

Tip 3d: Using the Course Menu

Tip 3d: Using the Course Menu

The course menu is a way to navigate to various parts of course quickly. It is found on the left-hand side of your course with a title of **Course Menu (see Fig. C1-1)**. Some instructors may have the course menu show up as a drop down list as seen in Fig. C1-1. For example, if you are doing within the assignment area of your course and you need to send an Email to your instructor, you can click on the Email link found on the Course Menu. This will take you to the Email tool without having use any other navigation method. **NOTE - Not all instructors will have items on the Course Menu plus there may be different items then the ones shown below.**
