The Mystery of Mentoring Unveiled

...You Have the Power to Change Lives

Guest Speaker:
Linda Stewart, Mentoring Coordinator YSLPP

You have the power to shape the future, to affect the next generation and prepare them to take the wheel. During this Lunch & Learn you will learn about the irrefutable, life changing powers of mentoring. You will learn how community based, one-on-one mentoring can change a student’s life as well as provide a memorable, enriching experience for the mentor.

No lecture here, just an interactive exchange of information. We will unveil the myths about mentoring and provide a way for you to mentor even if you only have 2 hours per month to spare. We have fun activities and provide new experiences for all involved including community service opportunities, career exploration, athletic events, cultural events and much more.

Tuesday, January 23rd 1:00-2pm
Boehlert Conference Room
