UTICA COLLEGE

TRANSFER ARTICULATION AGREEMENT

Utica College

Childhood & Special Education Program
(Grades 1-6)

and

Herkimer County Community College

Liberal Arts & Sciences
Childhood Education

April 2013

Utica College and Herkimer County Community College, in recognition of a mutual respect for the integrity of parallel academic programs and in an effort to better serve students intending to pursue the completion of a bachelors degree, hereby enter into an agreement of an articulated program.

OBJECTIVES:

1. To encourage the transfer of qualified students from Herkimer County Community College (HCCC) to Utica College (UC).
2. To award academic credit for courses completed at HCCC, that meet the terms of the Associate Degree: Liberal Arts & Sciences: Childhood Education program for application toward the requirements for the Childhood and Special Education program (Grades 1 - 6) at UC.
3. To provide effective and concise guidelines for students seeking to transfer to UC. Students will have accurate and clear information regarding the transfer of their coursework and credits toward the Bachelor of Arts degree at UC.

TERMS OF THE TRANSFER ARTICULATION AGREEMENT:

1. UC guarantees the acceptance of students who completed the Associate in Science: Liberal Arts & Sciences program at HCCC with a cumulative GPA of 2.75 or better to UC. Transfer students who do not meet these criteria will be evaluated individually.
2. UC guarantees the transfer of credit as stipulated in the attached Program of Studies. This agreement assumes the completion of the Associate Degree and completion of the courses listed on the attached Program of Studies. UC requires that the last 30 credit hours granted toward the Bachelor degree must be earned in residence, with matriculated status. Additionally, the Bachelor of Arts degree requires that a *minimum of 90 of the 120 credits must be in the liberal arts* while the Bachelor of Science requires a *minimum of 60 of the 120 credits must be in the liberal arts*.
    - Students pursuing the childhood education program must major in one of the following: Biology, Chemistry, Communication Arts, Economics, English, Government/Politics, History, International Studies, Liberal Studies, Mathematics, Philosophy, Physics, Psychology, Psychology-Child Life, Social Studies or Sociology/Anthropology.
    - In addition to the requirements of the major and courses for the childhood program, students must fulfill the following requirements (some of which may be satisfied by this articulation agreement): one year of college-level study in a language other than English and at least 6 credits *each* in English, Mathematics, Science and History, and 3 credits in Fine Arts.
    - Students must complete and appropriately document a minimum of 100 hours of fieldwork in a school setting with at least 50 of those hours in high-needs schools.
3. HCCC transfer Students will be subject to all general education requirements of UC as set forth in the UC catalogue.
    - Transfer students with a completed Associates Degree will be exempt from Components I & II of UC's Core Requirements.
    - Students who transfer 30 credits of liberal arts and sciences (with at least 2 courses in each of UC's three categories of Component II Core—including one lab science course) will be exempt from Component II Core.
    - Transfer Students who enter UC with Components I & II complete will be required to complete 3 credits of Component III: Integrated Writing.
4. This document is based upon the evaluation of course descriptions presented to UC. Courses listed in this agreement will transfer to UC provided a grade of "C" or better has been earned. Credit will be granted according to the appended list of equivalent courses or as general elective credit.
5. This Agreement shall remain in effect for a period of two years from the date listed below, with the provision that the terms specified herein will continue to apply to the students admitted from HCCC's Associate in Science: Liberal Arts & Sciences: Childhood Education within one year of the expiration of the agreement. Each institution agrees to provide timely notice to the other in the event of any modification to the curriculum that might affect the compatibility for admission and transfer of coursework. This agreement may be subject to change, without notice, if curriculum requirements change at either institution. Students admitted to the HCCC's Associate in Science: Liberal Arts & Sciences: Childhood Education program prior to such notification shall be admitted to UC on the basis of this agreement.

TERMS OF THE TRANSFER ARTICULATION AGREEMENT (continued):

6. Due to the total number of credits required to complete the Education Program with a Bachelor of Arts/Science degree at UC including Major course requirements and Education Program requirements students will most likely require more than 4 additional semesters of study at UC. The number of transfer credit an individual student may transfer is dictated by individual academic performance, making it difficult to determine the exact number of extra semesters based on the number of courses which will transfer in under the Major area.

BENEFITS/ADVANTAGES:

1. HCCC transfer students are eligible for scholarship and financial aid in all ways the same as continuing Utica College students.
2. Utica College will provide housing in campus residence halls within the guidelines and practices governing availability of housing for continuing students.
4. HCCC transfer students are eligible to participate in internships, externships, co-ops, field placements and study abroad opportunities open to continuing Utica College students.

Approved on (date) 4/22/13
