Getting started is easy.

Go to myVisitnow.com or download the free myVisitNow mobile app from the App Store® or Google Play™.

Create an account. Provide basic demographic information and your MVP Member ID; be sure to have your MVP Member ID card handy.

Start a visit. Once logged in, choose a service and select a provider.

You can choose the next available provider (fastest option!) or you can choose a specific provider for the visit and wait for them to become available. To help you select the doctor that’s right for you, myVisitNow allows you to view provider profiles to see things like their years of experience, and even what languages the provider speaks.

Provide payment information. Prior to your visit, you’ll be presented with the cost. Simply provide your credit card information and authorize the payment.

In general, the cost for a myVisitNow visit for insured and Essential Plan members will be the same as a sick visit to your Primary Care Physician (PCP). For example, if your PCP co-pay is $25, you will pay $25 per myVisitNow visit. In addition, lactation consultations will be available at no cost.

If you have a High-Deductible Health Plan (HDHP), and have not yet met your annual deductible, you will be responsible for the following costs:

- **Urgent Care** - $39
- **Behavioral Health** - $79 or $95 (Master’s- or Doctorate-level, respectively)
- **Nutrition and Diet Consultations** - $25

Payment for the services above count toward the deductible.
