Mathematics MAT 104 : Intermediate Algebra
Section: C
Fall 2004
MWF 9:30 am - 10:20 am, Room B1

Instructor: Dr. Brad Emmons
Office: DePerno Hall 121
Telephone: 792-3413 (Don’t leave voicemail)
Office Hours: Monday and Fridays, 12:20 - 1:30 pm
Email: bemmons@utica.edu
Webpage: http://websrv.utica.edu/faculty/bemmons/

Course Materials
   Intermediate Algebra, Angel (required)

Introduction
   MAT 104 is a course designed for students who have successfully completed a first course in elementary
   algebra, or who have passes MAT 100. We will cover solutions to equations and inequalities, graphs and
   functions, polynomial equations and inequalities, exponents and radicals, and quadratic equations.

Exams
   There will be a total of two in-class exams given during the semester, as well as a final cumulative
   exam. The exams will test your ability to work through some of the computations, as well as your ability
   to apply the techniques to certain applications. The in-class exams are scheduled for Friday, October
   1 and Friday, November 5, and each will count for 25 percent of your final grade. The final exam will
   be held on Tuesday, December 14 at 1:00 p.m., and will count for 30 percent of your final grade. There
   will be no make-ups for missed exams. Please look over your schedule as soon as possible. If you see a
   potential conflict, inform me immediately.

Homework
   The best way to learn Mathematics is to solve problems. Homework will be assigned at the end of
   each class period. The homework assignments will not be collected for a grade. However, it is strongly
   suggested that you attempt and solve each of the problems assigned. I will mostly assign odd numbered
   problems, which have the answers in the back of the book. The homework is designed to help you identify
   where you might have difficulties. If you encounter any trouble with an assignment or a concept, seek
   help!

Quizzes
   During the last 10 minutes of class, there will be a 10 point quiz. Your two lowest quiz scores will be
   dropped. No make-up quizzes will be allowed. The quizzes will consist of one or two exercises from the
   previous days’ lecture, and they are to make sure that you are keeping up with the concepts presented in
   class, and to identify where you are having problems before you take the exams. The quizzes will count
   for 20% of your final grade.

Attendance
   Attendance in MAT 104 is extremely important. Although there is no official attendance policy, note
   that if you are not in class on a particular day, you cannot take the quiz. I will also require that you
   be in class at 9:30 am and no later. If you are late to class, you may stay to take the quiz for that day.
   However, you will receive a 0 on the quiz for that day.

Grading
   Your grade in this course will be based on two main factors: quizzes and exams. The exams will be
   worth 80% of your final grade and the quizzes 20%. In addition to these factors, minor ethereal factors
   such attendance, class participation, attitude, and improvement over the course of the semester can also
   affect your grade. To determine your final grade, 90–100% = A, 80–89% = B, 70–79% = C, 60–69% =
   D, 59 and below = F, with the top two percents receiving a + and the bottom two percents receiving a
   −.

Calculators
   The use of calculators will not be allowed on any quizzes or exams. None of the work will require any
sophisticated computations. You may use a calculator when working on your homework to check your work. However, since will not be allowed to use it on the exam, I suggest you do as much work without your calculator as possible.

**Important Dates**
- Monday, September 6 – Last Day to Drop/Add
- Friday, October 1 – Exam I
- Monday, October 11 – Fall Break (no class)
- Tuesday, November 2 – General Election (VOTE!!)
- Friday, November 5 – Exam II
- Friday, November 5 – Deadline for WD or P/F
- Friday, December 10 – Last Day of Classes
- Saturday, December 11 and Sunday, December 12 – Study Day
- Tuesday, December 14, 1:00 p.m. - 3:30 p.m. – Final Exam

**Suggestions**
- Come to class with your homework assignment completed every day
- Study for at least 30 minutes each day in addition to completing your homework assignment
- Read the section we will be covering before we cover it in class
- Do not fall behind!
- Come to office hours to discuss homework and concepts. I am here to help!
