UTICA COLLEGE MEN'S SOCCER

A NEW DREAM. A NEW ERA.

FEBRUARY 2010

Highlighted Freshman-Oluwaseun Ilebani

Favorite Club team?

Arsenal.

Favorite food?

Jalof Rice and plantains. Nigerian.

What is your favorite thing about Utica College?

The soccer. My life revolves around soccer in a way that I have never experienced before. I was always a multi sport athlete but the emphasis on my soccer here is one that I love.

What you enjoyed most about this past season?

My introduction into a higher level of soccer and the progress that I made as a player.

What is your outlook on the 2010 season?

It is going to be a season in which we show our true character and bounce back in a way which will shock people. Through hard work, dedication, and talent, we will be a great team.

What are your thoughts on the 2010 world cup?

My heart is going with Nigeria but I think that Spain is going to take the world cup. They play a beautiful brand of soccer and they are strong in every single position. They have great play-makers and are lethal up front. Qualities that are vital for any team.

Economic Crime and Studies Building

Utica College's newest structural addition has garnered regional attention, as the Economic Crime and Justice Studies building received a 2009 merit award for design excellence from the American Institute of Architecture (AIA), Buffalo/Western New York.

Tradition. Opportunity. Transformation.
