

# Genocide, War Crimes and Crimes Against Humanity

## A Topical Digest of the Case Law of the International Criminal Tribunal for the Former Yugoslavia

This unique 861-page volume from Human Rights Watch organizes the ICTY’s decisions by topic, including war crimes, genocide, crimes against humanity, command responsibility, sentences, fair trial rights and guilty pleas. It applies the law to the facts of selected cases covering atrocities such as the Srebrenica massacre, the siege of Sarajevo, and brutalities perpetrated in camps such as the infamous “Omarska camp” in Bosnia-Herzegovina.

“Genocide, War Crimes and Crimes Against Humanity” is an updated and expanded version of the widely acclaimed 2004 edition. The volume, which is available online and in print, is oriented to practitioners and staff at courts and tribunals established to try such crimes, as well as academics, students interested in international criminal justice and nongovernmental organizations working in the field.
