

Changing Thumb Drive letters in XP

- 1.) Click on the  (start menu) then right click on  (My Computer)
- 2.) In the box that appears click the manage tab in the menu.

- 3.) Click on the Disk management icon in the right hand corner of the new window and then scroll down the list to find your thumb drive.

- 4.) Once you've found your thumb drive right click inside the block and then click change drive letter.
- 5.) Choose the appropriate drive letter that will not conflict with any other system letters and then click okay.
