A FEW FUN FACTS WHILE WE’RE AT IT…

• Did you know UC’s Center for Identity Management and Information Protection, or CIMIP, is driving a national research agenda on identity theft? Founded in the summer of 2006, CIMIP has drawn the interest of major news outlets including the Wall Street Journal, the Washington Post, USA Today, the Associated Press, ABC News, and a number of international publications.

• Of course you’ve heard about the Droid. You know, the smartphone – and Time magazine’s Gadget of the Year – that has achieved sweeping popularity. Well, did you know the phone’s operating system, Google’s Android, was developed by a UC graduate?

• Another interesting nugget about the success of UC alumni: in September 2009, the U.S. Senate confirmed President Obama’s nomination of Congressman John McHugh, UC Class of 1970, as Secretary of the Army.

• Did you know that UC’s men’s hockey team has set NCAA Division III home attendance records in each of the past three seasons? UC averages nearly 3,000 fans per game, more than most Division I teams.
