Utica College Account Activation and Password Reset Site

Every student, faculty and staff member has a **username** and **password**, which are used to access Utica College’s online and electronic resources. This web site allows current students, faculty and staff to activate or reset their password for the following services:

- **Microsoft Active Directory**: New login system for desktops, computer labs, and wireless networks
- **Sun Directory Service (LDAP)**: Login system for e-mail, calendar, library databases, Banner Web, and several other web-based services

**Acceptable password use and tips:**

You are responsible for any action taken using your login. You should change your password often, at least once every 120 days, to help prevent unauthorized access to Utica College resources using your account. If you believe your password may have been compromised, it must be changed immediately.

**Choosing a new, secure password.**

New passwords must be at least eight characters in length and meet the following criteria:

- **Passwords must** contain at least one number (1, 2, 3, 4, 5, 6, 7, 8, 9, 0)
- **Passwords must** contain at least one lowercase letter (a, b, c, etc.)
- **Passwords must** contain at least one uppercase letter (A, B, C, etc.)
- **Passwords must** contain at least one of the following: ! @ # $ % & _

This is the Utica College standard for strong passwords. All new passwords for Utica College accounts must conform to this standard.

**Why do I have to use a strong password?**

Your computer, your files, your e-mail, and other electronic resources you use are all at risk if another person gains access to your account. With various systems on campus all sharing a single login, your password will have access to sensitive information, and you need a strong password to help keep this information safe.

Utica College Password Requirements
- You cannot use a password you have used before.
- Passwords must be at least 8 characters in length.
- Passwords must contain at least one number.
- Passwords must contain both lowercase and uppercase letters.
- Passwords must contain at least one of the following:
  - ! (Exclamation)
  - @ (At sign)
  - # (Pound sign)
  - $ (Dollar sign)
  - % (Percent sign)
  - & (Ampersand)
  - = (Equal sign)
  - _ (Underscore)

Suggestions for Selecting Good Passwords
- Your password should be easy for you to remember without writing it down.
- Your password should be difficult for someone else to guess.
- Don't use your first name, last name, or login in any form.
- Don't use information easily obtained about you.
