, and environment of deposition from physical characteristics. Lecture, laboratory, field trips. Prerequisite: GOL 225.

GOL 390 – Independent Study 1-6
Independent study in areas not covered by regularly offered courses. Student submits a plan of study, meets periodically with an instructor, and submits a final report in addition to problems and/or exams. Maximum of three credit hours per semester. Prerequisites: permission of the division and at least a 3.0 average in geology courses.

GOL 398 – Structural Geology and Tectonics 0,4
Identification and interpretation of rock deformation features. Emphasis on current debates and understanding of deformation mechanisms according to global tectonics. Lectures, laboratory, field trips. Prerequisite: Geology 225.

GOL 405 – Earth System Science 3
Overview of earth’s hydrosphere/cryosphere, geosphere, atmosphere, biosphere (including anthrosphere) with particular emphasis on understanding the linkages between each. Examination of patterns, causes, evidence and effects of naturally-occurring and human-induced environmental changes through time. Prerequisites: a 2-course (8-credit) sequence in laboratory science.

GOL 410 – Geoscience Seminar and Current Topics 1
Presentations and discussions on current geoscience topics. May be repeated for credit up to three times.

GOL 415 – Stratigraphy and Sedimentation 0,4
Basic principles governing the interpretation, correlation, and classification of stratigraphic units. Laboratory and field study of the properties of sediments and sedimentary rocks. Interpretation of the origin, mode of transportation, and environment of deposition from physical characteristics. Lecture, laboratory, field trips. Prerequisite: GOL 225.

GOL 423 – Geophysics: Theory and Application 0,4
Theoretical justification of four geophysical methods commonly used to explore the shallow and deep subsurface: gravity, magnetics, seismic, and electrical resistivity. These methods are applied to real world situations in lab. Prerequisites: GOL 225, GOL 398, PHY 151, MAT 201. Co-requisite: PHY 262.

GOL 450 – Research in Geoscience 1-3
Original laboratory or theoretical research with a faculty member. Two-semester commitment recommended. Applications must be submitted the semester prior to the starting date. May satisfy Major Honors requirement. May be repeated once for credit. Prerequisite: Completion of all Geoscience major course requirements OR permission of instructor.

GOL 460 – Field Experience in Geoscience – 3-6
Hands-on experience including in-field observation; data analysis; and integrative problem-solving. It may include mapping an material sampling and analysis. Prerequisite: Completion of major course requirements exclusive of the capstone experience AND junior or senior standing, OR permission of instructor.

GOL 470 – Internship in Geoscience – 3-12
Educational experience whereby students apply classroom learning in a professional work environment under co-supervision of faculty and employer personnel. Reflective statements, interim and final reports, public presentation. Repeatable once for a maximum combined total of twelve credits. Prerequisites: Completion of major course requirements exclusive of the capstone experience AND junior or senior standing, OR permission of instructor.

GOL 490 – Independent Study 1-6

German

GER 101 – Beginning German I 3
Pronunciation and aural comprehension; elementary grammar: oral and written practice; reading of simple prose. Language lab required.

GER 102 – Beginning German II 3
Continuation of German 101. Prerequisite: German 101 or equivalent.

GER 201 – Intermediate German I 3
Reading and grammar review; oral work; translation; simple composition. Prerequisite: German 102 or equivalent.

GER 202 – Intermediate German II 3
Continuation of German 201. Prerequisite: German 201 or equivalent.

GER 290 – Independent Study 3

Gerontology

GNT 218 – Rural Elderly 3
Open to all majors, but may not count toward major. Topics include aging in rural America; the impact of changing Demographics on future social and economic policies. Knowledge of gerontology required.

GNT 290 – Independent Study 3

GOL 505 – Earth System Science 3
Earth’s hydrosphere / cryosphere, geosphere, atmosphere, biosphere (including anthrosphere) with emphasis on understanding linkages between them. Patterns, causes, evidence and effects of naturally occurring and human-induced environmental changes through time.

GOL 590 – Independent Study 1-6
GNT 270 – Introduction to Aging Network - Community Placement 1-3
Introduction to range of settings in aging network. Each course focuses on a different setting. Includes in-class and field experience. May be repeated three times in different settings. Permission of instructor required.

GNT 300 – Special Topics in Gerontology 3
Issues affecting the aged, such as environmental accessibility, aging in special populations, and administration of services.

GNT 310 – As I Recall My Past Century 3
To explore older adults’ lives through writing including journaling, life review, autobiographies, and reminiscence. Students will develop practical methods of facilitating a life review and interview older adults residing in long-term care facilities.

GNT 315 – Aging and Intellectual/Developmental Disabilities 3
Discusses intellectual/developmental disabilities (IDD) from a lifespan perspective using a health and wellness approach. Includes discussion of specific risk factors along with possible prevention options for older persons with IDD.

GNT 400 – Special Topics in Gerontology 3
Exploration of gerontology issues through an individualized plan that integrates theory with practical experience.

GNT 411 – Aging and Mental Health 3
Personality, adjustment, and deviant modes of development in old age. Etiology and treatment including drugs and drug effects. Prerequisites: Biology/Gerontology 214 and Gerontology 101.

GNT 470 – Experiences in Gerontology 3
Exploration of gerontology issues through an individualized plan that integrates theory with practical experience.

GNT 503 – Perspectives in Gerontology 3
Literature relevant to the study of gerontology: an overview of current aging issues; current career opportunities; and aging in the future. Seminar format.

GNT 505 – Culture, Gender, and Aging 3
Beliefs, attitudes, and practices related to the aged within a comparative and cross-cultural framework, engendering deeper insight into the diversity of cultural traditions and worldviews.

Government and Politics

GOV 101 – Introduction to Politics and American Government 3
The study of political phenomena and discussion of the nature and meaning of democracy with an emphasis on American national government.

GOV 200 – Selected Topics 3
Topics in various aspects of Government and Politics. Vary from year to year.

GOV 203 – Comparative Politics 3
Comparison of governmental institutions and the political process in several contemporary national political systems, both Western and non-Western. Attention given to the methods used in studying comparative politics.

GOV 211 – Introduction to Human Rights 1
Introduction to contemporary human rights problems and the global response to these issues. Same as Human Rights Advocacy 211.

GOV 212 – American Political Parties and Elections 3
Analysis of the role of political parties and elections in American democracy. Includes discussion of voter participation, characteristics of political parties as organizations, nominations and elections, and issues confronting the electoral system. Prerequisite: Government and Politics 101 or permission of instructor.

GOV 215 – Public Opinion and Political Behavior 3
Examination of what is meant by the American public. Discussion of meaning and function of public opinion and political behavior and the relationship of both to democratic theory. Prerequisite: Government and Politics 101 or permission of instructor.

GOV 221 – State and Local Government 3
Examination of the structure, politics, policy process, and problems of American state and local governments as they function within the federal system.

GOV 235 – Civil Rights, Public Policy, and Social Change 3
People, events, and issues of civil rights struggle in the United States, including impact on democratization and social change in American society, and formation of public policy. Same as Social Studies 235.

GOV 242 – Jurisprudence and the American Legal System 3
Introduction to the court system, appellate process, and inter-relationship of federal and state courts. Includes penal law, criminal procedure law, correctional law, and basics of civil law and procedure. Techniques of case method, briefing, and statutory analysis.

GOV 251 – Congress and the Legislative Process 3
Analysis of salient features of the legislative process and their influence on public policy. Representation, formal procedures, folkways, committee structure, party organization, legislative leadership.

GOV 261 – International Relations 3
International cooperation and conflict including the evolution of international political systems, problems of war and peace, diplomacy, nuclear weapons, international economics, international organizations, and international law.

GOV 281 – Political Ideas and Ideologies 3
Introduction to major political philosophers. Topics include democracy, socialism, fascism, communism, and anarchism.

GOV 300 – Selected Topics 3
Topics in various aspects of Government and Politics. May vary from year to year.

GOV 313 – Campaign Management 3
Principles and problems underlying the conduct of political campaigns. Analysis of techniques used in fundraising; campaign organization; advance work; use of mass media; legal aspects; ethical considerations. Prerequisite: Government and Politics 212 or permission of instructor.

GOV 332 – Public Administration 3
Introduction to the principles and problems of administering government agencies. Included: nature of bureaucracy, bureaucratic politics, inter-governmental relations, organization theory, decision-making, leadership, personnel management, budgeting, regulation, program implementation, ethics, and accountability.

GOV 333 – American Public Policy 3
Examination of the relationship of government units to their environment. Exploration of the way policy is formulated, adopted, & implemented in the political system.
GOV 341 – Jurisprudence of the Criminal Law 3
Criminal law as process for dispute settlement and maintenance of order by the state. Emphasis on legal reasoning, legal process, and necessity to maintain historical continuity and doctrinal consistency.

GOV 345 – Constitutional Law in the Governmental Process 3

GOV 346 – Civil Liberties 3
Problems of civil liberties as interpreted by the courts, as implemented by legislation, and as discussed as public issue

GOV 363 – International Organizations 3
Development, organization, and operation of social, economic, and political institutions. Prerequisite: Government and Politics 261.

GOV 364 – International Law 3
Development of a body of law and enforcement mechanism for piracy, war crimes, and terrorism. Role of international criminal tribunals.

GOV 368 – International Political Economy 3
Relationship between politics and economics in the international sphere. Trade, monetary management, foreign aid, multinational corporations, economic institutions, dependency and development in the international setting.

GOV 371 – European Politics 3
Politics and government in the United Kingdom, France, Germany, and the European Union. Political culture, parties, institutions, and electoral politics.

GOV 372 – Modern Russia 3
From Tsarist Russia on the eve of the Bolshevik Revolution through the rise, development and demise of the USSR, to the emergence of post-Soviet Russia. Emphasis on governmental structures and political processes. Same as HIS 372.

GOV 373 – African Politics 3
Examination of such major trends in Africa as political development, socialism, the one-party state, the role of the military, and the interaction between Africa and the West.

GOV 374 – Latin American Politics 3
Comparative study of major institutions and forces in Latin American politics. Includes the role of parties, military, church, elites, and political economy, and the role of United States. Selected case studies from South and Central American and Caribbean.

GOV 375 – Political Change in Developing Nations 3
Comparative study of political change in the context of selected African, Asian, and Latin American nations. Emphasis on both the process of development, and the structures of political competition.

GOV 382 – American Political Concepts 3
American political concepts, especially justice and liberty, in their relation to courts and other political institutions. Emphasis on development, under social and economic pressure, of American ideas concerning fundamental rights and of procedures for giving effect to them.

GOV 400 – Contemporary International Problems 1-3
Select topics in Government and Politics. Topics vary year to year.

GOV 410 – Government and Politics Thesis Research Proposal 1
Review pertinent literature, identify and locate sources, and develop a working outline thesis proposal.

GOV 435 – Political Leadership and the American Presidency 3
Study of political leadership as it relates to the American Presidency. Analysis of the institution, decision-making processes, exercise of power, and theories of presidential personalities. Seminar format. Prerequisites: Government and Politics 101, 212, and 251 or permission of instructor.

GOV 464 – International Protection of Human Rights 3
Exploration of human rights protection as an increasingly internationalized process and its limitations on sovereignty. Successes and failures of international and regional inter-governmental efforts to monitor control and remedy abuse of sovereign power. Same as Human Rights Advocacy 464.

GOV 470 – Internship in Government and Politics – 1-15
A professional field experience that includes the production of an academic paper. Internships for more than six credits have additional academic components. May be repeated for up to 15 credits.

GOV 490 – Independent Study 1-6
In depth exploration of political problems. Individual independent study based on a plan submitted by the student. Prerequisite: permission of instructor. (Maximum credit of six hours with no more than three in any semester.)

GOV 500 – Selected Topics 3

GOV 563 – International Organizations 3
Development, organization, and operation of social, economic, and political institutions.

Health Care Administration

HCA 521 – Health Care Systems: A Continuum of Care 3
Broad aspects of health care systems: Human Dynamics (R), mental models, systems thinking, organizational learning, organizational design and behavior, and their relationship to health care, and demographic issues facing health care.

HCA 525 – Organizational Leadership 3
Broad aspects of organizational leadership and its relationship to health care; focus areas include Human Dynamics (R), and personal mastery. Governance structure, roles, responsibilities, and alignment to leadership as it affects the health care system.

HCA 527 – Ethical and Legal Issues 3
Legal principles of development, application, and assessment in health care organizations. Leadership in applying ethics in business and clinical decision making, and adherence to the codes of ethics of health care professionals.

HCA 531 – Leadership in Marketing and Strategic Planning 3
Broad aspects of service sector management, and strategic planning, including the customer’s role in service delivery, designing the service offering, service...
recovery, strategic plans, and strategy’s impact on successfully delivering health care. Same as MGT 531.

HIS 200 – Selected Topics 1-3
Topics in various aspects of history. May vary from year to year. Prerequisite: Permission of the instructor.

HIS 202 – Introduction to East Asian History 3
Survey of East Asian traditions and modern development in the Asian-Pacific region.

HIS 203 – America Before 20th Century 3
American history from early colonial times to late 19th century. Emphasis on colonial life. Revolutionary Era, Civil War and Reconstruction, and the Industrial Revolution.

HIS 266 – Modern Europe 3
Europe in the nineteenth and twentieth centuries. Emphasis on liberalism, socialism, nationalism, fascism, communism, and democracy.

HIS 270 – History Internship 1-6

HIS 300 – Selected Topics 1-3
Topics in various aspects of history. May vary from year to year.

HIS 305 – Civil War and Reconstruction 3
Background and causes of the Civil War, major campaigns, and civilian war effort; political, economic, and social problems of reconstruction.

HIS 308 – The United States in the World 3
Development of United States foreign policy from the Early National period to present, emphasizing popular thought and different concepts of the national interest.

HIS 311 – History of New York State 3
Study of economic, social, and political developments with particular emphasis on local history.

HIS 312 – American Immigration and Migration 3
Analysis of: (1) sources, impact, and assimilation of immigrants from colonial times; (2) internal migration, focusing on movement of black population and Puerto Ricans to urban areas since World War II.

HIS 313 – U.S. Women's History 3
Comparative historical study of American women and gender across time and in a diverse range of communities. Power, work, family, and sexuality.

HIS 315 – The City in the United States 3
The rise of the city in America as an economic, political, and cultural institution from the colonial times to the present with special emphasis on the problems of the twentieth century.

HIS 316 – America's Industrial Revolution 3
Social, economic, intellectual, technological, and cultural causes and effects of America's Industrial Revolution.

HIS 322 – America's Aged through History 3
Place of aged in three phases of American history: rural stage, industrial age, and post-World War II period. Attention to popular attitudes toward older people, demographic changes, and rise of pensions and retirement.

HIS 323 – Civil Rights and African American Nationalism 3
Development of civil rights and black power movements, and how liberal and nationalist ideology shaped the politics, economics, and culture of the African American community.

HIS 324 – Resistance, Race, and Labor 3
Race and its impact on the development of the American working class.

HIS 325 – Making Public History 3
Students will combine research on local topics with hands-on experience to create a professional quality radio or television spot or an on-line exhibition.

HIS 334 – History of Colonial Africa 3
African societies and European powers from 1870 to present. Africans' resistance to and accommodation of colonialism; use of African labor; rise of African nationalism and independence movements; and post-colonial conditions.

HIS 335 – History of Modern South Africa 3
How social dynamics, industrialization, nationalism, and gender shaped South Africa.

HIS 343 – Modern Japan 3
Social, economic, and political history of Japan since Tokugawa times. Development of capitalism, modernization, ultranationalism and world war, the economic miracle and its aftermath, and popular culture.

HIS 344 – Modern China 3
The revolutionary transformations that have dominated the experience of 15th and 20th century China. Imperialism, nationalism, communism, cultural revolution, the “capitalist road,” and China's present ascent to world power status.

HIS 345 – Constitutional Law in the Governmental Process 3

HIS 347 – Japanese Imperialism and the Pacific War 3

HIS 348 – Science, Technology, and Industry in East Asia 3
Transformation of traditional science and technology in China and Japan. Westernization and rise of industry.

HIS 367 – Central Europe 3
The Hapsburg Empire, its dissolution in 1918, and the nation-states which replaced it. Emphasis on the post-World War I states of Austria, Hungary, and Czechoslovakia. Discussion also of Germany, Poland, Romania, Yugoslavia, and Italy.

HIS 371 – Russian History 3
The origins and development of the Russian peoples and state to the eve of the Bolshevik Revolution.

HIS 372 – Modern Russia 3
From Tsarist Russia on the eve of Bolshevik Revolution through rise, development and demise of USSR, to emergence of post-Soviet Russia. Emphasis on governmental structures and political processes. Same as GOV 372.

HIS 375 – War and the Military in Historical Perspective 3
Evolution of warfare and military establishments in the Western world from Greek and Roman times to the present.

HIS 376 – British History 1688 to the Present 3
Britain from eighteenth to twentieth centuries with emphasis on political events, technological and economic developments, Napoleonic Wars, reform movements, Victorian period, colonialism, and loss of international authority.

HIS 381 – Germany in the Nazi Era 3
Historical antecedents to the Empire, World War I, and Weimar Republic. Analysis of social organization, political structure, and economy before and during World War II. Diplomacy, military operations, occupation regimes, resistance movements, the “final solution,” and aftermath of the war.
HIS 385 – Russian History 3
The origins and development of the Russian peoples and state to the eve of the Bolshevik Revolution.

HIS 386 – History of Soviet Russia 3
Survey of the origins. Detailed study of the Bolshevik seizure, consolidation, and exploitation of power. Emergence of USSR as a ‘very great power’. Communist strategies and tactics. Domestic developments and problems.

HIS 400 – Selected Topics 1-3
Topics in various aspects of history. May vary from year to year. Prerequisite: Permission of the instructor.

HIS 443 – Japan in the Age of the Warrior 3
Social and political origins of the warrior class from earliest times to the 19th century. Prerequisite: History 145 or 165 or 202, or permission of instructor.

HIS 455 – Historical Methods 3
Training in historical research involving location of sources, their critical evaluation, organization and writing of scholarly papers. Also an introduction to work of the more significant historians of the past. Prerequisite: Junior standing or permission.

HIS 456 – Guided Historical Research 3
Continuation of History 455. Substantial piece of original research written to professional standards required. Prerequisite: History 455.

HIS 490 – Independent Research and Study 3
Individual reading or research in a historical topic of interest, with the program to be arranged by agreement between the student and his or her instructor. May be repeated. Prerequisites: upper level (junior or senior) status and permission of instructor.

HIS 500 – Selected Topics 3

HIS 515 – The African-American Experience 3
African-American experience in the United States, with emphasis on the post-1865 period.

HIS 516 – Public History 3
Public history is history, designed to reach a wide audience, presented outside the classroom or a textbook. We examine monuments, museums, battlefields, oral histories, web sites, and movies. Some research is required at local institutions.

HIS 517 – National and Ethnic Identity in Europe 3
Nationalism and national identity in Europe. Reading and analyzing theoretical works.

HIS 518 – Historiography 3
Introduction to modern historiography.

HIS 525 – Ancient Cities 3
Development and functioning of ancient cities, with emphasis on the archeology of the ancient Near East. Importance of sedentism, agriculture, and imperialism for functioning of ancient cities. Same as Anthropology 525.

HIS 527 – Religion in the Ancient World 3
Ancient religions of the Near East that led to development of Western religious traditions. Archaeological and anthropological perspectives on religions of Mesopotamia and the Levant, including the development of Judaism and early Christianity. Same as Anthropology 527.

HIS 590 – Independent Study 0-6
Individual reading or research in a topic of interest between the student and the instructor. Must be approved in advance by the appropriate graduate program director.

HRA 200 – Selected Topics 3

HRA 211 – Introduction to Human Rights 1
Introduction to contemporary human rights problems and the global response to these issues. Same as Government and Politics 211.

HRA 400 – Contemporary International Problems 1-3

HRA 464 – International Protection of Human Rights 3
Exploration of human rights protection as an increasingly internationalized process and its limitations on sovereignty. Successes and failures of international and regional inter-governmental efforts to monitor, control, and remedy abuse of sovereign power. Same as Government and Politics 464.

HRA 470 – Internship 1-12

HRA 490 – Independent Study 1-3

HRA 500 – Selected Topics 3

Humanities

HUM 110 – Topics in Ethnic Studies 1
A series of mini-courses focusing on one or more of the following topics: the history of a given ethnic group in the ‘old country’; in America, and locally; the cultural, social, and religious groupings within the given ethnic heritage; the literature, the arts and sciences, and other cultural contributions, including the folk culture, of the given ethnic group. Emphasis will be placed where possible on the production of basic research data for the writing of the local area ethnic histories. Up to six credits, provided the topics are not the same. Same as Social Studies 110, 120, and 130.

HUM 120 – Topics in Ethnic Studies 1
A series of mini-courses focusing on one or more of the following topics: the history of a given ethnic group in the ‘old country’; in America, and locally; the cultural, social, and religious groupings within the given ethnic heritage; the literature, the arts and sciences, and other cultural contributions, including the folk culture, of the given ethnic group. Emphasis will be placed where possible on the production of basic research data for the writing of the local area ethnic histories. Up to six credits, provided the topics are not the same. Same as Social Studies 110, 120, and 130.

HUM 315 – The Scientific Revolution 3
A survey of Greek science, the history of astronomy from Eudoxus to Kepler, selected problems in the history of mechanics to Newton.

HUM 316 – The Rise of Modern Science: Aristotle to Newton 3
The scientific revolution; history of theories of electricity, heat and optics, the chemical revolution, developments in biology; the structure of scientific revolutions.

HUM 317 – The Development of Modern Science: Newton to Einstein 3

HUM 400 – Selected Topics 3

HUM 500 – Selected Topics 3
erature, the arts and sciences, and other cultural contributions, including the folk culture of the given ethnic group. Emphasis will be placed where possible on the production of basic research data for the writing of the local area ethnic histories. Up to six credits, provided the topics are not the same. Same as Social Studies 110, 120, and 130.

**HUM 290 – Independent Study** 3
As arranged with a faculty member. More detailed guidance may be found in sections for individual courses of study.

**HUM 390 – Independent Study** 3
As arranged with a faculty member. More detailed guidance may be found in sections for individual courses of study.

**HUM 489 – Honors Tutorial** 3
Students work with a faculty supervisor on a challenging academic or creative project in the humanities area other than English or in an interdisciplinary project within the humanities. By invitation only.

**HUM 490 – Independent Study** 3
As arranged with a faculty member. More detailed guidance may be found in sections for individual courses of study.

**HUM 499 – Honors Tutorial** 3
Students work with a faculty supervisor on a challenging academic or creative project in the humanities area other than English or in an interdisciplinary project within the humanities. By invitation only.

**International Studies**

**IST 225 – Chinese Civilization and Culture** 3
Introduction to ancient and modern Chinese culture as evident in literature, art, music, education, marriage, health care, and other areas. No knowledge of Chinese language required.

**IST 235 – Russian Civilization and Culture** 3
Introduction to ancient and modern Russian culture as evident in literature, art, music, education, marriage, health care, and other areas. No knowledge of Russian language required.

**IST 247 – Japanese Civilization and Culture** 3
Introduction to modern Japan, Japanese society and culture economy and business, politics and diplomacy. Offered only as part of the Japan summer program at Osaka International University.

**IST 248 – American Civilization and Culture** 4
Interdisciplinary introduction to modern American culture, geography, history, and society. Emphasis on multiculturalism, U.S. politics and government, economy, and business. Permission of instructor required.

**IST 300 – Select Topics in International Studies** 3
Topics of various aspects of international studies. May vary from year to year.

**IST 323 – Civil Society in Cyberspace: The Internet in China** 3
Examination of China’s Internet Communications Technology revolution, exploring social, cultural, political, and economic implications of China’s transition in to a more information-rich and communication-intensive society.

**IST 377 – Comparative Criminal Justice: Study Abroad** 3
Comparative study of criminal justice institutions in other countries. Students will visit institutions and interact with professionals in the agencies and facilities.

**IST 400 – Contemporary International Problems** 1-3
Consideration of one or more contemporary problems which are international in scope. Prerequisite: permission of instructor.

**IST 470 – Internship in International Studies** 3-6
Guided experience in international firm or agency. Written reports and periodic meetings with adviser and field supervisor. Prerequisites: Upper level standing and permission of instructor and division dean.

**IST 487 – Senior Seminar in International Studies** 3
Consideration of one or more international problems.

**IST 490 – Independent Study** 1-6
In depth exploration of an international problem. Individual independent study based on a plan submitted by student. (No more than three hours in any semester.) Refer to College regulations concerning independent study for guidelines.

**Italian**

**ITA 101 – Beginning Italian I** 3
Pronunciation and aural comprehension; elementary grammar; oral and written practice; reading of simple prose.

**ITA 102 – Beginning Italian II** 3
Continuation of Italian 101. Prerequisite: Italian 101 or equivalent.

**ITA 200 – Selected Topics** 3

**Japanese**

**JPN 101 – Beginning Japanese I** 3

**JPN 102 – Beginning Japanese II** 3

**Journalism Studies**

**JLM 130 – Tangerine Practicum** 1
Participation on the staff of the campus newspaper, the Tangerine. Weekly class meeting required. Open to all majors. May be taken four times for credit.

**JLM 133 – UC TV Practicum** 1
Participation in the staff of UC TV. Weekly class meeting required. Open to all majors. May be taken four times for credit.

**JLM 181 – Introduction to Mass Communication** 3
Introduction to study of mass communication, including theories, effects, mass media industries, government regulation, and career opportunities.

**JLM 241 – Introduction to the Sports Report** 3
Instruction and experience producing and delivering broadcast sports reports on television newscasts. Emphasis on sports writing for broadcast and studio work.

**JLM 259 – Broadcast News Writing** 3
Introductory instruction and experience writing news stories for radio and TV. Emphasis on writing anchor copy and field packages including soundbites.

**JLM 261 – Newswriting** 3
Elements of news, leads, style and structure of news stories.

**JLM 261L – Newswriting Lab** 1
Elements of news, leads, style and structure, with an emphasis on writing and grammar. Must be taken with JLM 261.

**JLM 262 – Reporting** 3
Instruction and experience in gathering and reporting news. Emphasis on developing stories in depth, interviewing skills, following a beat. Writing for campus newspaper required. Prerequisites: JLM 261 or permission of instructor.
JLM 276 – Television Field Production 3
Techniques and skills needed to produce news, public service announcements, and other programming styles. Emphasis on camera work, field audio recording, and video editing.

JLM 290 – Independent Study 3
Individually supervised research and study. Provides opportunity for students to engage in original research or to pursue scholarly investigations beyond the boundaries of established courses. Arranged by agreement between the student and his or her instructor, subject to approval of division dean. May be repeated once for credit, though with a different topic.

JLM 300 – Selected Topics 1-3
Topics in various aspects of journalism. May vary from year to year. Prerequisite: Permission of the instructor.

JLM 325 – Making Public History 3
Students will combine research on local topics with hands-on-experience to create a professional quality radio or television spot or an on-line exhibition.

JLM 336 – Media Programming Strategies 3
Theory and practice of broadcast, cable, and Internet program evaluation, selection, and scheduling. Includes decision-making strategies of commercial television, radio, and cable systems, at the network, corporate, and local levels, and non-commercial media. Prerequisite: JLM 181 or permission of instructor.

JLM 345 – Broadcast Announcing and Presentation 3
Introduction to various aspects of broadcast presentation including announcing for radio and television, studio interviewing, and on-camera presentation in the field and studio. Emphasis on developing presentation skills for news, public service announcements and commercials. Prerequisite: COM 103.

JLM 362 – Reporting of Public Affairs 3
Instruction and experience in reporting politics, police, courts, government, education, environment, and other special topics related to communities. Prerequisite: Journalism Studies 262.

JLM 363 – Magazine Article Writing 3
Non-fiction magazine articles and the marketplace today, article ideas and types, query letter writing, networking, copyright, interviewing, search for illustrations, writing styles, and research techniques.

JLM 364 – Editing 3
Skills and techniques required in editorial positions. Copy editing, headline writing, photo selection and editing. Prerequisite: Journalism Studies 261.

JLM 365 – Publication Design 3
Principles and techniques of design with hands-on experience producing feature newspaper pages, computer-designed newsletters, and web pages. Integrating text photos, art-work and other graphic elements.

JLM 371 – Advanced Reporting Techniques 3
Instruction and practice in advanced reporting techniques. Each course offering will have a single focus, rotating among investigative reporting, database reporting or feature writing. Prerequisite: Journalism Studies 262.

JLM 372 – Essentials of News Photography 3
Use of still cameras to record news events and create feature photos for print media. Discussion of modern photographic methods. Techniques of photojournalism. Students are responsible for regular access to a 35mm film camera.

JLM 373 – Digital Photography & Photoshop Techniques 3
Use of still cameras, scanners and large manipulation software to produce photographs for print and digital media. Discussion of current photojournalistic practice and techniques.

JLM 374 – Sportswriting 3
Examines changes in nation’s sports pages, methods used to cover community, college, amateur and professional athletics. Students work for area media. Prerequisite: Journalism Studies 261.

JLM 378 – Television News Field Reporting and Production 3
Producing news stories for broadcast. Emphasis generating stories, reporting, spot news, interviewing writing to video, production and port-production.

JLM 381 – Censorship 3

JLM 390 – Independent Study 3
Individually supervised research and study. Provides opportunity for students to engage in original research or to pursue scholarly investigations beyond the boundaries of established courses. Arranged by agreement between the student and his or her instructor, subject to approval of division dean. May be repeated once for credit, though with a different topic.

JLM 400 – Topics in Journalism Studies 1-6
Advanced consideration of selected topics in journalism. May be repeated up to six credit hours provided topics are not the same. Prerequisite: Journalism Studies 261 or permission of instructor.

JLM 401 – Media Ethics in Contemporary Society 3
Ethical and moral considerations as they apply to media and journalists; acceptable and unacceptable practices of contemporary media. Discussion of various media codes of ethics and their applications. Prerequisite: Journalism Studies 262.

JLM 450 – Field Work in Journalism 3
Total of 140 hours during semester at a Central New York media site. One-hour weekly class meeting. Topics include resumes, cover letters, portfolios, job-hunting. Prerequisites JLM 261, 265, 364; Grade of ‘C’ in each. Permission of instructor required.

JLM 461 – Web Writing and Design 3
Writing and editing stories for online presentation as well as examination of the theoretical, ethical and legal issues involved in working on the Web. Topics include online story structure, linking strategies, and Web usability and design. Prerequisite: JLM 261

JLM 467 – Communications Law 3
First Amendment theory, prior restraint, libel, privacy, free press/fair trial, confidentiality of sources, government regulation of broadcasting, Internet, advertising. Prerequisites: ENG 102 or permission of instructor.

JLM 470 – Internship 1-12
On-site experience with media. On-site hours determined by credits. Weekly journals and paper required. Permission of instructor required. Prerequisites: JLM 261 and 262. Minimum grade of ‘C’ in each. Course may be repeated up to a total of 12 credits.

JLM 476 – Television Newscast 3
Plan and execute all facets of producing weekly newscast, including selecting, writing, editing and prioritizing stories. Rotate through roles (anchor, producer, writer, reporter, editor, camera). Programs recorded in Simon studio. Course may be taken twice. Prerequisites: JLM 259 and JLM 276 or JLM 378 or permission of instructor.
Courses of Instruction

JLM 490 – Independent Study  1-3
Individually supervised research and study. Provides opportunity for students to engage in original research or to pursue scholarly investigations beyond the boundaries of established courses. Arranged by agreement between the student and his or her instructor, subject to approval of division dean. May be repeated once for credit, though with a different topic.

Latin

LAT 101 – Beginning Latin I  3
Introduction to Latin grammar and syntax with an emphasis on vocabulary building and English derivatives. Reading of simple prose and study of aspects of Roman culture.

LAT 102 – Beginning Latin II  3
Continuation of Latin 101. Prerequisite: LAT 101.

Liberal Studies

LST 500 – Selected Topics – 0-3

LST 540 – Contemporary Topics in Science  3
Critical analysis of topics drawn from the popular media (television, newspaper, radio, Internet) using primary scientific literature. Topics chosen will reflect scholarly interests of specific faculty.

LST 604 – Graduate Liberal Studies Seminar  1
Explores the significance of interdisciplinary approaches to Liberal Education, emphasizes critical thinking and connections across subject areas, and gives students insight into how interdisciplinary studies are designed, executed, and presented.

Literature

LIT 205 – Masterpieces of Western Literature: Through the Renaissance  3
May include Greek and Roman epic, lyric, drama, comedy, and pastoral as well as works by Chretien de Troyes, Dante, Cervantes, and others in translation.

LIT 206 – Masterpieces of Western Literature: Since the Renaissance  3
Literature after 1650 in translation. Typically includes Moliere, Voltaire, Goethe, Flaubert, Dostoevsky, Ibsen, Mann, and Kafka.

LIT 334 – Greek & Roman Mythology  3
A study of those myths which have had significant influence on later literature and art. Readings in translation selected from the great authors of antiquity.

LIT 347 – Images of Women in Literature  3
Examination of women’s roles in texts by authors of both genders. Critical views of female characters in literature. Understanding of gender roles in literature of various cultures.

LIT 356 – From Fairy Tale to Modern Fantasy  3

LIT 358 – World Literature in English  3
Modern and contemporary literature in English from Africa, Asia, the Caribbean, and the Pacific. All genres; may include works by Achebe, Narayan, Rushdie, Soyinka, Head, Salkey, and others.

LIT 400 – Topics in World Literature  3
Concentrated study - primarily in translation - of genres, masterpieces, movements, periods, or themes. Topics will vary from term to term.

Management

MGT 101 – Introduction to Contemporary Business  3
Integrative nature of business; dynamic business environment, global markets, ethical behavior, social responsibility, forms of business ownership, and entrepreneurship; includes team training, oral and written business communications, and methods of researching business information.

MGT 201 – Principles of Integrated Management  3
Integration of management theory, leadership and motivation, employee empowerment, world-class operations, human resources, principles of marketing, financial management, and the importance of using and managing information technology. Prerequisite: MGT 101 or CMG 103.

MGT 202 – Applied Integrated Management  3
Integration of teamwork, leadership, business strategy, marketing and sales strategy, customer value, financial reporting, profit management, quality improvement, supply chain management in a global environment through a marketplace computer simulation exercise. Prerequisite: MGT 201

MGT 370 – Labor Relations and Collective Bargaining  3
Collective bargaining as a basic process of the determination of wages and other terms of employment; the mechanics followed by unions and management; the role of government and law; the administration of collective agreements. Prerequisite: MGT 202

MGT 375 – Labor Relations and Collective Bargaining  3
Concentrated study - primarily in translation - of genres, masterpieces, movements, periods, or themes. Topics will vary from term to term.

MGT 400 – Topics in World Literature  3

ECN 241, FIN 333, MAT 144 and MGT 202

ECN 241, FIN 333, MAT 144 and MGT 202

Courses of Instruction
MGT 471 – Organizational Behavior 3
Cases and problems associated with understanding and managing people at work. Emphasis on administrative process and developing human relations skills. Explores the psychological and organizational behavior factors affecting individual and group efficiency. Prerequisites: Psychology 101 and Management 201 or permission of instructor.

MGT 473 – Total Compensation: Theories and Practices 3
Managing employee compensation and benefits; the effects of pay decisions on individual behavior and organizational performance; why employers choose a particular pay program and how it is implemented. Prerequisite: MGT 371 or Instructor's permission.

MGT 474 – Human Resource Development 3
Theories, models, and applications for Human Resource Development (HRD). Critical topics; discussion of theories, models, and related research. Prerequisite MGT 371 or Instructor's permission.

MGT 490 – Independent Study 1-6
MGT 501 – Management and Marketing 3
Emphasis on broad basic principles in managerial and marketing functions and processes in business environments. An interdisciplinary approach to identifying key issues and developing appropriate solutions. Case study methodology will be used heavily in course.

MKT 300 – Selected Topics 1-3
MKT 311 – Elements of Integrated Marketing Communication 3
Discussion of the various tools of marketing communication, their strengths and weaknesses, how to measure their effectiveness, and the legal and ethical aspects of marketing communication efforts.

MKT 313 – Marketing Research 3
Readings, lectures, and discussion of cases based on the application of market research techniques to marketing problems. Prerequisites: Management 202, Economics 241 and Mathematics 144.

MKT 315 – Consumer Behavior 3
Needs and behaviors of consumers; relationship of consumers with organizations, and how consumers make decisions regarding products and services. Prerequisites MGT 301 and MAT 143.

MKT 400 – Advanced Topics 3
MKT 401 – Retail Marketing 3
An overview of retail marketing at the operational level Prerequisite: Management 202.

MKT 404 – Industrial Marketing 3
Marketing requirements for those organizations addressing and serving the needs of industrial, institutional and governmental markets. Prerequisite: Management 202.

MKT 412 – Sales Management and Personal Selling 3
Planning, organizing, supervising, training, and administrative functions of sales force. Basic theories of inter-personal relationships, communication organization. Prerequisite: Management 202 or equivalent or permission of instructor.

MKT 414 – Marketing Channels 3
A study of the evolutionary aspects of marketing channels, the environmental factors that cause channel evolution, and the consideration underlying channel selection decisions. Prerequisite: Management 202.

MKT 415 – International Marketing 3
In-depth exploration of marketing practices. Focus on managerial and operational problems of world enterprise with emphasis on the ethnic and cultural differences influencing marketing strategy. Prerequisite: Management 202.

MKT 481 – Marketing Management 3
A study of the broad aspects of distribution on a decision-making level. Analysis and forecasting of demand, structure of distribution, selection of channels of distribution, and promotional procedure are some of the topics covered. Prerequisites: MKT 311 and MKT 313

Mathematics

MAT 100 – Basic Mathematics 1-2
Review of arithmetic and algebra: number systems, operation with signed numbers, fractions, decimals and percents, exponents, radicals, operations with algebraic expressions, factoring, linear equations, solutions of word problems. Two credits during regular semesters and one credit during Summer Institute. Admission by Mathematics Placement Test.

MAT 104 – Intermediate Algebra 3
Operation with polynomials, solution of equations and verbal problems, exponents and radicals, quadratic equations, systems of linear equations, graphing techniques. Mathematics 104 may not be taken for credit after receiving a grade of C or better in Mathematics 151 or above. Prerequisite: Mathematics 100 or satisfactory performance in Mathematics
Prerequisite: Mathematics 104, or satisfactory performance in Mathematics Placement Test administered by mathematics department, or permission of instructor.

**MAT 107 – Introduction to Mathematics 3**
Basic principles and techniques of mathematics. May include theory of sets, logic, number theory, geometry, probability and statistics, consumer mathematics. Emphasis on unity of thought and consistency of approach to problem solving. History and relevance of mathematics for growth of civilizations. Prerequisite: MAT 100, or satisfactory performance in Mathematics Placement Test administered by mathematics department, or permission of instructor.

**MAT 112 – Basic Statistics 3**
For non-mathematics majors. Probability theory topics, binomial distribution, normal distribution, descriptive statistics, frequency distribution, measures of central tendency, hypothesis testing. Confidence intervals, correlation, and prediction. Prerequisite: MAT 100, or satisfactory performance in Mathematics Placement Test administered by mathematics department, or permission of instructor. Students may not also take for credit Psychology 211, Economics 241 or Sociology 211.

**MAT 131 – Plane Trigonometry 3**
Trigonometric functions, identities, related angles, degree and radian measure, graphs, compound and multiple angles, equations, inverse functions, oblique triangles, complex numbers, DeMoivre’s Theorem. Prerequisite: MAT 104 or satisfactory performance in Mathematics Placement Test administered by mathematics department, or permission of instructor.

**MAT 143 – Mathematical Analysis for Business & Economics I 3**
For business and economics majors. Topics include algebra, analytic geometry, applications, elements of linear programming, and mathematics of finance. Prerequisite: Mathematics 104, or satisfactory performance in Mathematics Placement Test administered by mathematics department, or permission of instructor.

**MAT 144 – Mathematical Analysis for Business & Economics II 3**
Continuation of Mathematics 143. Topics include functions in business and economics, fundamentals of differential and integral calculus with selected applications. Prerequisite: Mathematics 143.

**MAT 151 – Pre-Calculus 0-3**
Elementary functions and their graphs including polynomial, rational, exponential, logarithmic and trigonometric functions, quadratic curves, and introduction to analytic geometry. Prerequisite: Mathematics 104, or satisfactory performance in Mathematics Placement Test administered by mathematics department, or permission of instructor.

**MAT 201 – Calculus I 3**
Review of analytic geometry and trigonometric functions. Limits, derivatives, maxima and minima, related rates, graphs, differentials, mean value theorem. Prerequisite: Mathematics 151 or satisfactory performance in mathematics placement test administered by mathematics department, or permission of instructor.

**MAT 202 – Calculus II 3**
Indefinite integration, definite integrals and applications; logarithmic, exponential, hyperbolic functions and their inverses, l’Hôpital’s rules; improper integrals and methods of integration. Prerequisite: Mathematics 201.

**MAT 300 – Selected Topics 1-3**

**MAT 301 – Calculus III 3**
Vectors, parametric equations, polar coordinates, infinite series, elementary differential equations. Prerequisite: Mathematics 202.

**MAT 302 – Calculus IV 3**
Analytic geometry of three dimensions, functions of more than one variable, partial differentiation, multiple integrals, line and surface integrals. Prerequisite: Mathematics 301.

**MAT 303 – History of Mathematics 3**
Study of mathematical concepts in historical perspective lives, character, and contributions of the mathematicians and the relation of mathematics to other sciences. Prerequisite: Mathematics 202 or permission of instructor.

**MAT 305 – Fundamental Structures of Mathematics 3**
Logic, sets, relations, functions, cardinal numbers, algebraic systems. Emphasis on concepts and methods of proof. Prerequisite: Mathematics 202 or permission of instructor.

**MAT 313 – Mathematics: A Heuristic Approach 3**
Historical and developmental perspectives. Problem solving and pattern recognition. Motivational techniques. Practical applications, emphasis on knowledge and understanding of subject matter. Diagnostic tools to detect and correct common misconceptions. Assessment and statistical interpretation of errors. Prerequisite: Mathematics 305 or permission of instructor.

**MAT 317 – Ordinary Differential Equations 3**

**MAT 321 – Probability & Statistics 3**
Mathematical models of random experiments, discrete and continuous random variables. Bivariate and multivariate distributions. Prerequisite: Mathematics 301.

**MAT 322 – Mathematical Statistics 3**
Random sampling. The Central Limit Theorem, estimation of parameters, confidence intervals, tests of hypotheses, least squares, regression, and contingency tables. Prerequisite: Mathematics 321.

**MAT 331 – Linear Algebra 3**
Systems of linear equations, matrices, determinants, vectors vector spaces and subspaces, linear independence, basis and dimension, orthonormal bases, Gram-Schmidt process, eigenvalues and eigenvectors, diagonalization, linear transformations, applications. Prerequisite: Mathematics 202 or permission of instructor.

**MAT 334 – Introduction to Abstract Algebra 3**
Elementary theory of groups, rings, domains, and fields, including the integers and polynomial rings and their applications. Quaternions and the Cayley numbers. Prerequisite: Mathematics 305 with grade of C or better, or permission of instructor.

**MAT 341 – Number Theory 3**
Topics include prime numbers, greatest common divisors, congruences, Wilson’s, Fermat’s and Euler’s Theorems, polynomial congruences, perfect numbers, primitive roots, indices, quadratic residues, Legendre symbol, quadratic reciprocity law. Prerequisite: Mathematics 305 or permission of instructor.

**MAT 351 – Euclidean & Non-Euclidean Geometries 3**
Euclidean geometry examined as a system of carefully formulated axioms, precise definitions, and rigorous proofs of theorems in plane and solid geometry. History, foundation and applications of the non-Euclidean geometries: Lobatchevskian and Reimannian. Prerequisite: Mathematics 305 or permission of instructor.

**MAT 390 – Independent Study 1-3**
Independent Study (1-3) IR
MAT 400 – Topics in Higher Mathematics 3
In-depth discussion of current problems and developments in particular branch of mathematics. Content may vary according to specialty of instructor. May be repeated once. Permission of instructor required.

MAT 401 – Real Analysis I 3
Foundations of the real number system, functions and sequences, limits, continuity and differentiability. Prerequisites: Mathematics 302 and 305 or permission of instructor.

MAT 402 – Real Analysis II 3
Integration, series, uniform convergence. Additional topics may include: transformations in Euclidean spaces, Fourier series, metric spaces and principles of general topology. Prerequisite: Mathematics 401.

MAT 413 – Mathematics: A Heuristic Approach: Practicum 4
Students apply the principles learned in Mathematics 313 in a Mathematics 100 classroom, participating in planning, preparation, presentation, and assessment. Discussion and analysis. Daily journal required. Prerequisite: Mathematics 313. By invitation only.

MAT 484 – Complex Variables 3

MAT 486 – Numerical Analysis I 3

MAT 487 – Numerical Analysis II 3

MAT 490 – Independent Study 1-3
Independent Study (1-3) IR

MAT 503 – History of Mathematics 3
Origin of numbers and changing views of mathematics, pre-civilization through the early twenty-first century.

MAT 505 – Problem Solving in Mathematics 3

MAT 517 – Early Childhood/Elementary Education: Mathematics 3

MAT 525 – Contemporary Mathematics 3
Mathematics relevant to business, politics, history and the social sciences. Realistic approach to problem solving.

MAT 551 – Classical and Modern Geometry 3

MAT 590 – Independent Study 1-6
Individual reading or research in a topic of interest between the student and the instructor. Must be approved in advance by the appropriate graduate program director.

Military Science

MST 101 – Basic Leadership Course and Leadership Laboratory 0.1
Basic drill and ceremony, mountaineering, orienteering, first aid, communications, weapons familiarization, and small unit tactics. Taught in each semester of the Basic Course (first two years) of the curriculum.

MST 102 – Basic Leadership Course and Leadership Laboratory 0.1
Basic drill and ceremony, mountaineering, orienteering, first aid, communications, weapons familiarization, and small unit tactics. Taught in each semester of the Basic Course (first two years) of the curriculum.

MST 201 – Basic Leadership Course and Leadership Laboratory 0.1
Basic drill and ceremony, mountaineering, orienteering, first aid, communications, weapons familiarization, and small unit tactics. Taught in each semester of the Basic Course (first two years) of the curriculum.

MST 202 – Basic Leadership Course and Leadership Laboratory 0.1
Basic drill and ceremony, mountaineering, orienteering, first aid, communications, weapons familiarization, and small unit tactics. Taught in each semester of the Basic Course (first two years) of the curriculum.

MST 301 – Advanced Leadership Course and Leadership Laboratory 0.2
Junior and senior level courses which expand on basic subject areas. Leadership and management development, with classes on command, control, staff operations, planning and organizing. Taught in each semester of the Advanced Course (last two years) of the curriculum.

MST 302 – Advanced Leadership Course and Leadership Laboratory 0.2
Junior and senior level courses which expand on basic subject areas. Leadership and management development, with classes on command, control, staff operations, planning and organizing. Taught in each semester of the Advanced Course (last two years) of the curriculum.

Music

MUS 110 – Choir 1
The study, rehearsal, and performance of choral music. Three hours of rehearsal a week. May be taken four times for credit.

MUS 115 – Introduction to Music 3
Introductory study covering a variety of types of music, including works by major composers from various historic periods. Emphasis on development of structured listening based on the elements of music.
MUS 120 – Band 1
Study, rehearsal, and performance of music for band and, as instrumentation permits, stage band as well. Three hours of rehearsal a week. May be taken four times for credit.

MUS 150 – Applied Music: Beginning Instrumental Instruction 1
Solo instrumental instruction. Students may take a combination of MUS 150 and 160 a total of six times for credit.

MUS 160 – Applied Music: Advanced Instrumental Instruction 1
Advanced solo instruction in instrumental music. A combination of MUS 150 and 160 may be taken a maximum of six times for credit. Prerequisite MUS 150 and audition or permission of instructor.

MUS 170 – Applied Music: Beginning Voice Instruction 1
Solo voice instruction. May be repeated four times for credit.

MUS 180 – Applied Music: Advanced Voice Instruction 1
Individual vocal instruction of advanced scope and difficulty. Combination of MUS 170 and 180 may be taken six times for credit. Prerequisite: MUS 170 plus audition or permission of instructor.

MUS 200 – Top in Music: Beginner Drumming 1, MUS 230 – Instrumental Ensemble 1
Techniques of instrumental performance and styles through listening, discussion, and performance. Experience required in particular genre offered. Audition may be required.

MUS 240 – Beginning Group Instruction: Instrumental 1
Group instruction in specific instruments. Topics will vary from semester to semester. May be repeated for credit three times provided instrument is not the same.

MUS 245 – History of Music I 3
Survey of Western music from its Greek origins through the Baroque period, emphasizing the development of styles and forms and the relationships between music and the other arts and their times.

MUS 246 – History of Music II 3
Survey of Western music from the latter part of the Baroque period to the present, emphasizing the development of styles and forms and the relationships between music and the other arts and their times.

MUS 250 – Intermediate Group Instruction: Instrumental 1
Group instruction in specific instruments. Topics will vary from semester to semester. May be repeated for credit three times provided instrument is not the same.

MUS 300 – Selected Topics In Music 1-3

Nursing

NUR 101 – Introduction to Professional Nursing 1

NUR 201 – Health Assessment and the Nursing Process 0-3
Assessment of physical, psychological, social, cultural, and environmental aspects of clients. Focuses on well-individual, with reference to illness. Includes laboratory. Prerequisites: Biology 101, 102, or permission of instructor.

NUR 206 – Fundamentals of Nursing Practice 0-3
Overview of professional nursing. Introduction to nursing theory and research. Basic principles of stress and adaptation, and human interaction in context of the nursing process.

Basic clinical skills practiced in laboratory. Not open to RNs (see Nursing 351). Prerequisites: Biology 101, 102, Chemistry 211, Psychology 101, Sociology 151. Co-requisites: Nursing 201, 206C, Biology 203, 208. (Sociology 151 may be co-requisite.)

NUR 206C – Fundamentals of Nursing Practice - Clinical 1
Provides opportunity to implement theory in acute care setting. Graded on a pass/fail basis. Co-requisite: Nursing 206.

NUR 311C – Professional Nursing Practicum 1-2
Clinical course which focuses on integrating nursing theory and science through the nursing process with the individual client. Includes seminar. Junior status or permission of instructor (for LPNs and RNs only).

NUR 333 – Psychiatric Nursing 3
Concepts essential for effective mental health nursing: Nurse-patient relationship theory, group theory, creation of therapeutic milieu, mental status examination, nursing interventions for selected mental health disorders. For RNs only.

NUR 334 – Nursing Care of Adult 1 0-4
Utilizes the nursing process to facilitate individual and family adaptation to acute stress. Alterations experienced in surgery (perioperative nursing), mobility, digestion, elimination, metabolism, cancer fluid/gas transport, skin protection. Includes laboratory. Prerequisites: Nursing 201, 206, Biology 203, 205, 208; and Health Studies 245 or Psychology 223. Co-requisite: Nursing 334.

NUR 334C – Nursing Care of Adult I - Clinical 2
Clinical experiences with patients and families in acute care setting. Graded on a pass/fail basis. Prerequisite: Nursing 206C. Co-requisite: Nursing 334.

NUR 336 – Nursing Care of the Chronically Ill Client 0-3
Nursing process with adults and families living with chronic conditions such as diabetes mellitus, hypertension, arthritis, and alcoholism. Role of nurse as teacher emphasized. Includes laboratory. Prerequisite: Nursing 201, 206; Biology 203, 205, 208; and Health Studies 245 or Psychology 223. Co-requisite: Nursing 336C.

NUR 336C – Nursing Care of the Chronically Ill Client - Clinical 1
Selected clinical experiences with patients and families in such settings as hospitals, extended care homes, and private homes. Students experience common family patterns of adapting to actual or potential dysfunction. Graded on a pass/fail basis. Co-requisite: Nursing 336

NUR 337 – Care of the Human Spirit 3
Relationship between spirituality and health and it relevance to professional practice.

NUR 345 – Clinical Pharmacology: Application to Practice 3
Pharmacological agents used in the health care practitioner practice setting. Reality based scenarios will be used to promote application of drug knowledge. Prerequisites BIO 101, BIO 102, HLS 309 or Nursing Major.

NUR 351 – Conceptual Framework for Nursing Practice 3
Theoretical foundation for RNs entering the nursing program. Concepts of stress/adaptation systems, human interaction, critical thinking, problem-solving, and decision making. For RNs only.

NUR 355 – Basic Cardiac Dysrhythmias 1
Course provides essential information regarding the interpretation of basic cardiac dysrhythmias, as well as current collaborative treatment modalities. Will be offered as a nursing elective every
fall. Prerequisites: BIO 101, BIO 102 or RN-B5 student.

NUR 361 – Foundations of Forensic Nursing: Theory, Practice, and Future Implications 3
History, theory, and philosophy of forensic nursing. A biopsychosocial approach to role definition, forensic education, and standards of care. Ethical-legal issues and cultural diversity in providing health care to incarcerated individuals.

NUR 365 – Forensic Psychiatric/Mental Health Nursing 3
History, theory and philosophy of mental health nursing practice. Legal and ethical issues, risk assessment, cultural diversity, and their impact on the forensic mental health system.

NUR 372 – Childbearing Family Nursing 0-3
Theories of human interaction skills, family dynamics, entered focus with periodic attention to the individual. Laboratory focus on families experiencing normal developmental/maturational stressors. Prerequisite: Nursing 334. Co-requisite: Nursing 372C.

NUR 372C – Childbearing Family Nursing - Clinical 2
Opportunity to work with childbearing families in acute care settings, as well as in the community. Graded on a pass/fail basis. Prerequisite: Nursing 334C. Corequisite: Nursing 372.

NUR 375 – Psychiatric/Mental Health Nursing 0-3
Promotion and maintenance of mental health and alleviation of suffering in mental illness. Effect of psychosocial stressors on individual, family, group, and community. Theories of mental health and illness and nursing care to promote adaptive coping to emotional stressors. Prerequisite: Nursing 336. Co-requisite: Nursing 375C.

NUR 375C – Psychiatric/Mental Health Nursing - Clinical 1
Clinical experiences provided in acute and chronic care and community mental health settings. Graded on a pass/fail basis. Prerequisite: Nursing 336C. Co-requisite: Nursing 375.

NUR 376 – Gerontological Nursing 3
Specific nursing care needs of the elderly. Emphasizes physical and psychosocial changes.

NUR 400 – Impact of Culture on Professional Practice 1-3
Advanced study of selected topics in nursing. Topics may vary from year to year in response to needs and interest of students as well as changes in the nursing profession. May be repeated up to six credit hours. Prerequisite: Permission of instructor.

NUR 435 – Nursing Care of the Adult II 0-3
Identification of physiological and psychological stressors that affect patient behavior. Interference with oxygenation, elimination, nutrition, endocrine and neurologic systems, sexuality and reproduction in relation to maturation of individual and family. Lab component relates classroom theory to nursing practice. Prerequisites: All 300-level required clinical nursing courses. Corequisites: NUR375C

NUR 435C – Nursing Care of the Adult II - Clinical 2
Clinical component of Nursing 435, focuses on the acute care setting. Knowledge from Nursing 435 applied to client needs and problems. Graded on a pass/fail basis. Prerequisites: All 300-level required clinical nursing courses. Corequisite: Nursing 435.

NUR 447 – Childbearing Family Nursing 0-3
The nurse’s role in preparing children and families for maturational stressors and assisting in coping with alterations in health status: perinatal complications; well-child health promotion; and childhood illness. Includes laboratory. Prerequisites: all 3000-level required nursing courses. Co-requisite: Nursing 447.

NUR 447C – Childbearing Family Nursing - Clinical 2
Applies nursing process in clinical settings to care of childbearing and childbearing families faced with maturational and situational stressors. Graded on a pass/fail basis. Prerequisites: All 300-level required clinical nursing courses. Co-requisite: Nursing 447

NUR 455 – NCLEX-RN: Test Taking Strategies 1
This course will assist students and graduates in preparing for the NCLEX-RN examination. The course focuses on the NCLEX-RN test plan to develop and refine test-taking strategies to perform well on the NCLEX-RN examination upon graduation.

NUR 456 – Impact of Culture on Professional Practice 3
This course is designed to enhance the students’ role as they develop their ability to interact with health care consumers in a culturally competent manner.

NUR 472 – Trends and Issues in Professional Nursing 2
Issues past and present as they impact on practice of professional nursing. Topics may include historical development of nursing profession; legal responsibility; ethical issues; image of nursing; role of nurse as political advocate; and development of professional role.

NUR 474 – Community Health Nursing 0-3
Community resources for effective adaptation of community as a whole to stressors affecting health. Teaching primary, secondary, and tertiary prevention. Prerequisites: Nursing 435, 447, and Philosophy 107 or 108. Corequisite: Nursing 474C.

NUR 474C – Community Health Nursing - Clinical 1
Experience in an appropriate agency, visits to long term care family. Nursing interventions with well families with children. Graded on a pass/fail basis. Corequisite: Nursing 474. Prerequisites: Nursing 435C, 447C.

NUR 475 – Nursing Management in the Community 3
Emphasizes role of nurse manager in community. Students develop basic theoretical knowledge of concepts of management. Prerequisites: Nursing 435, 447 and Philosophy 107 or 108. Corequisite Nursing 475C.

NUR 475C – Nursing Management in the Community - Clinical 1,2
Application of theoretical concepts of management to nursing practice. Individually selected clinical experiences allows students to explore managerial role of professional nurse. Graded on a pass/fail basis. Prerequisite: Nursing 435C, 447C. Corequisite: Nursing 475.

NUR 478 – Critical Care Nursing 0-3
Care of patients, families, groups, and communities undergoing multiple stressors. Cardiopulmonary surgery, neurosurgery, multiple trauma, and complex health problems emphasizing biopsychosocial adaptation. Includes laboratory. Prerequisites: Nursing 435 and Philosophy 107 or 108. Co-requisite: Nursing 478C.

NUR 478C – Critical Care Nursing - Clinical 2
Patient care of individuals, families, groups, and communities experiencing multiple stressors. Application of knowledge and nursing process in care of patients with complex health problems. Clinical experiences involve care of acute and critically ill patients and their families in Medical/Surgical Intensive Care Unit, Coronary Care Unit, and Intermediate Coronary Care Unit. Graded on a pass/fail basis. Prerequisite:
Includes 20 hours of fieldwork.

NUR 489 – Nursing Honors 3
NUR 499 – Nursing Honors 3

OCCUPATIONAL THERAPY

OCT 505 – Theoretical Basis of Occupational Therapy 3
Theory and foundations of practice from historical and current perspectives; importance and role of occupation. Open only to students in the professional phase of the occupational therapy major.

OCT 506 – Human Occupations 3
Exploration into the relationship between participation in human occupation and quality of life throughout the lifespan. Includes activity analysis, assessment of occupational performance, and the use of occupation to facilitate participation in life contexts.

OCT 525 – Case-Based Learning 3
Principles of documentation, case-based teaching and learning as applied to occupational therapy. Open only to students in the professional phase of the occupational therapy major.

OCT 526 – Case-Based Discussion: Adolescents and Young Adults 2
Case-based discussion related to the role of occupational therapy with adolescents and adults. Co-requisite: OCT 571

OCT 549 – Research Seminar I 3
Exploration of options for research projects focused on occupation, culminating in submission of research proposal.

OCT 551 – Community I 1
Experimental learning in community agencies; development and application of foundational skills; observation, interpersonal communication, advocacy, cultural competency, reflective practice, ethics. Includes 20 hours of fieldwork.

OCT 553 – Fieldwork Level IA 1
Clinical application of course material through supervised involvement in a setting where therapeutic intervention is provided. Graded on a pass/fail basis.

OCT 555 – Emerging Issues in the Community and Profession 3
Current issues relevant to the profession of occupational therapy with emphasis on emerging practice and services within home and community-based settings. Prerequisite: OCT 505, or OCT 506.

OCT 561 – Professional Roles: Development 3
Introduction and development of professional roles in practice settings with adults; emphasis on educator, researcher, and administrator roles.

OCT 571 – Occupational Performance III: Adolescents and Young Adults 0,4
Role of occupational therapy with adolescents and young adults ages 13-40; evaluation and intervention. Co-requisite: OCT 526

OCT 572 – Occupational Performance IV: Adults 0,6
Role of occupational therapy with adults older than 40 years of age; evaluation and intervention.

PHYSICAL EDUCATION

PED 107 – Physical Training 1
A basic physical fitness program designed to increase the overall fitness and team cohesion skills necessary to meet the physical rigors and team cohesion skills that are in demand. Course may be repeated twice for credit.

PED 115 – Fitness 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 120 – Aerobics 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 125 – Aquatics 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 130 – Basketball 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 135 – Fencing 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 140 – Advanced Fitness 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 145 – Weight Training 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 150 – Golf 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 155 – Karate 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 165 – Racquetball 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 170 – Self-Defense 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 175 – Tae-Bo 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

PED 180 – Tennis 1
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

Courses of Instruction
Courses of Instruction

Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

**PED 185 – Volleyball  1**
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

**PED 190 – Weight Training  1**
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

**PED 195 – Yoga  1**
Information about specific course offerings and schedules is available from the office of the Director of Physical Education. Up to three credit hours in physical education may be elected for credit. Topics may be repeated. (Subject to change.)

**PED 203 – Aerobic Dance  1**

**PED 205 – Bowling  1**

**PED 210 – Lifeguard Training  1**

**PED 215 – Jazz Dance  1**

**PED 220 – Martial Arts - Aikido  1**

Philosophy

**PHI 101 – Critical Thinking  3**
Skills needed to read and write critically. The different kinds of arguments and their relative weaknesses and strengths, strategies for arguing well and spotting and avoiding common fallacies will all be covered.

**PHI 103 – Problems in Philosophy  3**
A critical study of the problems that have inspired philosophers and the solutions they have found. Subjects tackled include human nature, ethics, and the nature of knowledge.

**PHI 104 – Philosophy of Religion  3**
Examination of some of the philosophical issues raised by religion. Arguments for and against the existence of God, the nature and role of religious experience, the connection between ethics and religion and the language we use to talk about religion.

**PHI 107 – Ethics  3**
A critical and historical study of the major ethical theories from the period of Plato to the present. Analysis also of problems present in the construction of ethical theories, the nature of moral judgment, and moral evaluation.

**PHI 108 – Professional Ethics  3**
This course examines ethical dilemmas encountered by professionals at work. Journalism, health care, law, education, computer science/information technology and public relations all provide examples.

**PHI 200 – Great Philosophers  3**
An introduction to the major theories of a few selected great philosophers from the classical, modern, and contemporary periods. Selection of philosophers subject to change periodically. May be repeated once.

**PHI 205 – History of Ancient Philosophy  3**
A study of the development of philosophy from the period of Ancient Greece to the beginning of the Christian era through the analysis of selected problems and theories.

**PHI 206 – History of Modern Philosophy  3**
A study of the history of philosophy from the Renaissance to the present through an analysis of selected problems and theories.

**PHI 221 – Scientific Method  3**
Basic theoretical principles of modern scientific method including: explanation, deduction, induction, analogy, facts, hypotheses, mathematical truth, probability, causality, and determination.

**PHI 225 – Eastern Thought and Culture: Buddhism  3**
Buddhism’s role as the most significant culture-shaping factor in Asian history. Focuses on philosophical side of Buddhism as well as impact of these ideas in shaping Asian societies.

**PHI 226 – Eastern Thought and Culture: Confucianism  3**
Introduces basic philosophical ideas of Confucianism and explores Confucianism’s multifaceted and complex impact on Chinese, Japanese, and Korean societies.

**PHI 300 – Contemporary Philosophy  3**
A critical and comparative study of important philosophical contributions within the contemporary period. May be repeated for credit if successive offerings cover different philosophies. Prerequisite: permission of instructor.

**PHI 305 – Ethical Issues in Contemporary Science and Technology  3**
Ethical issues at the intersection of contemporary politics, science, and culture.

**PHI 315 – Theories of Knowledge  3**
A critical examination of the theories which have arisen in the history of philosophy with regard to the nature of knowledge and belief. Prerequisite: Philosophy 101.

**PHI 317 – Theories of Art  3**
Introduction to aesthetic theories from Plato to the present. Prerequisite: permission of instructor.

**PHI 325 – Medieval Philosophy  3**
A critical study of the major philosophical problems of medieval philosophers from Plotinus to William of Ockham. Emphasis on such problems as the relation of faith and reason, God and creation, knowledge and science, realism and nominalism.

**PHI 335 – Philosophy of Law  3**
Focus on materials written by classical and contemporary legal philosophers. Issues examined include: What is law? What is the relationship between legal and moral obligations? Is imprisonment justifiable.

**PHI 345 – Political Ethics  3**
A critical study of problems and theories in social philosophy from Classical Greek thought to the present.

**PHI 356 – Theories of Value  3**
A critical examination of philosophical theories purporting to deal with the nature of value in general, the nature of evaluative or normative criteria, and the manner in which the latter are determined. Prerequisite: permission of instructor.

**PHI 375 – Symbolic Logic  3**
A study devoted to the construction of systems of logic, formal systems of proof, and their application to various subject matters. Prerequisite: Philosophy 101 or permission of instructor.

**PHI 385 – Healthcare Ethics  3**
Major issues in medical ethics, ethical theories directly relevant to policy related issues, and moral reasoning and decision making for working healthcare professionals.

**PHI 400 – Advanced Topics in Philosophy  3**
Individual study of a particular philosophical problem, philosophical movement, or problem. Individual investigation on the part of the student directed by an instructor. Prerequisite: permission of instructor.
PHI 425 – Theories of Justice  3
How various classical, modern, and contemporary writers have interpreted the concept of justice. As it relates to the life of the individual or to the effective functioning of society.

PHI 490 – Readings in Philosophy  3
Individual study of a particular philosophy, philosophical movement, or problem. Individual investigation on the part of the student directed by an instructor. Philosophy majors only. Prerequisite: permission of instructor.

PHI 503 – Environmental Ethics  3
Interconnectedness in ethics and nature, holistic ethical theories, relationship between environmental and traditional ethics, and nature of value.

PHI 504 – Evolution and its Discontents  3
Foundations and claims of neo-Darwinism. Application to ethics, religion, sociology, psychology, and philosophy, and attempts to refute it, particularly intelligent design theory.

PHI 505 – Ethical Issues in Contemporary Science and Technology  3
Ethical issues at the intersection of contemporary politics, science, and culture.

Physical Therapy

PHT 538 – Introduction to Teaching and Learning  1
Learners participate in seminars with facilitator(s) to develop an understanding of theoretical constructs behind problem-based learning and self-direction in learning. Characteristics of the adult learner including readiness for learning and learning styles are discussed. Co-requisites: PHT 541, 543, 544, 545, 548, 549.

PHT 541 – Case Based Discussion I  6

PHT 543 – Clinical Laboratory I  0-3
Students integrate knowledge, acquire basic clinical skills and develop professional behaviors through application of the patient/client management process consistent with autonomous clinical practice expectations for individuals with primary musculoskeletal diagnoses. Co-requisites: PHT 541, 544, 545, 548, 549.

PHT 544 – Anatomy I  0-3
Human cadaver dissection and discussion that explores structures of the thorax and extremities using regional and systemic perspectives. Students explore the clinical significance of these structures related to physical therapy practice. Co-requisites: PHT 541, 543, 545, 548, 549.

PHT 545 – Critical Inquiry Seminar I  2
Group discussions, panel presentations and focused lectures provide students with foundational and clinical science knowledge, behavioral abilities, and practice expectations to meet the needs of patients/clients with primary musculoskeletal pathologies. Co-requisites: PHT 541, 543, 544, 548, 549.

PHT 546 – Applied Clinical Kinesiology  1
This course is designed to present data from research, clinical practice and tools of mechanical analysis that describe the mechanical behavior of the tissues under normal and abnormal circumstances.

PHT 548 – Therapeutic Foundations  1
Basic techniques and foundational skills for examination and intervention through case study of individuals with simple diagnoses across practice settings. Students apply knowledge, acquire clinical skills, and develop professional behaviors. Co-requisites: PHT 541, 543, 544, 545, 549.

PHT 549 – Caring for the Community I  1
Students introduced to prevention and wellness in community program. Selected elements of assessment and intervention practiced under supervision of physical therapy program faculty and Module V students. Prerequisites: PHT 541, 543, 544, 545, 548

PHT 551 – Case Based Discussion II  6
Discussion groups integrate foundational and clinical sciences using case studies. Emphasis on theoretical constructs that promote autonomous clinical practice. Primary patient diagnoses involve the neuromuscular system. Co-requisites: PHT 553, 554, 555, 557 559. Prerequisite: PHT 549.

PHT 553 – Clinical Laboratory II  3
Students integrate knowledge, acquire clinical skills and develop professional behaviors through application of the patient/client management process consistent with autonomous clinical practice expectations for individuals with primary neuromuscular diagnoses. Co-requisites: PHT 551, 554, 555, 557 559. Prerequisite: PHT 549.

PHT 554 – Anatomy II  0-3
Discussion and dissection provide basic scientific foundation of neuroanatomy and neurophysiology, with introduction to clinical consequences of insult to nervous system. Students explore the clinical significance of these structures related to physical therapy practice. Co-requisites: PHT 551, 553, 555, 557 559. Prerequisite: PHT 549.

PHT 554 – Anatomy II  0-3
This course is designed to present data from research, clinical practice and tools of mechanical analysis that describe the mechanical behavior of the tissues under normal and abnormal circumstances.

PHT 555 – Caring for the Community II  1
Students participate in assessment and intervention in local community program. Students practice selected elements of the client management process under supervision of physical therapy program faculty members and Module IV students.

PHT 559 – Caring for the Community III  1
Students participate in assessment and intervention in community program. Students practice selected elements of the client management process under supervision of physical therapy program faculty members and Module IV students.

PHT 565 – Motor Dev, Learning & Control  2
Underlying theoretical constructs of motor learning, motor behavior, and motor control are introduced to produce a conceptual framework. Theoretical constructs applied in understanding planning and executing movements, practice, feedback and performance across learning environments. Prerequisites: PHT 538, 541, 543, 544, 546, 518 and 549. Corequisites PHT 551, 553, 554, 557, 559 and 569.

PHT 569 – Research Foundations  1
Scientific inquiry explored, experimental and non-experimental designs examined. Students learn how to appraise and incorporate evidence base practice and examine future applications of research as consumers, practitioners, collaborators, educators and administrators. Prerequisites: PHT 538, 541, 543, 544, 545, 546, 548, and 549. Co-requisites PHT 551, 553, 554, 565, 557, and 559.

Physics

PHY 111 – Intelligent Life in the Universe  3
Examines probability of extraterrestrial intelligence. Topics include star and planet formation, habitable conditions, physics and biochemistry of carbon-based life and intelligence, technical civilizations, and methods of communication with extraterrestrial civilizations.
PHY 116 – Astronomy: A Study of the Universe 3
Introductory astronomy. Celestial sphere and planetary positions; history of astronomy; survey of the solar system; the ‘message’ of starlight; H-R diagrams; stellar evolution; quasars; cosmology and the possibility of extraterrestrial life. No physics or astronomy background is required. Some elementary algebra is used.

PHY 123 – Physics for Liberal Arts 3
Exploration of what the physical world is like, how it fits together, and some of its implications. The course covers classical mechanics and modern physics (special relativity and quantum physics). No formal mathematics will be used, but all the central concepts will be there. No prerequisites.

PHY 151 – General Physics I 0.4
Introduction to principles of kinematics, dynamics, machines, energy, momentum, heat, oscillations, waves, sound, and fluids. Applications to biomechanics and to energy generation, storage, and transfer. Lecture and three-hour laboratory.

PHY 152 – General Physics II 0.4
Introduction to principles of electricity, magnetism, optics and radiation, atomic and nuclear physics. Applications to electronics and instrumentation. Lecture, laboratory, and demonstrations. Prerequisite: Physics 151.

PHY 163 – How Things Work 3
Practical introduction to science in everyday life. Discover how things work using case-studies of real-world objects such as baseballs, rockets, vacuum cleaners, faucets, wood stoves, air conditioners, flashlights, lasers, clocks, guitars and microwave ovens. Some elementary algebra is used. Lecture/demonstration/discussion.

PHY 261 – Physics I 0.4
Calculus-based general physics. Introduction to principles of kinematics, forces, statics, dynamics, rotation, work, energy, gravitation, equilibrium, scientific methodologies and their development. Lecture and laboratory. Prerequisite: Mathematics 201 (may be taken concurrently).

PHY 262 – Physics II 0.4
Calculus-based general physics. Electricity and magnetism, radiation, optics, and elementary atomic physics. Lecture and laboratory. Prerequisites: Physics 261 and Mathematics 202 (may be taken concurrently).

PHY 323 – Statics and Dynamics 4
Composition and resolution of forces and torques, conditions of static equilibrium of particles and rigid bodies, friction, laws of motion, work and energy, momentum and impulse, applications. Same as EGR 323

PHY 345 – Physical Chemistry I: Thermodynamics & Kinetics 3 3
Classical thermodynamics, electrochemistry, and reaction kinetics. Applications to chemical and biological phenomena. Same as Chemistry 345. Prerequisites: CHE 212, MAT 202 and one year of college physics.

PHY 350 – Research 1-3
An introduction to a field of physics research under the guidance of a staff member. Students must submit a plan of work for approval, hand in a final report, and perhaps give a colloquium. Prerequisite: permission of the staff. May be repeated.

PHY 351 – DC and AC Electronics 0.4
Analysis of DC, AC, LRC, filter and resonant circuits, and their instrumentation. Kirchhoff’s laws; network theorems; branch, loop, and nodal analysis. Laboratory includes oscilloscopes, signal generators, power supplies, digital/analog multimeters, soldering and breadboarding. Lecture and laboratory. Same as EGR 351. Prerequisite: Physics 262.

PHY 355 – Electronics 0.4
Kirchhoff’s laws, complex phasors, branch current, loop and nodal analysis, and network parameters. Theory and applications of semiconductor devices. Lecture, demonstrations, and laboratory. Prerequisites: Physics 261, 262, and 351 or permissions of instructor.

PHY 363 – Physics III 0.4
The physics developed in the 20th century by Einstein, Schrödinger, Planck and others. Relativity theory, thermal physics, introduction to quantum theory, atomic, molecular and nuclear theory. Lecture, laboratory. Prerequisite: Physics 262. Prerequisite or co-requisite: Mathematics 302.

PHY 390 – Independent Study in Physics 1-3
Independent study in areas not covered by regularly offered courses. Students must submit a plan of study, meet periodically with an instructor, and submit a final report in addition to problems and/or exams. Prerequisites: permission of the department and at least a 3.0 average in physics courses.

PHY 400 – Current Topics in Physics 2
A seminar course on current topics in the physics literature. Meetings will be held weekly under the guidance of a staff member to discuss topics and prepare colloquia. May be taken twice for credit. Prerequisites: Physics 261 and 262.

PHY 455 – Physical Electronics 3
Vacuum, gaseous, solid state, and quantum electronics including charged particle dynamics, the band theory of solids with application to semiconductor devices, electron emission, assemblies of particles and gaseous processes, plasma physics and modern amplifiers. Prerequisites: Physics 261, 262 and 363.

PHY 461 – Classical Mechanics 3
Fundamentals of Newtonian dynamics, work-energy concepts, conservation laws, an introduction to Hamilton’s Principle and Lagrange’s Equations. The study of oscillatory motion, central force motion, rigid body dynamics, and accelerated reference systems. Prerequisites: Physics 261 and 262. Prerequisite or corequisite: Mathematics 317.

PHY 462 – Electricity & Magnetism 3
The classical theory of static and dynamical electricity and magnetism including solution of Maxwell’s equations for special cases. Prerequisites: Physics 262 and Mathematics 302.

PHY 465 – Physical Optics 3
Wave theory of interference, diffraction, polarization, and double refraction. Propagation of light in crystals, magneto-optics, and electro-optics. Prerequisites: Physics 261 and 262.

PHY 467 – Introduction to Statistical Mechanics 3
Maxwell-Boltzmann statistics, applications, Fermi Dirac statistics, applications, temperature and entropy, thermodynamics and gases, applications of statistical thermodynamics, the Canonical Ensemble. The Grand Canonical Ensemble. Prerequisite: Physics 345.

PHY 471 – Introduction to Quantum Physics I 3
Wave particle duality, uncertainty principle, atomic structure, Black Body Theory, quantization, Bohr Theory, Schrodinger equation, Vector coupling, Stern-Gerlach experiment, periodic table, atomic spectra, selection rules,
bonding, molecular spectra, masers and lasers, Band Theory, and applications to semiconductors. Prerequisite: Physics 363.

PHY 472 – Introduction to Quantum Physics II  3
Eigenvalues, Orthonormal functions, superposition principle, potential well, harmonic oscillator, Heisenberg picture, Schrodinger picture, perturbation theory, degeneracies, one electron atoms, angular momentum, quantum numbers, many electron atoms, coupling, multiplicities, magnetic and electric interactions. Prerequisite: Physics 471.

PHY 475 – Nuclear Physics  3
Basic properties of nuclei, radioactivity, Alpha, Beta, and Gamma decay, nuclear reactions, nuclear forces, nuclear models, nuclear instrumentation, and elementary particles. Prerequisite: Physics 363.

PHY 477 – Introduction to Solid State Physics  3
The fundamental properties of the solid state from a microscopic point of view. Includes crystal structure, lattice vibrations, theory of metals, magnetism, and special topics culled from current areas of interest. Prerequisite: Physics 363.

PHY 503 – The History of Physics  3
The development of physics since the time of Aristotle and the early Greek scientists. Emphasis on physical theories and their historical significance.

PHY 517 – Principles of Physical Science  3
Important principles of physics, chemistry, and earth science. Historical contexts. Integration of principles to address complex global problems.

PHY 590 – Independent Study  0-6
Individual reading or research in a topic of interest between the student and the instructor. Must be approved in advance by the appropriate graduate program director.

Psychology

PSY 101 – Introduction to Psychology  3
Survey of the various fields of psychology including human development, learning and memory, sensation and perception, psychopathology and psychotherapy, physiology and behavior, social psychology, psychological testing, motivation and emotion.

PSY 207 – Human Sexuality  3
Exploration of the nature and historical perceptions of human sexuality, its biological foundations, social and behavioral implications, cross-cultural comparisons, encouraging personal reflection and self-discovery while improving interpersonal communication and understanding. Open to all majors but may not count as a major elective for biology majors as Biology 112. Same as Biology 112.

PSY 211 – Statistics in the Behavioral Sciences  3
Application of statistical methods in psychological research. Descriptive statistics, tests of significance, correlation, simple analysis of variance, chi-square, and some nonparametric methods. Same as Sociology 211. Students may not also take for credit Economics 241, Mathematics 112. Prerequisite: core component I Mathematics.

PSY 213 – Reading & Writing in Psychology  1
Organization of scientific reports in the behavioral sciences. Psychological reference works and databases. APA citation format and proofreading. Clarity in writing style and arguments. Prerequisite: PSY 101. Corequisite: PSY 211. Open only to psychology majors or with permission of instructor.

PSY 223 – Life-Span Developmental Psychology  3
Study of normal sequences of biological and socio-cultural development and their relationship to behavior from infancy through old age. Emphasis placed on recognition of development and life tasks in the developmental continuum. Students may not also take for credit Health Studies 245. Prerequisite: Psychology 101.

PSY 237 – Group Dynamics - Introduction to Group Development & Group Process  3
Study of the development of, and interaction within, groups with special emphasis on small, task-oriented groups.

PSY 256 – Principles of Behavior Change  3
Study of laboratory-derived techniques used in the modification of human behavior. Emphasis placed on the application of behavioral techniques to maladaptive behavior, with extensions to one’s own behavior and society as a whole. Theory and application discussed. Prerequisite: Psychology 101.

PSY 270 – Introduction to Community Field Work  1
Volunteer assistance in community service agency to experience working with children and / or adolescents. Prerequisite: transfer status with course work in infancy and childhood, adolescence, the exceptional individual, and/ or therapeutic use of play, without fieldwork. Permission of instructor required.

PSY 276 – Addictions Counseling  3
Techniques of addictions counseling. In-depth study of addictions disease process, relapse prevention and support services, individual counseling techniques, treatment assessments and plans, and self-help groups. Prerequisite: Psychology 101

PSY 300 – Topics in Psychology  1-3
Advanced consideration of selected topics in psychology. Involves lecture and discussion of areas with contemporary interest. Prerequisites: Psychology 101 and permission of instructor. Up to six credits, provided the topic is not the same.

PSY 311 – Psychological Assessment & Testing  3
General principles, applications, and issues of psychological testing and assessment. It is recommended that psychology majors take Psychology 311L concurrently in order to obtain a practical knowledge of testing theory and procedures. Prerequisites: Psychology 101 and 211.

PSY 311L – Laboratory in Psychological Assessment and Testing  1
Practical laboratory experience in the administration, interpretation, and construction of psychological tests. Prerequisite or co-requisite: Psychology 311.

PSY 312 – Research Methods in Psychology 0.4
Principles of experimental design and methods. Laboratory in data analysis. Three lecture hours and one three - hour lab per week. Students design an original experiment proposal to be conducted in psychology 412. Prerequisites: Psychology 101 and 211.

PSY 321 – Infancy and Childhood  3
Principles of growth and development from conception to twelve years. Requires 20 hours of volunteer work with normal children. Prerequisite: Psychology 101.

PSY 322 – Adolescence  3
Growth and development from puberty to young adulthood. Requires 20 volunteer hours with normal adolescents. Prerequisite: Psychology 101 or permission of instructor.

PSY 327 – Adulthood and Aging  3
Growth and development from young adulthood through old age. Development tasks as well as changes in cognition, perception, learning, and performance. Prerequisite: Psychology 101.
Prerequisite: Psychology 101.

PSY 331 – Social Psychology 3
Theories and related research in areas of social learning, attitude change, interpersonal and self perception, aggression, prejudice, and group behavior. Prerequisite: Psychology 101.

PSY 331L – Laboratory in Social Psychology 1
Research methods in social psychology emphasizing field and laboratory studies, laboratory experience included to practice field and experimental setup, data collection, and analysis. Prerequisite or co-requisite: Psychology 331.

PSY 337 – Industrial and Organizational Psychology 3
Behavior in industrial work environments; attitudes toward work, organizational climate, performance and interest appraisal, engineering psychology, worker efficiency, accident behavior, leadership styles, and effectiveness. Prerequisite: Psychology 101.

PSY 343 – Sensation and Perception 0.4
Study of the senses, including background in sensory physiology, development of perceptual abilities, and appropriate research methodology. Laboratory emphasis on elementary research on sense-organ functioning and perceptual phenomena. Prerequisite: Psychology 101 or permission of instructor.

PSY 347 – Basic Psychobiology 3
First course in physiological psychology. Focus on anatomy, biochemistry, and physiology of biological systems in terms of relevance to study of behavior. Prerequisites: Psychology 101.

PSY 351 – Learning and Behavior 0.4
Classical and operant conditioning. Schedules of reinforcement, aversive control; biological constraints on learning. Research data discussed in relation to theory. Laboratory emphasis on basic learning process in animal subjects. Prerequisite: Psychology 101.

PSY 352 – Motivation and Emotion 3
Biological drives such as hunger, thirst, sleep, and sex; psychological drives such as curiosity and arousal; and learned social drives such as academic achievement, affiliation, altruism, and aggression; experimental study of emotion. Prerequisite: Psychology 101.

PSY 354 – Cognitive Psychology 0.4
Basic principles underlying discovery and retention of new modes of human behavior. Topics include attention, information processing, language learning, concept formation, sources of forgetting, and dynamics of memory. Laboratory supplements lecture with emphasis on information processing in human subjects. Prerequisite: Psychology 101.

PSY 361 – Abnormal Psychology 3
Approaches to classification which are consistent with current diagnostic criterion will be covered. Correlated work will include major theoretical approaches to causation and treatment of maladaptive behavior. Prerequisite: Psychology 101.

PSY 363 – Health Psychology 3

PSY 365 – Forensic Psychology 3
Techniques of criminal investigation, criminal profiling, eyewitness identification, police interrogation, jury selection, trial preparation, and assessing competency to stand trial. Prerequisite: Psychology 101.

PSY 366 – Individuals with Disabilities 3
Emotional, physical, and mental deviations and their relationship to psychological and social functioning across the lifespan. Requires 20 hours of volunteer work with a population which meets the criteria for disabilities. Prerequisite: Psychology 321 or permission of instructor.

PSY 372 – The Counseling and Interviewing Process 3
Developing interpersonal skills and competencies for working with individuals. Particular emphasis placed on working with reluctant, difficult, and hostile clients. Participants assess personal attitudes and beliefs in relations to enhancing their interpersonal style. Students may not also take Psychology-Child Life 374 for credit. Prerequisite Psychology 101.

PSY 405 – Evolutionary Psychology 3
Examination of evolved behavioral adaptations on human and animal behavior. Heredity and evolutionary theory overview. Discussion of theory and research on evolutionary factors influencing learning, thinking, motivation, emotion, cooperation, competition, mate-selection, parenting, and other behaviors. Prerequisite: PSY 101.

PSY 406 – History of Psychology 3
Historical review of inquiry and thought concerning the causes of human behavior, from ancient to recent times. Major emphasis is placed on developments leading to modern scientific psychology. Prerequisite PSY 101. Open only to senior psychology majors or with permission of instructor.

PSY 410 – Independent Research in Psychology 1–6
Individually supervised laboratory research and study. Provides opportunities for those who want to engage in original research or to pursue scholarly investigations beyond the boundaries of established courses. Junior or senior standing and written approval of instructor.

PSY 411 – Senior Seminar 3
Selected topics of current interest. Critical analysis of current research literature and integration of diverse psychology subfields in understanding complex behavior. Integrates previous learning in small group settings. Prerequisite: Psychology 312 or permission of instructor.

PSY 412 – Research Seminar 3
Critical analysis of current research and integration of psychology subfields in understanding complex behavior. Students conduct original research based on proposal generated in Psychology 312. Prerequisites: Psychology 211, 312.

PSY 413 – Program Evaluation 3
Methods and principles of program evaluation in a public setting including quantitative and qualitative methodology, process and outcome studies, design of evaluation, and appropriate use of resulting data. Prerequisites: Psychology/Sociology 211 and Psychology 312 or permission of instructor.

PSY 453 – Theories of Learning 3
Examination of the most important psychological theories concerning the learning process including the behavioristic positions (Thorndike, Guthrie, Skinner, Hull), the Gestalt positions (Lewin, Tolman), and recent developments leading to modern scientific psychology. Prerequisite: Psychology 101.

PSY 462 – Theories of Personality 3
Examination of evolved behavioral adaptations on human and animal behavior. Heredity and evolutionary theory overview. Discussion of theory and research on evolutionary factors influencing learning, thinking, motivation, emotion, cooperation, competition, mate-selection, parenting, and other behaviors. Prerequisite: PSY 101.

PSY 466 – History of Psychology 3
Historical review of inquiry and thought concerning the causes of human behavior, from ancient to recent times. Major emphasis is placed on developments leading to modern scientific psychology. Prerequisite PSY 101. Open only to senior psychology majors or with permission of instructor.

PSY 470 – Practicum in Psychology 3,6
Participation in a discipline- or subject-related experience. Evaluation by written or oral reports or examination. Written permission of instructor and approval of the division associate dean required. Limited to junior and seniors in good academic standing.
Courses of Instruction

PSY 489 – Honors Tutorial 3
Open to students in the Utica College Honors Program. Work with a faculty supervisor on a challenging academic or creative project.

PSY 490 – Independent Study 1-6
Exploration of psychology problems in-depth. Individual independent study on plan submitted by student. Refer to College regulations concerning independent study guidelines.

PSY 499 – Honors Tutorial 3
Open to students in the Utica College Honors Program. Work with a faculty supervisor on a challenging academic or creative project.

PSY 507 – Psychology and the Visual Arts 3
Introduces students to elements of design and how they create psychological effects. Introduces students to influential artists and their creative works. Affords students opportunities to explore their creative and expressive potentials.

PSY 560L – Health Care in Developing Regions: Tanzania Practicum, 0
Health Care in Developing Regions courses are designed for those who are interested in how less developed nations approach health care challenges (seminars) and in experiencing those approaches first hand (practica). Students will experience the geopolitical setting, population, and institutions of the area with an emphasis on health care. Prerequisite: PSY/ANT 303/503 or permission and permission of instructors.

Psychology-Child Life

PCL 123 – Childhood Services 1
A survey of professions involving the care of children and families. Theory, research, and practice in each profession will be examined.

PCL 214 – Developmental Research Methods 3
Theoretical principles and standard methods of evidence-based practices used by developmental psychologists and child life specialists. Open to Psychology-Child Life majors only.

PCL 271 – Introduction to the Child Life Specialty 3
Introduction to the role of child life specialists in health care settings; basic knowledge required to function as a child life specialist; application of general psychological and human development principles to the care of hospitalized children and adolescents. May not be used as a major elective for the general psychology degree. Prerequisites: Psychology 101, 321, and permission of instructor.

PCL 272 – Community Practicum 2
Minimum of 100 hours of volunteer service in community agency working with children and/or adolescents and their families. Hospital placement required for child life specialty. Written work and evaluations. Open only to psychology-child life majors with permission of the instructor. Pre-Requisite Child Studies concentration PSY 321, Child Life Specialist PCL 271.

PCL 323 – Early Intervention 3
Theoretical, applied, and empirical issues focusing on the delivery of early intervention initiatives. Contexts and settings in which early intervention takes place and empirical literature on the effectiveness of early intervention. Prerequisites: PSY 223 or PSY 321 or permission of instructor.

PCL 373 – Play as Curriculum 3
Developmental interaction approach to curriculum planning. The teacher's role in helping children move toward developmental goals. Equipment selection, environmental design, and daily schedules. Application to children experiencing health care encounters, chronic illnesses, and disabilities. Requires 20 hours of fieldwork. Prerequisite: PSY 321.

PCL 374 – The Helping Relationship 3
Developing counseling and human relations skills for working with children and adolescents, families, and professionals. Practice with basic listening skills and reflective self analysis. Students may not also take Psychology 372 for credit. Permission of instructor required.

PCL 375 – Death, Dying and Bereavement 3
Investigations of psychosocial aspects of death and grief; understanding ways death is viewed in contemporary society; dealing supportively with dying and grieving persons; understanding one's own feelings about death; explaining death to children; funerals and other death-related customs.

PCL 377 – Children Under Stress 3
Effects of various social; conditions such as divorce, separation, hospitalization, and death upon children will be addressed. Students will have an opportunity to develop an understanding of children in crisis situations and explore ways to provide appropriate support. Prerequisite: PSY 223, PSY 321, PSY 322 or equivalent.

PCL 423 – Childhood Disorders 3
Developmental-ecological approach to developmental psychopathology, including origins of developmental disorders, developmental pathways, risks and protective factors, and interventions. Prerequisites: PSY 223, 321, 322 or HLS 245.

PCL 471 – Introduction to Child Life Internship I 1
Preparation for internship and professional practice, including exploration of professional issues and behavior, choosing sites, setting goals, writing resumes, and interviewing. Child Life majors only.

PCL 472 – Introduction to Child Life Internship II 1
Preparation for internship and professional practice, including child abuse training and universal precautions; writing internship goals and agreement; discussion of professional/ethical issues and behavior, supervision, and certification requirements. Child Life major only.

PCL 474 – Psychosocial Care of Hospitalized Children and Adolescents 3
Young people's reactions to hospitalization at each stage of development; interventions initiated by child life specialists and other health care professional to lessen the stress of hospitalization; role of parents; preparing young patients for hospital admission and medical procedures; planning and conducting therapeutic play and recreation programs. May not be used as a major elective for the general psychology degree. Prerequisite: PCL 271, senior psychology-child life majors, child life specialists only.

PCL 475 – Child Life Internship 12
Supervised experience in a hospital or other health care facility (child life specialists) or a community agency dealing with children and/or adolescents (child development) affiliated with the program. Written work, project, and periodic evaluations; 12 credits for a minimum of 525 hours. Permission of child life faculty required. May not be used as a major elective for the general psychology degree.

Public Relations

PRL 182 – Introduction to Public Relations 3
The concept, role and practice of public relations in American society. Public relations as a process: research; public opinion; programming; communication; evaluation; ethical considerations.
PRL 285 – Sports and The Media 3
Relationship between sports and media from historical, cultural, and business perspectives. Topics include the presentation of sports, race relations, gender issues, violence and aggression, free agency, drug use and the economic impact of sports. Prerequisite ENG 102, or permission of instructor.

PRL 300 – Topics in Sports Communication 3
Concentrated areas of study designed to enhance the knowledge of sports, sports communication and public relations, and the role of sports in society. Prerequisite PRL 182, PRL 285 or permission of instructor.

PRL 305 – Sports in Film 3
The representation of sports and athletes in cinema, and the use of sports as a cinematic storytelling device. Both documentaries and feature films will be screened.

PRL 372 – Publicity and Public Relations Writing 3
Write news releases and publicity tools, newsletter article online copy, proposals, and other public relations material. Discussion of the public relations writing process, media relation, and publicity planning and techniques. Prerequisites: Public Relation 182 and Journalism Studies 261.

PRL 375 – Public Relations Research 3
Conduct public opinion research and do strategic planning for regional organizations. Discussion of public relation research principles and techniques, goal setting, strategy development, budgeting, and printing/production processes. Prerequisites: Public Relations 182 and Public Relations 372 or permission of instructor.

PRL 385 – Public Relations Campaigns 3
Planning and implementing a public relations campaign, program, or special event.

PRL 390 – Independent Study 1-3
PRL 395 – Sports Information and Public Relations 3
Public Relations principles, practices, and skills as applied in a sports information setting. Emphasis on writing, media relations, and crisis management. Prerequisites PRL 182, 285 and 372 or permission of instructor.

PRL 396 – Sports Marketing Communications and Promotion 3
Marketing and promotional concepts applied within a sports public relations context. Topics include developing marketing strategies, implementing marketing plans, licensing, advertising, promotions and sales. Prerequisites: PRL 182, PRL 285 and PRL 372 or permission of instructor.

PRL 397 – Sports Event Planning and Management 3
Planning, designing, operating, marketing, publicizing, promoting, and implementing sporting events. Prerequisites: PRL 182, PRL 285 and PRL 372 or permission of instructor.

PRL 400 – Topics in Public Relations 3-6
Concentrated areas of study designed to enhance practical knowledge of the public relations profession. Addresses timely issues important to the PR field. May be repeated provided topics are not the same. Prerequisites: Public Relations 372, 375 or permission of instructor.

PRL 422 – Bateman Competition I 1
The Bateman Competition Course is based on a national case study competition through the Public Relations Student Society of America. Groups of 4 to 5 students will exercise the analytical and strategic skills required for public relations problem-solving. Prerequisite: Permission of instructor.

PRL 423 – Bateman Competition II 2
The Bateman Competition Course is based on a national case study competition through the Public Relations Student Society of America. Groups of 4 to 5 students will implement a campaign plan in the community (based on the Bateman I course) and perform a campaign evaluation. The results of this campaign will be packaged into a portfolio for national judging. Prerequisites: PRL 422X or permission of instructor.

PRL 433 – The Olympics 3
Historical and contemporary view of the Olympics as a sociological, marketing, and business phenomenon. Emphasis on marketing communication and public relations strategies used to promote the Olympics and athletes. Prerequisites: PRL 285, or permission of instructor.

PRL 450 – Fieldwork in Public Relations 3
Work with Mohawk Valley organizations on PR tasks. Students meet weekly to learn networking skills and discuss job search strategies. Students can take this course twice. Prerequisites: Public Relations 182,372,385, and Journalism Studies 181,261,365 with a grade of ‘C’ or better. Permission of instructor required.

PRL 456 – Athlete Management and Representation 3
Issues facing sports agents, including client acquisition and retention, contract negotiations, endorsement deals, the regulation of sports agents, and business ethics. Prerequisites: PRL 182, PRL 285 and 372 or permission of instructor.

PRL 458 – Sports Law 3
Legal issues in sports settings, including torts, contracts, antitrust, labor law, intellectual property, Title IX, athlete-agent relationships and liability. Prerequisites: PRL 182, PRL 285 and 372 or permission of instructor.

PRL 470 – Internship 1-12
On-site public relations internship experience. On-site hours determined by credits. Portfolio, detailed final report, weekly journals, and evaluation of on-site supervisor required. Course may be repeated up to a total of 12 credits. Prerequisites: JLM 181, 261, PRL 372 with C or better, plus permission of instructor and department chair.

PRL 482 – Cases and Problems in Public Relations 3
Critical evaluation of public relations through analysis and discussion of cases and situations drawn from actual practice. Prerequisite: Public Relations 385 or permission of instructor.

PRL 490 – Independent Study 1-3
Individually supervised research and study. Provides opportunity for students to engage in original research or to pursue scholarly investigations beyond the boundaries of established courses. Arranged by agreement between the student and the instructor, subject to approval of division dean. May be repeated once for credit, though with a different topic. Prerequisites: junior standing.
Reading

REA 100 – Reading and Study Strategies 1
Provides general background in reading abilities and study skills. Emphasizes individual student needs. Areas covered: Comprehension skills, vocabulary, organizing course material for learning retention and recall, note-taking, and critical thinking skills. By permission of Academic Support Services Center.

Risk Management and Insurance

RMI 273 – Introduction to Risk Management and Insurance 3

RMI 325 – Principles of Insurance: Life, Health, and Annuities 3
Life and health insurance, book building, premiums, deductibles, regulations, policy terms and structures, derivation of premium structure. Funding of long-term care. Role of private insurance and annuities.

RMI 326 – Principles of Insurance: Property and Liability 3
Policies, premium structure, constitution of insurable risks, underwriting, reinsur- ance, claims, and regulatory environment.

RMI 367 – Derivatives Markets 3
Options, forwards, futures, swaptions, and exotics. Risk management using derivatives to hedge. Practical business applications. Common risks that can be hedged using derivatives. Prerequisites ACC 201, FIN 333, RMI 273, MAT 143, MAT 144 or MAT 201.

RMI 375 – Quantitative Financial Analysis of Risk 3
Applied principles of management with specialized tools to assess and mitigate risk: Value at risk, stress testing, scenario analysis for corporate portfolio, investment, and insurance industry applications.

RMI 415 – Employee Benefits 3
Understanding of corporate sponsored benefits. Rationale for offering competitive employee benefits and administration of those benefits. Includes pension plans, payroll, health care costs, and employer sponsored plans that are subjected to qualified plan regulations. Prerequisite: RMI 273

RMI 445 – Enterprise Risk Management 3
Consists of pure and speculative risks that confront firms. Various sources of risks and strategies for mitigating these risks will be explored. Addresses new business ventures and entrepreneurial risks. Prerequisite: RMI 273

RMI 470 – Internship in Risk Management and Insurance 3
Internship Prerequisite: RMI 273; senior status.

RMI 483 – Risk Management 3
Integrated risk management. Insurance, reinsurance, hedging, and capital mar- kets as tools to manage or mitigate risk. Enterprise risk management.

Russian

RUS 101 – Beginning Russian I 3
Grammatical structure of Russian language; readings of simple accented texts; and vocabulary building. Language lab required.

RUS 102 – Beginning Russian II 3
Continuation of Russian 101
Prerequisite: Russian 101 or equivalent.

RUS 201 – Intermediate Russian I 3
Reading; grammar review; oral work; translation; simple composition. Prerequisite: Russian 102 or equivalent.

RUS 202 – Intermediate Russian II 3
Continuation of Russian 201. Prerequisite: Russian 201 or equivalent.

RUS 237 – Russian Conversation 3
Thorough conversational practice. Training in oral comprehension and use of the Russian language; pronunciation, grammar review, and vocabulary for everyday use. Prerequisite: Russian 202 or equivalent.

RUS 342 – Russian Literature and Conversation 3
Emphasis on reading and translating Russian Literature; also on conversational Russian. Prerequisite: Russian 202 or permission of instructor.

Science

SCI 090 – Remedial Science 0

Social Studies

SOS 110 – Topics in Ethnic Studies 1
A series of mini-courses focusing on one or more of the following topics: the history of a given ethnic group in the “old country,” in America, and locally; the cultural, social, and religious groupings within the given ethnic heritage; the literature, the arts and sciences, and other cultural contributions, including the folk culture, of the given ethnic group. Emphasis will be placed where possible on the production of basic research data for the writing of the local area ethnic histories. Up to six credits, provided the topics are not the same. Same as Humanities 110, 120, and 130.

SOS 130 – Topics in Ethnic Studies 1
A series of mini-courses focusing on one or more of the following topics: the history of a given ethnic group in the “old country,” in America, and locally; the cultural, social, and religious groupings within the given ethnic heritage; the literature, the arts and sciences, and other cultural contributions, including the folk culture, of the given ethnic group. Emphasis will be placed where possible on the production of basic research data for the writing of the local area ethnic histories. Up to six credits, provided the topics are not the same. Same as Humanities 110, 120, and 130.

SOS 200 – Selected Topics 3

SOS 203 – Introduction to Gender Studies 3
Gender and its impact on development, cognition, philosophy, behavior, and social institutions.

SOS 207 – Social Organization of the U.S. Health Care System 3
Nature and function of U.S. health care system and health professionals. Impact of social, political, economic, ethical, professional, legal, and technological forces.

SOS 215 – Women’s Past, Present, and Future 3
Interdisciplinary examination of the roots of women’s experiences, current issues pertinent to women, and trends impacting women’s future, specifically in the United States.
SOS 235 – Civil Rights, Public Policy, and Social Change 3
People, events, and issues of civil rights struggle in United States, including impact on democratization and social change in American society and formation of public policy. Same as Government and Politics 235.

SOS 490 – Independent Study 1-3

Sociology

SOC 151 – Human Society 3
Introduction to sociology and United States society: social class, race, ethnicity, sex, age, family, education, religion, sub-cultures, polity, economy, deviance, urban life, collective behavior, population, bureaucracy, social groups, and social change.

SOC 211 – Statistics in the Behavioral Sciences 3
Application of statistical methods in psychological research. Descriptive statistics, tests of significance, correlation, simple analysis of variance, chi-square, and some nonparametric methods. Same as Psychology 211. Students may not also take for credit Economics 241, Mathematics 112. Prerequisite: core component I Mathematics.

SOC 225 – Social Problems 3
This course explores American society with a focus on the social problems that are facing each one of us from poverty and racial inequality to violence, drugs, war and terrorism.

SOC 233 – The Family 3
The family as a social institution, its place in different cultures and social strata, family functions, courtship, mate selections; the family in transition.

SOC 252 – Racial and Cultural Minorities 3
Sociological analysis of the interrelationships among religious, national, and racial minority groups and their dominant majorities in America; international comparisons.

SOC 274 – Criminology 3
Crime as a form of deviant behavior, its relation to social values and social structure, types of criminal behavior, theories of treatment and control, correctional methods, and the administration of justice.

SOC 300 – Selected Topics 1-3

SOC 307 – Bureaucracy and Culture: U.S. Health Care System 3
Social organization and functioning of the US Health Care System, a dynamic and pluralistic system involving public and private participants.

SOC 312 – Social Science Research Methods 3
Application of scientific methods to study human behavior; surveys diverse research methods used in sociology, psychology, and other behavioral sciences; students originate, design, and conduct research projects.

SOC 339 – Drugs and Society 3
This course examines the realities, myths, subcultures, and policies that arise from and influence drug use in American Society.

SOC 342 – Urban Sociology 3
This course will explore 1) what it means to be a city; 2) how cities are structured; 3) what it is like to live in an urban setting; and 4) the problems faced by urban places.

SOC 367 – Social Stratification 3
Patterns and theories of unequal distribution of power, property, and prestige. Focus on American society.

SOC 376 – Criminological Research Methods 3
Emphasis on reading studies in scientific journals, understanding quantitative methods and their applications in crime study, hypothesis testing and policy evaluations. Computer applications in processing data and data analysis. Prerequisites Sociology 274 and Sociology/Psychology 211 or Math 112.

SOC 405 – Sociology and Anthropology Theory 3
The development of Sociology and Anthropology; critical ideas about society and culture from early thinkers through the present.

SOC 470 – Sociology Internship 1-6
Students serve on the staffs of established agencies under co-supervision of designated agency staff person and appropriate faculty person. Periodic conferences, relevant reading assignments, and papers analyzing internship experience required. Prerequisite: Sociology 151, 312, and permission of instructor and division dean.

SOC 490 – Independent Study 3
Individually supervised research and study. Provides opportunity for students to engage in original research or to pursue scholarly investigations beyond the boundaries of established courses. Arranged by agreement between the student and the instructor, subject to approval of coordinator and division dean. May be repeated once for credit, though with a different topic. Prerequisite: junior standing.

SOC 537 – Science & Social Power 3
Critical examination of science as a primary locus of social power. Sociological development of science as a power project; influence of socially constructed scientific reality in production & maintenance of inequality. Seminar format. Prerequisites: ANT 101, SOC 151, or permission.

SOC 552 – Minority Experience in American Society 3
Minority experience in American society from historical and contemporary perspectives. Theories of dominant/minority group relations. Contemporary issues and public policy. Intersection of race, ethnicity, gender, social class. Prerequisite: One of the following: ANT 101, SOC 151, SOC 252, SOS 101, or permission of instructor.

SOS 555 – Community and Social Change 3
Analysis of challenges and opportunities facing American communities. Emphasis on communities in New York State, and on Utica in particular.

Spanish

SPA 101 – Beginning Spanish I 3
Pronunciation and aural comprehension; elementary grammar; oral and written practice; reading of simple prose. Language lab required.

SPA 102 – Beginning Spanish II 3
Continuation of Spanish 101. Prerequisite: Spanish 101 or equivalent.

SPA 115 – Spanish for Medical and Paramedical Personnel 3
Practice with vocabulary, structures, and cultural contexts that the medically oriented student needs to communicate with Spanish-speaking patients.

SPA 201 – Intermediate Spanish I 3
Reading; grammar review; oral work; translation; simple composition. Prerequisite: Spanish 102 or equivalent.

SPA 202 – Intermediate Spanish II 3
Continuation of Spanish 201. Prerequisite: Spanish 201 or equivalent.

SPA 227 – Spoken Spanish I 3
Conversational practice based upon selected aspects of Hispanic life and culture. Vocabulary building, oral comprehension, use of idiomatic Spanish. Prerequisite: Spanish 202 or permission of instructor.

SPA 300 – Topics in Spanish and Latin American Cultures and Literature 3
Concentrated study emphasizing a specific period, genre, culture, or theme within Spanish and Latin American cultures and writings. Taught in Spanish or...
SPA 311 – Spanish and Latin American Film 3
Introduction to Spanish or Latin American Film in cultural and historical context. Taught in Spanish or English.

SPA 315 – Business Spanish 3
Vocabulary and discourse related to business. Oral and written practices, reading, Hispanic business culture, various business topics. Cross-cultural awareness of Hispanic business world. Taught in Spanish. Prerequisite: Spanish 202 or permission of instructor.

SPA 327 – Spoken Spanish II 3
Conversational practice based upon selected aspects of Hispanic life and culture. An advanced course in vocabulary building, oral comprehension, and use of idiomatic Spanish.

SPA 337 – Spanish Composition and Grammar Review 3
In-depth review of grammar, emphasis on the more problematic grammatical structures. Improvement of mechanical accuracy and style in written work. Prerequisite SPA 202 or permission of instructor.

SPA 347 – Introduction to Spanish Culture 3
An introduction to the cultures and traditions of Spain through readings, film, and the media. Prerequisite: Spanish 202 or equivalent.

SPA 348 – Latin American Cultures and Civilizations 3
This course is designed as an introduction to the cultures, civilizations and history of Spanish-speaking countries. While the emphasis will be on Latin America, Spain will be included as a point of reference and comparison. Prerequisite SPA 202 or permission of instructor.

SPA 388 – Introduction to Literature in Spanish 3
Readings and critical analysis of representative works. Discussion of their importance in representative literary movements and genres. Conducted in Spanish. Prerequisite SPA 202 or permission of instructor.

SPA 490 – Independent Study 3-6

SPA 490 Independent Study IR

SPA 500 – Immersion Spanish in Mexico 3

Theatre

THE 115 – Introduction to Theatre 3
Examination of the various arts of theatre: playwriting, directing, acting, scene and costume design, as individual arts and as part of the composite art of theatre leading to a more perceptive critical view of theatre. Practical work in at least one stage production required.

THE 130 – Practicum in Theatre 1
Participation in dramatic productions. Students selected by the faculty. May be taken four times for credit. Permission of instructor required.

THE 136 – Elements of Acting 3
'Stage business' and movements, theatrical projection, correlation of body and voice, relation of the body to moods and emotions, and the application of these elements to individual and ensemble scene work.

THE 300 – Selected Topics 3

THE 333 – Production in the Theatre 3
The study of the technical disciplines of the theatre (scene design, lighting, costume design, etc.) in relationship to the entire production. Practical as well as theoretical work. A project will be required of each student.

THE 336 – Advanced Acting 3
Intensive study of character development and various acting methods. Prerequisite: Theatre 136 or permission of instructor.

THE 340 – Theatre Workshop 1
Actors, actresses, dancers, lighting, scenic and costume designers, playwrights, musicians, and film makers plan productions and other theatrical activities and initiate and develop theatre experiments. Everyone will take part in some theatrical activity outside of class. Freshman by permission of instructor only. May be repeated up to maximum of four credits.

THE 375 – Literature of the Theatre 3
Forms of drama (tragedy, comedy, tragi-comedy, and others) from ancient Greece to the present. Same as English 375.

THE 400 – Topics in Theatre 3
Specialized study in various topics in theatre.

THE 441 – Directing in the Theatre 3
An exploration of the methods of directing a play, beginning with the analysis of the script and ending with the finished production. Each student will direct a short play as a term project. Prerequisites: Theatre 115 and 136 or permission of instructor.

THE 455 – Theatre History I 3
Traces the development of the theatrical art from rituals and storytelling to the Renaissance. Emphasis on the theatre's ties to social, political, and cultural trends. Prerequisite: Theatre 115 or permission of instructor.

THE 456 – Theatre History II 3
Traces the development of the theatrical art from the Restoration to contemporary theatre. Emphasis on the theatre's ties to social, political, and cultural trends. Prerequisites: Theatre 115 or permission of instructor.

Therapeutic Recreation

TRC 101 – Introduction to Therapeutic Recreation 3
Historical survey of recreation with special emphasis on current trends, problems, and projected developments in leisure classes. Emphasis on the historical, philosophical, and psychological aspects of therapeutic recreation. Field experience with community agencies.

TRC 106 – History and Philosophy of Recreation and Leisure 3
Historical trends, ideas, and theories that shaped the development of recreation, leisure, and play in modern American society.

TRC 152 – Recreational and Adventure Activities 4
Assessment and Evaluation in Therapeutic Recreation (3) F

TRC 156 – Recreational Services and Leadership 3
Study of the professional recreation field and its importance in human development and conservation of natural resources. Includes: organization and delivery of recreational and leisure services in public and private sector; park resources movement; leadership experience in recreational programming for well, able-bodied persons; and evaluation techniques.

TRC 200 – Selected Topics 1-3

TRC 201 – Outdoor Recreational Pursuits 3
History of outdoor recreation in America and adventure programming. Philosophy and techniques of adventure programming will be emphasized.
Courses of Instruction

Adaptation of outdoor recreation for people with disabilities. Field experiences included.

**TRC 256 – Leadership, Analysis and Modification of TR Interventions 0.4**
Analysis of Therapeutic Recreation interventions in terms of performance, components, contexts, and modifications. Leadership theories, models, and application through laboratory experiences.

**TRC 302 – Leisure Counseling: Theory and Practice 3**
Theoretical and practical foundations of leisure as related to the individual and recreation and therapeutic recreation. Development of leisure counseling skills, evaluation, and application to various settings.

**TRC 315 – Leisure, Health and Wellness 3**
Relationships between and among the fields of parks, recreation, leisure studies, and public health; how leisure contributes to the health and well-being of individuals, families, communities, and societies.

**TRC 323 – Therapeutic Recreation and Medical Conditions 3**
Medical conditions encountered in clinical and community based settings: Relevant medical terminology and role of therapeutic recreation in the treatment team.

**TRC 352 – Assessment and Documentation 3**
Therapeutic recreation assessment and documentation purpose, development, methods, and procedures. Field work required. Prerequisites: TRC 101, TRC 256.

**TRC 403 – Program Design and Evaluation 3**
Development, documentation, and evaluation of facility wide programs in accordance with the needs of clients, institutional resources, and regulatory requirements. Prerequisites: TRC 323, TRC 302; HLS 245 or PSY 223; and MAT 112 or PSY 211 or SOC 211.

**TRC 405 – Fitness Programming and Recreation Management 3**
Aspects of physical fitness and various methods of measurement. Management techniques of fitness center facilities, health clubs, and recreation centers. Includes laboratory practicum.

**TRC 406 – Organization, Administration, and Advancement of the Therapeutic Recreation Profession 3**
Theories and techniques of organization and administration including: professional standards, regulations, ethical guidelines, research, marketing, budgeting, advocacy, continuing education, professionalism, accreditation, and supervision. Fieldwork required.

**TRC 413 – Advanced Therapeutic Recreation Processes and Techniques 3**
Prior learning throughout the curriculum is pulled together during case based discussions. Students will use the therapeutic recreation process to design appropriate intervention programs based on efficacy research for assigned client cases. Prerequisites: TRC 302, 352, and 403 or permission of instructor.

**TRC 469 – Internship and Examination Preparation 1**
Students review the major content areas on the CTRS exam and learn how to apply for it. They also learn how to locate and secure a CTRS internships and jobs. Prerequisite: Senior level status.

**TRC 470 – Internship in Therapeutic Recreation 12**
Experience in a community or clinical agency, supervised by a certified therapeutic recreation specialist. Limited to therapeutic recreation majors who have completed all other degree requirements. Second semester of senior year. Prerequisite: TRC 469

Jeffrey A. Miller
B.A., M.A., Ph.D. State University of New York at Buffalo
Associate Professor of Communication Arts, 1997

Melodee Moltman, CCLS
B.S. South Dakota State University
M.S. Wheelock College
Associate Professor of Psychology-Child Life, 1980

Victoria L. Mackley, O.T.R.
B.S. University of New Hampshire
M.S. Syracuse University
Assistant Professor of Occupational Therapy, 2004

Randall K. Nichols
B.S. Ch.E. Tulane University
M.B.A. University of Houston
M.S.Ch.E. Texas A & M University
Associate Professor of Criminal Justice, 2006

Dorothy Obernesser
A.A. Mohawk Valley Community College
B.A. Utica College
M.A. Emerson College
Visiting Associate Professor of English, 2008

Theodore S. Orlin
B.A. Brooklyn College
J.D. State University of New York at Buffalo
Professor of Criminal Justice/Government and Politics, 1983
Crisafulli Distinguished Teaching Award, 1993
Clark Award, 2000
Harold T. Clark Professor Emeritus of Human Rights Scholarship and Advocacy, 2005

Lisa M. Orr
B.A. Syracuse University
M.A. State University of New York at Binghamton
Ph.D. University of California, Los Angeles
Professor of English, 1997

Adam K. Pack
B.S. Binghamton University
Ph.D. State University of New York, Health Science Center at Syracuse
Professor of Biology, 2001

Peter A. Pawson, P.T.
D.E.C. Dawson College
B.S. Utica College
B.Sc., Ph.D. McGill University
Associate Professor of Physical Therapy and Biology, 1993

Stephen G. Peek
B.A. State University of New York at Plattsburgh
M.B.A. University of North Dakota
Associate Professor of Management, 1987

Luke Perry
B.A. York College of Pennsylvania
M.A., Ph.D. University of Massachusetts
Associate Professor of Government & Politics, 2011

Leonard Popyack
B.S. SUNY College of Technology
M.S. SUNY Binghamton
Ph.D. Binghamton University
Associate Professor of Criminal Justice, 2011

Terri L. Provost
B.S., M.S., Ph.D. Bowling Green State University
Associate Professor of Biology, 2001

Curtis R. Pulliam
B.S. Western Illinois University
Ph.D. University of Wisconsin-Madison
Associate Professor of Chemistry, 1987

Ahmed Radwan
B.S. Cairo University
M.S., Cairo University
D.P.T. Utica College
Ph.D. Cairo University
Assistant Professor of Physical Therapy, 2011

Joel Ralston
B.S. Oswego State University
Ph.D. University at Albany, SUNY
Visiting Assistant Professor of Biology, 2011

Herbert Rau
B.S. State University of New York, Oneonta
M.B.A., Nazareth College
Ph.D. Union Institute
Associate Professor of Marketing, 2006

Donald J. Rebovich
B.S. The College of New Jersey
M.A., Ph.D. Rutgers University
Professor of Criminal Justice, 2001

Joseph Ribaudo
B.S. Allegheny College
M.S., Ph.D. University of Notre Dame
Assistant Professor of Physics, 2011

Nathaniel Richmond
B.A. State University of New York at Buffalo
M.A., Ph.D. George Washington University
Professor of Government and Politics, 1988
Crisafulli Distinguished Teaching Award, 2005

Angel Rivera
B.Sc. University Centroccidental “Lisandro Alvarado,” Venezuela
M.S., Ph.D. Syracuse University
Associate Professor of Computer Science, 2005

Laurence W. Roberts
B.A. Utica College
M.A., Ph.D. Syracuse University
Associate Professor of Psychology, 1989
Crisafulli Distinguished Teaching Award, 1997

Anamaria V. Josif Ross
B.S. Birmingham-Southern College
Ph.D. Tulane University
Assistant Professor of Anthropology, 2004

Thomas A. Rossi, Ph.H.R.
B.S. Kings College
M.B.A. Monmouth College
Associate Professor of Management, 1979
Thomas M. Ryan  
B.S., M.B.A. State University of New York at Oswego  
Assistant Professor of Criminal Justice, 2004

Tejashee Sayanak  
B.A. Karnatak University, India  
M.A. Gokhale Institute of Politics & Economics, India  
M.S. East Carolina University  
Assistant Professor of Economics, 2008

Cheri Sandford  
B.S. University of Delaware  
M.A. Delaware State University  
Ph.D. George Mason University  
Assistant Professor of Education, 2011

Dale L. Scalise-Smith, P.T.  
B.S. Northeastern University  
M.S., Ph.D. University of North Carolina  
Professor of Physical Therapy, 1996

Sara Scanga  
B.A. A. Drew University  
Ph.D. SUNY College of Environmental Science and Forestry  
Assistant Professor of Biology, 2010

James Scannell  
B.A. Middlebury College  
M.A. University of Virginia  
Ph.D. State University of New York at Stony Brook  
Associate Professor of English, 1998  
Award for Excellence in Academic Advising, 2001

David Schilling, P.T., O.C.S  
B.S., D.P.T. Utica College  
Assistant Professor of Physical Therapy, 2009

Adam Schoonmaker  
B.A. Potsdam College  
M.Sc. University of Vermont  
Ph.D. State University of New York at Albany  
Assistant Professor of Geophysics, 2007

Mary Siniscarco, MS, OTR/L  
B.S. Utica College  
MS, SUNY Cortland  
Assistant Professor of Health Studies, 2008

Barry Smith  
B.S., B.A. Drake University  
M.A., Ph.D. University of Pennsylvania  
Associate Professor Risk Management & Insurance, 2011

Ellen Smith, R.N.  
B.S. Saint Olaf College  
M.P.H. University of Minnesota  
Assistant Professor of Nursing, 2011

Jim Smith, P.T.  
B.S. Northeastern University  
M.A. University of Hartford  
D.P.T. Simmons College  
Associate Professor of Physical Therapy, 2005

Polly J. Smith  
B.A. Utica College  
Ph.D. State University of New York at Albany  
Associate Professor of Sociology, 2004

R. Scott Smith  
B.A. University of Rochester  
M.A., Ph.D. Duke University  
Associate Professor of Psychology, 1991

Steven M. Specht  
B.S. State University of New York at Oswego  
M.A., Ph.D. State University of New York at Binghamton  
Professor of Psychology, 1999

Colleen Sunderlin, O.T.R.  
B.A. Ithaca College  
M.A. Tufts University School of Occupational Therapy  
Ph.D. Syracuse University  
Associate Professor of Occupational Therapy, 1995

Patricia Swann  
B.A. Truman State University  
M.S. Syracuse University  
Associate Professor of Public Relations, 2002

John C. Swanson  
B.A. Boston University  
M.A., Ph.D. University of Minnesota  
Associate Professor of History, 1997

Alyssa Thomas  
B.S. Heidelberg College  
Ph.D. Ohio University  
Assistant Professor of Chemistry, 2009

John A. Thomas  
B.S. Clarkson University  
M.S. University of Vermont  
M.A., Ph.D. University at Albany, State University of New York  
Ph.D. Massachusetts Institute of Technology  
Assistant Professor of Spanish, 2008

Dimitar Todorov  
B.S., M.S. University of Architecture, Civil Engineering and Geodesy  
Assistant Professor of Construction Management, 2009

Sally C. Townsend, O.T.R.  
B.S. Virginia Commonwealth University  
M.A. College of St. Rose  
C.A.S., Ph.D. Syracuse University  
Associate Professor of Occupational Therapy, 1991

Jennifer Trost  
B.A., Southwestern University  
M.S., Ph.D., Carnegie Mellon University  
Associate Professor of Criminal Justice, 2008

Nancy Vaccaro, R.N.  
B.S.N. Keuka College  
B.A., M.S. New School for Social Research  
Assistant Professor of Nursing, 2009

Shanna VanSlyke  
B.S., M.S., Ph.D. Florida State University  
Assistant Professor of Criminal Justice, 2010

Jo Ellen Vespo  
B.A., Ph.D. State University of New York at Stony Brook  
M.A. University of Maryland  
Professor of Psychology and Psychology-Child Life, 1987  
Award for Excellence in Academic Advising, 2000  
Clark Award, 2004

Gregory E. Walsh  
B.S., State University of New York Institute of Technology  
M.A., State University of New York, Albany  
Ed.D. Fielding Graduate University  
Ph.D. University of Western Ontario  
Assistant Professor of Criminal Justice, 2008

Huanglin Wang  
B.S. Zhengzhou College of Aviation Industry Management  
M.A. Shanghai University of Finance and Economics  
Ph.D. University of Western Ontario  
Assistant Professor of Management, 2009

Elizabeth A. Warfel  
B.A. LeMoyne College  
M.S.Rochester Institute of Technology  
B.A. LeMoyne College  
Visiting Instructor of Public Relations, 2010

Sharon E. Wise  
B.S. University of Florida  
M.S., Ph.D. University of Louisiana  
Associate Professor of Biology, 2001  
Crisafulli Distinguished Teaching Award, 2011

David G. Wittner  
B.G.S. University of Connecticut  
M.A., Ph.D. Ohio State University  
Professor of History, 2000
Ph.D. Indiana University-Bloomington
M.A. New York University
M.A. Villanova University
Ph.D. New York University
Associate Professor of English, 2002

Sarah Burnett-Wolfe, C.T.R.S.
B.A. SUNY Purchase
M.S. SUNY Cortland
Ph.D. The Pennsylvania State University
Assistant Professor of Therapeutic Recreation, 2007

Xiao Xiao
B.S. Zhejiang University
M.A., Ph.D. Binghamton University
Assistant Professor of Mathematics, 2011

Jennifer L. Yanowitz
B.A. SUNY, Oswego
M.A. James Madison University
Ph.D. University of Minnesota, Twin Cities
Assistant Professor of Psychology, 2006

Paul C. Young
B.A. University of Illinois at Chicago
M.A., Ph.D. University of Iowa
Assistant Professor of History/Black Studies, 2001

Frederick Zammiello
B.A. Colgate University
M.A. Colgate University
B.S. Utica College
M.A., Ph.D. Syracuse University
Assistant Professor of Philosophy, 2004

Linda S. Zee
B.A. Colby College
M.A. Purdue University
Ph.D. Indiana University
Associate Professor of Spanish, 1997

Laurence G. Zoekcler
B.A. Hamilton College
M.A. St. Joseph's Seminary
M.A. Syracuse University
Ph.D. Indiana University-Bloomington
Assistant Professor of Education, 2001

Desheng Zong
B.A., M.A. Nankai University, Tianjin, China
Ph.D. Tulane University
Assistant Professor of Philosophy, 2005

EMERITI AND RETIRED FACULTY

James W. Albert, P.E.
B.C.E. Clarkson College of Technology
Associate Professor of Construction Management

Mariana Allodi
B.S. Utica College
M.S. Syracuse University
Associate Professor Emerita of Mathematics
Crisafulli Distinguished Teaching Award, 1988

Robert Anderson
B.A., M.A., D.S.S. Syracuse University
Professor Emeritus of Political Science and Social History

Louis Angelini
B.M. Ithaca College
M.M., Ph.D. Eastman School of Music
Professor Emeritus of Music
Crisafulli Distinguished Teaching Award, 1989

Marilyn H. Baissa
B.A. Lycoming College
M.A., Ph.D. George Washington University
Associate Professor Emerita of Government & Politics/Black Studies

Richard E. Becker
B.A. Harvard University
M.A., Ph.D. University of Chicago
Associate Professor of History

John C. Behrens
B.S. Bowling Green State University
M.A. Pennsylvania State University
Professor Emeritus of Public Relations/Journalism

Alan E. Bessette
B.S. University of Vermont
M.S. University of Oregon
Ph.D. University of Maine at Orono
Distinguished Professor Emeritus of Biology
Clark Award, 1995
Crisafulli Distinguished Teaching Award, 2000

Joseph J. Bialek
B.S., M.B.A. Syracuse University
Associate Professor Emeritus of Accounting

William C. Blanchfield
B.S., M.S. Rensselaer Polytechnic Institute
Ph.D. State University of New York at Albany
Professor Emeritus of Economics, 1966

Patrick M. Boyd, M.T. (ASCP)
B.S. State University of New York at Buffalo
M.S. Roswell Park Memorial Institute, Buffalo
Ph.D. State University of New York at Binghamton
Associate Professor of Chemistry, 1975

Elizabeth Bradbury
B.S., Brigham Young University
M.S., State University of New York at Albany
Assistant Professor of Education

James F. Caron
B.A. Assumption University of Windsor
M.A., Ph.D. University of Toronto
Professor Emeritus of Philosophy

James J. Carrig
B.A., M.A. Niagara University
Ed.D. Syracuse University
Associate Dean Emeritus

Jerome D. Cartwright
B.A. Western Michigan University
M.A. University of Michigan
Ph.D. University of Wisconsin
Professor Emeritus of English

Lawrence C. Cerny
B.S., M.S. Case Institute of Technology
Ph.D. University of Ghent, Belgium
Professor Emeritus of Chemistry

Christine L. Channer
B.S. State University of New York College at Cortland
M.S. Syracuse University
Ph.D. Arizona State University
Associate Professor of Education

Anthony C. Checchi
B.S. State University of New York at Oswego
M.S., Ph.D. Purdue University
Associate Professor Emeritus of Biology

Louis P. Cizza
A.B. Hamilton College
B.A. Syracuse University
M.S. Rensselaer Polytechnic Institute
Adjunct Professor Emeritus of Physics and Italian

Ronald L. Danilowicz
B.S. Rose Hulman Institute of Technology
B.A. Utica College
M.S. John Carroll University
Ph.D. Colorado State University
Professor Emeritus of Computer Science, 1974

Annette M. Dimon, C.P.A.
B.S. State University of New York College of Technology
M.B.A. Rensselaer Polytechnic Institute
Associate Professor Emeritus of Accounting

Bradford A. Dunn, C.P.A.
B.S. Utica College
B.S. Cornell University
M.S. State University of New York Institute of Technology
Assistant Professor of Accounting

Allyn R. Earl
B.A. Utica College
M.A. Syracuse University
Associate Professor Emeritus of Finance
Helmut P. Echtermann
B.A. Marburg University, Germany
M.A. Columbia University
Associate Professor Emeritus of Marketing

J. Richard Emmert
A.B. Hope College
Ph.D. Brown University
Associate Professor Emeritus of Government and Politics, 1970

Ralph A. C. Fimmano, PE, PLS
B.C.E. Clarkson College
M.S. Syracuse University
Adjunct Professor Emeritus of Construction Management

Anthony J. Garramone
B.A. Utica College
J.D. Syracuse University
Adjunct Professor of Business Law

Pauline E. Ginsberg
B.A. Carnegie-Mellon University
M.S. Illinois State University
Ph.D. Syracuse University
Distinguished Professor Emerita of Psychology
Clark Award, 2003

Anne K. Goss
B.A. Montclair State College
Assistant Professor Emerita of Mathematics

William H. Gotwald Jr.
B.S. Millersville State College
M.S. Pennsylvania State University
Ph.D. Cornell University
Professor Emeritus of Biology
Crisafulli Distinguished Teaching Award, 1979
Clark Award, 1991

Victor Grimaldi
B.S. Utica College
M.B.A. Syracuse University
Adjunct Professor Emeritus of Marketing

Edween Ham
B.S. State University of New York at Geneseo
M.A., Ph.D. Syracuse University
Associate Professor Emerita of English

David M. Harrason
A.B. Georgetown College
A.M. Indiana University
Ph.D. Kent State University
M.S., M.L.S. Syracuse University
Professor Emeritus of English

Hartwell C. Herring III
B.B.A., M.S. University of Mississippi
Ph.D. University of Alabama
Professor Emeritus of Accounting, 2000

William M. Hickman
B.A. Williams College
M.B.A. Syracuse University
Associate Professor of Marketing/Management, 1985

Lyn Hill, O.T.R., F.A.O.T.A.
B.S. Wayne State University
M.S. Syracuse University
Associate Professor Emerita of Occupational Therapy

Randall Huta, C.P.A.
B.S. Utica College
M.B.A. Syracuse University
Associate Professor Emeritus of Accounting

Edward J. Jones, C.P.A.
B.A. Utica College
M.B.A. Syracuse University
Associate Professor Emeritus of Accounting

Richard C. Joseph
B.S. Ithaca College
M.S. Syracuse University
Assistant Professor Emeritus of Therapeutic Recreation

Joan Kay, C.T.R.S.
B.S. Murray State University
B.S. Utica College
M.A. Ball State University
Associate Professor Emerita of Therapeutic Recreation, 1982
Crisafulli Distinguished Teaching Award, 2004

Ronald Lucchino
B.A. Mansfield State College
M.S., Ph.D. University of New Mexico
Professor Emeritus of Biology
Crisafulli Distinguished Teaching Award, 2001

Scott MacDonald
B.A. DePauw University
M.A., Ph.D. University of Florida
Professor Emeritus of English and Film
Crisafulli Distinguished Teaching Award, 1981
Clark Award, 1993

Gian Carlo Mangano
B.A. Catholic University, Milan, Italy
B.A. University of Rome, Italy
M.A. State University of New York at Buffalo
M.S. Syracuse University
Ph.D. Columbia University
Associate Professor Emeritus of Mathematics

Mary Katharine Maroney, R.N.
B.S. Columbia University
M.S. Boston University
Ph.D. Syracuse University
Distinguished Professor Emerita of Nursing, 1991

Judith McIntyre
B.A. Carleton College
M.A., Ph.D. University of Minnesota
Professor Emerita of Biology
Clark Award, 1992
Crisafulli Distinguished Teaching Award, 1998

Jane Metzger
B.S., M.A. Syracuse University
Adjunct Professor Emerita of Theatre

Doris Wester Miga
A.B. State University of New York at Albany
M.A. Syracuse University
Professor Emerita of Sociology
Crisafulli Distinguished Teaching Award, 1980

David L. Moore
B.S., B.A. Eastern Nazarene College
M.S., Ph.D. Ohio State University
Asa Gray Distinguished Professor of Biology
Clark Award, 1998
Crisafulli Distinguished Teaching Award, 2003

Clement J. Moses
B.A. Hamilton College
M.S. Cornell University
Ph.D. State University of New York at Binghamton
Associate Professor Emeritus of Physics

Frank K. Mosher
B.S., M.S., Ed.D. Syracuse University
Professor Emeritus of Education

Joan Murphy, R.N.
B.S. Nazareth College
M.S. Boston University
Ed.D. Syracuse University
Professor Emerita of Nursing

Herman S. Muskatt
B.S. City College of New York
M.S., Ph.D. Syracuse University
Professor Emeritus of Geology

Eugene Paul Nassar
B.A. Kenyon College
M.A. (Oxon) Worcester College, Oxford
Ph.D. Cornell University
Professor Emeritus of English
Clark Award, 1990
Stephen P. Neun  
B.A., M.A., Ph.D. University of Connecticut  
Distinguished Professor Emeritus of Economics  
Crisafulli Distinguished Teaching Award, 1994  
Clark Award, 1999

Clara K. Nicholson  
B.A. Syracuse University  
M.A. University of Massachusetts  
Ph.D. Syracuse University  
Professor Emerita of Anthropology

Barbara F. Oliver, O.T.R.  
B.A. Manhattanville College  
B.S. Columbia University College of Physicians & Surgeons  
M.S. Syracuse University  
Associate Professor Emerita of Occupational Therapy  
Crisafulli Distinguished Teaching Award, 1995

William F. Pfeiffer  
B.S. Wittenberg University  
M.S. University of Wisconsin  
Ph.D. Case Western Reserve University  
Professor Emeritus of Chemistry  
Crisafulli Distinguished Teaching Award, 1986

Harold W. Pier  
B.S. Pennsylvania State University  
M.S., Ph.D. University of Delaware  
Professor Emeritus of Chemistry  
Crisafulli Distinguished Teaching Award, 1987

Roger R. Rockefeller  
M.E., M.S., Ph.D. Stevens Institute of Technology  
Professor Emeritus of Physics

Richard B. Rosen  
B.S. Loyola University  
M.A. Georgetown University  
Ph.D. University of California at Berkeley  
Professor Emeritus of History

Ralph N. Schmidt  
B.A. Carroll College  
M.A. Northwestern University  
Ph.D. Syracuse University  
Professor Emeritus of Speech Communication

Mary Lee Seibert  
B.S., M.S. Ed.D. Indiana University  
Vice President for Academic Affairs and Dean of the Faculty Emerita

Raymond Simon  
B.S. University of North Carolina  
M.S. Northwestern University  
D.H.L. Utica College  
Professor Emeritus of Public Relations  
Crisafulli Distinguished Teaching Award, 1975 and 1984

Donald M. Stasiw  
B.S. Utica College  
M.S. Case Western Reserve University  
Ph.D. State University of New York College of Forestry, Syracuse University  
Associate Professor Emeritus of Computer Science

Kalixt S. Synakowski  
B.A. Hamilton College  
M.A. Harvard University  
Professor Emeritus of Philosophy  
Crisafulli Distinguished Teaching Award, 1976

Rosemary E. Ulrich  
B.S. Mercyhurst College  
M.S. Syracuse University  
Associate Professor Emerita of Business

JoElyn Wakefield-Wright  
A.B. Pfeiffer College  
M.M. Indiana University  
Adjunct Professor Emerita of Music

Arthur Wasserman, C.P.A.  
B.B.A. The College of the City of New York  
Adjunct Professor Emeritus of Accounting

Charles H. Webster  
B.A. Syracuse University  
M.A. San Diego State University  
Assistant Professor Emeritus of Mathematics

Jerome Weiss  
B.A. Sarah Lawrence College  
M.A. Teachers College, Columbia University  
Associate Professor Emeritus of Communication Arts and Dramatics

Sandra B. Welch, R.N.  
B.S. State University of New York Institute of Technology  
M.S. Syracuse University  
Associate Professor Emerita of Nursing

DECEASED EMERITI FACULTY

Raymond J. Albert  
Robert V. Anderson  
Joseph J. Arlotto  
Harold Burger  
James L. Chamberlain  
Robert S. Connor  
Virgil C. Crisafulli  
Raymond J. Cristman  
Edward B. Cutler  
George Dmohowski  
K. Della Ferguson

Donald K. Zellner

HALF-TIME AND PART-TIME FACULTY

Linda Aaronson  
A.A.S University of South Florida  
B.S Florida State University  
B.S Utica College  
Adjunct Professor of Health Studies

Heather G. Abrams  
B.A. Boston University  
Adjunct Professor of Fine Arts

James Adasek  
B.S. Utica College  
Adjunct Instructor of Math

Susan Bartholomew, C.P.A.  
B.S. Utica College  
Adjunct Instructor of Accounting

Joshua Bartolomie  
B.S. Champlain College  
M.S. Norwich University  
Adjunct Instructor of Cybersecurity

Julie Batson  
B.A. State University of New York at Geneseo  
M.A. University at Albany  
Adjunct Instructor of Communication Arts

Lindarae Bauer  
B.A. SUNY at Binghamton  
M.Ed. University of Hawaii  
Adjunct Professor of Biology
Kathleen Bishop  
B.S. State University of New York at Geneseo  
M.S. Syracuse University  
Ph.D. Syracuse University  
Adjunct Professor of Gerontology

Lisa Blanchfield  
B.A. St Lawrence College  
M.A. Jersey City State College  
Psy.D. Southern California University for Professional Studies  
Adjunct Instructor of Psychology

Martin Broccoli  
B.S. Utica College  
M.S. State University of New York at Albany  
Adjunct Professor of Marketing

Civita A. Brown, CCLS  
B.A., M.S. Utica College  
Adjunct Professor of Psychology-Child Life  
Coordinator of Internships, Psychology-Child Life Program

James C. Brown  
B.S. Utica College  
M.P.A. Sage Graduate School  
Ed.D. University of Phoenix  
Adjunct Instructor of Criminal Justice

Steven Brucker  
B.S., M.S. Utica College  
Adjunct Instructor of Criminal Justice

Cora Bruns, O.T.R.  
B.S. Utica College  
M.S. Utica College  
Adjunct Instructor of Occupational Therapy  
Fieldwork Coordinator, Occupational Therapy Program

Mary Campbell  
B.A. State University of New York at Buffalo  
M.S. Lehigh University  
Adjunct Instructor of French, Spanish, and Geology

Mary Cardinale  
B.A. Utica College  
M.A. College of Saint Rose  
Ph.D. University of Rhode Island  
Adjunct Instructor of English

Nicholas Cardinale  
A.A.S. Mohawk Valley Community College  
B.S. Utica College  
Adjunct Instructor of Mathematics

Vincent Cattat  
B.A. Curry College  
C.A.S. SUNY Cortland  
Adjunct Instructor of Education

William Cesare  
B.A. Utica College  
M.S. State University of New York at Oswego  
Adjunct Professor of Psychology

Glenn Coin  
B.S. Michigan State University  
M.A. Syracuse University  
Adjunct Instructor of Journalism

James S. Cowan, C.P.A.  
B.S. Utica College  
Adjunct Professor of Finance

Harvey S. Cramer  
B.S. University of Michigan  
M.S. Syracuse University  
Adjunct Professor of Biology

Shawkat J. Dallal  
B.A. Ithaca College  
J.D. Cornell University  
Adjunct Professor of Business

Dominick L. DeMarco  
B.S. Kent State University  
Adjunct Professor of Health Sciences

Lawrence Dillon  
B.A. Westminster College  
J.D. New York Law School  
Adjunct Professor of Criminal Justice

Michael Disotelle  
A.A.S. Herkimer County Community College  
B.S. Utica College  
M.S. SUNY, Oneonta  
Adjunct Professor of History

Susan Draves  
B.S. LeMoyne College  
M.S. State University of New York at Oswego  
Adjunct Professor of Spanish

Steve Dunckel  
B.S. State University of New York, College of Environmental Science and Forestry  
M.S. Syracuse University  
Adjunct Professor of Chemistry

Carl Dziekan, C.P.A.  
B.S. Alfred University  
J.D. University at Albany Law School  
Adjunct Professor of Accounting

Richard D. Enders  
A.B. Catholic University of America  
J.D. Cornell Law School  
Adjunct Professor of Government and Politics

Frank Fazekas  
B.S. Rensselaer Polytechnic Institute

B.S. Utica College  
M.S.W., M.P.A. Syracuse University  
J.D. Syracuse University  
Adjunct Instructor of Psychology and Gerontology

Grant Garramone  
B.A. Utica College  
J.D. Syracuse University College of Law  
Adjunct Instructor of Business Law

John C. Gazak  
B.S. Union College  
M.A. Syracuse University  
Adjunct Professor of Mathematics

Mary A. Gazak  
B.A. Utica College  
M.A. Syracuse University  
Adjunct Professor of Mathematics

William A. Gokey  
B.A. Brockport State College  
M.A. University of Albany  
M.Ed. Plymouth State College  
Ed.D. Nova Southeastern University  
Assistant Professor of Education, 2009

Vincent Grieco  
B.A. SUNY at Buffalo  
M.S. University of Florida  
C.A.S. SUNY at Cortland  
Adjunct Instructor of Geology

David Guistina  
B.S. Utica College  
M.A. State University of New York at Albany  
Adjunct Instructor of Communication Arts

Stephen Hampe  
B.A. Framingham State College  
M.S.Ed. Mercy College  
Ph.D. Capella University  
Adjunct Instructor of Psychology

Amy B. Haver, R.N.  
B.S. Utica College  
M.S. Binghamton University  
Assistant Professor of Nursing

Jennifer Herzog  
B.S. Utica College  
M.S. Yale University School of Medicine  
Adjunct Instructor of Biology

Scott Hosler  
B.S., M.B.A. Utica College  
Adjunct Instructor of Accounting
Rosa Hosp  
B.A. Utica College of Syracuse University  
M.A. Middlebury College  
Adjunct Professor of Spanish

Douglas Houghton  
B.A. Utica College  
M.S. College of New Rochelle  
Adjunct Instructor of English

Linda Hughes  
B.A. Utica College  
J.D. Syracuse University  
Adjunct Professor of Criminal Justice

Robert W. Jones  
B.A. Capital University  
M.S. Utica College  
Adjunct Professor of Economic Crime

Kevin Kwiat  
B.A., B.S. Utica College  
M.S., Ph.D. Syracuse University  
Adjunct Professor of Mathematics

Mark J. Kwiat  
B.A. Utica College  
Adjunct Professor of Computer Science

Charles Lewis  
B.A. Utica College  
Adjunct Instructor of Physical Education

Philip Lohre  
B.A., M.A. SUNY at Albany  
M.S. College of St. Rose  
Adjunct Professor of History

Dianna Malecki  
B.A. State University of New York at Cortland  
M.S.W. State University of New York at Albany  
Adjunct Instructor of Psychology

Nancy Mandry  
B.A. Syracuse University  
M.S. SUNY at Cortland  
Adjunct Instructor of English

Anthony Martino  
B. A. SUNY Geneseo  
M.S. Utica College  
Adjunct Instructor of Criminal Justice

Paul Mastrangelo  
B.A. The Evergreen State College  
M.F.A. Ohio University  
Adjunct Instructor of Theatre

Vernon McCandlish  
B.S. Rensselaer Polytechnic Institute  
M.S. Utica College  
Adjunct Instructor of Cybersecurity

Richard Moon  
B.A. Utica College  
Adjunct Professor of Education

Margaret Morgan-Davie  
B.A. Oberlin College  
M.A. Cornell University  
Ph.D. Cornell University  
Assistant Professor of Economics

Kathryn S. Muller  
B.A. State University College, Oneonta  
M.S. University of Washington, Seattle, WA  
Adjunct Instructor of Psychology

Mark Munroe  
B.S. Calgary College  
M.A. Syracuse University  
Adjunct Professor of Philosophy

Darryl S. Neier  
B.S. William Paterson University  
M.S. Utica College  
Adjunct Instructor of Economic Crime

Jacquelin Osterman  
B.A., M.A. SUNY Albany  
Adjunct Professor of Theatre

Geralynn Owens  
B.S. State University of New York at Utica/Rome  
Instructor of Nursing

Dominic Passalacqua  
B.A. Utica College  
M.A. Boston University  
Adjunct Professor of Government and Politics

Rose M. Patterson  
B.A. Utica College  
Adjunct Professor of Mathematics

Robert J. Petrillo  
B.S. University of Rochester  
M.B.A. University of Buffalo  
Assistant Professor of Accounting and Management

Edward J. Potter  
B.S. Villanova University  
M.S. Utica College  
Adjunct Instructor of Economic Crime

Frank Price  
B.A. Hamilton College  
Ph.D. University of Colorado, Boulder  
Adjunct Instructor of Biology

Francis G. Reid  
B.S. Siena College  
M.S. University of Nebraska  
Adjunct Professor of Business

David Roberts  
B.A. Utica College  
M.S. State University of New York at Albany  
Adjunct Professor of Business

Peter Rucci  
B.S. SUNY Buffalo  
M.E. University of Idaho, Moscow ID  
Adjunct Instructor of Mathematics

Sarah Rosenstein  
B.A. Wellesley College  
Ph.D. Duke University  
Adjunct Professor of Chemistry

James R. Salamy  
B.S. Utica College  
M.S. State University of New York Institute of Technology at Utica/Rome  
Adjunct Instructor of Human Resources Management

Jan Marie Simpson, P.T.  
B.S. Le Moyne College  
B.S. State University of New York Health Science Center at Syracuse  
M.S. The New School University, New York, NY  
D.P.T. Utica College  
Assistant Professor of Physical Therapy, 1995

Samuel C. Smith  
B.A. University of Nebraska at Omaha  
M.A. Central Michigan University  
Adjunct Professor of Human Resources Management

Anthony Sorbello  
A.A.S. Morrisville College  
B.S. University of Georgia  
M.S., C.A.S., Ph.D. Syracuse University  
Adjunct Instructor of Geology

Delena Spann  
B.L.S. Barry University  
M.S. Florida International University  
Adjunct Instructor of Communication Arts

Brianne (Puleo) Stratton  
B.A. Utica College  
M.S. Syracuse University  
Adjunct Instructor of Communication Arts

Richard M. Stulmaker  
B.A., M.A. State University of New York at Albany  
Adjunct Professor of Sociology

Kerry Sullivan  
B.A., M.A. Utica College  
Adjunct Instructor of Education
John D. Susenburger, CMA  
B.S. University of Missouri  
M.B.A. St. John's University  
Adjunct Instructor of Business and Economics

David Taurisano  
A.A.S. Mohawk Valley Community College  
B.S. State University of New York Institute of Technology  
M.B.A. Rensselaer Polytechnic Institute  
Adjunct Instructor of Business and Economics

Faith M. Thompson  
B.S. Albany College of Pharmacy  
M.S. State University of New York at Albany  
Adjunct Professor of Biology

Donald M. Trotta  
Adjunct Instructor of Construction Management

Alfred J. Valentini  
B.A., M.A. State University of New York at Albany  
Adjunct Professor of Italian

Alane P. Varga  
B.S., M.A. Slippery Rock University of Pennsylvania  
Adjunct Instructor of Social Studies

Michael J. Viana  
A.A.S. Mohawk Valley Community College  
B.S. Utica College  
M.S. Syracuse University  
Adjunct Instructor of Psychology

William Virkler  
B.S. LeMoyne College  
M.B.A. Syracuse University  
Adjunct Instructor of Criminal Justice

Jacqueline Warmuth  
A.A.S. Herkimer County Community College  
B.S. Utica College  
M.S. Cortland College  
Adjunct Instructor of Health Studies

Carl Wheat  
B.A. Hartwick College  
M.A. Western Michigan University  
M.A. Albany State University  
Adjunct Instructor of Mathematics

R. Barry White, C.P.A.  
B.S., M.S. State University of New York at Binghamton  
Adjunct Professor of Accounting

R. A. Andy Wilson  
B.S. University of Tennessee  
M.S. Utica College  
Adjunct Instructor of Economic Crime

Robert Zaykoski  
B.S. Utica College  
Ph.D. The Ohio State University  
Adjunct Instructor of Chemistry and Physics

Regina Zdeb  
B.A. Utica College  
M.A. SUNY at Albany  
Adjunct Instructor of Mathematics

---

HONORARY DEGREES
Degrees Awarded by Utica College of Syracuse University
(Syracuse University Honorary Degrees)

October 19, 1961
Moses G. Hubbard  
Honorary Doctor of Laws

May 1974
Allen H. Nucharth  
Honorary Doctor of Humane Letters

May 1985
Mstislave Rostropovich  
Honorary Doctor of Letters

May 1987
Edward W. Duffy '50  
Honorary Doctor of Humane Letters

May 1989
Dr. Henry DiSpirito  
Honorary Doctor of Humane Letters

May 1992
Thomas J. Cahill Jr. '49  
Honorary Doctor of Humane Letters

May 1993
Dr. Frank Lentriccia  
Honorary Doctor of Humane Letters

Walter D. Edmonds  
Honorary Doctor of Humane Letters

Dr. Marilyn Jacox '51  
Honorary Doctor of Science

Dr. Eleanor Z. Baker '51  
Honorary Doctor of Humane Letters

Dr. Prosper Igboeli '74  
Honorary Doctor of Humane Letters

The Honorable Hugh R. Jones  
Honorary Doctor of Laws

Dr. John Flagler '52  
Honorary Doctor of Humane Letters

Dr. Diane Doran '78  
Honorary Doctor of Science
Utica College Honorary Degrees
(Conferred by Utica College Board of Trustees)

(Utica College Honorary Degrees)

1996
Dr. William Tolley
Honorary Doctor of Humane Letters

Dr. Virgil Crisafulli
Honorary Doctor of Humane Letters

Raymond Simon
Honorary Doctor of Humane Letters

Dr. Emlyn I. Griffith
Honorary Doctor of Laws

May 1996
David F. D’Alessandro ’72
Honorary Doctor of Laws

1997
Dr. Alfred Tector ’59
Honorary Doctor of Science

May 1998
Elsie Shemin-Roth ’50
Honorary Doctor of Humane Letters
John Martin ’59, Esq.
Honorary Doctor of Laws

May 1999
Theodore Martin ’61
Honorary Doctor of Commercial Science

May 2000
Jan Schlüctmann
Honorary Doctor of Humane Letters

May 2001
Frank Deford
Honorary Doctor of Humane Letters

F. Eugene Romano
Honorary Doctor of Laws

May 2002
Judith Viorst
Honorary Doctor of Letters

May 2003
Harold T. Clark Jr. ’65
Honorary Doctor of Laws

George W. Haley
Honorary Doctor of Humane Letters

May 2004
The Honorable Sherwood Boehlert ’61
Honorary Doctor of Laws

Joseph P. Furgal ’50
Honorary Doctor of Humane Letters

Charles A. Gaetano
Honorary Doctor of Laws

May 2005
Kate Oser
Honorary Doctor of Humane Letters

May 2006
Mike Farrell
Honorary Doctor of Laws

Dr. Albert H. Shaheen ’49
Honorary Doctor of Humane Letters

May 2007
Colonel Eileen Collins
Honorary Doctor of Science

Dr. Sandro Sticca ’57
Honorary Doctor of Humane Letters

May 2008
Eugene R. Corasanti
Honorary Doctor of Laws

May 2010
Martin Biegelman
Doctor of Laws

Ray Suarez
Doctor of Letters

May 2011
Raymond Serway ’59
Doctor of Science
